

DIALOGUE CONTINUITY SCRIPT

STARGATE SG-1

"Brief Candle"

Episode #3957

Running Time 44.19

CONTINUITY SCRIPT PREPARED BY: CASABLANCA CONTINUITY
ph. (310) 397-7741

01.33.20 ALEKOS (OS CONT)-gone. I do not know the birthing
mysteries...

01.37.20 ALEKOS (CONT)-a-and the village is too far. Please...
help us.

01.43.21 CARTER-What? Well, don't look at me. I don't know what
to do.

03.01.02 DANIEL-Push... push...

03.03.06 DANIEL (OS CONT)-Push...

03.06.01 DANIEL (CONT)-You're doing just fine.

03.07.06 CARTER (OS)-Where did you...

03.07.13 CARTER (CONT)-learn how to do this?

03.09.17 DANIEL-Uh, on a dig in the Yucatan. Um, after the first
one, I made friends with the...

03.12.25 DANIEL (OS CONT)-local midwives, and they taught me a
lot.

03.15.27 CARTER-How many babies have you delivered?

03.17.23 DANIEL-Uh... two. Uh, counting today.

03.23.16 CARTER-It's all right...

03.44.07 DANIEL-Alekos... It's a boy.

03.50.00 O'NEILL (OS)-Hey, congratulations.

03.51.18 TEAL'C (OS)-May he grow strong...

03.52.20 TEAL'C (CONT)-and bring you honor.

03.58.14 O'NEILL-You never cease to amaze me with all your talents.

04.01.20 DANIEL-Thank you. Wow. This place is incredible. It's like we just stepped into the citadel at Mycenae...

04.13.03 O'NEILL-Thought you said it was Greek.

04.14.18 DANIEL-Oh, uh... Mycenae was an ancient city in the southern Peloponnesus region.

04.18.29 O'NEILL-Where's that?

04.20.15 DANIEL-Greece.

04.21.25 O'NEILL-Why do I do that?

04.22.20 CARTER (OS) (overlapping)-Wait. I don't think you should be walking right now.

04.24.27 CARTER (CONT)-I mean, shouldn't you be resting? Daniel,
shouldn't she -- ?

04.27.07 THETYS (overlapping)-I'm fine. I'm fine.

04.30.13 THETYS (OS CONT)-We wished for you all to be the first to
see...

04.37.09 DANIEL (OS)-A birthmark.

04.38.26 ALEKOS (OS)-A tri-point.

04.40.26 ALEKOS (CONT)-It will bring him luck. (beat) I would
call him Dan-El.

04.47.08 ALEKOS (OS CONT)-To honor the stranger who birthed him.

04.48.27 DANIEL-Oh, you don't have to do that...

04.50.11 THETYS (OS)-May we...

04.50.20 THETYS (CONT)-offer you the hospitality of our village?

04.53.14 O'NEILL (OS)-That'd be nice.

04.55.11 O'NEILL (CONT)-Who are you folks?

04.57.17 ALEKOS-We are the chosen.

05.00.20 TEAL'C-Where do the gods reside?

05.04.09 ALEKOS-Doesn't everyone know?

05.08.16 THETYS-In the sky, of course.

05.11.18 DANIEL-Of course.

05.14.20 ALEKOS (OS)-I have a son!

05.29.11 DANIEL-Look at these people. Guess they've never heard
 the word "unattractive" here.

05.36.04 TEAL'C-They all look as healthy as a Jaffa.

05.39.03 O'NEILL-That's a good thing, right?

05.40.12 CARTER-I don't see anyone who looks like they're over
 forty.

05.56.11 O'NEILL-Um...

05.57.24 O'NEILL (OS CONT)-Do things feel a little...

05.59.23 O'NEILL (CONT)-"off" here?

06.01.11 DANIEL-Are you crazy? It's a paradise.

06.03.18 O'NEILL-Yeah, sure. Have an apple. What could happen?

06.08.02 KYNTHIA-I am Kynthia. Welcome to our village.

06.11.20 O'NEILL-Thank you. Jack O'Neill.

06.33.04 KYNTHIA-It is pleasing?

06.36.02 O'NEILL-Very. (beat) You should have some.

06.40.26 KYNTHIA-It is only for you.

06.45.07 O'NEILL-Only for me...? Thanks.

06.58.15 DANIEL-It is only for you...

07.01.12 CARTER-I think you have a fan, Colonel.

07.03.12 TEAL'C (OS)-I believe this...

07.03.23 TEAL'C (CONT)-woman wishes to spend time with O'Neill.

07.07.09 O'NEILL-Thank you, Teal'C.

07.12.21 DANIEL-This place must be loaded with artifacts.

07.14.20 DANIEL (OS CONT)-Well, that statue in there, for example,
must be the Mycenaean hero, Pelops. He fought in
this winged chariot hurling lightning bolts.

