00.24.00 O'NEILL- Hey.

00.25.23 DANIEL- Hey.

00.27.07 O'NEILL- How you doing?

00.28.23 DANIEL- Good. Did you get your hair cut?

00.33.19 O'NEILL- Yeah. Why?

00.35.06 DANIEL- No reason.

00.37.27 O'NEILL- Can I see your scar?

00.40.00 DANIEL- No.

00.43.01 O'NEILL- Uh, Fraiser says it'll be about a week before you get out of here.

00.48.05 DANIEL- You know, it's funny. I mean, after everything we've been through these past few years... And of all things, it's my appendix that lays me out.

DANIEL (OS CONT)- But it's not gonna be a week. I mean, I, I...

DANIEL (CONT)- I practically, I feel fine now.

01.01.13 O'NEILL- You wanna go fishing?

01.05.14 DANIEL- Actually, I, wouldn't, uh... Well, maybe... I-I think maybe I will stay here for two or three... three days.

01.16.03 O'NEILL- Bye.

01.29.07 O'NEILL- Carter!

01.31.24 CARTER- Sir, hi. How's Daniel?

01.36.11 O'NEILL- Ah, he's gonna be fine. What are you doing?

01.40.16 CARTER- Uh, I'm getting ready to do a detailed analysis on the decay rate of Naquadah within the reactor. It's really quite amazing. Unlike plutonium,...

CARTER (OS CONT)- Naquadah actually has a --

01.49.11 O'NEILL- Ahhh! I'm on vacation.

01.54.05 CARTER- Yes, sir.

01.55.28 O'NEILL- So are you.

01.57.24 CARTER- I know. It's not that I'm happy Daniel's in excruciating pain or anything like that, but I've actually been looking forward to...

CARTER (OS CONT)- an opportunity like this for quite some time.

02.07.15 O'NEILL- You know, maybe it's just me. But I always thought when one got some leave, one actually left. (beat) Uh, Daniel's recouping, Teal'c's off visiting his kid somewhere...

O'NEILL (OS CONT)- Personally I have a date with a little...

O'NEILL (CONT)- lake in Minnesota where the bass grow that big.

02.27.05 CARTER- Really?

02.29.11 O'NEILL- Oh, yes. What I'm describing here, Carter, involves a very special element.

02.38.10 CARTER- This is fun to me, sir.

02.43.06 O'NEILL- Well, if playing with your little reactor sounds better than exploring the lakes and natural beauty of Northern Minnesota, there's not much that I can do.

02.53.09 CARTER- Was that an invitation, sir?

02.55.24 O'NEILL- Nothing wrong with that, is there?

O'NEILL (OS CONT)- A couple of co-workers,...

O'NEILL (CONT)- friends if you will, fishing. It'd be fun.

03.05.24 CARTER- Wow. I, I appreciate the offer, sir, really. Sounds great. But I should --

03.13.23 O'NEILL- No sweat. (beat) See you in a week. And by all means... have fun.

03.30.23 CARTER- Colonel! Uh... Have a good time.

03.42.17 O'NEILL- Land of sky blue waters.... loofahs...

O'NEILL (OS CONT)- Yah sure, you betcha, snookums...

O'NEILL (CONT)- Mosquitoes --

03.56.07 O'NEILL- ... Home of the Loon... (beat) Thor...? Hello...? (beat) What the hell...?
(beat) Damn...

06.32.16 EPISODE TITLE:
NEMESIS

06.40.09 CARTER- I'm pretty sure it was the Asgard transportation technology.

- 06.44.00 HAMMOND- For Jack's sake, let's hope you're right.
- 06.46.02 CARTER- Depends on what they want this time, sir.
- 06.49.03 HAMMOND- True. Send a message through the Stargate to Teal'c.
- 06.54.23 CARTER- Yes, sir.
- 07.02.23 HAMMOND (INTO PHONE)- This is General Hammond. Get me General Davis at
 the Pentagon.
- 07.12.21 O'NEILL (OS)- Thor?
- 07.13.23 THOR (VO)- Greetings, O'Neill. Turn right. Then enter the door at the end of the
 corridor.
- THOR (CONT)- O'Neill...
- 07.53.16 O'NEILL- Thor? You all right?
- 07.56.25 THOR- I am dying.
- 07.59.11 O'NEILL- What happened?
- 08.00.22 THOR- It is, as you humans say, a long story.

