STARGATE: SG-1

"New Ground"

Episode #6540

Running Time: 44.19

<u>TIMECODE</u>   <u>DIALOGUE</u>

START TIMECODE 00.00.00 AT FIRST FRAME OF PICTURE

00.23.26   NYAN- Another one.

00.33.10   MALLIN- Perhaps the ancestors used it for astronomical calculation.

00.36.16   NYAN- The settlement must be nearby.

01.02.25   TECHNICIAN- Chevron four locked.

01.04.08   HAMMOND- Report.

01.05.02   CARTER- Sir, we've just got our first hit with the cold address program.

                  CARTER (OS CONT)- P2X-416.

01.10.00   HAMMOND- Prepare the MALP.

01.21.07   MALLIN- We must leave, Nyan. (beat) Nyan, you'll drown!

01.47.07   NYAN- It doesn't feel like water.

02.06.27   DANIEL- What's up?

02.08.04   CARTER- The cold dialing program made a positive hit on P2X-416.

02.13.18   DANIEL- Wonder why...

02.15.13   CARTER- Looks like the locals have unburied the Stargate since the computer last

                  dialed.

02.19.00   O'NEILL- Now, see, that's what I don't understand. How does a computer know how

                  to do that?

02.22.22   CARTER- It doesn't ,sir. I created the cold dialing program to periodically redial

                  cartouche Stargate addresses that hadn't connected the first time. This is our

                  first hit.

02.32.23   O'NEILL- Oh.

02.34.03   CARTER (OS)- Receiving MALP telemetry...
                  CARTER (CONT)- Now.

02.48.13   MALLIN (VO ON MONITOR FILTERED)- Nyan, what is it?

02.50.22   NYAN (ON MONITOR FILTERED)- I don't know.

02.55.04   DANIEL- Can you, uh... Can you follow him? (INTO RADIO) Hello, Nyan.

                  DANIEL (VO CONT ON RADIO FILTERED)- Don't be afraid. Uh, uh... My name is

                  Daniel Jackson.

03.18.07   NYAN- Are you a mechanical life form?

03.19.23   DANIEL (VO ON RADIO FILTERED)- No. I'm, I'm communicating with you through

                  that device.

03.25.00   NYAN- From where?

03.26.07   DANIEL (VO ON RADIO FILTERED)- From another planet.

03.27.27   MALLIN- This is a trick. We must report this, Nyan.

03.30.22   NYAN- No. Not yet.

03.33.14   MALLIN- Why?

03.35.18   DANIEL- Sir, request permission to visit P2X-416.

03.38.21   O'NEILL- Wait a minute...

03.40.06   DANIEL- Jack, they're obviously intelligent. Judging from their, their clothes and

                         tools, they appear to be close to our level of technology.

03.47.14   O'NEILL- And has anyone seen a DHD in this transmission?

03.57.12   CARTER- He's right.

04.00.21   HAMMOND- Maybe you better take a Naquadah reactor with you...

                         HAMMOND (OS CONT)- so you can power up the gate and dial out manually.

04.06.05   O'NEILL- Okay.

04.16.18   NYAN- Mallin... I think we found the Gateway.

04.22.13   MALLIN- There is no gateway. That is Optrican legend.

04.25.10   NYAN- Well then, how do you explain this?

04.29.02   MALLIN- This could be very dangerous, Nyan. Do you realize what this would

                         mean?

04.40.11   NYAN- It would mean we were wrong, and the Optricans were right.

04.44.09   DANIEL (VO ON RADIO FILTERED)- Nyan, is it all right if we visit you?

04.46.26   MALLIN- No!

04.47.14   NYAN- Yes!

04.48.09   DANIEL (VO ON RADIO FILTERED)- Okay. We'll be with you shortly. Um...

                  DANIEL (CONT INTO RADIO)- Try to stay close to that mechanical device I'm, I'm

                          speaking through, and, uh,...

                  DANIEL (VO CONT ON RADIO FILTERED)- try to avoid that big splash you saw

                          before.

                  DANIEL (CONT INTO RADIO)- It's, it's kind of dangerous.

05.01.17   NYAN- We will be waiting here to welcome you, Daniel. Mallin, come back!! If you

                          tell them, they might kill whoever comes through! Mallin!

