TIMECODE DIALOGUE

START TIMECODE 00.00.00 AT FIRST FRAME OF PICTURE

00.15.02 DANIEL-So, what exactly are we gonna see after this eclipse begins. I mean, it is black and it is a hole.

00.21.11 O'NEILL-Well, it might be a...

00.23.04 O'NEILL (OS CONT)-black hole.

00.25.07 DANIEL-Okay, let me put that a different way --

00.26.16 CARTER (OVERLAPPING)-No, Daniel, you're right. You can't actually see it, not the singularity itself. It's so massive not even light can escape it. But during the totality phase of the eclipse we should be able to see matter spiraling towards it.

00.39.11 O'NEILL-Actually it's called the accretion disc.

00.43.02 DANIEL-Well, I guess it's easy to understand why the local population would be afraid it. What did you just say?

00.49.18 O'NEILL-It's just an astronomical term.

00.51.23 CARTER-You didn't think the Colonel had a telescope on his
roof just to look at the neighbors, did you?

01.04.06 O'NEILL-Not initially.

01.31.04 TEAL'C (OS)-Someone from SG-7 should've been here to greet
us.

01.35.06 O'NEILL-They should be preppin' the telescope for the big
show.

02.00.02 O'NEILL-Oh, God. Alright, MOPP Four.

02.20.08 O'NEILL (OS)-Alright, Daniel -- you and Teal'c check the
village. See why no one's missed this guy, where
everyone else is. We've got the observatory. Move out.

02.56.21 CARTER (OS)-Where is everyone?

03.15.15 O'NEILL (OS)-Found 'em.

03.17.00 CARTER (OS)-My God.

03.20.24 DANIEL (OS)-Jack! Jack! They're all dead. Everyone.

04.50.27 DR. FRAISER (OS)-This complex has been totally
decontaminated. How many dead?

04.54.22 CARTER-We estimate about a thousand.

04.57.04 DR. FRAISER-Why didn't they send a message, some warning this
was happening?

04.59.22 O'NEILL-We don't know.

05.00.14 DANIEL- Looks like this all happened very quickly.

05.02.12 CARTER (OS)-Now there may still be...

05.03.18 CARTER (CONT)-survivors out there. Shouldn't we be looking
for them?

05.05.17 DR. FRAISER-No. Not until I examine you. We'll use the
barracks room. Colonel, you said you touched one of the
victims before putting on gloves?

05.11.22 O'NEILL-Yeah, but I washed my hands right away.

05.13.21 DR. FRAISER-No. You are first.

05.28.07 O'NEILL-Allergies, right? Right?

05.32.02 DR. FRAISER-Right.

05.40.12 CARTER (OS)-We're supposed to tag the bodies we find with these.

05.45.02 DANIEL (OS)-They knew this would happen.

05.46.20 CARTER (OS)-The indigenous people?

05.48.10 DANIEL (OS)-They told me when we came here three months ago that with the darkness would come the apocalypse. It was part of their mythology. And what did we tell them, it's just an eclipse, and there's nothing to worry about.

06.24.00 CARTER-Hello.

06.26.23 CARTER (OS CONT)-It's okay, you can come out.

06.29.10 CARTER (CONT)-I know I must look pretty scary in this mask but I'm not gonna hurt you, it's okay. Colonel, there's someone in the bushes and they won't come out.

06.42.10 O'NEILL-Show 'em your face. Try to look friendly.

07.07.08 TEAL'C-We will not hurt you. Please come out.

07.17.16 TEAL'C (OS CONT)-Take my hand.

07.26.06 TEAL'C (CONT)-It is okay.

07.43.22 CARTER (OS)-It's okay. Don't worry, everything's gonna be fine. Can you hear me? Very brave. Can I take this mask off?

07.56.22 DR. FRAISER (OS)-I think it'll be okay. It looks like we're dealing with a bacteria infection. Just don't get too close.

08.05.14 CARTER-There. That's better, huh? You feel like telling me your name now? That's okay. You remember my name? Samantha Carter, but you can call me Sam.