07.22.06 CARTER-Poetic way to describe a Goa'uld death glider.

07.24.28 DANIEL-Yeah, probably.

07.27.03 TEAL'C-These people are obviously not laborers.

07.30.03 TEAL'C (OS CONT)-I must wonder why a Goa'uld would bring
them to this planet.

07.33.14 TEAL'C (CONT)-Perhaps it was a good Goa'uld.

07.35.07 O'NEILL-(laughs) (beat) Right... Like there is such a
thing.

07.42.19 TEAL'C-I did not intend for my statement to be humorous.

07.46.10 O'NEILL-Trust me. They weren't.

07.53.02 CARTER-Uh, Colonel...

07.54.02 CARTER (OS CONT)-Where are you going? Hello...

07.57.00 ALEKOS (OS)-Please. Sit down.

09.05.21 ALEKOS-"Unto every man, the Creator gives one hundred
blissful days. It is a sin not to celebrate...

09.11.00 ALEKOS (OS CONT)-each and every one."

09.13.02 DANIEL-A hundred day celebration? Guess we should pace ourselves...

09.35.11 O'NEILL-What exactly just happened? (beat) Kynthia!
Kynthia...? (beat) Um... What happened?

10.32.19 CARTER-To them? Or you?

10.36.07 O'NEILL-We'll talk about that later.

10.38.07 CARTER-I've seen parties end abruptly, but never like this.

10.41.02 DANIEL (OS)-They all just... collapsed.

10.44.10 TEAL'C-It happened just as the sun set.

10.46.14 O'NEILL (OS)-Kynthia did...

10.46.25 O'NEILL (CONT)-the same thing. What is it, some kind of sleeping sickness? What?

10.53.04 CARTER-There's no sign of fever or pain.

10.55.16 CARTER (OS CONT)-Breathing's shallow, heartbeat's...

10.56.14 CARTER (CONT)-slow but regular. A disease can't effect everyone, all at once...

11.02.00 TEAL'C (OS)-It seems to be...

11.02.06 TEAL'C (CONT)-nothing more than a deep state of sleep.

11.06.01 CARTER-Now... How about you?

11.09.12 O'NEILL (OS)-Let's just stick to...

11.10.00 O'NEILL (CONT)-the matter at hand. How does an entire
 village pass out? Something in the food?

11.19.01 TEAL'C-We all partook of the same food.

11.21.22 CARTER-Except for that cake...

11.25.08 DANIEL-Which was "only for you".

11.33.12 O'NEILL-Damn. She drugged me. Whoa...

11.39.19 DANIEL-Oh, he's still feeling the effects of the drug.

11.41.27 O'NEILL-No... I'm just a little tired.

11.45.04 CARTER-Colonel...?

11.47.01 O'NEILL-From now on, we stick to rations...

11.52.25 CARTER-No fever, shallow breathing, slow heartbeat,...

11.55.08 CARTER (OS CONT)-just like the others.

11.56.24 DANIEL-What the hell is going on here?

12.20.26 CARTER-Hey, Colonel! How you feeling?

12.24.06 O'NEILL-Hung over. But okay. Gettin' any answers out here?

12.34.08 DANIEL-No. They all act as if what happened last night was normal. They party until sundown, then they fall asleep, and they wake when...

12.39.08 DANIEL (OS CONT)-the sun rises.

12.40.26 O'NEILL-I'd like an explanation. Daniel, get back to that temple, see what you can find out. Take Teal'c with you.

12.48.01 O'NEILL (OS CONT)-Go on...

12.50.16 O'NEILL (CONT)-Carter... Keep asking questions out here.

13.03.07 ALEKOS (OS)-He is the Creator. Pelops, the...

13.05.03 ALEKOS (CONT)-giver of days. This was his home when he lived among us. We keep it as it was then, and will do so until he returns.