06.24.05   EPISODE TITLE:

                  NEW GROUND

06.47.10   DANIEL- Hello, Nyan.

06.50.13   NYAN- You're human...

06.52.08   DANIEL- Yes.

                  DANIEL (OS CONT)- I'm, uh, Daniel Jackson,... the person you were talking to

                        before. This is, uh, Major...

                  DANIEL (CONT)- Carter, Colonel Jack O'Neill, and, and Teal'c. We're from a planet

                        called Earth. (beat) You all right?

07.09.16   NYAN- Then the legend is true.

07.12.00   DANIEL- What legend is that?

07.14.17   NYAN (OS)- Well...

                  NYAN (CONT)- The Opticans believe that humans were brought to this planet by

                        aliens who traveled through a gateway. But during the Upheaval, the gateway

                        was buried and the humans could no longer come through.

07.26.26   DANIEL- What was the Upheaval?

07.28.13   NYAN (OS)- A period of violent earthquakes and, uh, volcanic eruptions covering

                        most of this continent. About 2,000 years ago.

07.36.03   CARTER- So if the Stargate's been buried that long, how did you know where do

                        look for it?

07.40.18   NYAN- I-I was not looking for it. I-I...

                NYAN (OS CONT)- was hoping to find a primitive settlement that...

                NYAN (CONT)- that was here before the Upheaval. I was hoping to prove the

                Bedrosian theory.

07.51.23   O'NEILL- What's that?

07.52.28   NYAN- That human life was created on Bedrosia without a gateway.

07.57.20   CARTER (OS)- So this...

                CARTER (CONT)- this country is called Bedrosia?

08.00.15   NYAN- This, this continent.

08.02.02   DANIEL- And then, who are the Opticans?

08.04.23   NYAN- A rival continent.

08.07.18   O'NEILL- Rival as in what?

08.11.09   NYAN- We believe that we were created on this continent, and the Opticans believe

                that their holy gateway is on this continent. Therefore, we've been at war for

                decades.

08.21.05   O'NEILL- Okay. Carter, you want to make sure...

                O'NEILL (OS CONT)- the reactor's all hooked up, just in case.

                O'NEILL (CONT)- Mind if I ask how close to the front lines we might be?

08.30.07   NYAN- A great distance. There is no need for concern.

08.33.00   O'NEILL- Mmm hmm.

08.50.24   TEAL'C- O'Neill!

08.56.16   NYAN- Oh no... no... We have to hide.

08.59.17   O'NEILL- I thought you said they were not around here.

09.01.25   NYAN- Those are not Optrican. They're my people, Bedrosian.

09.06.00   O'NEILL- Good guys?

09.07.00   NYAN- Good is not the first word that I would use to describe the ones that
                approach.

09.09.28   O'NEILL- Aha.

09.10.23   NYAN- We must run. Now.

09.12.13   O'NEILL- Okay. Carter,...

                  O'NEILL (OS CONT)- Dial it up!

09.14.25   CARTER- I need five minutes before it can be operational, sir.

09.17.06   NYAN- This way! Quickly!

09.24.05   O'NEILL- Screw it. Let's go. C'mon.

10.13.28   O'NEILL- Do you believe we come in peace? Got a commanding officer around

                  here? (beat) Wow. Tough crowd.

10.33.15   CARTER- What happened to Nyan?

10.35.16   O'NEILL- I'd imagine he's saving his own butt right about now.

11.32.19   RIGAR- Mallin... You said there were aliens here.

11.41.24   MALLIN- Yes, sir. Those people came through the gateway.

11.44.03   RIGAR- No. They didn't.

                  RIGAR (OS CONT)- It's a trick.

                  RIGAR (CONT)- A contrivance.

11.49.14   MALLIN- Perhaps. But one of those aliens named Daniel, he talked to Nyan through

                that machine that came through the circle.

11.59.06   RIGAR- The shuttlecraft will take you to my base. We will question you on this

                matter further. (beat) Either this Nyan fired at my craft, or another Optrican is

                out there. Either way, I want them found.