08.27.29 Oh, no, no, honey -- You're not gonna die.

08.35.22 CARTER (OS CONT)-Why don't you just lay down and rest for awhile, okay?

08.51.14 DR. FRAISER-This can't be.

08.54.26 CARTER-She's infected, isn't she?

08.55.28 DR. FRAISER-No, she's not.

08.57.15 CARTER-Well, what's wrong then?

08.58.29 DR. FRAISER-There are traces of the element the Stargate is made of in her blood.

09.02.12 CARTER-Naquadah?

09.03.00 DR. FRAISER-Yeah. Now, it's possible that's the reason she was able to resist the infection. Thank you. Will you take a look.

09.17.17 DR. FRAISER-Well, I have some bad news. The samples my team have collected show the entire area to be contaminated. It's in the water and the ground. Now the bacteria doesn't seem to be airborne, but it has a unique ability to survive in a variety of environments.

09.31.00 DANIEL-Listen, um, I hate to sound self-centered here, but --

09.33.09 DR. FRAISER (OS)-Your tests...

09.33.24 DR. FRAISER (CONT)-are fine.

09.35.15 TEAL'C-What of the girl?

09.36.10 DR. FRAISER-No sign of...

09.37.03 DR. FRAISER (CONT)-infection, and as a precaution I did an ultra-sound to make sure she wasn't parasitically infested with a Goa'uld.

09.42.14 O'NEILL-So, she goes back with us.

09.44.25 CARTER (OS)-Doctor, would it be safe for someone to stay...

09.46.10 CARTER (CONT)-a little while longer? I mean, we're safe
right now, aren't' we?

09.50.27 O'NEILL-Captain?

09.52.27 CARTER-Sir, the eclipse happens in less than one day. This
is our only opportunity to use this window of darkness
to photograph the black hole with this telescope.

10.00.17 CARTER (OS CONT)-It could change the course of human history.
I don't want to belittle what's happened here,...

10.05.10 CARTER (CONT)-but if we just pack up and leave, SG-7 and all
these people would've died for nothing.

10.24.24 O'NEILL-Well, you won't be staying.

10.30.00 TEAL'C-I will remain. I am not at risk.

10.33.10 O'NEILL-Yeah, I'll stay too.

10.50.15 CARTER (OS)-Are you okay? Don't be afraid. I'll be holding
your hand the whole way, you know.

10.56.10 CARTER (CONT)-I know it looks kinda scary,...

10.57.15 CARTER (OS CONT)-but it's really a lotta fun.

11.42.23 CARTER (OS)-It's okay.

11.43.17 CARTER (CONT)-It's okay, it's okay. That wasn't so bad, was it?

11.54.15 CARTER-Well, here we are.

12.00.10 CARTER (OS CONT)-This is where you're gonna stay for a little while, okay?

12.03.24 CARTER (CONT)-I know it's nothing fancy but we'll fix it up.

12.21.07 CARTER-Now, I have to go somewhere for a little while,...

12.23.07 CARTER (OS CONT)-but I promise you I won't be gone long,...

12.25.05 CARTER (CONT)-okay?

12.30.06 No, I have to go. But I'll be able to see you the whole time through that camera up there. See?

12.48.01 Alright. I'll stay for a little while.

13.08.09 HAMMOND (OS)-She seems to have bonded with Captain Carter.

13.11.10 DANIEL (OS)-I can't blame her for being terrified. Believe me, it was not pretty over there.

13.15.09 HAMMOND-What happened?

13.16.28 DR. FRAISER-We counted one thousand, four hundred and thirty two dead. I believe we may be indirectly responsible.

13.24.16 HAMMOND-How?

- 13.25.20 DR. FRAISER-It's possible someone from Earth brought a normally harmless bacteria to that planet.
- 13.29.10 DR. FRAISER (OS CONT)-It learned some new traits from a local organism and mutated into the most deadly, infectious strain I've ever encountered.
- 13.36.05 HAMMOND-Are you absolutely positive you haven't brought any of this disease...
- 13.38.13 HAMMOND (OS CONT)-back here with you?
- 13.39.09 DR. FRAISER-Yes, sir. In fact, I think we may have brought back the cure.
- 13.43.03 HAMMOND-Doctor?
- 13.44.00 DR. FRAISER-Sir, somehow this little girl survived against all odds on a completely contaminated planet.
- 13.48.28 DR. FRAISER (OS CONT)-Now, I'm hoping she has some sort of natural immunity that we might...
- 13.51.13 DR. FRAISER (CONT)-use in fighting other serious infections already here on Earth.
- 13.55.16 HAMMOND-Why didn't the telescope team report that this outbreak was going on?
- 14.01.14 DANIEL-We don't know.