08.06.00 O'NEILL- Does it have anything to do with those bugs in the hall?

08.10.06 THOR- I could not transport you directly into this room. The “bugs”, as you call them, are attracted to the high energy...

THOR (OS CONT)- output of the transporter.

08.22.24 O'NEILL- What are they?

08.24.02 THOR- They are the enemy of the Asgard.

08.28.15 O'NEILL- This would be the enemy worse than the Goa'uld you told me about?

08.32.05 THOR- I am weak. The information you will need is contained within the stones.
(beat) Forgive me.

08.49.08 O'NEILL- For what? (beat) Thor...?

09.18.14 THOR (recording)- Colonel Jack O'Neill, I have made these recordings for you in the event that I am dead...

THOR (OS CONT) (recording)- or unable to pass on the necessary information.

Under my command,...

THOR (CONT) (recording)- the Beliskner was called into battle against an enemy we have named replicators.

THOR (OS CONT) (recording)- During the battle, this ship became infested by the technology.

THOR (CONT) (recording)- The replicators accessed the computer, which contained information about your planet, and plotted a course here.

THOR (OS CONT) (recording)- The crew was transported off the ship. I destroyed the outbound transporter technology to prevent the replicators from escaping,...

THOR (CONT) (recording)- and remained in the hopes of stopping the Beliskner from reaching Earth.

THOR (OS CONT) (recording)- If you are watching this recording,...

THOR (CONT) (recording)- then I have failed, and I have also likely doomed you to certain death.

10.24.24 HAMMOND (OS)- Teal'c...

HAMMOND (CONT)- Thank you for returning.

10.28.13 TEAL'C- For what manner of emergency have I been summoned, General Hammond?

- 10.31.26 CARTER- I think I witnessed Colonel O'Neill being transported out of the base by the Asgard.
- 10.37.18 TEAL'C- For what purpose?
- 10.38.25 HAMMOND- We're not sure yet.
- 10.42.13 O'NEILL (AS HOLOGRAM FILTERED)- Hello...? Testing... testing... Is this thing on?
- 10.46.27 CARTER- Colonel...?
- 10.48.03 O'NEILL (AS HOLOGRAM FILTERED)- Carter?
- 10.50.13 CARTER- Sir, what's going on?
- 10.51.25 O'NEILL (AS HOLOGRAM FILTERED)- Well, I need a SPAS 12, a BF-8, ten pounds of...
O'NEILL (OS CONT) (AS HOLOGRAM FILTERED)- PBX and a USAS at the base of the Stargate in...
O'NEILL (CONT) (AS HOLOGRAM FILTERED)- oh... five minutes.
- 11.02.18 CARTER- That's a lot of explosives, sir.

11.04.11 HAMMOND- May I ask why?

11.05.21 O'NEILL (AS HOLOGRAM FILTERED)- Yeah. Basically, Thor's ship has been overrun by a bunch of nasty technobugs.

11.11.24 TEAL'C- Were the Asgard not able to defeat them?

11.13.23 O'NEILL (AS HOLOGRAM FILTERED)- Guess not.

11.15.00 TEAL'C- So, sir, are you saying these bugs are technological?

11.17.19 O'NEILL (AS HOLOGRAM FILTERED)- Yeah. Apparently they plan to land the ship and infest Earth.

O'NEILL (OS CONT) (AS HOLOGRAM FILTERED)- Thor says this...

O'NEILL (CONT) (AS HOLOGRAM FILTERED)- would not be a good thing.

