

DIALOGUE CONTINUITY SCRIPT

STARGATE SG-1

"The Broca Divide"

(REDO 6/25/97)

Episode #3956

Running Time 44.19

CONTINUITY SCRIPT PREPARED BY: CASABLANCA CONTINUITY
ph. (310) 397-7741

TIMECODE DIALOGUE

START MEASURING 00.00.00 AT FIRST FRAME PICTURE

00.14.22 GENERAL HAMMOND (VO)-When we completed interviews...

00.15.26 GENERAL HAMMOND (OS CONT)-of all the refugees...

00.17.18 GENERAL HAMMOND (CONT)-you brought back from Chulak, ten
 of them identified the final four symbols the
 Goa'ulds used to escape through the Chulak Stargate.
 When we disregard the last one as point of
 origin,...

00.30.00 GENERAL HAMMOND (OS CONT)-that leaves three to work with.
 Captain...

00.33.17 GENERAL HAMMOND (CONT)-Carter's computer model has thus
 far extrapolated only one set of symbols from the...

00.38.23 GENERAL HAMMOND (OS CONT)-Abydos cartouche that contains
 these three glyphs.

00.42.16 O'NEILL-Let me guess -- that's where we're going.

00.46.05 GENERAL HAMMOND-Very good, Colonel.

00.47.12 O'NEILL-Thank you, sir. I pride myself on my deductive
 reasoning skills.

00.53.28 GENERAL HAMMOND-In one hour, you will go through the
 gate...

00.55.26 GENERAL HAMMOND (OS CONT)-to the planet represented by these symbols. It has been designated P3X797.

01.01.16 DANIEL-Couldn't we call this planet something that's a little easier to remember?

01.05.00 CARTER-Uh, it's based on a binary code the computer uses for extrapolation.

01.08.07 O'NEILL-Which makes it much easier to remember.

01.11.27 GENERAL HAMMOND (OS)-We sent an M.A.L.P. probe through...

01.13.25 GENERAL HAMMOND (CONT)-thirty minutes ago. Atmosphere is breathable, no detectable radiation, temperature approximately 40 degrees fahrenheit.

01.20.22 O'NEILL-Can we see the video playback sir?

01.23.20 GENERAL HAMMOND-There is no playback.

01.25.22 O'NEILL-Why no playback?

01.28.06 GENERAL HAMMOND-Well, it appears to be very dark where the gate resides on this planet.

01.32.10 CARTER-Well, the M.A.L.P. probe has lights on it, doesn't it?

01.35.27 GENERAL HAMMOND-We think they were broken during transport through the gate.

01.39.13 DANIEL-This is crazy. We don't know what could be there waiting for us when we come through.

01.43.14 MAKEPEACE-Don't you worry, boys. That's why the SG-3 Marines are...

01.46.18 MAKEPEACE (OS CONT)-comin' with. You can...

01.48.01 MAKEPEACE (CONT)-count on us to watch your backsides.

01.50.18 DANIEL-Actually, it's, it's more my front side I was worried about.

02.01.11 TECHNICIAN (VO FILTERED)-Chevron four, encoded... (beat)
Chevron five, encoded...

02.08,23 O'NEILL-You're late. Put these on.

02.11.08 DANIEL-It doesn't look like my prescription.

02.12.24 TECHNICIAN (VO FILTERED)-Chevron six, encoded...

- 02.14.25 CARTER-Thermal night vision goggles.
- 02.16.27 O'NEILL-Hey, here's a question: Why doesn't the M.A.L.P. have a set of these?
- 02.21.16 TECHNICIAN (VO FILTERED)-Chevron seven, locked...
- 02.28.27 GENERAL HAMMOND (VO FILTERED)-SG-1 and SG-3, you have a go. Repeat... You have a go.
- 02.33.28 MAKEPEACE-Okay. We'll take the point.
- 02.35.26 O'NEILL-Ah! We'll go through first. You watch our lovely backsides, remember?
- 02.42.10 MAKEPEACE-Have it your way, flyboy.
- 02.46.17 DANIEL-Are you outta your mind?
- 02.49.13 O'NEILL-If Skaara or Sha're are on the other side, those jarheads will open fire as soon as they see the light of their eyes, if you know what I mean. You want that? (beat) Give us a ten count, then come on down.
- 03.24.19 MAKEPEACE-One one-thousand... Two one-thousand...