13.12.25 DANIEL-And when will that be?

13.14.03 ALEKOS-Well, that is a mystery. Until it is revealed, it
 is the duty of the Chosen to rejoice and wait.

13.20.25 TEAL'C-Why are your people called The Chosen?

13.23.05 ALEKOS-My ancestors were so beloved by Pelops that he
 fashioned this garden for us. It is said he chose
 us and brought us here from beyond the stars.

13.35.18 DANIEL-Are there any writings of your history?

13.38.05 ALEKOS-Writings...? I do not know this word.

13.40.19 DANIEL-Uh... More. Of this. Writings.

13.48.13 DANIEL (OS CONT)-Do you know what this is?

13.50.09 ALEKOS-It is of Pelops.

13.51.26 TEAL'C-It is Goa'uld. An obscure dialect.

13.58.09 DANIEL-Why didn't you tell me that before?

14.01.05 TEAL'C-You never before inquired.

14.03.04 DANIEL (OS)-Well... You call it...

- 14.05.07 DANIEL (CONT)-Goa'uld. Um, I call it linear A script.
We found pictographics like this in ancient Greece
and ancient Creton, but we...
- 14.13.25 DANIEL (OS CONT)-we never completely deciphered this
form.
- 14.15.25 TEAL'C-The symbols are a sequence.
- 14.18.04 DANIEL-What, like a...
- 14.19.24 DANIEL (OS CONT)-combination?
- 14.21.19 TEAL'C-What is a combination?
- 14.23.16 DANIEL (OS)-Well, it's a sequence of symbols or
motions... (beat) Can you read this?
- 14.44.21 TEAL'C (OS)-I believe I can. It seems to...
- 14.46.27 TEAL'C (CONT)-be some sort of record. An archaic
dialect. Very difficult to decipher.
- 15.00.23 KID #1 (OS)- (unintelligible), I want to show you
something.
- 15.02.14 KID #2 (OS)-Okay. I'm coming.

15.11.19 CARTER-Hi. I found this shell this morning, and, uh, thought maybe Dan-El might like it. He can use it as a rattle. You want to give it to him for me?