14.16.00 CARTER-Hey. Don't you want this? See, uh, we usually put
some stuff on it like this.

14.29.27 CARTER (OS CONT)-See.

14.34.25 Mmmm.

15.13.05 CARTER-That's me, okay? You're not alone anymore.

15.29.22 O'NEILL-This is fun. Only eight hours to go. Sweet.

15.40.09 TEAL'C-I still do not understand this black hole.

15.44.26 O'NEILL-Well, a black hole is this really... big thing.
It's, uh, well basically it's, uh, massive... hole...
out there.

16.06.20 TEAL'C-I see.

16.08.22 O'NEILL-Uh, what happens is, everything gets sucked into it.
Even light. That's why we can't see it. Just gets...
sucked in.

16.28.04 TEAL'C-Thank you.

16.32.13 O'NEILL-Sure.

16.52.08 CARTER-Hey. How you feeling? Listen, I have to go
somewhere...

16.59.18 CARTER (OS CONT)-for a little while, but you're not gonna be
alone.

17.03.03 CARTER (CONT)-Daniel's gonna be here the whole time.
Remember Daniel?

17.12.24 You're very brave, remember? I'll be back before you
know it.

17.21.15 CASSANDRA-Please don't go.

17.30.22 CARTER-You feel like telling me your name?

17.34.08 CASSANDRA-Cassandra.

17.36.19 CARTER-Hi, Cassandra.

17.39.04 CASSANDRA-I hurt.

17.42.20 CARTER-Where?

17.49.25 DR. FRAISER-Sounds good. No fluid in her lungs.

17.52.19 CARTER-She described it more like a sharp stabbing pain.

18.05.14 DR. FRAISER-I have no idea what to say or do. Her latest blood work shows a marked potassium deficiency. I have no idea what is causing it or how it could have gotten so low so quickly, but one of the effects can be arrhythmia.