04.05.15 O'NEILL-Fan out.

04.58.00 MAKEPEACE-Fire!

05.05.08 MAKEPEACE-I'm real glad it was you who took point.

05.11.00 O'NEILL-No, I'm okay. Thanks for asking. Everybody
else?

05.15.02 CARTER-Think so.

05.16.05 DANIEL (OS)-What were those things?

05.17.22 O'NEILL-I haven't the slightest idea.

06.51.03 MAKEPEACE-Johnson!

07.12.02 O'NEILL-Daniel! What are they?

07.14.21 DANIEL-Well, they don't look...

07.15.06 DANIEL (OS CONT)-completely homo sapien. Uh, the larger
brow ridge would imply Homo...

07.19.24 DANIEL (CONT)-Erectus, but, then again, they'd have
canine teeth.

07.23.01 DANIEL (OS CONT)-Uh, they could be australopithecus, but
the brow ridge would be less prominent.

07.26.27 O'NEILL-You don't know, do you?

07.28.00 DANIEL-No.

07.29.17 CARTER (OS)-Why does that one female...

07.30.16 CARTER (CONT)-look different? She looks more human.
(beat) We have to stop him!

07.38.22 DANIEL (OS)-No! That's how prehistoric males...

07.40.19 DANIEL (CONT)-probably always had sex -- forcibly. The
strongest...

07.43.07 DANIEL (OS CONT)-male gets to mate -- that's survival of
the fittest.

07.45.23 CARTER-Yeah, well, I call it rape, and I think we should
stop it.

07.48.10 O'NEILL (OS)-Carter!

07.53.24 DANIEL (OS)-Where are those rocks coming from?

07.56.06 O'NEILL-There! Makepeace -- You and your men take a wide
left flank. We'll take the right. Go. (TO DANIEL)
Let's go.

08.17.06 MAKEPEACE-Don't move!

08.20.14 O'NEILL-All right, hold your fire!

08.21.16 DANIEL (OS)-No, wait! Lower your weapons!

08.22.20 JOHNSON-They could be Goa'ulds.

08.24.09 O'NEILL-Just keep 'em covered.

08.31.20 O'NEILL (OS CONT)-There's no entry scar.

08.34.22 O'NEILL (CONT)-They're not goa'ulds. Lower your weapons,
kids. (TO DANIEL) Any idea what they are?

08.44.10 TUPLO-My Lord, we are The Untouched. I am...

08.47.03 TUPLO (OS CONT)-high counselor Tuplo.

08.49.05 LEEDORA (OS)-We are pleased...

08.49.17 LEEDORA (CONT)-the gods have deemed us worthy of a return
visit.

08.52.26 O'NEILL-Gods...?

08.53.25 DANIEL-Uh, only the gods come through the Stargate. I
think they're talking...

08.56.18 DANIEL (OS CONT)-about us. We should probably start
getting used to this kind...

08.59.13 DANIEL (CONT)-of treatment --

09.00.06 O'NEILL (overlapping)-Oh, for crying out loud... We're not gods. Get up.

09.02.18 DANIEL (OS)-Please.

09.07.06 LEEDORA-Perhaps they wish us to treat them as mortals. A test?

09.11.01 TUPLO-Please... Let us take you to the Land of Light.

10.06.04 O'NEILL-I love what they've done with the place.

10.08.10 CARTER-I was gonna do my living room like this... but it didn't go with my other stuff.

10.12.24 DANIEL-Looks Minoan.

10.15.04 TUPLO-Welcome. Please... come. Sit.

10.38.02 CARTER-Is she alright?

10.39.26 TUPLO (OS)-I do hope.

10.41.27 TUPLO (CONT)-She is my daughter.

10.44.11 CARTER-What's her name?

10.45.11 TUPLO (OS)-She is called Melosha.

- 10.47.25 TUPLO (CONT)-I can only hope we rescued her in time from
the hands of the Touched. We must now...
- 10.52.21 TUPLO (OS CONT)-wait to see if she has been...
- 10.54.20 TUPLO (CONT)-cursed by them.
- 10.56.16 O'NEILL-The creatures that took her -- what were they,
exactly?
- 10.59.16 TUPLO-They are the Touched.
- 11.01.06 TUPLO (OS CONT)-They were unfortunate enough to be
cursed...
- 11.03.01 TUPLO (CONT)-by the Heelksha.
- 11.04.22 DANIEL-Heelksha...? There's a word like that in Abydos.
Is that "gods of the Earth?"
- 11.08.20 TEAL'C (OS)-"Gods of the underworld."
- 11.10.19 TEAL'C (CONT)-Evil gods.
- 11.12.07 LEEDORA (OS)-The Heelksha needed only...
- 11.13.18 LEEDORA (CONT)-to touch the unfortunate among us, and
they would become possessed... pure evil, like wild
animals.
- 11.20.08 O'NEILL-So these "Touched" people used to live here with
you?