15.20.12 THETYS-Oh, you can do so yourself.

15.22.19 This is Dan-El.

15.24.15 CARTER-No, no, I meant the baby.

15.26.26 THETYS-This is baby Dan-El.

15.37.23 O'NEILL (OS)-Okay...

15.39.18 O'NEILL (CONT)-That's not possible.

15.41.27 THETYS-Do you not have children who change and, and grow?

15.44.25 O'NEILL-Well, yeah, sure we do. But not like that.

15.48.05 CARTER-Thetys, how old is that boy?

15.53.02 THETYS-That is Philippos. He's twelve.

15.56.19 CARTER (OS)-Okay, well, he's a little...

15.57.06 CARTER (CONT)-big for twelve years old, but...

15.59.10 THETYS-"Years"... What, what are "years"?

16.02.00 CARTER (OS)-Uh, well, uh... I guess it would be different
for...

16.03.22 CARTER (CONT)-each planet, but a year is basically the
time it takes for the globe...

16.07.01 CARTER (OS CONT)-to complete one orbit around the sun --

16.09.05 O'NEILL (overlapping)-All right, uh, let's just keep this
simple, okay?

16.12.08 O'NEILL (OS CONT)-Where we come from, there are...

16.13.19 O'NEILL (CONT)-three hundred sixty-five days in one
year...

16.16.09 THETYS-No, no. We have, we have no such counting of time
on Argos. Philippos is twelve days old.

16.27.10 CARTER (OS)-How old are you?

16.28.17 THETYS-Twenty-one days.

16.31.13 O'NEILL-And, uh, Kynthia...?

16.35.28 THETYS-Thirty-one days.

16.46.02 DANIEL-I think Pelops brought humans here to be lab rats.

16.50.19 DANIEL (OS CONT)-From what we've been able to translate
so far, he wanted to know...

- 16.52.22 DANIEL (CONT)-how humans evolve. So he shortened the lifespan to about 1/250th of normal.
- 17.02.00 CARTER-So instead of having to wait a hundred thousand years to see how human physiology evolves, he could do it in a hundred?
- 17.08.00 TEAL'C-That is correct. Pelops wanted to determine what the human host body would become in the future. And perhaps accelerate the process.
- 17.17.00 CARTER-Well... how did he do it? Was it genetic alteration?
- 17.20.21 TEAL'C (OS)-We do not know.
- 17.22.05 TEAL'C (CONT)-It is an archaic dialect.
- 17.27.23 CARTER-Daniel...
- 17.30.21 DANIEL-Okay. I didn't want to say this 'til I was absolutely sure, but I think he may have created some kind of virus.
- 17.41.16 DANIEL (OS CONT)-And viruses...
- 17.43.02 DANIEL (CONT)-are often spread through bodily contact.
- 17.46.26 CARTER-Some are, and some are airborne.

17.49.01 DANIEL (OS)-But I think...

17.49.10 DANIEL (CONT)-that this one isn't.

17.51.27 TEAL'C-What has drawn you to this conclusion?

17.54.07 DANIEL-Because only one of us passed out last night, and
that was Jack.

18.07.06 DANIEL-Well, you have to give them credit for one thing:
They do enjoy life.

18.10.27 TEAL'C-Perhaps it is because they do not have much life
to enjoy.

18.14.17 O'NEILL-Great. So now you're telling me that this virus
-- which, by the way, I do not have -- is deadly.

18.20.03 DANIEL-Well, if the kids age five years in five days,
what happens when they reach a hundred days?

18.25.16 CARTER-Colonel...! Colonel...

18.38.11 O'NEILL-I guess it wasn't the cake.

18.41.00 CARTER-Maybe it was your physical contact with Kynthia.

- 18.43.26 O'NEILL (OS)-Get back to Earth, Captain. Figure this thing out.
- 19.07.11 DOCTOR FRASIER-Tell me you brought the blood back in sealed containers.
- 19.09.27 CARTER-Yeah, of course I did. What is it?
- 19.12.23 DOCTOR FRASIER-I'm not sure. First I ran a routine check for antibodies. Nothing. So then I thought, all right, maybe this alien bug found a way to hide from the immune system. So I ran a protein analysis... Take a look at what I found.
- 19.29.26 DOCTOR FRASIER (OS CONT)-All right. These are the blood samples that you brought back. Now look at the strange particulate in there. So that's from one of the Argosians...
- 19.38.04 DOCTOR FRASIER (CONT)-Now...
- 19.40.21 DOCTOR FRASIER (OS CONT)-That's from Colonel O'Neill.
- 19.42.16 CARTER (OS)-Wow. What is it?
- 19.44.02 DOCTOR FRASIER-Something we don't have a word for. Yet.
- 19.47.10 CARTER-Well, howcum the Colonel has way more of it than the Argosians?