12.15.24   SOLDIER- Yes, sir.

12.29.02   O'NEILL- Okay. That's a needle. Ah! (beat) Ow...!

12.52.27   RIGAR- Which of you is Daniel?

12.54.05   O'NEILL- I'm in command. Colonel Jack O'Neill here.

12.58.11   RIGAR- I'm unfamiliar with that Optrican designation.

13.00.27   CARTER- We're not Optrican. We're explorers from another planet.

13.03.25   DANIEL- We traveled through the Stargate.

13.07.18   RIGAR- This type of psychological warfare – simulating the Optrican "Gateway"

                fallacy to undermine our most basic beliefs – will not work.

13.15.27   O'NEILL- Yeah. I know that could be hard to believe. So why don't you let us show

                          you how the Stargate works,...

                          O'NEILL (OS CONT)- and if you're still not convinced, we'll just...

                          O'NEILL (CONT)- take our stuff and go. Fair enough?

13.35.11   RIGAR- Erect a quarantine field.

13.43.21   O'NEILL- Hey!

13.54.07   TEAL'C- State your purpose.

13.56.25   NYAN- Nyan...!

14.11.07   NYAN- We have to get away from here.

14.12.23   TEAL'C- Where are my friends?

14.15.02   NYAN- Captured.

14.17.09   TEAL'C- I will not leave my friends.

14.19.02   NYAN- We can't get to them. Rigar set up a quarantine field.

                          NYAN (OS CONT)- And as soon as he finds this soldier you killed...

                          NYAN (CONT)- You're blind.

15.06.04   SOLDIER- They were starting to dig here.

15.08.15   RIGAR- Finish for them. I want to know what's in there.

15.20.23   PAREY- I have the results from the blood analysis. There's a 98 percent

                  correspondence. They are definitely human. But none of them are showing a

                  particle match with the Bedrosian Central Registry.

15.30.04   RIGAR- Then that proves they are Optrican. (beat) Does it not? (beat) Say what

                  you are thinking.

15.44.00   PAREY- What if they're telling the truth? What if it is a gateway, and the Optricans

                  are right?

15.48.06   RIGAR- No. It's a lie.

15.50.00   PAREY- But how can you be sure?

15.51.03   RIGAR- I am sure. Because we have not spent our lives praying to a god who does

not exist.

RIGAR (OS CONT)- And many of our people have not lost their lives fighting a

meaningless war.

RIGAR (CONT)- I won't accept that.

RIGAR (OS CONT)- I've studied the book of Nefertum word for word.

RIGAR (CONT)- Cover to cover. It is the truth.

16.08.00   PAREY- What if it's not?

16.09.00   RIGAR (OS)- It is...

RIGAR (CONT)- the truth. We began here. (beat) That device is a fabrication to

fake the Optrican "Gateway" myth.

16.20.26   PAREY- To what end?

16.21.15   RIGAR (OS)- To sow the seeds...

RIGAR (CONT)- of doubt among our people. To created dissension from within.

(beat) I will not allow our people to have their faith attacked in such a cynical

way.

16.36.11   PAREY- What do you want to do?

16.39.25   RIGAR- We will not allow the events that have transpired here to leave this place.

16.43.25   PAREY- Then we must find this Nyan and the fourth "Optrican".

16.47.03   RIGAR- Yes. And we'll find out what we can from the three we have in custody. Then we will dispose of them.

16.58.11   PAREY- Yes, sir.

17.00.17   NYAN- I come here for shelter. We also store supplies here. Are you injured, in addition to your eyes?

17.09.05   TEAL'C- I will be fine.

17.14.15   NYAN- You can sit here. Here. (beat) It's water. (beat) It's amazing how one discovery can change everything.
NYAN (OS CONT)- For years, I've been searching for proof that we were...
NYAN (CONT)- created on this continent by Nefertum.

17.49.14   TEAL'C- Nefertum. The blue lotus blossom of Ra.

17.54.10   NYAN (OS)- He is represented in our texts by a blue lotus blossom.
NYAN (CONT)- But what is "Ra"? And how do you know about Nefertum?

18.03.22   TEAL'C- Nefertum was another System Lord to the one named Ra, with whom I did battle.

18.11.15   NYAN- I don't understand. Nefertum was and is the creator of all of us. He, he

created this planet and this great continent.

18.19.02   TEAL'C (OS)- Correction:

TEAL'C (CONT)- Nefertum was an alien who most likely brought your people

through the Stargate as slaves...

