START MEASURING 00.00.00 AT FIRST FRAME PICTURE

00.30.25 O'NEILL-Ladies and gentlemen, this is your Colonel speaking. Welcome to P3X-niner-eight-niner, where it's a balmy... room temperature. Fan it out.
(beat) Whoa... (beat) Well, the lights are on, but there's nobody home.

01.05.21 DANIEL-Their technology seems advanced by comparison to what we've seen in most of the human inhabited planets. Maybe even more advanced than Earth.

01.11.28 CARTER-Not much more.

01.13.09 DANIEL-Well, it feels older somehow.

01.16.21 O'NEILL-I know how it feels. This place has seen better days.

01.30.16 DANIEL-At least it doesn't appear to be of Goa'uld origin...

01.32.17 O'NEILL-Teal'c, you ever run into somethin' like this?

04.22.02 HARLAN-Ah, Com-traya! Com-traya?!

04.33.00 O'NEILL-Daniel?

04.36.14 DANIEL-I think that's a greeting.

04.37.20 HARLAN-Yes, it is.

04.40.08 DANIEL-Oh. Well, then... Com-traya. We are explorers
from a place called Earth. I'm Daniel. Hello.

04.51.22 HARLAN-This is your custom, yes? Hello. You are the
leader?

04.58.00 DANIEL-Oh, no. That would be...

04.59.17 O'NEILL-Me. Colonel Jack O'Neill. Coombaya.

05.02.27 HARLAN-(chuckles) Com-traya.

05.05.27 O'NEILL-Whatever. Why'd you attack us?

05.09.03 HARLAN-Attack? Oh, attack. Yes, of course. It would
seem that way from your perspective. Yes... I did
that.

05.18.05 O'NEILL-Why?

05.19.05 HARLAN-It could not be helped. Oh, are you suffering any
pain? Any after-effects?

05.24.04 HARLAN (OS CONT)-Occasionally the heart must be
restarted.

05.26.16 DANIEL-Uh, no. I think we feel fine.

05.28.24 HARLAN-Ah, Com-traya! You are all such wonderful
specimens. You in particular. Female...?

05.38.00 CARTER-Colonel?

05.39.16 O'NEILL-Easy, Captain. Listen, we had some things when
we got here. Some weapons...

05.47.24 HARLAN-Oh, those. Hmm, yes. Very dangerous...

05.51.18 O'NEILL-Very. Can we have them back?

05.54.18 CARTER-And our uniforms?

05.56.19 HARLAN-Sorry, but they are gone. This is better, yes?

05.59.28 CARTER (overlapping)-No.

06.01.12 HARLAN-Uh, I am Harlan. I am the last survivor of
Altair.

06.09.21 O'NEILL-Excuse me? The last surv... You're the only one
on this planet?

06.17.01 HARLAN-Yes. And your weapons are this way.

06.40.03 HARLAN (OS)-We are in section three.

06.42.01 HARLAN (CONT)-There has been trouble here lately.

06.43.26 CARTER-What kind of trouble?

06.44.28 HARLAN-Mechanical breakdowns. Very difficult to maintain
this complex all alone.

06.49.09 O'NEILL-Listen, Harlan... Is there an outside to this
place?

06.53.17 HARLAN-Outside is above. We are under.

06.55.11 DANIEL (OS)-Under the surface...?

06.57.00 HARLAN-Oh, yes. On the surface we cannot survive.

07.00.06 HARLAN (OS CONT)-Radiation... Very, very bad.

07.02.13 HARLAN (CONT)-Ah... This way to section four.

07.05.25 DANIEL-Uh... What happened to your civilization? Surely you started on the surface, and then moved under, no?

07.12.07 HARLAN-Yes. Long ago.

07.13.28 DANIEL-We're curious to learn about other worlds. We'd love to hear what happened on the surface.

07.17.27 HARLAN-All in time.

07.19.09 O'NEILL-We've got all the time in the world.

07.21.20 HARLAN-Yes, you do. You understand? Com-traya!

07.25.16 O'NEILL-Wh-what is that, "Com-traya"? Is that like "aloha"?

07.29.02 DANIEL-Harlan, how long have you been on your own?

07.32.02 HARLAN-Ah, now, let me see... Wallace was the last one to go. I miss him. But you all remind me a little of Wallace. Uh, except for you,...

07.43.21 HARLAN (OS CONT)-of course. You are female.

07.45.23 HARLAN (CONT)-And you are... whatever you are.

07.52.07 HARLAN (OS CONT)-Hubald, he...

07.53.27 HARLAN (CONT)-was the creator of all this. But he died very early. Too early. Took many secrets with him. So long ago...