19.50.20 DOCTOR FRASIER (OS)-Maybe because he started out older
than they did. Sort of like a, a head...

19.53.06 DOCTOR FRASIER (CONT)-start for whatever this thing is.

19.57.05 CARTER-I better wake up General Hammond.

19.58.13 DOCTOR FRASIER-Yeah.

20.06.02 DANIEL-Jack! Carter's coming back! (beat) Jack...

20.37.00 O'NEILL-Welcome back, Captain.

20.40.06 O'NEILL (OS CONT)-So what did you find out?

20.43.22 O'NEILL (CONT)-Come on, now. Don't keep the elderly
waiting. It's rude.

20.47.00 CARTER-Um... It isn't a virus.

20.53.23 O'NEILL-All right. What is it?

20.55.09 CARTER-Well, Doctor Frasier and I came up empty. She's
still working on it. But it's gonna take time.

21.00.14 DANIEL (OS)-Time is...

21.01.04 DANIEL (CONT)-something these people don't have, Captain.

21.05.03 O'NEILL-Nor do I.

21.06.20 CARTER (OS)-Colonel, there's something else.

21.08.11 CARTER (CONT)-Your blood sample showed way more
organisms, compared to the Argosians.

21.12.23 O'NEILL-How many more?

21.14.00 CARTER (OS)-Maybe on the level of a hundred times more.

21.16.13 CARTER (CONT)-And they are multiplying.

21.19.20 O'NEILL-Which means...?

21.21.07 CARTER (OS)-I-it means the organism or...

21.23.06 CARTER (CONT)-whatever it is seems to be compensating for
your natural age.

21.26.24 CARTER (OS CONT)-You've already lived way longer than
anyone with this -- for lack of a better word,...

21.30.13 CARTER (CONT)-"disease" -- ever should.

21.32.15 O'NEILL-Cut to it, Captain.

21.36.25 CARTER-At the rate you're changing, by the end of two
weeks you'll be the equivalent of one hundred years
old.

21.45.14 O'NEILL-So in two weeks I'll be dead?

21.47.11 CARTER-Not if I can help it. (beat) I'd like to set up
a lab here.

21.53.07 O'NEILL (overlapping)-Negative, Captain.

21.57.02 CARTER (OS)-We may be able to retard the aging process...

21.58.13 CARTER (CONT)-long enough to find a cure.

22.00.24 O'NEILL-I want you to pack up and head back to earth.

22.03.21 O'NEILL (OS CONT)-Now.

22.05.12 O'NEILL (CONT)-All of you.

22.06.25 O'NEILL (OS CONT)-That's an order. We're not gonna bring
another disease back through that gate.

22.12.03 TEAL'C-I will remain here with O'Neill. I cannot be
infected by whatever this is.

22.19.26 O'NEILL-I don't need company. I need a cure.

22.23.05 O'NEILL (OS CONT)-And Daniel needs help translating...

22.24.24 O'NEILL (CONT)-that Goa'uld tablet thing. It might hold
the answer.

22.27.24 DANIEL-Jack...

22.28.04 O'NEILL (OS) (overlapping)-And don't you dare say...

22.29.10 O'NEILL (CONT)-goodbye. Because you damn well better be coming back. Soon. (beat) Now get outta here. All of you.

22.52.25 CARTER-My God...

22.54.27 DOCTOR FRASIER-What?

22.58.13 CARTER-They're not multiplying. They're replicating.

23.02.00 DANIEL (OS FILTERED)-What's the difference?

23.03.24 CARTER-Living organisms multiply. Machines replicate.

23.08.22 TEAL'C (filtered)-Machines inside the body? How is that possible?

23.12.16 CARTER-They're molecular devices that take atomic particles from their environment and use them to make more of themselves.

23.18.19 DOCTOR FRASIER-Well, you're talking nanotechnology.

23.20.26 DANIEL (filtered)-You know anything about that?

23.22.11 DOCTOR FRASIER (OS)-No.

- 23.23.05 CARTER-Yes! When I was at the Pentagon, I worked for a year with a group that studied nanotechnology.
- 23.29.14 CARTER (OS CONT)-We were looking at it for a lot of different uses. One of them was medicine.
- 23.32.25 CARTER (CONT)-Creating artificial immune systems, repairing individual cells... Even manipulating DNA to stop the aging process...
- 23.39.19 DOCTOR FRASIER-Well, it sounds like Pelops succeeded in what you were experimenting with, only in reverse. Nice guy...
- 23.54.18 O'NEILL-What are you lookin' at?
- 23.57.06 O'NEILL (OS CONT)-Think you're hot stuff doing this to me from six billion light years away?
- 24.02.19 KYNTHIA-Can you really talk to the great Pelops?
- 24.05.03 O'NEILL (OS)-Sure. Why not.
- 24.07.01 O'NEILL (CONT)-He's just a piece of rock. Not so great anyway...
- 24.17.07 KYNTHIA-Your people...
- 24.18.14 KYNTHIA (OS CONT)-they have gone?
- 24.19.23 O'NEILL-Yeah. They've gone.

- 24.22.26 KYNTHIA-Then you will leave also?
- 24.26.16 O'NEILL-No. I'll be here for a while.
- 24.29.18 KYNTHIA-I am glad. I would like to learn of your
customs.
- 24.36.11 O'NEILL-Maybe some other time, hmm? Kinda got a lot on
my mind.
- 24.41.17 KYNTHIA-But you ate the marriage cake... came to my
bed...
- 24.48.21 O'NEILL-Marriage cake...? Kynthia, you thought we were
married?
- 24.55.00 KYNTHIA-By all our customs, yes.
- 24.57.15 O'NEILL-Sweet... Kynthia... What you were feeling wasn't
really love. That takes time. I mean, you can't
get to know someone in one day.
- 25.15.26 KYNTHIA-"Unto every woman, the Creator gives one hundred
blissful days..."
- 25.19.15 O'NEILL-Kynthia, will you stop that. Your "Creator" was
not a god.