- 11.25.11 TUPLO-They were us, until they changed. They became too dangerous, and we were forced to banish them to the Land of the Dark.
- 11.34.05 O'NEILL-And where are these evil gods now?
- 11.37.11 LEEDORA-Oh, they do not show themselves. We know only of their presence because of their actions.
- 11.42.20 O'NEILL-When was the last time the "good" gods came around?
- 11.46.15 LEEDORA-Well, if you are not them, then it has been at least a generation.
- 11.53.10 O'NEILL-A generation... Okay... Um, will you excuse us for a moment? Ah, no, please...
- 12.16.11 O'NEILL-Sounds like the gao'ulds aren't here, and haven't been for some time.
- 12.20.06 TEAL'C-That is my assessment as well.
- 12.21.25 O'NEILL-Daniel? Carter?
- 12.22.28 CARTER-Yeah.

12.22.28 DANIEL (overlapping)-I agree.

12.23.23 O'NEILL-In that case, gear up. We'll move out in
fifteen...

12.25.24 O'NEILL (OS CONT)-minutes.

12.27.07 DANIEL-Wait a minute -- move out?

12.28.16 O'NEILL-Yeah. Back to the Stargate. Back to Earth.
Terra Firma. Home. You've...

12.32.13 O'NEILL (OS CONT)-heard of it?

12.34.01 DANIEL-We-well, we should stay a while longer, and study
this society -- learn how they've evolved the Minoan
culture. I mean, you see those statues over there
-- those...

12.41.17 DANIEL (OS CONT)-are bulls. The bull was all
throughout...

12.44.00 DANIEL (CONT)-Minoan culture on Earth, but we never
really knew why.

12.46.23 O'NEILL-Hey, I'm a big fan of all this stuff. But art...

12.49.18 O'NEILL (OS CONT)-appreciation is not what this mission
is about.

12.52.24 O'NEILL (CONT)-Get your gear together.

13.26.17 GENERAL HAMMOND-Find anything?

13.27.21 O'NEILL-Uh, no, sir.

13.28.19 DANIEL-Yes, sir. Uh, actually, sir... We found a whole hell of a lot, sir.

13.32.18 O'NEILL-Some beautiful decor, nice folks, nothing of strategic importance, sir.

13.37.06 GENERAL HAMMOND-Alright. Get cleaned up. Mission debriefing, half an hour.

13.40.03 O'NEILL-Yes, sir.

13.46.07 DANIEL (OS)-I'm sorry, sir.

13.47.00 DANIEL (CONT)-I know I'm a guest at this party, but I have to protest.

13.49.08 GENERAL HAMMOND-Let me guess, Doctor. This the science versus military discussion again?

13.53.18 DANIEL-Well... yes. This mission was a perfect example of my argument. We should have stayed on that planet longer. It was the perfect opportunity...

13.58.09 DANIEL (OS CONT)-to study Minoan culture.

- 14.00.20 CARTER-Not to mention primitive man.
- 14.02.05 GENERAL HAMMOND-This really isn't necessary, Doctors.
I've already --
- 14.04.02 DANIEL (overlapping)-Sir, would...
- 14.04.08 DANIEL (CONT)-you let me finish, please?
- 14.06.23 DANIEL (OS CONT)-Okay, um...
- 14.08.04 DANIEL (CONT)-the people on the dark side are pre-stone
age, but the people on the light side are clearly
from the bronze age, so what better opportunity to
study the Broca Divide?
- 14.14.05 O'NEILL-The what? Excuse me...
- 14.16.21 CARTER-Broca Divide. Pierre-Paul Broca was a
nineteenth...
- 14.19.11 CARTER (OS CONT)-century anthropologist. He founded
modern craniometry to study craniums and brains, and
to compare the divide...
- 14.25.07 CARTER (CONT)-in intelligence between early species of
mankind.
- 14.28.08 O'NEILL-Fascinating. Should I start the...
- 14.31.25 O'NEILL (OS CONT)-debriefing, sir?

- 14.32.17 GENERAL HAMMOND-Well, that would be a good idea, Colonel.
- 14.34.08 DANIEL-Now, just, just wait a minute -- !
- 14.36.06 GENERAL HAMMOND-Doctor Jackson, you're wasting your
breath. You've already won the argument.
- 14.39.03 DANIEL (overlapping)-But I have to insist that he -- Wh-
wh-wh-what? I've already won?
- 14.42.11 GENERAL HAMMOND-The President agrees with you. He's
asked that we evaluate the scientific...
- 14.46.12 GENERAL HAMMOND (OS CONT)-and cultural value of each
mission from now on.
- 14.48.26 O'NEILL (overlapping)-Oh, for cryin' out loud...
- 14.50.09 DANIEL-He has?
- 14.51.20 CARTER (OS)-That's great!
- 14.55.10 JOHNSON-Wonder how that thing in your gut would like his
neck...
- 14.57.14 JOHNSON (OS CONT)-ripped in half.
- 14.58.22 TEAL'C-Please release me, Lieutenant Johnson.