11.24.26 HAMMOND- Well, what are you going to do?

11.27.07 O'NEILL (AS HOLOGRAM FILTERED)- Destroy the ship.

11.30.25 CARTER- Where's Thor?

11.31.26 O'NEILL (AS HOLOGRAM FILTERED)- Oh, he's here. He's just... not feeling too well at the moment.

- 11.36.15 CARTER- Well, we'll be ready in ten...
CARTER (OS CONT)- minutes, sir. Thor can transport us up there to help you.
- 11.40.03 O'NEILL (AS HOLOGRAM FILTERED)- Thank you, Carter, but that's not going to happen. Thor is out cold. The bugs got him pretty good. But he did leave some instructions on how to run the toys up here.
- 11.50.18 CARTER- So can you transport us up?
- 11.52.01 O'NEILL (AS HOLOGRAM FILTERED)- I could. But I'm not going to.
- 11.56.13 TEAL'C- What is your reasoning, O'Neill?
- 11.58.26 O'NEILL (AS HOLOGRAM FILTERED)- Anybody who comes up is not getting down.
- 12.03.24 CARTER- Well, sir, if you can't get off the ship --
- 12.05.25 O'NEILL (OS)(overlapping) (AS HOLOGRAM FILTERED)- Yeah.
O'NEILL (CONT) (AS HOLOGRAM FILTERED)- I know. (beat) Look... My time's almost up here. Have the stuff ready in ten minutes. Wish me luck.
- 12.19.17 CARTER- Colonel...

- 12.20.13 O'NEILL (OS) (AS HOLOGRAM FILTERED)- Major...
O'NEILL (CONT) (AS HOLOGRAM FILTERED)- That's an order and it's final.
- 12.26.08 HAMMOND- Good luck, Jack.
- 12.28.18 O'NEILL (AS HOLOGRAM FILTERED)- Thank you, sir.
- 12.42.28 HAMMOND- Teal'c, see that the ordinance is in place.
HAMMOND (OS CONT)- Major, to your knowledge, if Colonel O'Neill is...
HAMMOND (CONT)- unsuccessful, can the Asgard ship be destroyed by a...
HAMMOND (OS CONT)- surface to air strike?
- 12.55.24 CARTER- Sir, the Asgard ships have sophisticated cloaking devices.
CARTER (OS CONT)- We've been looking for it in orbit since Colonel O'Neill...
CARTER (CONT)- disappeared. Still nothing.
- 13.03.03 HAMMOND- So if we can't see it, we can't target it.
- 13.10.17 THOR (OS)(recording)- The molecular transportation device has been pre-
programmed...
THOR (CONT) (recording)- to target the area directly in front of your Earth
THOR (OS CONT) (recording)- based Stargate...
- 13.18.11 O'NEILL (overlapping)- Yeah yeah yeah yeah...

- 13.24.15 THOR (recording)- -- enter these symbols on the control console in front of you...
THOR (OS CONT) (recording)- Thirty seconds after entering the code, the targeted material will be transported to the indicated cargo hold...
THOR (CONT) (recording)- Remember... the transportation technology emits an energy pulse strong enough to attract replicators...
- 14.18.04 O'NEILL- Dammit! I gave you people a direct order!
- 14.20.19 CARTER- General Hammond overruled you, sir. We have a way off the ship.
- 14.32.00 O'NEILL- Grab what you can. Let's go.
- 15.16.20 O'NEILL- Let's move!
- 15.35.05 O'NEILL- Hey, buddy...
O'NEILL (OS CONT)- How you feeling?
O'NEILL (CONT)- Um, you remember Carter? Teal'c?
- 15.41.28 THOR- Why did you bring them?
- 15.45.16 O'NEILL- Anyone?
- 15.47.03 TEAL'C- We believe we can be of assistance.

15.48.27 THOR- Now you will all die.

15.51.01 CARTER- Actually, we don't think so. Sir, there's a shuttle prepping on the launch pad.

CARTER (OS CONT)- If we can transmit co-ordinates to NASA, they can be here within...