TEAL'C- (OS CONT)- many thousands of years ago.

18.26.18   NYAN- That is what the Optricans say.

18.28.23   TEAL'C- Then they are correct.

18.30.28   NYAN- Oh, dear Nefertum... This is blasphemy. (beat) But if it is true, then it could

change everything. I, I must show my colleagues at the Research Academy.

18.44.15   TEAL'C- Can you be certain they will believe you?

18.46.21   NYAN- They are scientists, as I am. They will realize they are wrong when

presented with the evidence.

18.51.15   TEAL'C- Your military has the Stargate in its command.

18.54.04   NYAN- Not the gateway. You. You are the proof.

18.59.00   TEAL'C- I will not be the proof.

                  TEAL'C (OS CONT)- And I will not allow my friends to be imprisoned as they are.

                  TEAL'C (CONT)- You must help me rescue them.

19.11.24   NYAN- Let me see.

19.12.17   TEAL'C- Do not!

19.13.10   NYAN- You could have a serious injury.

19.15.21   TEAL'C- I will be fine.

19.20.00   NYAN- I have something that will help. I'll bring it back with the other supplies.

19.23.07   TEAL'C- Nyan! Nyan!

19.53.23   O'NEILL- All right...! That hurts.

20.02.14   DANIEL- Well, this day just keeps getting better and better.

20.07.17   O'NEILL- Yeah.

21.01.16   O'NEILL- We should talk.

21.03.10   RIGAR- Yes. Let us talk about your friend in the woods.

21.09.05   O'NEILL- I have no friends. In the woods or otherwise.

21.13.11   DANIEL- We're not spies. We're peaceful explorers. We traveled through what you

call your gateway.

21.21.19   CARTER- Fine. The Stargate then. But that's what we came through.

21.25.21   RIGAR- All four of you?

21.26.24   CARTER- All three of us.

21.27.27   RIGAR (OS)- It is impossible for one to travel...

RIGAR (CONT)- to other planets, much less through a circle of stone.

21.32.08   CARTER- The Stargate isn't made of regular stone. If given enough power, a

wormhole forms within the circle, and that allows us to travel to other worlds.

21.39.02   RIGAR- "Wormhole"...?

21.40.02   O'NEILL- Giant worms. Huge.

21.43.25   DANIEL- Wormhole is just an expression.

                  DANIEL (OS CONT)- It has nothing to do with worms.

                  DANIEL (CONT)- It's a tunnel through space.

21.51.11   RIGAR- And how is this illusion of water created that I have heard described?

21.54.14   DANIEL- Well, you're right in that it is an illusion. It's not actually water.

21.57.11   RIGAR- Then what is it?

21.58.28   O'NEILL- Magic.

22.00.04   CARTER- It's an event horizon made up of quantum particles that form a wormhole.

22.04.05   DANIEL- An alien race – the Goa'uld – used the Stargate to transport humans...

                  DANIEL (OS CONT)- from Earth to other planets. Which...

                  DANIEL (CONT)- is how your people came to be on Bedrosia. Argh!

22.21.24   RIGAR- My people began on Bedrosia, as did yours.

                  RIGAR (OS CONT)- We were all created by Nefertum.

22.27.01   DANIEL- Nefertum? Son of Sakmet? Blue Lotus Blossom.

                  DANIEL (OS CONT)- That's who you believe created you?

22.34.26   RIGAR- Yes.

22.35.22   DANIEL- Well, he must have been a Goa'uld.

22.37.10   RIGAR- A what?

22.39.11   DANIEL- An alien.

DANIEL (OS CONT)- He must have transported your people...

DANIEL (CONT)- through the Star – Argh!

22.52.00   RIGAR- Optrican fallacy!

RIGAR (OS CONT)- Return them to the prison tent.

23.05.01   NYAN- What are you doing? (beat) You're an alien.

23.10.00   TEAL'C- Come no further.

23.11.28   NYAN- But Daniel said you were all human.

23.13.16   TEAL'C- Speak of it no more.

23.20.20   NYAN- What are you?

23.22.08   TEAL'C- As I have said, speak of it no more. (beat) I did not believe you would

                  return.

23.36.03   NYAN- You are the most important that has ever happened to my planet.

                  NYAN (OS CONT)- Although I have not yet decided...