08.00.18 O'NEILL-How long, exactly?

08.02.26 HARLAN-Uh, exactly? Ninety-nine million, two hundred and seven thousand of your hours.

08.09.18 O'NEILL-Well, that's eleven thousand years.

08.12.01 CARTER-How did you know that?

08.15.20 O'NEILL-That's right?

08.18.28 CARTER-Yeah.

08.20.24 DANIEL-Wait. How did you know that?

08.22.23 HARLAN (OS)-See?

08.23.24 HARLAN (CONT)-Everything is better. Even your minds. You are all much, much better.

08.27.03 O'NEILL-Better than what?!

08.28.11 HARLAN-Do you not feel it?

08.29.13 HARLAN (OS CONT)-Are you not stronger, smarter...?

08.31.24 DANIEL-Jack, I think he's right. I feel great.

08.35.00 HARLAN (OS)-Of course you do.

08.36.16 HARLAN (CONT)-Because I have given you a great gift. I
have made you all better.

08.41.04 O'NEILL-Better how?

08.42.12 HARLAN-Oh, I have not hurt you. I have only made you
better.

08.45.20 O'NEILL-Alright, alright... Listen closely. I'm going to
ask you one more time, very simply. Better...
how... ? (beat) We're gone. We're out of here...
(beat) Carter, dial us home.

09.23.24 HARLAN-Wait! You, you cannot leave. I-I cannot leave
either. It is not safe.

09.31.09 DANIEL-What is not safe? Tell us!

09.33.25 HARLAN-All in time. There is so much you must know first. (beat) Uh... you will be back. You will. You cannot leave me... here... all... alone. Oh, dear...