CARTER (CONT)- a matter of hours. We also brought space suits in case an EVA is required.

16.02.11 THOR (OS)- This pod....

THOR (CONT)- can generate an anti-gravity field, making it easy to move.

16.09.14 CARTER- Well, does the ship have an airlock?

16.11.08 THOR- Yes.

16.13.14 O'NEILL- So we just plant some PBX, jump ship, and blow it.

16.16.24 THOR- What is PBX?

16.20.24 TEAL'C- An explosive.

16.22.13 O'NEILL- You just have to tell us the best places to plant it.

- 16.25.03 THOR- All Asgard ships are equipped with internal dampening fields that activate in the event of an explosion.
- 16.34.14 O'NEILL- Well, how exactly did you expect us to destroy the ship?
- 16.39.19 THOR- If I knew a fast, simple method, I would have destroyed the ship myself before endangering your lives.
- 16.49.15 O'NEILL- Of course you would have.
- 16.50.23 THOR- The technical specifications of the Beliskner were contained within the recordings...
THOR (OS CONT)- I made for you.
- 16.59.02 O'NEILL- Oh...uh... I haven't had time to watch all the stones.
- 17.05.06 CARTER (OS)- What?
- 17.07.09 O'NEILL- Stick those on there.
- 17.15.28 THOR (recording)- The Beliskner is powered by four neutrino ion generators.
THOR (OS CONT) (recording)- In your Earth units of measurement, each engine outputs a maximum of one billion --

17.27.09 O'NEILL (overlapping)- Yeah, my eyes glossed over right about there.

17.30.14 CARTER- Guess I better go through all these recordings.

17.33.19 THOR (recording)- ...is achieved by two rear thrusters.

17.44.27 HAMMOND- Welcome back, Major.

17.46.04 DAVIS- General. I wish it wasn't always under such unusual circumstances. Any
further word on the situation?

17.51.24 HAMMOND- No. We've been unable to make radio contact with SG-1.

17.55.21 DAVIS- Well, it's possible the Asgard cloaking device is also blocking radio signals.

18.00.00 HAMMOND- I see you've done your homework, Major.

18.01.19 DAVIS- General, all I do all day long is read up on the Stargate program.

18.06.23 THOR (VO)- They were discovered on an isolated...

THOR (CONT)- planet in our home galaxy...

THOR (OS CONT)- some time ago. The creators were not present.

18.16.16 TEAL'C- Most likely destroyed by their own creation.

- 18.19.04 THOR- The replicators were brought aboard an Asgard ship for study before the danger could be fully comprehended.
- 18.29.09 O'NEILL- We do that all the time. Kind of expected more from you guys.
- 18.34.01 THOR- Overconfidence in our technology has been our undoing.
THOR (OS CONT)- The entities learned from the very means that were employed to try and stop them.
THOR (CONT)- They have become a plague on our galaxy that is annihilating everything in its path.
- 18.51.15 O'NEILL- Why haven't these little buggers landed the ship already?
- 18.54.07 THOR- Their odds of survival in a new environment depend on numbers. They are currently feeding off the ship and replicating.
- 19.05.26 CARTER- Are you saying they're actually eating the ship?
- 19.08.10 THOR- Ingesting the alloys, yes.
THOR (OS CONT)- They will continue until they risk...
THOR (CONT)- compromising the integrity of the hull. Then they will land in search of more raw materials.
- 19.23.13 CARTER- How intelligent are they?