18.15.16 CARTER-Now you're sure she doesn't have the disease?

18.17.02 DR. FRAISER-Mmm hmm, positive. These are not the symptoms of a bacterial infection.

18.24.16 CARTER-Okay. Thank you. Alright, let's go back to our room.

18.33.09 CASSANDRA-Thank you.

18.33.20 DR. FRAISER-You are welcome.

18.37.25 CARTER-What?

18.38.26 CARTER (OS CONT)-What? What is it?

18.40.16 DR. FRAISER (OS)-Get her on the table.

18.41.08 CARTER (OS)-Oh my God.

18.47.29 What is it?

18.48.15 DR. FRAISER-She's got an irregular heartbeat. She's in arrest.

18.51.08 DR. FRAISER (OS CONT)-Code blue in the lab! Code blue!

18.52.12 CARTER (OVERLAPPING)-What? What do I do?

19.00.22 DR. FRAISER-I got a cardiac arrest, potassium deficiency.

19.02.09 DR. FRAISER (OS CONT)-Get me a number seven...

19.03.14 DR. FRAISER (CONT)-cop and a tracheal tube now.

19.25.20 DR. FRAISER-Defib. Stop CPR. Defib, sixty jewels.

19.28.20 DR. FRAISER (CONT)-C'mon, baby, c'mon.

19.32.04 DR. FRAISER (OS CONT)-Clear.

19.37.17 Lemme in, lemme in.

19.38.15 MALE VOICE-Check the monitor, check the monitor.

19.41.27 DR. FRAISER-I want you to notify the ICU. I want...

19.43.07 DR. FRAISER (OS CONT)-her potassium levels rechecked, stat.

19.45.28 MALE VOICE-Get on it, get on the left.

19.47.00 DR. FRAISER (OS)-Wait --...

19.47.04 DR. FRAISER (CONT)- wait-wait-wait-wait! Oh my God.

19.51.19 CARTER (OS)-What is it?

19.52.12 DR. FRAISER-Get me a chest X-ray, stat. I don't know.
Listen.

20.02.02 CARTER-Oh my God.

20.20.07 HAMMOND-What is it?

20.21.19 DR. FRAISER-I don't know. But it wasn't there ten hours ago.

20.39.28 DR. WARNER (OS)-I'm inserting the scope. Image up.

20.47.05 DR. FRAISER (OS)-Pulse normal.

20.48.19 DR. WARNER (OS)-I'm advancing the scope.

21.03.08 DR. FRAISER (OS)-Pulse is rising.

21.08.23 DR. WARNER (OS)-Adjusting view.

21.14.22 DR. FRAISER-Well, parts of it are definitely organic.

21.17.21 DR. WARNER (OS)-I'm going to move in close and try and get a
biopsy.

21.22.12 DR. FRAISER (OS)-Pulse is now one-forty.

21.29.29 DR. WARNER (OS)-I'm scraping the harder surfaces for samples.

21.34.17 DR. FRAISER-We have to stop.

21.36.13 DR. WARNER (OS)-Just a little more.

21.40.26 DR. WARNER (CONT)-Removing scope. Prepare...

21.41.27 DR. WARNER (OS CONT)-the paddles.

21.49.00 DR. WARNER (OS)-Charging. Clear!

21.54.07 DR. FRAISER (OS)-Wait, wait!

21.55.13 DR. FRAISER (CONT)-Pulse is normal.

22.04.23 DR. FRAISER-Whatever this object is, it has the ability to
stop her heart in an instant.

22.08.09 HAMMOND-Can you remove it?

22.09.04 DR. FRAISER-It doesn't look like it, not without killing her.
Now Dr. Warner managed to get us some samples. I'm
hoping the results of the analysis will tell us more
about what this object is.

22.16.25 HAMMOND-Thank you, Doctor.

22.21.24 CASSANDRA-Mom?

22.23.05 CARTER-Hey. You okay?

22.30.03 CASSANDRA-I was dreaming about my mom.

22.38.25 CARTER-You miss your mom very much?

22.44.19 CASSANDRA-I'm tired.

22.46.07 CARTER-Well, then, you should get some rest. Don't worry,
everything's gonna be just fine. And when you get
better, I promise you I am gonna show you...

22.56.27 CARTER (OS CONT)-all kinds of really wonderful things about
this planet.

23.01.23 CASSANDRA-Promise?

23.02.22 CARTER-You bet.

23.22.07 DANIEL (OS)-How is she?

23.23.00 CARTER-She's fine. Sleeping.

23.24.18 DANIEL-Um, if you want, I can sit with her tomorrow for a few
hours.

23.29.16 CARTER-No, we're okay.

23.30.27 DANIEL-Okay.

23.33.08 CARTER-I just... I want to do this.

23.38.05 DANIEL-Okay, but I guess what I'm saying is, you don't have
to do this alone.

23.44.00 CARTER-Thanks.

23.57.09 O'NEILL-It's show time.

24.03.15 TEAL'C (OS)-The systems are on line.

24.19.07 TEAL'C (OS)-The eclipse has reached its totality.

24.21.06 O'NEILL-Wow.

24.27.05 CARTER (OS)-The layer of fatty tissue between the two sides
of the object is decaying.

24.30.22 CARTER (CONT)-Very slowly, mind you, but still...

34.32.25 DANIEL-What's the significance.

- 24.34.11 CARTER-I'm about to do an experiment to find out. One side of the object is made up of a combination of iron and potassium. The other side is made of the element that makes up the Stargate.
- 24.44.02 DANIEL-What?
- 24.44.19 DR. FRAISER (OS)-Mmm hmmm. I'm assuming it's the Naquadah that...
- 24.46.10 DR. FRAISER (CONT)-was in her blood. Somehow the object is collecting it.
- 24.49.06 CARTER (OS)-Now potassium can be one of the most...
- 24.50.26 CARTER (CONT)-volatile alkali metals on Earth. Combined with even a small concentration of Naquadah and...
- 24.56.05 DANIEL-That doesn't sound very good.
- 24.58.11 CARTER (OS)-The room you're looking at is in the sub-basement floor of the complex.
- 25.02.07 CARTER (CONT)-It's lead sealed. Let's see what happens when we put the two objects together.
- 25.07.24 DANIEL-Where are the samples?
- 25.09.04 CARTER-I'm only using a microscopic particle of each.