10.01.22 DOCTOR FRASIER (VO)-Colonel, how do you feel?

10.03.28 O'NEILL-Never felt better in my life. It's got me a little worried, actually.

10.08.25 DOCTOR FRASIER-Yeah, well this has got me a little worried. Listen...

10.22.08 O'NEILL-I don't hear anything. What, this is better? I'm dead?

10.29.12 DOCTOR FRASIER-Look, Colonel... To make sense of this, I'm gonna have to do a blood sample.

10.54.02 O'NEILL (OS)-My God!

10.54.27 O'NEILL (CONT)-What the hell is that? Get that out of me!

10.58.17 DOCTOR FRASIER-Look, uh... I'm gonna need x-rays on all of them, stat!

11.01.10 CARTER-What did he do to us?

11.02.09 DOCTOR FRASIER (OS)-I don't know.

11.03.11 DOCTOR FRASIER (CONT)-Just, let's everybody stay calm.

11.06.01 TEAL'C-I no longer possess a Goa'uld!

11.13.13 CARTER-Colonel! What the hell are you doing?

11.32.04 O'NEILL-My God...

11.32.20 DOCTOR FRASIER-Dear God...

11.35.03 O'NEILL-What is it?

11.37.01 DOCTOR FRASIER (INTO INTERCOM)-Alert! Security to the
infirmary!

11.38.25 DANIEL-Whoa! Security? Doctor Frasier, it is us.

11.41.15 DOCTOR FRASIER-Just don't come any closer...

11.52.19 O'NEILL-Stand down, airmen. This is just a little
misunderstanding. That's on order.

11.56.15 DOCTOR FRASIER (OS)-Belay that order. (to General)
General, that is not Colonel O'Neill.

12.02.20 O'NEILL-Oh, for cryin' out loud. General, it's me.

12.07.05 GENERAL HAMMOND-Would you call that human blood?

12.10.25 DOCTOR FRASIER (OS)-I have reason to believe they're all
impostors. He, or whatever...

12.13.13 DOCTOR FRASIER (CONT)-he is has no detectable heartbeat.

12.17.05 GENERAL HAMMOND-Take them to the holding room. Put a
guard outside.

12.19.16 O'NEILL-General Hammond... I don't know what that son-of-
a-bitch on 989 did to us, but I swear to God --

12.25.16 GENERAL HAMMOND (overlapping)-Follow the instructions of
these men...

12.27.08 O'NEILL (overlapping)-Your wife died of cancer four years
ago...

12.28.20 GENERAL HAMMOND (overlapping)-and you will not be hurt!

- 12.29.21 O'NEILL (overlapping)-Your granddaughters' names are
Tessa and Kayla!
- 12.31.16 GENERAL HAMMOND (overlapping)-Any resistance by any of
you will be met with deadly force. Is that
understood?
- 12.40.19 O'NEILL-Understood. Perfectly...
- 13.03.15 GENERAL HAMMOND (OS)-Looks and sounds like our people.
They certainly believe they're SG-1.
- 13.07.26 DOCTOR FRASIER-It may be another Goa'uld trick.
- 13.11.13 GENERAL HAMMOND-I don't know what to believe. He was
right about the names of my grandchildren. How else
would he have known if he isn't Jack O'Neill?
- 13.18.29 DOCTOR FRASIER-Sir, given our history with the Goa'uld, I
believe keeping them here would be extremely
dangerous.
- 13.25.15 GENERAL HAMMOND-I'll take that under advisement, Doctor.
- 13.33.00 DANIEL-It's incredible. It looks like mine, it feels
like mine, it is mine. I mean, I don't feel any
different.

13.37.28 DANIEL (OS CONT)-If anything, I feel better.

13.40.28 CARTER-Well, that's what Harlan said.

13.42.24 DANIEL-Well, why didn't he just tell us?

13.44.23 CARTER-Probably afraid we'd damage him.

13.46.10 O'NEILL-Perceptive little runt.

13.49.03 CARTER (OS)-You know, Colonel, you...

13.50.00 CARTER (CONT)-can't blame General Hammond for confining
us.

13.52.19 O'NEILL-Hey! I know who I am.

13.55.17 CARTER-Well, so do I.

13.56.28 CARTER (OS CONT)-In ever respect, I feel like Sam Carter.
But the evidence...

14.02.23 CARTER (CONT)-Harlan must've transferred our
consciousness into these bodies.

14.05.21 O'NEILL-Bodies? Did you see the inside of this arm?
We're machines, Carter.

4.13.20 DANIEL-Teal'c, are you okay?

- 14.16.11 TEAL'C-Why?
- 14.19.26 DANIEL-Well... For starters, you've lost your infant
 Goa'uld...
- 14.27.10 TEAL'C-I still feel its presence.
- 14.28.29 DANIEL-Really? (beat) That must be like continuing to
 feel a limb after it's been lost.
- 14.35.21 O'NEILL-Aw, for cryin' out loud. Daniel,...
- 14.38.25 O'NEILL (OS CONT)-I'm glad you're...
- 14.39.05 O'NEILL (CONT)-so fascinated by all this, but it's time
 for a little reality check, okay? (beat) We are
 being held prisoner by our own people.
- 14.49.18 DANIEL-Well, they can't keep us in here forever. I
 mean --
- 14.51.07 O'NEILL (overlapping) (OS)-Why not?
- 14.53.03 O'NEILL (CONT)-What do you think is gonna happen? (beat)
 Do you really think military intelligence is gonna
 let us continue as SG-1 like this?
- 15.00.10 DANIEL-We still have our rights, Jack.

15.01.23 O'NEILL-What rights are you talkin' about?

15.03.14 CARTER (OS)-Colonel, no matter what he's...

15.04.05 CARTER (CONT)-done to us, we're still...

15.06.06 O'NEILL-Human? Is that what you were gonna say?

15.12.14 CARTER-Well, Harlan said we'd be back. Now we know why.

15.33.18 GENERAL HAMMOND-Colonel O'Neill... or whoever you are...
I've decided to send SG-5 back to PX3-989.

15.39.14 GENERAL HAMMOND (OS CONT)-See if they can shed some light
on this.

15.41.00 O'NEILL-That's a mistake.

15.41.28 GENERAL HAMMOND-Why?

15.42.23 O'NEILL-Because ol' Harlan'll do to them what he did to
us.

15.45.12 GENERAL HAMMOND-Harlan?

15.47.09 DANIEL-The indigenous person we encountered on the other
side, sir.

15.50.16 CARTER (OS)-We do believe that he transferred...

15.52.12 CARTER (CONT)-our consciousness into these artificial bodies.

15.55.05 GENERAL HAMMOND-Why would anyone do that?

15.56.27 DANIEL-Well, he thought he was doing us a favor. He thinks this is... better. (beat) And I never even thought of it at the time, but he must be artificial, too.