- 19.25.09 THOR (OS)- Their capacity for learning is extremely high.
THOR (CONT)- Each entity is capable of individual behavior, yet they all act with a common purpose.
- 19.39.08 O'NEILL- What's that?
- 19.41.00 THOR- Self-replication.
- 19.43.20 TEAL'C- And there does not appear to be a way to stop them.
- 19.45.18 CARTER (OS)- Hang on. Thor,...
CARTER (CONT)- You said that they wouldn't risk compromising the integrity of the hull.
- 19.50.23 THOR- Correct.
- 19.52.01 CARTER- Can this ship withstand an uncontrolled re-entry into the atmosphere?
- 19.55.16 THOR- No. The heat from the friction would cause the ship to burn up.
- 20.01.10 O'NEILL- Wait a minute. Are you trying to tell me that with all this advanced intergalactic technology, this ship can't withstand a little heat?

20.08.21 THOR- In order to reflect the subspace field...
THOR (OS CONT)- of the phase generators --

20.12.21 O'NEILL- So... no.

20.16.11 THOR- Yes.

20.18.07 CARTER (OS)- Then all we have to do is...
CARTER (CONT)- crash the ship into the atmosphere.

20.21.13 THOR- You will have to regain control of the navigational computer.

20.29.16 O'NEILL- Sounds like a plan.

20.31.21 THOR- That can only be done from the bridge.

20.35.14 CARTER- Well, there was a map in the recordings. Can we direct them from here
as they go?

20.39.15 THOR- Yes.

20.43.21 O'NEILL- Okay.

21.01.16 O'NEILL- Hear that?

- 21.04.07 TEAL'C- They are in the walls, O'Neill.
- 21.07.25 CARTER (VO ON RADIO FILTERED)- Colonel, can you hear me?
- 21.10.03 O'NEILL (INTO RADIO)- We hear you.
- 21.14.06 CARTER (VO ON RADIO FILTERED)- You wanna go down that hall.
- 21.21.11 CARTER- Why are some areas flashing?
- 21.23.16 THOR- They indicate the quadrants of the ship that the replicators have disabled.
- 21.29.14 CARTER- H-how do I zoom in?
- 21.30.26 THOR- Top left symbol.
- 21.42.22 CARTER (VO ON RADIO FILTERED)- You wanna go through that door on your
left.
- 22.31.22 CARTER- Why can't I see any bugs on the screen?
- 22.33.16 THOR- The first thing the replicators do once aboard an Asgard ship is disable the
sensors capable of detecting them.

- 22.43.12 CARTER- But I can still see Colonel O'Neill and Teal'c.
- 22.45.12 THOR (OS)- They are being detected by the thermal sensors...
THOR (CONT)- which cannot see the replicators.
- 22.57.06 CARTER- Are you okay?
- 22.59.08 THOR- I cannot use the ship's...
THOR (OS CONT)- automated medical system. If the replicators...
THOR (CONT)- have tampered with it, it could kill me.
- 23.09.08 CARTER- W-we brought medical supplies. And I have medical field training.
- 23.13.04 THOR- You cannot help me.
- 23.25.27 O'NEILL (VO ON RADIO FILTERED)- Are we there yet?
- 23.29.04 CARTER- The door up ahead on your left leads to the bridge.
- 23.39.19 TEAL'C- It sounds as if there are replicators inside.
- 23.43.26 O'NEILL- Watch yourself. (beat) Forget that.
- 24.16.24 O'NEILL- Okay. New plan.

24.24.11 CARTER- Nothing's been damaged.

24.25.28 O'NEILL- Good.

24.28.04 CARTER- Sir... Thor's not doing well. He says that pod...

CARTER (OS CONT)- could put him into a deep stasis that could preserve his life.

24.40.19 O'NEILL- So do it.

24.41.20 CARTER- He won't let me.

24.50.00 O'NEILL- Hey...

O'NEILL (OS CONT)- I understand you're not being a...

O'NEILL (CONT)- particularly co-operative patient.

24.56.08 THOR- As long as I am conscious, I still may be of some assistance.

25.02.23 O'NEILL- Yeah... However, if you are dead..

25.05.08 THOR (OS)- As I have said, ...

THOR (CONT)- if you do succeed in destroying the ship, we will all die.