- 25.25.17 O'NEILL (OS CONT)-And he certainly didn't give you life.
He took it away!
- 25.27.28 KYNTHIA (overlapping)-We are The Chosen.
- 25.29.27 KYNTHIA (OS CONT)-He made this place for us. To...
- 25.31.23 KYNTHIA (CONT)-be happy. To love...
- 25.34.26 O'NEILL-To be experimented on!
- 25.37.15 O'NEILL (OS CONT)-I mean, look at me!
- 25.38.16 O'NEILL (CONT)-I'm forty years old, or I was. That's
thousands and thousands of days.
- 25.49.01 KYNTHIA-You do not tell the truth.
- 25.51.28 O'NEILL-The average human lifespan is sixty or seventy
years. Some people live to be one hundred years.
- 26.02.17 KYNTHIA-It is not possible.
- 26.04.11 O'NEILL (OS)-Pelops was an alien...
- 26.06.00 O'NEILL (CONT)-who used your people. He shortened your
lives to satisfy his curiosity.
- 26.18.09 KYNTHIA-No...
- 26.35.21 CARTER (OS)-We've given the nanocyte some live tissue to
interact with, but they...

- 26.38.17 CARTER (CONT)-aren't touching it. The only thing they appear to do is make more of themselves. So how are they causing the aging on Argos?
- 26.46.01 DOCTOR FRASIER-Well, maybe there's something on Argos that they need to make them do another task. Something in the air, or, uh, with the food...
- 27.02.07 TEAL'C (filtered)-Is there a problem, Captain Carter?
- 27.03.15 CARTER-I-I don't know!
- 27.04.18 DOCTOR FRASIER (OS)-Well, it's eating...
- 27.05.04 DOCTOR FRASIER (CONT)-through the rubber!
- 27.09.06 CARTER-Oh, God...
- 27.10.25 DOCTOR FRASIER (OS)-What? What is it?
- 27.13.01 CARTER-They're trying to spread.
- 27.29.16 PAPER READS:
Dear Sara
- 27.42.17 ALEKOS (OS)-Is it true that...
- 27.44.11 ALEKOS (CONT)-you have lived thousands of days?

27.50.08 O'NEILL-I should have kept my mouth shut. (beat) But
wouldn't you rather know the truth?

28.01.07 ALEKOS-Why do we deserve this?

28.03.13 O'NEILL-He can't hear you.

28.08.09 ALEKOS-We are good people. We love each other, and this
land you have given us. Why...?

28.17.15 O'NEILL-Science. Progress. Knowledge. Alekos... (beat)
What would you do if you had thousands of days ahead
of you?

28.39.11 ALEKOS-I would walk out into the world, beyond the
borders of The Chosen.

28.45.15 O'NEILL-Why?

28.46.26 ALEKOS-To see what is there. No one knows. Pelops has
forbidden us to ever leave.

28.52.25 O'NEILL-And how has he done that? He's nothing but a big
piece of rock. He's a statue.

28.57.03 ALEKOS-He will strike us down. It is taught.

- 28.59.07 O'NEILL-Oh, he will not strike you down. Trust me on that, will you? (beat) Look, go on out there. Take a walk. See what's there. Go on.
- 29.15.02 ALEKOS-Then I could return, and teach the people what I know. And in their thousands of days, they would learn more, and, and teach their children.
- 29.24.25 O'NEILL-Now you're talkin'!
- 29.42.06 KYNTHIA-Come back to the village. It is not good to be always alone.
- 29.46.27 O'NEILL (OS)-Whatever time I have left... Let me spend it in my own way.
- 29.57.16 KYNTHIA-But you do not spend it. You waste it.
- 30.02.17 O'NEILL-I don't think reflecting on my life or trying to figure out how to get the rest of it back is a waste.
- 30.11.10 KYNTHIA-You are angry.
- 30.14.08 O'NEILL-Yes. Yes, I am. Aren't you, now that you know the truth?