16.06.28 CARTER-Well, that would explain how he got to be eleven thousand years old.

16.09.21 GENERAL HAMMOND-What?

16.11.01 O'NEILL-General... I think it's imperative that we go...

16.18.16 GENERAL HAMMOND-Get Doctor Frasier!

16.19.24 AIRMAN (OS)-Yes, sir!

16.27.15 O'NEILL-General... We've gotta go back...

16.36.07 GENERAL HAMMOND-We'll send another team through within the hour!

16.38.06 O'NEILL-Negative. Don't risk any more...

16.40.20 GENERAL HAMMOND-Get this...

16.41.06 GENERAL HAMMOND (OS CONT)-gate opened!

16.42.25 TECHNICIAN (OVER MIC FILTERED)-Stand by...

17.00.00 TEAL'C-My strength returns.

17.02.10 CARTER-We ran out of energy.

17.04.09 DANIEL-What?

17.05.20 CARTER-Well, if these bodies are machines, they need a
power source. It's here.

17.11.06 HARLAN-Ahhh.... Comtraya! Here...

17.17.23 HARLAN (OS CONT)-is where you belong...

17.19.26 HARLAN (CONT)-now. Here is the only place you can be!

17.28.13 O'NEILL-You son of a bitch!

17.32.02 HARLAN-You nearly waited too long. I was worried. Feel
better?

17.35.16 O'NEILL-Better?! What the hell did you do to us?!

17.38.19 HARLAN-You are angry?

17.39.20 O'NEILL-Yes! Give me one good reason why I shouldn't
break you in half!

17.44.01 CARTER (OS)-Colonel,...

17.44.20 CARTER (CONT)-he's the only one who can put our
consciousness back in our real bodies.

17.47.13 HARLAN-Oh, no no no no. I cannot do that.

17.49.09 HARLAN (OS CONT)-In time you will see.

17.51.05 HARLAN (CONT)-I have transferred your consciousness to
the synthetic.

17.53.20 O'NEILL-Well, transfer us back! Now!

17.55.19 HARLAN-No. I cannot. It is permanent.

17.57.25 O'NEILL-I do not want to hear that!

18.00.16 HARLAN-You are damaging me... (beat) I am sorry, but
there is no way to do what you ask.

18.15.19 HARLAN (OS CONT)-Your bodies are all gone.

18.17.04 HARLAN (CONT)-It is all part of the process. This is
what you are now. (beat) You will see. It is...
better.

18.43.09 HARLAN (OS)-This way.

18.45.00 HARLAN (CONT)-Around the corner. Just a few more steps and... home again. You should all rest now. Your internal systems are not yet fully recharged, and they were allowed to...

18.56.10 HARLAN (OS CONT)-drain far too low.

19.04.07 ELECTRONIC VOICE (VO FILTERED)-Attention...
(unintelligible) leak in sector 812, section 2.
Immediate attention is required.

19.11.09 HARLAN-Section two. You see now why I needed you. This place is more than one man can maintain. So much to do. You will see. You will all feel much better soon. Uh, this will not take long at all.

19.37.03 DANIEL (OS)-Jack, he said we should rest.

19.39.00 DANIEL (CONT)-You don't want to run out of energy again.

19.44.17 CARTER-He's right about this place. Half the stuff in this complex isn't working.

19.48.15 CARTER (OS CONT)-The rest is marginal. I mean, look around. He's been jerry-rigging things for centuries.

19.54.28 CARTER (CONT)-He was desperate.

19.56.17 O'NEILL-I say, let the place fall down.

19.59.28 TEAL'C-To condemn Harlan would be to condemn ourselves.

20.03.22 O'NEILL-Your point being...?

20.07.10 TEAL'C-What is done is done.

20.09.07 O'NEILL-Oh, please. Has it occurred to anyone that all we
are now is robots?!

20.25.11 DANIEL-Where are you going?

20.26.12 O'NEILL-I'm going to find Harlan.

20.27.00 DANIEL (OS) (overlapping)-Jack...

20.27.11 O'NEILL (overlapping)-Don't worry! It's just a talk.
Robot to robot.

20.40.01 CARTER-What?

20.41.09 DANIEL-Oh. It's nothing. This notion of living eleven
thousand years entered my mind for a moment, and I
couldn't... It's a lot to take in.

20.56.20 CARTER-Apparently, we have time to adjust. Yeah, we really do have all the same sensations and perceptions that we did in our human form.