                  NYAN (CONT)- if it is a good thing or bad.

                  NYAN (OS CONT)- I brought something...

                  NYAN (CONT)- for your eyes. It is a healing device that, among other things can

                  regenerate the visual nerves.

                  NYAN (OS CONT)- It will help most of your sight return within a day.

                  NYAN (CONT)- Of course, it was designed for humans. So, how you will respond is,

                  uh...

24.01.16   TEAL'C (OS)- I have no need for it.

                  TEAL'C (CONT)- My sight will return on its own.

24.06.13   NYAN- Because you are an alien?

24.09.11   TEAL'C- The others are human. I am a Jaffa.

                  TEAL'C (OS CONT)- I possess within me a symbiote...

                  TEAL'C (CONT)- that accelerates healing.

24.21.04   NYAN- Forgive me, but you do not appear to be healing at all.

24.24.01   TEAL'C- My symbiote was severely damaged by my own staff weapon blast. It must

                       first heal itself.

24.31.10   NYAN- How long will that take?

24.34.00   TEAL'C- It could be days.

24.37.00   NYAN- Might it not die itself?

24.45.21   TEAL'C- It is possible.

24.53.09   NYAN- And if that happens?

24.55.27   TEAL'C- Then I too will die.

25.09.05   O'NEILL- Problem...?

25.27.07   SOLDIER- Move!

25.34.14   RIGAR- Explain. (beat) Explain! (beat) There is a fourth. He did this.

25.44.23   DANIEL- No, there isn't. I don't know how this man was killed.

25.53.21   RIGAR- Explain this.

26.05.17   TEAL'C- What do your people intend to do with my friends?

26.08.18   NYAN- They are evidence that everything my people believe in is wrong. That

                  everything the enemy believes is right. And that is not an easy thing for

                  military minds to digest.

26.19.05   TEAL'C- Then they will kill my friends and destroy the Stargate and deny this event

                  ever occurred.

26.25.26   NYAN- Probably.

26.28.02   TEAL'C- We must soon depart.

26.31.07   NYAN- To do what?

26.32.11   TEAL'C- Rescue them!

26.33.21   NYAN- Y-you're still blind.

26.35.18   TEAL'C- I will manage. (beat) Nyan!

26.39.19   NYAN- You will? (beat) I will not be part of a suicide mission. This device only

                  works within the first 30 hours. Do you want my help or not?

26.58.01   TEAL'C- You wish to use me to further your scientific aspirations, do you not?

27.04.15   NYAN- You are proof that my theories have been all wrong.

27.06.22   TEAL'C (OS)- Then perhaps you would be...

                  TEAL'C (CONT)- better off if I were no longer alive.

27.12.05   NYAN- Teal'c, I am a scientist.

                  NYAN (OS CONT)- When I find evidence that my theories were wrong,...

                  NYAN (CONT)- it's as exciting as if they were correct. Scientific advance in either

                  direction is still an advance.

27.28.19   TEAL'C- You sound like Daniel Jackson. (beat) Do what you can.

27.44.00   NYAN- The pain is the nerve regenerating. (beat) Only a moment...

                  NYAN (OS CONT)- When I was out, I went to a place...

                  NYAN (CONT)- where I could look upon Rigar's camp. Your friends are still there.

                  NYAN (OS CONT)- And Rigar's men have dug up...

                  NYAN (CONT)- the smaller device that looks related to the gateway.

28.03.16   TEAL'C- The DHD. Perhaps circumstances have become more favorable... (beat)

                  There. (beat) There. I see a light there.

28.24.21   NYAN- Yes. Good.

NYAN (OS CONT)- Then it works on your kind.

28.29.10   TEAL'C- But I can only see a faint light.

28.30.22   NYAN- That was only the first treatment. We'll do it as many times as necessary.

There's no guarantee, but it should help.

28.38.15   TEAL'C- Then do it.

28.39.17   NYAN- We must wait between treatments, or we will do damage rather than good.

29.05.08   CARTER- Daniel, you okay?

29.11.03   O'NEILL (OS)- Hey, Rigar...

O'NEILL (CONT)- You know that "we come in peace" business? Bite me.