15.00.23 MAKEPEACE-Johnson! Let him go!

15.02.14 JOHNSON-Not until this goa'uld apologizes.

15.05.05 GENERAL HAMMOND (OS)-Lieutenant...

15.05.10 GENERAL HAMMOND (CONT)-Johnson, take your seat now!

15.07.09 JOHNSON-NO!!

15.16.22 TEAL'C-General, I would prefer to not hurt this man.

15.27.11 GENERAL HAMMOND-What is your problem, Marine?! Take him
to the infirmary. Tell them to keep him in
restraints and check him out.

15.44.14 DANIEL-What do you think that was all about with Johnson?

15.47.04 CARTER (OS)-Beats me.

15.48.07 CARTER (CONT)-Maybe he was drunk.

15.50.01 DANIEL-I dunno. Didn't quite seem like inebriation...

15.55.07 CARTER-What the...?

16.19.03 CARTER-(INTO PHONE) We need medics! Section C, stat!
Two men down!

16.40.18 O'NEILL-Carter... Uh, I'm sorry... I didn't know you were in here... (beat) Argh... Wait! What the hell's going on?

16.51.01 CARTER-I want you...

16.52.01 O'NEILL-Why? I mean, no! Carter, this is a little out of line, don't you think? Ah!

16.58.03 CARTER (OS)-Don't you want me?

16.59.17 O'NEILL-No! No! I mean, not like this, for crying out loud -- (beat) Carter! Carter, what's gotten into you? Argh! (beat) It's about time you saw a doctor, Doctor.

17.21.09 DOCTOR FRASER (OS)-Keep her from hurting...

17.22.00 DOCTOR FRASER (CONT)-herself until the sedatives take effect.

17.26.28 O'NEILL (OS)-Is this pretty much...

17.27.05 O'NEILL (CONT)-what Johnson has?

17.28.20 DOCTOR FRASER-Oh, I'd say so. And the other members of the team. This is the strangest thing I've ever seen. Come on, take a look...

- 17.41.08 DOCTOR FRASER-We converted def-con one living compartments from when this place was a missile silo into isolation chambers. You never know what you're gonna bring back through the Stargate. (beat) Notice the swelling of the brow ridge? Some are even developing new follicle growth.
- 18.00.10 O'NEILL-Any idea what's causing it?
- 18.01.24 DOCTOR FRASER-Wish I knew. I got calls in to every specialist in the service. But I've got one hand tied behind my back, because of the need-to-know classification of the Stargate project. And It's spreading. We got two more in an hour later. (beat) I've never seen a behavioral disorder like this. All the victims are acting like animals.
- 18.33.03 O'NEILL-You think Carter has the same thing?
- 18.34.20 DOCTOR FRASER-Mmm hmm. The behavior fits. All the victims are behaving like primitives. Most female low level primates tend to choose their sexual partners according to who would give them the strongest offspring. The leaders of a pack or tribe are usually the prime choice. You should be flattered.

18.50.20 O'NEILL-Oh, yeah.

18.51.15 O'NEILL (OS CONT)-I'm honored.

18.55.16 DANIEL-Jack! There you are... I got on the internet to do a little research on australopithecus, and -- wow! What happened to you?

19.06.00 O'NEILL-Aw, I got in a little wrestling match with Carter.

19.09.01 DANIEL-Why?

19.11.06 O'NEILL-I guess she's got whatever Johnson's got. I had to drag her off to the infirmary.

19.15.28 DANIEL-What, did she start a fight with you, like Johnson did with Teal'C?

19.18.18 O'NEILL-No. She, uh... She tried to seduce me.

19.24.18 DANIEL-Oh. Y-you poor man.

19.29.07 O'NEILL-No, it wasn't like that. She was like a wild animal. She was nuts.

19.34.04 DANIEL-Well, is she alright? I should go see her.

19.37.13 O'NEILL-Why?

19.39.01 DANIEL-What do you mean, why? Because I care about her.

19.41.24 O'NEILL-You care about her? What does that mean?

19.43.12 DANIEL-It means I care about her. She's my friend. Now
let go.

19.47.28 O'NEILL-She's not yours to care about.

19.49.08 DANIEL (overlapping)-What the hell are you talking about?

19.50.07 O'NEILL (overlapping)-I'm talking about Samantha. Just
stay away from her, okay?

19.52.19 DANIEL-Okay... Okay... Okay, Jack... I think you should
come with me to the infirmary, okay? Just let go of
me, and... let go of my arm --