21.06.18 DANIEL-Well, if you think about it, the human body is just a machine. It's just a vessel for our consciousness.

21.12.08 DANIEL (OS CONT)-I mean, it, it's just an organic one. I mean, it performs work, requires fuel...

21.16.22 CARTER-It's not the same, Daniel.

21.17.26 DANIEL (OS)-No, it isn't.

21.18.14 DANIEL (CONT)-But maybe in a way, Harlan was right. Maybe this is... "better".

21.25.11 DANIEL (OS CONT)-I mean, we're still "us". We're still...

21.26.27 DANIEL (CONT)-unique. I mean, every thought, every feeling...

21.30.22 CARTER-Have you felt hungry or thirsty since this happened?

21.33.25 DANIEL-No. (beat) Teal'c?

21.40.07 DANIEL (OS CONT)-You still okay?

21.55.17 DANIEL-Where'd he go?

21.57.06 CARTER-Maybe he wants to be alone. I don't blame him.
That way.

22.33.00 HARLAN-I do not understand this obsession of yours.

22.36.08 O'NEILL-It's not an obsession! I just wanna know what
you did with the bodies.

22.40.10 HARLAN-But you have no further use for them. Oh, both of
you are exploring. Yes, good, good. There is much
to see, much to learn from the station. And you are
feeling better, yes?

22.52.00 CARTER-No. Colonel, have you seen Teal'c?

22.55.23 O'NEILL-I left him with you.

22.58.02 HARLAN-Perhaps he is best left alone.

23.02.13 HARLAN (OS CONT)-He is...

23.03.21 HARLAN (CONT)-different, yes?

23.05.27 O'NEILL (OS)-Yes.

23.07.09 O'NEILL (CONT)-Look, Harlan... I wanna know why you did
this. Why you did all of this.

- 23.19.13 HARLAN-Our race was facing destruction. The biosphere of this planet could no longer support us.
- 23.25.20 HARLAN (OS CONT)-This project was undertaken to allow some of our people to continue to live, even...
- 23.29.18 HARLAN (CONT)-if our planet could not. Our, our former bodies would -- whoo -- never have survived this.
- 23.35.01 CARTER-How many were there originally?
- 23.37.18 HARLAN-A thousand.
- 23.38.18 DANIEL-What happened to them?
- 23.39.23 HARLAN-Oh, there were problems with the transfer process, and some were lost.
- 23.43.11 HARLAN (OS CONT)-Secara. Bareeth. Tira. Very, very sad.
- 23.47.08 HARLAN (CONT)-We could not repair Hubald -- creator of all this. His secrets were lost. But many survived. For a while.
- 23.56.23 CARTER-Where are they?
- 23.58.05 HARLAN (OS)-Well, some left through the ring...

23.59.10 HARLAN (CONT)-we discovered. Th-the ring which you went through. They carried along smaller, more portable power sources with them. I expected them to come home. I waited.

24.09.20 HARLAN (OS CONT)-This is home, after all. But they didn't. And the...

23.17.08 HARLAN (CONT)-rest did not accept the gift. They... ended their existence.

24.23.21 DANIEL-How?

24.26.07 HARLAN-They walked above the surface far...

24.27.21 HARLAN (OS CONT)-from here -- outside of the range of the power source.

24.31.14 HARLAN (CONT)-Wallace, he was the last one. He gave his life for the station.

24.35.11 HARLAN (OS CONT)-An accident. And...

24.38.27 HARLAN (CONT)-I have been alone since Wallace. But you are here now. And everything is...

24.45.26 HARLAN (OS CONT)-better now.

24.50.06 HARLAN (CONT)-W-will you hold this for me? (beat)
Comtraya!

25.12.00 HARLAN (OS CONT)-Very helpful!

25.13.13 HARLAN (CONT)-We work together well. There, see? We accomplish things. So...

- 25.18.26 HARLAN (OS CONT)-we must remain near the power source in case it breaks down again. Without the continuous stream of energy from the emitter,...
- 25.26.15 HARLAN (CONT)-these bodies could not function for more than a few hours. That is why I knew you would come back.
- 25.34.08 O'NEILL (OS)-Harlan... We want to go home.
- 25.37.16 HARLAN-Oh, no, no... You must stay. You are friends.
New friends.
- 25.43.11 O'NEILL-Friends? I don't even like you. Chances are, I'll never like you.
- 25.48.04 CARTER (OS) (overlapping)-Colonel...
- 25.50.18 CARTER (CONT)-If we are ever going home, we need him.
- 25.54.09 HARLAN (OS)-You still...
- 25.55.18 HARLAN (CONT)-do not appreciate the gift.
- 25.58.25 HARLAN (OS CONT)-Immortality!
- 26.01.13 HARLAN (CONT)-Eleven thousand, going on infinity, I always say.
- 26.07.07 ELECTRONIC VOICE (VO FILTERED DISTORTED)-Attention!
(unintelligible) leak in primary section...