29.20.06   RIGAR- You have one last chance.

29.23.02   DANIEL- I don't know how that man was killed. We are not Optrican spies.

29.34.13   RIGAR (OS)- Is there another...

RIGAR (CONT)- one of your people out there?

29.37.03   DANIEL- I don't know how that man...

                     DANIEL (OS CONT)- was killed. We are not -- (beat) No, there is not another one

                           of...

                     DANIEL (CONT)- my team out there! Turn it off!

29.45.26   RIGAR- What's he look like?

29.46.27   DANIEL- Turn it off You'll kill him!

29.48.02   RIGAR- No. <u>You</u> will kill him.

29.53.07   SOLDIER (OS)- Commander Rigar!

30.53.14   TECHNICIAN (OS)- Chevron...

                     TECHNICIAN (CONT)- seven locked, sir. Wormhole engaged.

31.10.12   TECHNICIAN- Ready to transmit signal, sir.

31.13.23   HAMMOND (INTO RADIO)- SG-1...

                     HAMMOND (VO CONT ON RADIO FILTERED)- This is General Hammond. Come

                         in. I repeat. SG-1, this is General Hammond. Come in.

31.25.11   PAREY- It is the gateway.

31.27.07   RIGAR- This is not the gateway It's a trick.

31.31.02   SOLDIER- Rigar, sir!

31.33.16   HAMMOND (VO ON RADIO FILTERED)- SG-1, please respond... SG-1, please

                       come in...

31.43.12   RIGAR (INTO RADIO)- Who is this?

31.45.03   HAMMOND (INTO RADIO)- This is General Hammond of the SGC. With whom am

                       I speaking?

31.48.27   RIGAR (VO ON RADIO FILTERED)- The one who holds your people.

31.50.27   HAMMOND (INTO RADIO)- I want to speak with Colonel O'Neill now.

31.53.22   RIGAR (VO ON RADIO FILTERED)- You will speak with me.

31.59.05   NYAN (OS)- Almost there.

32.09.19   TEAL'C- Our objective is to free O'Neill and the others.

                       TEAL'C (OS CONT)- We will then lay down cover fire to...

                       TEAL'C (CONT)- enable one of them to dial the Stargate.

32.16.22   NYAN- Getting inside the camp's gonna be our first problem. The quarantine field is

                        only penetrable by shuttlecraft.

32.21.20   TEAL'C- An obstacle easily overcome. (beat) My vision is improved.

                        TEAL'C (OS CONT)- Thank you, Nyan.

                        TEAL'C (CONT)- You may use this to defend yourself.

32.46.05   NYAN- I-I've never used a weapon before.

32.47.24   TEAL'C- I am confident that you will learn quickly. (beat) We must depart.

33.04.03   RIGAR (INTO RADIO)- Tell me, how does this trick work? Is it some sort of

                        projection?

33.09.02   HAMMOND (INTO RADIO)- I assure you, what you're seeing is real. Now, please

                        let me speak to Colonel O'Neill.

                        HAMMOND (OS CONT)- Try to pull up the MALP.

33.20.01   RIGAR (VO ON RADIO FILTERED)- From where do you broadcast?

                        RIGAR (CONT INTO RADIO)- Are you in Optrica or within Bedrosian borders?

33.26.06   HAMMOND (VO ON RADIO FILTERED)- Once my people are returned, I will be

                  happy to discuss...

                  HAMMOND (CONT INTO RADIO)- an exchange of information with you.

                  HAMMOND (OS CONT)- See if you can get a clear line of sight on O'Neill.

33.43.12   RIGAR (OS INTO RADIO)- You will send the plans for this device. You will send the

                  coordinates of your position. And when you have...

                  RIGAR (CONT INTO RADIO)- exposed your entire fraud, I will consider sparing your

                  operatives' lives.

34.08.23   HAMMOND (VO ON RADIO FILTERED)- You will return my people immediately. Is

                  that clear?

                  HAMMOND (CONT INTO RADIO)- Do we understand each other?

34.28.28   RIGAR (INTO RADIO)- I assure you, if you...

                  RIGAR (CONT ON MONITOR FILTERED)- attempt any sort of rescue, I will kill your

                  people.

34.39.12   TECHNICIAN- We've lost all MALP telemetry, sir.

34.40.20   HAMMOND (OS)- Shut it down.

34.56.00   RIGAR (OS)- Call in a transport shuttle. I want them moved...

                RIGAR (CONT)- to a more secure facility.