20.11.19 DANIEL-Jack!

20.28.27 DOCTOR FRASER (OS)-We've managed to...

20.29.08 DOCTOR FRASER (CONT)-isolate an...

20.30.04 DOCTOR FRASER (OS CONT)-organism in the victims'
bloodstreams.

- 20.32.13 GENERAL HAMMOND-Organism? Li-like a parasite or something?
- 20.34.12 DOCTOR FRASER-Mmm mmm. More like a parasitic virus. And from what I can tell, it seems to feed on alines and cholines, chemical transmitters in the body. That includes neurotransmitters.
- 20.43.03 DOCTOR FRASER (OS CONT)-As they're depleted, all but the most primitive parts...
- 20.45.00 DOCTOR FRASER (CONT)-of the brain seem to just... shut down.
- 20.47.03 GENERAL HAMMOND-That why they act like animals?
- 20.49.02 DOCTOR FRASER-Actually, the organism seems to release a hormone that stimulates the primitive regions of the brain that are normally dormant. I, I have never seen anything like this on Earth.
- 20.56.23 DANIEL-Exactly -- "On Earth." That would explain the "Touched".
- 21.02.00 GENERAL HAMMOND-Beg your pardon?
- 21.03.10 TEAL'C (OS)-That's what the primitives were called on...
- 21.04.15 TEAL'C (CONT)-P3X797. "The Touched".

21.08.12 DANIEL (OS)-But I think,...

21.09.14 DANIEL (CONT)-given recent events...

21.11.06 DANIEL (OS CONT)-I think it's safe to say they aren't
born primitive. They must have this very
contagious...

21.13.23 DANIEL (CONT)-disease. And we came in contact with them.
Isn't that special?

21.17.20 DOCTOR FRASER-So, the question is, why haven't you and
Mr. Teal'c come down...

21.20.18 DOCTOR FRASER (OS CONT)-with the symptoms?

21.21.20 DANIEL-Uh, Mr. Teal'c -- Teal'c's symbiote probably
protects him.

21.25.19 TEAL'C-That would be likely.

21.27.11 DOCTOR FRASER-Well, what about you, Doctor Jackson?

21.29.01 DANIEL-Well, that beats me. You're the doctor, Doctor.

21.31.22 DANIEL (OS CONT)-Uh, maybe I have a natural immunity.

21.33.17 TEAL'C-Perhaps you will develop symptoms later.

21.35.15 DANIEL-Thank you for the moral support.

21.36.20 DOCTOR FRASER (OS)-I am checking both of your blood for
the presence of the organism,...

21.39.07 DOCTOR FRASER (CONT)-and I would bet that you both have
it. This appears to be...

21.42.13 DOCTOR FRASER (OS CONT)-highly contagious.

21.44.07 GENERAL HAMMOND-Are you saying we could have brought a
new plague to this planet?

21.48.02 DOCTOR FRASER-Yes, sir. That is exactly what I'm saying.

21.50.16 GENERAL HAMMOND (OS)-Well, that's it.

21.51.22 GENERAL HAMMOND (CONT)-I'm ordering this mountain sealed
off. No one comes in or goes out until we get a
handle on this thing.

22.09.02 FEMALE ANNOUNCER (VO ON INTERCOM FILTERED)-Containment
team three to sublevel twenty-eight...

22.22.11 TEAL'C-He's going to damage himself.

22.23.21 DOCTOR FRASER-I've been pumping him with sedatives to
control him, but they wear off fast. Help me give
him some more. Let's go, go...!

22.33.03 DOCTOR FRASER (OS CONT)-Hold his arm! Hold his arm!

- 22.57.02 FEMALE VOICE (ON INTERCOM FILTERED)-All levels below sublevel 16, you are now closing. Repeat... you are closed.
- 23.08.07 GENERAL HAMMOND (INTO PHONE)-Yes, sir. This is General Hammond. Sir, I'm afraid I have a serious situation here. It appears we've brought a very contagious disease through the Stargate. Yes, sir, that's right. Well, sir, I've ordered the mountain sealed off, but I think you should order in an armored division to set up a second line of defense. Well, sir, my recommendation is that anyone attempting to leave the mountain should be shot on sight, and their body burned.
- 23.42.22 MALE ANNOUNCER (VO ON INTERCOM FILTERED)-
(unintelligible), report to sub-level twenty-eight for class three emergency...
- 23.51.01 DOCTOR FRASER (OS)-Good news, General.
- 23.52.14 GENERAL HAMMOND-Could use some of that about now. What is it?
- 23.54.16 DOCTOR FRASER-These gentlemen don't appear to have the organism in their system. Now, if we can just isolate why...