- 26.11.16 HARLAN (overlapping)-Very bad.
- 26.13.17 CARTER-What is it?
- 26.15.07 HARLAN-The, the power source. For us.
- 26.17.15 HARLAN (OS CONT)-I, I spent too much time away from
repairing the station...
- 26.19.18 HARLAN (CONT)-to create you. Hurry... There is not much
time. We must repair it, or else we we will all
die.
- 26.35.15 HARLAN-I think the thermo-capacitator has malfunctioned
again. Uh huh. Tube 18 is blocked. It draws heat
in from the planetary core. Must be vented. The
surface wind drives irradiated acid rain into the
ventilation system and rusts the valves closed,
and...
- 26.52.25 CARTER-So what's keeping us going?
- 26.54.05 HARLAN-Reserve power. Like when you went back to your
world and... Not much time!
- 26.58.22 DANIEL-Has this ever happened before?

27.00.23 HARLAN-Not since Wallace was alive. It is the reason I created you. We must work together. Please help!

27.16.00 O'NEILL-All right. I'll help. Where's Teal'c? We could use him.

27.23.09 HARLAN-It does not matter. He is... different.

27.26.17 CARTER-Okay. So what do we do?

27.29.10 HARLAN-I had to shut down most of the vents. We have to open more and reroute the ventilation at... there and there. I will stay here to operate the computer.

27.40.25 CARTER-How do we find these vents, and how...

27.41.24 CARTER (OS CONT)-do we open them?

27.43.10 HARLAN-The automatic controls no longer work, and the vents are rusted closed. You will have to open up the vent shafts,...

27.49.23 HARLAN (OS CONT)-and do it manually. Search your minds. It is all there.

27.53.18 HARLAN (CONT)-I made sure of it. You have all the answers you need! Now, go!

27.58.26 HARLAN (OS CONT)-Go!

28.00.12 HARLAN (CONT)-Go! (beat) Phhttt! (beat) Oh dear, oh dear, oh dear...

28.22.25 DANIEL-This way.

28.27.26 ELECTRONIC VOICE (VO FILTERED)-Warning. Pressure rising to critical levels. Pressure level at four Hubald units.

28.52.12 ELECTRONIC VOICE (VO FILTERED)-Pressure rising to six Hubald units. Warning.

29.00.03 DANIEL-There it is. (beat) Did you see that?

29.15.23 CARTER-Daniel.

29.17.20 DANIEL-Oh. Harlan was right. It's rusted shut. I can feel it.

29.48.01 DANIEL-There. I got it.

29.51.07 ELECTRONIC VOICE (VO FILTERED)-Warning. Pressure rising to eight Hubald units.

30.02.19 ELECTRONIC VOICE (VO FILTERED)-Pressure rising to ten Hubald units. Overrun venting speed now...

- 30.10.05 O'NEILL-Not yet, Harlan. Not yet. Argh! Damn! Damn!
Teal'c! Thank God! Where's you been? (beat)
Teal'c, what're you doing? Teal'c! Hey... Stop
it...
- 30.33.03 ELECTRONIC VOICE (VO FILTERED)-Twelve units...
- 30.36.20 O'NEILL-Stop it! What're you doing? Ugh! God...!
- 30.42.06 ELECTRONIC VOICE (VO FILTERED)-Catastrophic coolant
failure is imminent.
- 30.52.12 O'NEILL-C'mon, Teal'c... Come on... Teal'c! Argh! Ugh.
Teal'c!
- 31.06.09 ELECTRONIC VOICE (VO FILTERED)-You have succeeded venting
sufficient pressure. Comtraya!
- 31.12.08 DANIEL-We did it.
- 31.31.01 CARTER-TEAL'C! DON'T!
- 31.40.15 CARTER (OS CONT)-Colonel...
- 31.43.04 O'NEILL-I'm all right...
- 31.44.26 CARTER-I'm sorry, but you're not.