25.20.18 DR. FRAISER-The reading's off the scale. Gamma and...

25.22.08 DR. FRAISER (OS CONT)-particle radiation.

25.23.05 DANIEL-Are we safe?

25.24.17 CARTER (OS)-Yeah.

25.25.18 CARTER (CONT)-But we have a big problem.

25.27.16 DANIEL-Well, if two microscopic particles can cause that...

25.30.18 CARTER-Then the object inside Cassandra could cause a nuclear
reaction a million times bigger.

25.57.22 O'NEILL-What is that?

25.59.08 TEAL'C-A star, perhaps.

26.00.29 O'NEILL-Hit the zoom.

26.07.09 Nah, that's way too close to be a star. Pull back.

26.17.14 What the hell is that?

26.21.13 TEAL'C-It is a Goa'uld attack vessel.

26.26.23 DANIEL (OS)-It's a set up. I has to be.

26.29.26 DANIEL (CONT)-The Goa'ulds wiped out every last living person on that planet except Cassandra and then they made us think that it was our fault because they knew we wouldn't leave her there. They knew we would bring her back here. And they used their technology to put that thing inside of her.

26.44.18 CARTER-It's like they designed a way for us to help them create the device after she came through the Stargate so we wouldn't detect it until it was too late.

26.51.11 DR. FRAISER (OS)-We gave her iron supplements. We may even

26.53.11 DR. FRAISER (CONT)-have turned the device on with a jolt of electricity when we resuscitated her.

26.57.02 HAMMOND-You're saying it's meant to destroy us.

26.58.22 CARTER (OS)-At least this complex.

27.00.05 CARTER (CONT)-The threat to the Goa'ulds, the Stargate.

27.01.29 DANIEL-They used that little girl like a Trojan Horse.

27.05.19 HAMMOND-How long do we have?

27.07.09 DR. FRAISER-One hour and fifty two minutes.

27.10.00 HAMMOND-You can predict it that accurately?

27.12.20 DR. FRAISER-The cellular decay of the tissue Dr. Warner
sampled appears to be happening like clockwork.

27.46.15 CARTER-How could they do this?

27.50.07 DANIEL-Well, to a Goa'uld, she's not as we see her. She's a
tool. Her death is a very cheap way to get rid of us.

28.00.09 CARTER-I know I am supposed to be detached...

28.04.22 DANIEL-Who said that?

28.08.23 CARTER-Sometimes I forget you're not military.

28.13.24 TEAL'C (OS)-It is the ship of the Goa'uld Nirrti.

28.16.06 TEAL'C (CONT)-An enemy of Apophis.

28.22.20 O'NEILL-Now what the hell is that?

28.24.25 TEAL'C-We must go.

28.31.07 CARTER-Look, sir, I know this decision isn't easy for you.

- 28.35.00 HAMMOND-In fact, the decision is quite easy. The consequences are what's difficult.
- 28.40.03 CARTER-There has to be another way.
- 28.42.19 HAMMOND-I've been assured there is absolutely no way to remove the object from the girl without killing her.
- 28.48.27 HAMMOND (OS CONT)-Therefore we have no choice. According to Dr. Fraiser's measurements of the device's atomic...
- 28.55.06 HAMMOND (CONT)-decay we have one hour and twenty minutes left. The girl should be prepared to go back through the Stargate.
- 29.02.13 CARTER-I'll take her, sir.
- 29.03.14 HAMMOND (OS)-Along with SG-4.
- 29.04.16 HAMMOND (CONT)-I want O'Neill and Teal'c to return with you.
- 29.27.16 TEAL'C-We must get to the Stargate.
- 29.30.22 O'NEILL-No argument from me.
- 29.32.28 TEAL'C-This Goa'uld, Nirrti, he once sent an emissary of peace to negotiate a treaty concerning a Stargate Apophis had taken control of.
- 29.40.16 TEAL'C (OS CONT)-The negotiation...