- 30.24.27 KYNTHIA-What can we do but live in the way we always have? We do not have thousands of days, but we treasure every moment.
- 30.36.12 O'NEILL-I know, Kynthia. But in my heart, I'm a military man. A warrior. That's my life. To which my ex-wife will attest.
- 31.00.02 KYNTHIA-You love her still. And now, because of me, you will never see her again.
- 31.18.06 O'NEILL-You meant no harm.
- 31.23.02 KYNTHIA-Then let me give what I have taken. The time of one heartbeat can become eternity...
- 31.53.06 GENERAL HAMMOND-I'm sorry, people. My decision is final.
- 31.55.07 DOCTOR FRASIER (OS)-Sir... Neither of us show any evidence of the nanocyte.
- 31.58.05 CARTER-We can keep working here in total isolation...
- 32.00.28 GENERAL HAMMOND-All blood and tissue samples are to be incinerated and...

- 32.03.12 GENERAL HAMMOND (OS CONT)-pulverized. Work on the Argos Project stops now.
- 32.06.13 DANIEL-General... You are condemning Colonel O'Neill and the Argosians to death.
- 32.11.00 GENERAL HAMMOND-Captain Carter... These...
- 32.13.00 GENERAL HAMMOND (OS CONT)-things appear to possess artificial intelligence,...
- 32.15.11 GENERAL HAMMOND (CONT)-correct?
- 32.16.28 CARTER-Yes, sir. That's the only way they could adapt their programming to their situation.
- 32.20.12 GENERAL HAMMOND (OS)-which means...
- 32.20.19 GENERAL HAMMOND (CONT)-they could adapt themselves right out of this facility.
- 32.22.25 CARTER (OS)-Sir, if we...
- 32.23.01 CARTER (CONT)-destroy the samples, we will have nothing to work from.
- 32.26.14 GENERAL HAMMOND-I'm sorry. The risk is just too great. The order is final.
- 32.30.08 DANIEL-Sir...! We cannot just leave him there.

- 32.37.06 GENERAL HAMMOND-Dr. Jackson... Colonel O'Neill is one of the finest men it has ever been my pleasure to serve with. It will be a great loss to this country, and to all of us in this room. But I am sure that he would not hesitate to make the same decision for himself that I am making now.
- 33.00.15 CARTER (OS ON TV FILTERED)-We're working with computer simulations and practical simulations. Realistically, sir... I'm afraid it might take years.
- 33.09.07 DANIEL (OS ON TV FILTERED)-The General says that gate travel to Argos is strictly off limits for the next few, uh, millenia. But we can send objects through, so if you need anything, just call.
- 33.24.00 DANIEL (CONT ON TV FILTERED)-Say something.
- 33.26.26 TEAL'C (ON TV FILTERED)-Colonel... I've learned very much from you. Thank you.
- 33.33.14 CARTER-You know, goodbyes really suck.
- 34.01.22 O'NEILL-Excuse me... What're you doin'?
- 34.08.11 ALEKOS-Your people do not have enough knowledge to help us. We must ask Pelops...

- 34.13.10 ALEKOS (OS CONT)-to return.
- 34.16.17 O'NEILL-For cryin' out loud! Old Pelops doesn't give a rat's ass about things like love! His kind kidnap people like you and take 'em to other worlds to use as slaves!
- 34.32.17 ALEKOS-Pelops thinks of us as his slaves? (beat) Then I will no longer be one of The Chosen.
- 34.45.17 THETYS-Nor will I.
- 34.49.08 O'NEILL-That's the message you oughta be sendin'.
- 35.29.20 ALEKOS (OS)-He... He did not strike us.
- 35.42.23 O'NEILL-So, you like older men, do you? What is it...?
- 35.47.27 KYNTHIA-We should go back. We have gone too far from the village. Pelops forbids it.
- 35.54.24 O'NEILL-He's gone, Kynthia. He's gone. It'll be okay. I promise.
- 36.12.00 O'NEILL (OS)-Here...
- 36.15.23 O'NEILL (CONT)-Aw, hell.
- 36.18.23 O'NEILL (OS CONT)-Have to teach...