31.46.25 HARLAN-It is only damage. I can repair it.

31.50.06 HARLAN (OS CONT)-All will be well.

31.51.14 HARLAN (CONT)-You will see. And your friend, too.

31.53.14 CARTER-What, Teal'c?

31.54.23 DANIEL-You killed him!

31.55.25 HARLAN-He was malfunctioning.

31.58.07 DANIEL-How will all be well with him if he's dead?

32.01.13 HARLAN-You, you will see.

32.02.16 HARLAN (OS CONT)-Now the station is repaired. Go back to
your quarters and wait. You will,...

32.06.22 HARLAN (CONT)-you will see.

32.10.14 O'NEILL-Keep an eye on him.

32.22.22 DANIEL-Harlan! Open up!

32.25.18 CARTER-Harlan?

32.35.03 HARLAN-No, no! Go away!

32.36.19 DANIEL-Harlan, what the hell are you doing?

32.39.10 HARLAN (OS)-All will be...

32.39.21 HARLAN (CONT)-well. Please...

32.41.26 CARTER-He's making a new synthetic of Teal'c.

32.43.17 HARLAN (OS)-Go back to your quarters, and I will...

32.44.18 HARLAN (CONT)-bring him to you.

32.46.12 CARTER-How is this possible?

32.48.03 HARLAN-Ah, yes. Um, there were two minds before... The creature he carried within -- two beings. And the two minds could not co-exist, and your friend malfunctioned.

32.57.05 HARLAN (OS CONT)-I did not know he was different.

32.58.20 HARLAN (CONT)-I will not make that mistake...

32.59.14 HARLAN (OS CONT)-again this time.

33.00.15 CARTER-Answer my question! How can you make a new synthetic of Teal'c without the original?

33.04.26 O'NEILL (OS)-Captain Carter...

33.06.17 O'NEILL (CONT)-Stand aside.

33.09.00 O'NEILL (OS CONT)-Harlan, turn off that machine.

33.11.00 HARLAN-Th-the process is incomplete. I --

33.12.27 O'NEILL-Turn it off! (beat) Now answer the Captain's question.

33.18.21 HARLAN-Please... If you destroy me,...

33.21.01 HARLAN (OS CONT)-you'll destroy the last survivor of an entire...

33.22.20 HARLAN (CONT)-people, and yourselves, too.

33.24.17 O'NEILL-I'm gonna ask this question once. Do our bodies -- our real bodies -- exist somewhere?

33.35.06 HARLAN-Yes.

33.40.09 O'NEILL-Then I want you to put us back. Now.

33.44.00 HARLAN-I could not do that, even if I wanted to.

33.46.03 CARTER-Why? (beat) If you can transfer our consciousness into these bodies, surely you can reverse the process.

33.52.24 HARLAN-No. It is impossible.

33.54.23 O'NEILL-Why?

33.59.10 HARLAN-I will show you.

- 34.47.17 HARLAN (OS)-I meant no harm.
- 34.51.19 HARLAN (CONT)-I would have returned them through the ring
as soon as I was certain you had accepted your
transference.
- 34.56.25 CARTER-Except that it's not really a transference, is it?
From one to the other...? We're copies.
- 35.02.22 HARLAN-Yes.
- 35.04.27 HARLAN (OS CONT)-As good as the original. Better even.
- 35.12.01 HARLAN (CONT)-If you had not been so persistent, you
would not have seen each other. Once I knew the
transference was successful, I had intended to send
your organic selves back to your world -- uh, their
world.
- 35.25.23 HARLAN (OS CONT)-They would never have known of your
existence.
- 35.28.21 HARLAN (CONT)-And, in time, I hope that you would have
accepted yours.
- 35.34.16 O'NEILL-We really can never go back.
- 35.40.10 HARLAN-No. You belong here. But you are welcome here.
- 35.51.27 CARTER-Teal'c?

35.53.18 TEAL'C-Captain Carter?

35.55.04 CARTER-Colonel, he's all right!

36.00.25 O'NEILL-That's great, Captain.

36.31.00 HUMAN O'NEILL-Dan?

36.32.22 DANIEL-Uh, sort of. (beat) Here, lemme get that.

36.52.08 HUMAN O'NEILL (OS)-Harlan!

36.53.22 HUMAN O'NEILL (CONT)-Where have you been?

36.55.12 HARLAN-Extremely busy.

36.56.16 HUMAN O'NEILL-I can see that. Doing what?

36.58.15 HARLAN-Oh, creating your synthetic others, saving the
 planet... Busy, busy...

37.09.23 HUMAN O'NEILL-Synthetic?

37.11.14 HARLAN-Yes.

37.12.21 HARLAN (OS CONT)-I am sorry for having restrained you for
 so long. I am afraid my plan has failed rather
 miserably.