23.58.14 DOCTOR FRASER (OS CONT)-they've been able to resist it.

24.00.06 TEAL'C-Perhaps we should ask The Untouched how they avoid contracting the disease.

24.03.03 DANIEL-Maybe they know something we don't.

24.04.28 DOCTOR FRASER-I could use a blood sample from one of the uninfected. Maybe they have something in their systems to protect them. Something...

24.09.24 DOCTOR FRASER (OS CONT)-we can synthesize...

24.18.06 GENERAL HAMMOND-Alright. Either of you know how to draw blood? Doctor, teach them. You go through in half an hour. Gear up.

24.24.17 DANIEL (OS)-W-w-w-w-w-...

24.24.28 DANIEL (CONT)-wait... Just the two of us?

24.28.00 GENERAL HAMMOND-You're immune. I don't know anyone else who is.

24.40.07 TEAL'C-Do not worry, Daniel Jackson. The Touched are frightened by your loud, Earth weapons. We can easily subdue them.

24.47.13 DANIEL-That's easy for you to say...

25.11.17 DANIEL-Teal'c!

25.28.16 DANIEL-It's Melosha. She's alive.

25.31.07 TEAL'C (OS)-It appears she's afflicted.

25.34.17 DANIEL-So they just dump her out here?

25.36.27 TEAL'C-We dump them in a small room.

25.39.13 DANIEL-To protect them.

25.40.27 TEAL'C (OS)-To protect everyone else. There is little
difference.

25.45.04 DANIEL-You know, you're right. They're like lepers. And
the dark side is a leper colony.

25.51.03 TEAL'C-What is a leper?

25.53.29 DANIEL-Oh, God, never mind. We have to help her. (beat)
Are you planning on helping me?

26.03.01 TEAL'C-It is a long journey.

26.05.09 TEAL'C (OS CONT)-We should leave her.

26.06.14 DANIEL-No. Now let's -- ugh -- go.

26.21.27 DANIEL-Teal'c?

26.22.27 TEAL'C (OS)-Fire your weapon.

26.23.18 TEAL'C (CONT)-It will frighten them off!

26,36.23 TEAL'C-Daniel Jackson...? Daniel? Daniel Jackson?

27.16.22 DOCTOR FRASER (OS)-Sorry, Colonel O'Neill, but your
 private room just became semi-private. We're
 running out of places to put all the victims. We've
 used...

27.24.14 DOCTOR FRASER (CONT)-the brigs, we've used the temp
 quarters, some of the storage rooms...

27.30.14 O'NEILL-Good luck, Doc...

27.34.00 DOCTOR FRASER-Did you say something?

27.37.03 O'NEILL-(garbled) Give more...

27.38.25 DOCTOR FRASER (OS)-What? Give...

27.39.26 DOCTOR FRASER (CONT)-more what?

27.42.27 O'NEILL-(grunts)

27.47.21 DOCTOR FRASER-An injection? You, you mean, you want more sedative? You've already had more than the maximum safe dosage. Twice as much as anyone else, because you've been more violent.

27.56.18 O'NEILL-Give...

27.57.18 DOCTOR FRASER-No.

27.58.18 DOCTOR FRASER (OS CONT)-It's not safe.

28.00.13 O'NEILL-GIVE!! Give...

28.05.10 DOCTOR FRASER-Why are you so insistent?

28.40.07 DOCTOR FRASER-Must have been in a lot of pain.

28.47.25 O'NEILL-Doc!!

28.51.16 DOCTOR FRASER-Colonel O'Neill?

28.55.00 O'NEILL-It's... (beat) me...

29.04.13 DOCTOR FRASER-So you are still in there somewhere?

29.08.07 O'NEILL-A dream... A dream...

29.13.24 DOCTOR FRASER-I'm afraid not, Colonel. It's very real.

29.18.17 DOCTOR FRASER (OS CONT)-This is interesting -- enough
sedative must knock back the primitive mind.

29.23.00 DOCTOR FRASER (CONT)-Colonel, listen to me. I am not
going to be able to keep you at this level very
long. It is too dangerous. It could cause
permanent brain damage.

29.30.05 O'NEILL-What... What is it...?

29.36.12 DOCTOR FRASER (OS)-It's a parasitic virus.

29.37.26 DOCTOR FRASER (CONT)-All we can tell is that it seems to
mess with body chemicals. All of them.

29.41.18 DOCTOR FRASER (OS CONT)-Testosterone levels skyrocket --
thus the aggressive behavior. It's a
histaminolytic,...