25.15.00 O'NEILL- And as Carter has said, we might have a way off this ship.

- 25.19.18 CARTER- Wait a minute. That's it. Thor, you said there are dampening shields inside the ship that prevent explosions. What about outside the ship?
- 25.28.20 THOR (OS)- There are shields...
THOR (CONT)- around the ship, but they would not protect against a weapon already inside the force field.
- 25.37.09 CARTER- Okay, now, there was a specific engine in the information recordings. It controls re-entry.
- 25.42.13 THOR- The deceleration drive, yes.
- 25.45.26 CARTER (OS)- We brought an explosive device that's enhanced with elementary Naquadah.
CARTER (CONT)- Would that be enough to destroy the deceleration drive?
- 25.52.00 THOR- This plan could work.
- 25.55.00 O'NEILL- Plan? What plan?
- 25.59.12 CARTER- Sir, the bugs are gonna land the ship themselves eventually. The BF-8 might just be enough firepower to blow the deceleration drive.
- 26.06.09 O'NEILL- Might...?

26.07.13 CARTER- If we blow it at the right time we can alter the entry path. The ship would then accelerate out of control and burn up...

CARTER (OS CONT)- in Earth's atmosphere.

26.13.28 TEAL'C (OS)- What needs to be done then...

TEAL'C (CONT)- is to place this explosive outside of this vessel.

26.18.08 CARTER- Someone's gonna have to go out there.

26.21.14 O'NEILL- Of course they are.

26.35.02 HAMMOND- What are you doing down here, Doctor Jackson?

26.38.03 DANIEL- I've just been informed, sir. I was wondering if there was anything I could do to help.

26.41.25 DAVIS- General, we're going to Defcon 3. The Russians have gone on alert as a response. The moment the Asgard ship attempts to land, the President has decided to let the rest of the world know what we know.

26.51.26 HAMMOND- And then?

26.53.01 DAVIS- We hit it with everything we've got.

26.54.19 DANIEL- Uh, SG-1 is on that ship.

26.57.27 DAVIS- I have as much confidence in SG-1 as you, Doctor Jackson, but they left over an hour ago, and we've had no communication since. And we have no idea what kind of a time frame we're dealing with here.

27.08.08 HAMMOND (OS)- Let's give them a reasonable...
HAMMOND (CONT)- chance, Major.

27.12.14 DAVIS- Yes, sir. I'll try to define "reasonable" to the Pentagon.

27.37.01 CARTER- The bugs haven't overrun the part of the ship where the airlock is yet.

27.40.03 O'NEILL- Let's do it.

27.41.17 CARTER- Each tank has six hours of oxygen. Whoever goes should have plenty of time.

27.46.12 TEAL'C- I will go.

27.49.05 O'NEILL- I was gonna do it.

27.51.00 CARTER- There is a radiation concern, sir.

- 27.53.10 TEAL'C (OS)- My symbiote protects me from exposure...
TEAL'C (CONT)- to radiation for a prolonged period of time.
- 27.58.15 O'NEILL- Okay. You go.
- 28.17.09 CARTER (VO ON RADIO FILTERED)- It looks like the top button opens the inner
 door, the middle one depressurizes the airlock, and the bottom one opens the
 outer door.
- 28.24.21 O'NEILL (INTO RADIO)- Yeah. Roger that. (TO TEAL'C) Can you hear me?
- 28.41.28 TEAL'C (OVER RADIO FILTERED)- Indeed.
- 28.44.05 O'NEILL- You might want to think about hanging on tight out there. (beat) Let's do
 it.
- 29.20.26 O'NEILL (OVER RADIO FILTERED)- Say something.
- 29.22.26 TEAL'C (OVER RADIO FILTERED)- One small step for Jaffa..
- 29.26.03 O'NEILL (OVER RADIO FILTERED)- Very nice.
- 31.05.04 O'NEILL- Oh, crap. (INTO RADIO) Teal'c, how's it going?