29.41.06 TEAL'C (CONT) -was a ploy. The Stargate was destroyed.

29.46.29 O'NEILL-How?

29.48.05 TEAL'C-As soon as he entered the Stargate, there was a massive explosion.

29.57.05 O'NEILL-The girl.

30.22.19 TECHNICIAN-Chevron three encoded.

30.31.00 TECHNICIAN (OS CONT) -Chevron four encoded.

30.32.14 CARTER (OS) -Cassandra!

30.42.25 O'NEILL- (Unintelligible)...no hurry.

30.44.29 TECHNICIAN (OS) -Chevron five encoded.

30.46.18 CARTER (OS) -What is it?

30.48.14 DR. FRAISER-She's slipped into a coma.

30.49.27 CARTER-What?

30.52.15 TECHNICIAN-Chevron six -- What the hell?

30.58.22 HAMMOND-Close the iris.

30.59.14 TECHNICIAN (OS)-No...

30.59.20 TECHNICIAN (CONT)-need, sir. We're getting an SG-1 remote
signal.

31.19.02 O'NEILL-Get the girl away from the gate!

31.23.10 O'NEILL (OS)-So the Goa'ulds kept SG-7 from...

31.25.04 O'NEILL (CONT)-coming back through the gate to warn us. All
part of the plan.

31.28.10 DANIEL (OS)-o, what are we going to do now?

31.32.08 HAMMOND-Teal'c, Dr. Fraiser says this device...

31.34.27 HAMMOND (OS CONT)-inside the girl's on some sort of timer.

31.37.04 HAMMOND (CONT)-You're sure it will go off if we send the girl
through the Stargate.

31.40.13 TEAL'C-We should not attempt it. The Earth gate is what the
Goa'uld wants to destroy.

31.45.03 CARTER-Cassandra's condition deteriorated when she got near
the Stargate.

31.48.03 HAMMOND-Well, I can't risk the security of this mountain.
We'll have to take her somewhere else.

31.53.06 O'NEILL-What about the abandoned nuclear facility at --

31.54.28 HAMMOND (OS INTERRUPTING)-Right.

31.56.03 HAMMOND (CONT)-It's just twenty minutes away.

32.02.11 HAMMOND (OS CONT)-This is Major General Hammond. Get me the
Secretary of Defense immediately. Tell him it's a
matter of life and death.

33.02.27 O'NEILL-I can take her from here now, Captain.

33.04.27 CARTER-No, sir, it's okay.

33.12.28 O'NEILL-This elevator goes down thirty floors through solid
rock. It takes about three minutes to get to the
bottom. That gives you four minutes to start back up.