29.45.10 DOCTOR FRASER (CONT)-which means it breaks down
histamine. It's --

29.47.06 O'NEILL (OS) (overlapping)-'speriment...

29.48.27 O'NEILL (CONT)-'speriment on me...

29.52.27 DOCTOR FRASER (OS)-Experiment on you?

29.55.07 DOCTOR FRASER (CONT)-No, sir, I can't do that.

30.00.02 O'NEILL- (unintelligible)

30.22.14 TUPLO-Welcome back, my Lord. Where are your friends?

30.25.10 TEAL'C-My friends are ill because of this place.

30.27.22 LEEDORA-They have joined The Touched!

30.29.16 TUPLO-They were cursed by the Heelksha?

30.31.16 TEAL'C-It is not a curse. It is a disease. I lost my
friend on the dark side of this planet.

30.39.01 TEAL'C (OS CONT)-You must help me retrieve him.

30.40.27 TUPLO-Why? So he can give you the curse? So he can give
all of us the curse? No, no, he is better off where
he is.

30.47.03 TEAL'C-He does not have the disease. He is immune. He
is not cursed.

30.52.15 TUPLO-Then by now, he is gone.

30.56.22 TEAL'C-He had your daughter with him.

30.59.00 TUPLO-Melosha is dead.

- 31.02.11 TEAL'C-No. She is out there. On the dark side. I have seen her. Help me retrieve her and my friend.
- 31.12.11 TUPLO-She is among The Touched. She can no longer function amongst us. Therefore, she is dead.
- 31.19.18 TEAL'C-She is not dead.
- 31.22.01 TUPLO-If I believed otherwise, do you not think I would help my own daughter?
- 31.26.10 LEEDORA (OS)-Many of us have loved ones among The Touched.
- 31.29.27 LEEDORA (CONT)-My own father is there. But we accept that we cannot help them. Therefore, they are dead to us.
- 31.38.04 TEAL'C-How can you be so without heart?
- 31.42.12 TUPLO-I must ask you to leave.
- 31.45.10 TEAL'C-If you will not help me find my friend, then I must have a sample of your blood.
- 31.50.19 LEEDORA-Our blood?

31.51.27 TUPLO-Blood is our life force.

31.54.13 TEAL'C-I assure you it will cause you no harm.

31.57.09 LEEDORA-I cannot abide this one in my presence any longer.

32.06.01 TUPLO-You are...

32.06.21 TUPLO (OS CONT)-not welcome here. When we return, I expect to find...

32.10.29 TUPLO (CONT)-you gone.

32.43.25 TEAL'C-I am sorry.

33.27.08 DOCTOR FRASER-Thank God you're back.

33.29.02 TEAL'C-What happened to Captain Carter?

33.30.16 DOCTOR FRASER-She was stabbed by her roommate. Don't worry, it's superficial. She's going to be okay. We've run out of space. We had to start doubling up on the iso rooms.

33.39.17 TEAL'C-I have retrieved the blood sample you requested.

33.41.28 DOCTOR FRASER-Good work, Mr. Teal'c.

33.46.28 TEAL'C (OS)-Colonel O'Neill...

33.52.25 O'NEILL-Teal'c...

33.59.03 TEAL'C-I am afraid I lost Daniel Jackson on the dark side
 of the planet.

34.04.27 TEAL'C (OS CONT)-I am sorry.

34.10.21 DOCTOR FRASER-Colonel O'Neill... I think I might have
 something. I was examining the blood sample that
 Mr. Teal'c brought me, then it hit me -- there was
 very little...

34.21.13 DOCTOR FRASER (OS CONT)-histamine in it.

34.24.20 DOCTOR FRASER (CONT)-If the people on that planet are
 human, as you say, they have to have histamine in
 their blood.

34.28.26 TEAL'C-How does this help us?

34.30.17 DOCTOR FRASER (OS)-Well, as I said before, this microbe
 is a histaminolytic. It feeds on histamine.

34.34.18 DOCTOR FRASER (CONT)-The Untouched have no histamine in
 their bodies, so the organism couldn't survive in
 them.

- 34.38.15 TEAL'C-I do not understand. It is The Untouched that become The Touched. If they have none of the substance of which you speak, why, then, do some of them change?
- 34.47.07 DOCTOR FRASER-Because only some of them have this low histamine level, which means...
- 34.50.10 DOCTOR FRASER (OS CONT)-there is probably a, a naturally occurring anti-histamine in their diets. The ones who don't eat it eventually contract...
- 34.55.28 DOCTOR FRASER (CONT)-the organism. Which is what gave me an idea. I checked the files. Both Dr. Jackson and I have acute...
- 35.02.01 DOCTOR FRASER (OS CONT)-rhinitis that is caused by severe allergies.
- 35.06.12 TEAL'C-Explain...
- 35.07.27 DOCTOR FRASER-Uh, I take strong anti-histamines every day. So did Dr. Jackson. I have no histamine...
- 35.12.16 DOCTOR FRASER (OS CONT)-for the microbe to feed on. Just like The Untouched. The organism starves in my body.
- 35.18.08 TEAL'C-Does this mean you have a cure?