                RIGAR (OS CONT)- Put them away until it gets here.

35.35.23   NYAN- Are you sure I should be the one to do this?

35.38.08   TEAL'C- You will perform well. I am certain.

36.18.00   NYAN- Stun. Don't kill.

36.28.05   PAREY- The transport shuttle will be here in a moment, sir.

36.31.07   RIGAR- I will accompany the prisoners back to the base. You will remain here to

                guard the ring. Be sure --

37.01.27   NYAN (OS)- Help me! Help me!

                NYAN (CONT)- He's out there! In the forest!

37.08.07   RIGAR- Who's out there?

37.09.03   NYAN- The alien! He killed the soldiers,...

                NYAN (OS CONT)- then he tried to kill me with his lightning weapon.

                NYAN (CONT)- But I got away and I came here...

37.14.25   RIGAR- Take the shuttlecraft! Find him! (beat) Put him under guard. (beat) Tell

                  them to launch. Now.

37.30.20   PAREY- Yes, sir. Why haven't you launched…

                  PAREY (OS CONT)- this craft?

38.12.04   CARTER- Nyan!

38.17.14   NYAN- Hit the side button to shoot long-range.

38.19.27   DANIEL- Where's Teal'c?

38.21.01   NYAN- He's outside.

38.23.09   O'NEILL- Daniel, dial us up. We'll lay down cover.

39.20.09   TECHNICIAN- Unidentified traveler.

39.21.12   HAMMOND- Close the iris.

39.25.24   TECHNICIAN- I'm not receiving a GDO code, sir.

39.33.28   SCREEN READS:

                  RECOGNIZED SG-1

39.35.20   TECHNICIAN- It's SG-1, sir.

39.36.27   HAMMOND- Open the iris.

39.38.06   TEAL'C- Go!

39.49.22   O'NEILL- Carter, go! (beat) Nyan, can you cover me?

39.59.08   NYAN- I will.

40.12.00   O'NEILL- Teal'c! (beat) You look a little rough there, Teal'c... (beat) We gotta go.

                  (beat) All right...? Go...

40.44.01   O'NEILL- Teal'c!

40.45.03   TEAL'C- He's coming with us, O'Neill.

40.57.13   TEAL'C- General Hammond, he's a friend.

40.58.28   HAMMOND- Stand down!

41.01.08   O'NEILL- A litle help here...!

41.06.20   DR. FRAISER (OS)- (unintelligible)

41.07.20   MEDIC (OS)- Okay, let's check the eyes for dilation.

41.24.17   DR. FRAISER- Well, Teal'c, all I can say is that Junior is a resilient little guy.

41.29.02   NYAN- Who is Junior?

41.31.09   TEAL'C- That is the name Colonel O'Neill has given my symbiote.

41.34.08   CARTER- So how you feeling?

41.35.25   TEAL'C- Greatly improved, Major Carter. Thank you.

41.38.20   O'NEILL- Here's some good news. The Air Force has agreed to get you refugee

                          status.

                  O'NEILL (OS CONT)- Which means you can stay here on Earth.

                  O'NEILL (CONT)- With us. If you'd like.

41.47.21   NYAN- What would I do here?

41.51.00   DANIEL- Well, I think we've got a little job for you, Nyan, if you're interested.

                    DANIEL (OS CONT)- I have a backlog of ancient artifacts gathered from ancient

                            missions,...

                    DANIEL (CONT)- and I could really use a research assistant.

                    DANIEL (OS CONT)- It'd also be a great way to learn about...

                    DANIEL (CONT)- the history of your ancestors.

42.07.22   DR. FRAISER- But for now, you both need to rest.

42.12.14   O'NEILL- And we'll leave you to that.

42.27.16   NYAN- Thank you, Teal'c.

42.29.20   TEAL'C- You have saved my life, as well as the lives of my friends. It is I who

                            should thank you.

42.39.16   NYAN- I still wish I could have shown you to my friends in the science community.

                            They would have been fascinated.

42.44.24   TEAL'C- Perhaps one day the situation on your planet will improve and you will get

                            that opportunity.

43.01.27   FADE TO END CREDITS.