- 31.10.21 TEAL'C (VO ON RADIO FILTERED)- I am returning.
- 31.13.09 O'NEILL (INTO RADIO)- I don't suppose you could step on it, could you?
- 31.16.22 TEAL'C (VO ON RADIO FILTERED)- I am moving as quickly as possible, O'Neill.
- 31.32.28 O'NEILL (INTO RADIO)- Carter...?
- 31.34.04 CARTER (INTO RADIO)- Yes, sir, I'm working on it.
- 31.54.19 TEAL'C (OVER RADIO FILTERED)- The door will not open.
- 31.56.24 O'NEILL (OVER RADIO FILTERED)- Yeah, hang on. (TO HIMSELF) Oh God..
- 32.09.14 O'NEILL (INTO RADIO)- His tank just blew!
- 32.13.22 TEAL'C (OVER RADIO FILTERED)- O'Neill!
- 32.16.12 O'NEILL (INTO RADIO)- Carter!

32.17.20 CARTER (VO ON RADIO FILTERED)- Sir, I'm trying to use the transporter to beam him inside, but it's not working.

CARTER (CONT INTO RADIO)- The transporter array on that side of the ship must have been knocked out by the bugs. We can still do this, but Teal'c's gonna have to push off.

32.30.09 O'NEILL (INTO RADIO)- What?!

32.31.07 CARTER (VO ON RADIO FILTERED)- The other transporter arrays could pick him up,...

CARTER (CONT INTO RADIO)- but only if he's far enough away from the ship.

32.42.10 O'NEILL (INTO RADIO)- Teal'c...

O'NEILL (OS CONT INTO RADIO)- We're gonna try to beam you aboard.

O'NEILL (CONT INTO RADIO)- But you have to push off from the ship first. You read? You have to push off.

33.06.00 CARTER- He's taking too long... Isn't there some way to re-aim the transporter array? (beat) Damn...

33.34.10 O'NEILL (INTO RADIO)- Carter...?

33.35.14 CARTER (INTO RADIO)- I'm trying!

33.44.12 CARTER (INTO RADIO)- Got it!

33.48.10 O'NEILL- Teal'c!

O'NEILL (OS CONT)- Teal'c...!

O'NEILL (CONT)- Come on...

O'NEILL (OS CONT)- Teal'c...!

34.12.05 O'NEILL (OS)- Come on, come on...

O'NEILL (CONT)- Breathe! (beat) Yeah... (beat) That's following orders. (beat)

Can you move?

34.26.17 TEAL'C- I can, O'Neill.

34.28.15 O'NEILL- Come on.

34.31.10 HAMMOND- Still no communication of any kind?

34.33.00 TECHNICIAN- No, sir. And Norad's still reporting no sign of the alien ship.

34.39.14 HAMMOND- Dr. Jackson, are you okay?

34.41.07 DANIEL- I'll be fine.

34.43.17 HAMMOND- Why don't you go back up to the infirmary. I promise I will notify you as soon as there is any news.

34.49.14 DANIEL- Sir, I-I know there's no reason for me to be here, but I just... I feel like I should be here. That's not totally true. Actually, I feel like I should be up there with them.

35.02.17 HAMMOND- Now you know how I feel most of the time.

35.11.26 CARTER- According to the schematic, that was the only one left untouched by the bugs. You gonna be okay?

35.17.14 TEAL'C (OS)- I will be fine.

35.18.23 O'NEILL- What happened?

35.19.27 CARTER- He was dying. I had to put him into stasis.

35.23.17 O'NEILL- So...

35.24.20 CARTER- So we wait and blow the bomb at the right time.

35.28.09 O'NEILL- Which is... when?

- 35.30.06 CARTER- When we start to enter the atmosphere.
CARTER (OS CONT)- Too early, and theoretically the entry could be aborted by the bugs.
CARTER (CONT)- If we wait too long into the descent, the bomb could burn off before we detonate.
- 35.43.22 O'NEILL- Think you can fix that beam down thing?
- 35.46.13 CARTER- Not without Thor's help, sir.
- 35.52.28 O'NEILL- Better contact Hammond. Let them know what to expect. (beat) All right, this thing's not working.
- 36.13.20 TEAL'C- Thor was correct. We are going to die.
- 36.17.13 O'NEILL- Ah, come on, Teal'c. Lighten up. We've been in these situations before.
- 36.21.12 CARTER- No, sir, we haven't.
- 36.24.12 O'NEILL- We haven't?
- 36.33.25 TEAL'C- The vessel is beginning its descent.
- 36.41.15 CARTER- I have an idea sir.