37.18.20 HARLAN (CONT)-But as I promised... You are free to go.

37.25.11 HUMAN CARTER (OS)-This is impossible.

37.27.15 CARTER-It's true. At first, we didn't even know we'd
been changed.

37.31.24 HUMAN CARTER-Recreating the neural structure on the
molecular level --

37.33.22 CARTER (overlapping)-I know. I know. It defies the
uncertainty principle. (beat) But we are
identical. Right down to the mole on our --

37.42.00 HUMAN CARTER (overlapping)-Hey, hey, hey! Shut up.

37.47.02 TEAL'C-Was not a copy made of me?

37.48.26 HARLAN-Oh, yes.

37.51.03 HARLAN (OS CONT)-Yes, um...

37.53.02 HARLAN (CONT)-But, um, I had to disintegrate you.

38.01.06 TEAL'C-I see.

38.05.00 HUMAN CARTER (OS)-...You just don't like it...

38.07.28 HUMAN DANIEL (OS)-Uh... well... Up until --

38.10.05 HUMAN CARTER (OS)-I think in due time our circumstances
will be much different...

38.26.27 HUMAN O'NEILL-Listen... I'm not too happy about this
either, you know.

38.41.22 O'NEILL-You think you know how I feel?

38.44.13 HUMAN O'NEILL-Well, yeah... We-we're basically the same
guy, aren't we?

38.51.20 O'NEILL-Have a look.

38.53.10 HUMAN O'NEILL-Ow. Sorry.

38.56.15 O'NEILL-Yeah.

39.00.04 HUMAN O'NEILL-So, uh... What the hell happened here?

39.08.03 O'NEILL-Somebody stole my life.

39.10.02 O'NEILL (OS CONT)-That's what happened.

39.11.00 HUMAN O'NEILL-You talking about my life?

- 39.12.01 O'NEILL-Hey. I've got every right to it that you do.
(beat) I was kinda hopin' I could figure out a way to undo all this, get myself back in my body, where I belong.
- 39.25.25 HUMAN O'NEILL-Well, it's occupied, thank you.
- 39.29.00 O'NEILL-I noticed that. What does that make me? (beat)
What do you want?
- 39.44.02 HUMAN O'NEILL-Well, they're all debating the meaning of life out there. Both Daniels think this is all fascinating. The Carters are arguing already. Teal'c feels left out. You and I have got a few things to talk about.
- 40.00.26 O'NEILL-I'm not gonna give you a hard time about who gets to go back, if that's what you mean.
- 40.05.05 HUMAN O'NEILL-Well, thank you.
- 40.06.05 O'NEILL-It has nothing to do with generosity, believe me.
(beat) I can't go back. If I could, it might be a different story altogether.
- 40.17.00 HUMAN O'NEILL-Yeah, well... There is, um, the little issue of security.

40.25.00 HUMAN O'NEILL (OS CONT)-You know everything I know about
Earth. Codes,...

40.28.25 HUMAN O'NEILL (CONT)-defenses...

40.30.14 O'NEILL-We'll bury the gate. (beat) And don't even
think about sending a bomb to make sure.

40.36.10 HUMAN O'NEILL-I wasn't.

40.37.15 O'NEILL-Yes, you were. I know you.

40.42.01 HUMAN O'NEILL-All right. All right. You have my word...
Colonel.

40.47.10 O'NEILL-Call me Jack.

40.50.20 HARLAN (OS)-Colonel O'Neill?

40.53.25 HUMAN O'NEILL/O'NEILL-Oh, for cryin' out loud...

40.56.24 O'NEILL-I'll handle this.

41.11.02 HARLAN-Ah! There you are. I was worried about you.
Where is the other one?

41.15.17 O'NEILL-He's getting ready to go home.

41.21.16 HARLAN (OS)-Yes.

41.21.21 HARLAN (CONT)-All for the best. I hope in time you will
forgive me.

41.28.04 O'NEILL-You were just trying to survive.

41.29.23 HARLAN-Yes. And we will! All will be well. You will
see.

41.35.25 O'NEILL-Harlan... (beat) People are not supposed to live
forever.

41.41.14 HARLAN-Maybe not. But if you try just a few hundred
years, perhaps you might change your mind.

41.47.08 HARLAN (OS CONT)-Yes?

42.04.07 HUMAN O'NEILL-So... Don't forget to bury the gate after
we're gone.

42.08.18 O'NEILL-Like that's something I'd forget.

42.14.23 HUMAN O'NEILL-Well... See ya. And, uh...

42.24.16 HUMAN O'NEILL (OS CONT)-You should have that looked at.
It's, uh...

42.27.28 HUMAN O'NEILL (CONT)-Whoo.

42.32.11 O'NEILL-Have a good life.

42.37.28 HUMAN O'NEILL-I'll see ya...

43.01.27 FADE TO END CREDITS.