- 36.19.02 O'NEILL (CONT)-you a game I can win.
- 36.22.20 KYNTHIA-It is good to see you smile. Tell me... Will you live the rest of your days without making love?
- 36.31.02 O'NEILL-Oh, God, I hope not. (beat) Ah, we'd probably just pass out... (beat) Why aren't we unconscious yet? It should've happened already, Kynthia. Why aren't we asleep?
- 37.01.20 KYNTHIA (OS)-No one has awakened.
- 37.03.13 O'NEILL (OS)-Except for us. Why?
- 37.08.10 O'NEILL (CONT)-How important is this rule that no one can leave the village?
- 37.13.22 KYNTHIA-It is Pelops' First Law.
- 37.18.17 O'NEILL-Then whatever it is that knocks us all out at night, it's right here.
- 37.23.16 KYNTHIA-What...?
- 37.27.06 O'NEILL-I'll bet...
- 37.28.25 O'NEILL (OS CONT)-you and I stayed awake because we walked out of range. The cure could be...

37.35.00 O'NEILL (CONT)-as simple as just "gettin' the hell outta Dodge". We stay out of proximity. No sleep.

37.46.06 O'NEILL (OS CONT)-They all stay here. They get no wake-up call.

37.51.24 O'NEILL (CONT)-There's got to be some other variable. Some other change.

38.36.02 O'NEILL-Excuse me... I have a phone call to make.

38.57.00 O'NEILL-Welcome back, kids. It's damn good to see you again. Don't worry. Aside from a little prostate problem we won't go into, it's not so bad.

39.23.06 CARTER (OS)-I was right.

39.26.06 CARTER (CONT)-It's a transmitter.

39.27.28 DANIEL (OS)-Uh, there were two sets of glyphs that were quite tough to...

39.30.10 DANIEL (CONT)-translate until Teal'c realized they weren't words.

39.33.23 TEAL'C-They were, in fact, numbers.

39.36.05 CARTER-Two different frequencies. One to put the villagers to sleep and to activate the nanocyte. The second one to shut it all off for the day.

- 39.43.21 DANIEL-When you broke the statue, you must've damaged the wake-up call.
- 39.48.04 O'NEILL-Can you recalibrate this thing to wake these people up?
- 39.52.25 CARTER-No, sir. It's useless. I mean, I have to use the equipment that we brought with us.
- 39.58.14 CARTER (OS CONT)-I've loaded the frequency.
- 40.00.08 CARTER (CONT)-I'm switching it on... now.
- 40.18.28 THETYS-Alekos... The sun is already turning!
- 40.22.23 ALEKOS-Why did we wake so late?
- 40.27.10 TEAL'C (VO)-Our tests indicate that your body has been cleansed of the machines...
- 40.29.09 TEAL'C (CONT)-that plagued you.
- 40.31.21 CARTER-I figure the immune system must attack them if they aren't operating.
- 40.35.19 DANIEL-From now on, you and your people should age at a normal rate.
- 40.40.06 KYNTHIA-What about Jack?

- 40.42.11 O'NEILL-Me? Oh, I'll probably move to Florida, get into a little retirement...
- 40.49.25 O'NEILL (OS CONT)-home of some kind...
- 40.51.00 CARTER-You'd look pretty out of place there at your age.
- 40.54.06 O'NEILL-Why? I look like my grandfather.
- 40.57.00 CARTER-"Look" is the operative word here. If our hypothesis is right, the nanocytes in your system were only meant to imitate aging. They weren't meant to start the process in a full-grown adult.
- 41.08.01 O'NEILL-What are you sayin' to me?
- 41.09.28 CARTER-Well, without these little buggers in your system to maintain the changes, you should return to normal within a week or two.
- 41.15.15 KYNTHIA-That is wonderful news!
- 41.19.03 O'NEILL-I dunno. I was kinda lookin' forward to a little shuffleboard with the fellas.
- 41.33.00 KYNTHIA-Then you are leaving? (beat) You will not be staying with me then?

41.51.05 O'NEILL-No, I won't.

41.55.23 KYNTHIA-What will happen to us now if Pelops returns?

42.00.07 O'NEILL-Well, I don't think that's gonna happen. But
just in case, we'll send some folks by now and again
to check up on you.

42.11.27 KYNTHIA-My heart would be glad if you were one of them.

42.15.21 O'NEILL-Sweet Kynthia, I've learned so much from you.
I'll treasure every day of my life 'cause of you.

42.31.05 KYNTHIA-For thousands of days?

42.34.27 O'NEILL-I sure hope so.

42.37.26 KYNTHIA-That is almost forever.

42.40.25 O'NEILL-Almost.

43.02.00 FADE TO END CREDITS.