33.48.17 CASSANDRA-Where are we going?

33.53.13 CARTER-Please, go back to sleep.

33.57.07 CASSANDRA (OS)-I'm not tired anymore.

34.09.25 CASSANDRA (CONT)-Are you crying?

35.01.16 CARTER (OS)-Sit down here and rest for awhile, okay?

35.12.21 CASSANDRA (CONT)-I have to go.

35.15.18 CASSANDRA-You promised you'd never leave me alone.

35.23.20 CARTER-I'll come back, okay?

35.26.07 CARTER (OS CONT)-I'll be back.

35.31.27 CARTER (CONT)-You're very brave, remember?

35.36.00 CASSANDRA-I'm very brave.

35.42.08 CARTER-I have to close the door.

36.04.18 CASSANDRA-Sam?

36.10.00 CASSANDRA (OS CONT)-Sam?

37.00.27 DANIEL-Jack, she's goin' back down.

37.03.13 O'NEILL-The hell she is. Captain Carter. Captain Carter.

37.16.22 O'NEILL (VO FILTERED)-Sam, do you read me?

37.20.08 CARTER-Colonel, I'm staying.

37.23.04 O'NEILL-Negative.

37.24.16 CARTER (VO FILTERED)-Colonel, she's awake.

37.26.10 DANIEL-Oh, God.

37.32.14 O'NEILL (VO FILTERED)-Captain Carter,...

37.34.12 O'NEILL (CONT)-I'm ordering you to get back up here right
now!

37.41.10 O'NEILL (VO FILTERED)-Right now!

37.45.18 CASSANDRA-Are we going to die?

37.47.05 CARTER-No. You're not going to die.

37.57.14 O'NEILL-Alright, why don't you guys clear out.

38.08.18 Right.

38.15.01 CASSANDRA-We're both very brave. I love you.

38.20.00 CARTER-I love you too.

38.32.08 O'NEILL-Alright. Here we go.

39.02.09 DANIEL-I don't feel anything.

39.04.07 O'NEILL-We could've been wrong about the time.

39.06.15 DANIEL-We could've been wrong about what would happen.

39.12.13 O'NEILL-Captain Carter, can you hear me?

39.20.09 Sam, can you hear me.

39.26.20 CARTER-We're okay.

39.29.02 CARTER (VO FILTERED)-Nothing happened. Cassandra's fine, I'm
fine. It didn't happen.

39.35.15 CARTER (CONT)-I just, I couldn't leave her, sir.

39.42.15 O'NEILL-How did you know, Captain?

39.46.17 CARTER (OS)-It occurred to me that she first slipped into
the...

39.48.04 CARTER (CONT)-coma when we brought her close to the Stargate.
As soon as we got her far enough away from the Stargate
she woke up.

39.54.22 CARTER (VO FILTERED)-And I knew.

39.58.12 O'NEILL-You knew?

40.21.00 DANIEL-You're gettin' a little heavy for this.

40.25.09 O'NEILL-Cassandra.

40.27.17 CARTER-Hey, there he is.

40.36.21 CASSANDRA-What's that?

40.38.27 O'NEILL-We have a rule here on Earth. Every kid has got to have a dog.

40.46.06 O'NEILL (OS CONT)-This is a dog.

40.48.28 O'NEILL (CONT)-And he's yours.

41.02.15 DANIEL-So, how sure were you, really?

41.05.29 CARTER-I can't explain it, Daniel. I just knew.

41.09.24 TEAL'C-A mother's instinct, perhaps.

41.13.05 CARTER-Subtle, but no.

41.15.10 CARTER (OS CONT)-Dr. Fraiser's gonna take her until we can...

41.17.05 CARTER (CONT)-find qualified parents.

41.19.07 DANIEL-By qualified you mean ones with the right security clearance.

41.22.00 CARTER-Yeah. I wouldn't be surprised if Dr. Fraiser wants to keep her for herself. As long as Cassandra's happy.

41.29.24 TEAL'C-She appears to be.

41.32.18 CARTER-You know, I wasn't completely at ease until I knew the object was shrinking and being re-absorbed into her system.

41.39.00 CARTER (OS CONT) -Hey.

41.41.21 CASSANDRA (OS) -Hey, Samantha.

41.42.26 CASSANDRA (CONT) -See my new dog?

41.45.07 CARTER -Wow. Your new dog?

41.48.14 CASSANDRA -It's an Earth rule. Every kid has to have one.

41.51.15 CASSANDRA (OS CONT) -But I don't mind.

41.58.13 O'NEILL -Why don't I take the dog for a little walk. Teal'c,
you know anything about...

42.07.09 O'NEILL (OS CONT) -dogs?

42.09.00 TEAL'C -Nothing.

42.15.15 CASSANDRA -When you find me a new home, will you come and
visit me?

42.18.26 CARTER -You betcha. All the time.

42.21.29 CASSANDRA -That is, when you're on Earth.

42.23.25 CARTER -Right. Now, about that, Cassandra --

42.26.27 CASSANDRA-I know. The Stargate is a secret, and I was born
in a place called... Toronto?

42.35.02 CARTER-Right.

42.38.18 CASSANDRA-What are those?

42.41.27 CARTER-Ah. Those are swings.

42.46.07 CASSANDRA-We never had any of those... in Toronto. They look
like fun.

42.51.28 CARTER-They are. C'mon.

43.01.28 LAST FRAME OF PICTURE.