35.21.25 DOCTOR FRASER-We have to try megadoses of
chlorpheniramine maleate on someone...

35.25.03 DOCTOR FRASER (OS CONT)-and see if it works.

35.26.25 O'NEILL-Me...

35.28.24 DOCTOR FRASER-I thought you might say that. Now, the
dose required to completely clear the body of
histamine for a long enough...

35.33.17 DOCTOR FRASER (OS CONT)-time could be harmful.

35.37.06 DOCTOR FRASER (CONT)-You're sure?

35.56.03 DOCTOR FRASER-Now all we can do is wait. You better lock
him up again.

36.29.07 O'NEILL (OS)-Teal'c! Doc! Open the door! Teal'c!

36.35.25 TEAL'C-Colonel O'Neill?

36.37.00 O'NEILL-Luuuucy, I'm home.

36.40.00 TEAL'C-I am not Lucy.

36.42.00 O'NEILL-I know that. It was a reference to an old TV --

36.45.09 O'NEILL (OS CONT)-Never mind. Open the door.

37.40.04 TECHNICIAN (VO FILTERED) (overlapping)-Chevron five,
 encoded...

37.42.08 O'NEILL (OS)-Thanks, Doc.

37.44.29 CARTER-We gonna try to tranq all the Touched?

37.47.05 O'NEILL-Just the ones that get in the way of us finding
 Daniel. We'll leave the rest for The Untouched.

37.51.19 CARTER-You think he's still alive?

37.53.11 TECHNICIAN (VO FILTERED)-Chevron seven, locked!

37.59.27 O'NEILL-Let's find out.

38.15.10 CARTER-Guess the antihistamine wore off.

38.44.09 O'NEILL-Daniel, you dog...

38.46.27 O'NEILL (OS CONT)-Keep this up, you'll have a girl on
 every planet.

38.49.08 CARTER-Just let me give him an injection...

39.34.02 TUPLO-What are you doing?

39.35.18 LEEDORA-You must not bring The Touched among us. Leave
now!

39.38.17 O'NEILL-Just hear us out, please.

39.40.06 CARTER-We found a cure. And we can bring back Melosha.

39.43.12 TEAL'C-And your father.

39.47.13 TUPLO-Put him in the isolation circle. We will hear you.

40.00.05 TUPLO (OS CONT)-Let him pass.

40.29.25 TUPLO (OS)-If you are not gods,...

40.30.13 TUPLO (CONT)-then how did you destroy the curse?

40.34.15 O'NEILL-As we've been saying, Tuplo, it's not a curse.
It's a disease.

40.38.25 CARTER-A sickness...

40.39.28 DANIEL (OS)-Jack...

40.42.18 O'NEILL-There's our boy.

40.48.23 DANIEL-Where are we?

40.50.03 TEAL'C-The light side of P3X797.

40.54.18 DANIEL-I thought we were gonna give it a better name.

40.57.20 O'NEILL-He's back. He's normal.

41.00.00 LEEDORA-Explain.

41.01.11 CARTER (OS)-We know...

41.01.20 CARTER (CONT)-how to lift the curse.

41.04.12 TUPLO (OS)-How --

41.05.18 TUPLO (CONT)-if you are not gods?

41.07.18 O'NEILL-Come out there with us. We'll show you.

41.39.06 LEEDORA-Father!

42.05.10 TUPLO-You have done it, my Lord.

42.07.24 TUPLO (OS CONT)-Thank you.

42.10.12 O'NEILL-We'll teach you how to take care of the rest.

42.17.19 CARTER-Uh, sir...?

42.18.23 O'NEILL-Yeah?

42.20.10 CARTER-About my earlier behavior... I, uh, wasn't
myself --

42.24.04 O'NEILL-Oh, Carter, I don't even remember your earlier
behavior.

42.27.27 CARTER-You don't?

42.28.28 O'NEILL-No. I was infected too. Remember?

42.31.09 CARTER-Right... Good. I-I'm glad...

42.35.01 O'NEILL-By the way, how's the wound?

42.37.19 CARTER-Wound?

42.38.27 O'NEILL-I understand you got stabbed in the stomach.

42.41.08 CARTER-Oh, yeah, it, it's nothing. With any luck, there
won't even be a scar.

42.45.01 O'NEILL-Oh, good. I was concerned.

42.47.09 CARTER-You were?

42.48.27 O'NEILL-Sure. If it doesn't heal properly, you'll never
wear that sweet little tank top number again.

43.02.00 FADE TO END CREDITS.