36.50.01 TECHNICIAN (OS)- Sir, Norad's reporting they've spotted an unidentified object
 entering the upper atmosphere...

TECHNICIAN (CONT)- over the Pacific.

36.55.20 DANIEL- They've disabled the ship's cloaking device.

36.57.00 TECHNICIAN 2- Object's on a controlled entry.

36.58.12 TECHNICIAN (OS)- Projected landing on...

TECHNICIAN (CONT)- the West Coast of the United States, sir.

37.01.04 DAVIS- Of course, this could also be a sign they've already lost the battle.

37.09.16 HAMMOND (OS INTO PHONE)- This is General Hammond. At this time, I
 recommend...

HAMMOND (CONT INTO PHONE)- going to Defcon 2. Deploy all available assets
to...

HAMMOND (OS CONT INTO PHONE)- intercept the alien ship.

37.17.20 DANIEL- General...

- 37.20.20 HAMMOND- I'm sorry, Dr. Jackson. But if that ship...
- HAMMOND (OS CONT)- makes it through the atmosphere intact, we have no
 choice but to assume SG-1 failed.
- HAMMOND (CONT)- We must destroy it by whatever means necessary.
-
- 37.45.09 O'NEILL (INTO RADIO)- All right, Carter. Let's do it.
-
- 37.57.27 CARTER (INTO RADIO)- Here we go.
-
- 37.59.06 DAVIS (OS)- The Russians have also spotted the...
- DAVIS (CONT)- incoming object and are inquiring.
-
- 38.01.25 HAMMOND- The Joint Chiefs will respond.
-
- 38.20.24 DAVIS (INTO PHONE)- I'll have to call you back.
-
- 38.23.27 DANIEL- They're gonna use it to escape.
-
- 38.26.12 DAVIS- Like you did, from the Apophis mothership. It could work.
-
- 38.29.02 DANIEL- It will work. They'll, they'll gate to another planet, and then home.
-
- 38.22.02 HAMMOND- You had a DHD. They don't.

38.23.19 DAVIS (OS)- Even disconnected,...

DAVIS (CONT)- there should be enough power to dial out once.

38.42.20 HAMMOND (INTO PHONE)- This is Hammond. I want the Beta Gate unpacked
from storage immediately.

HAMMOND (OS CONT INTO PHONE)- Yes, you heard me. I want it unsealed and
ready for use as soon as humanly possible.

38.58.04 O'NEILL- Where are we going?

38.59.13 TEAL'C- P3X 234.

39.01.23 O'NEILL- I hear it's nice there this time of year.

39.22.18 O'NEILL- We got bugs.

39.55.19 TEAL'C- O'Neill!

40.04.26 TECHNICIAN (OS)- Bandit is still on...

TECHNICIAN (CONT)- controlled entry, present heading 196.

40.12.07 TEAL'C- Get down!

40.25.02 O'NEILL (INTO RADIO)- Let's go, Carter!

40.35.09 O'NEILL- Can we blow this thing yet?!

40.37.12 CARTER- Not yet!

40.47.09 O'NEILL- CARTER?!

40.49.00 CARTER- Not yet!

41.14.19 O'NEILL- CARTER?!

41.23.22 CARTER- NOW!!

41.45.13 DAVIS (OS INTO PHONE)- I understand that, Captain. What I need to know is what
do you see? Do you have a visual?

DAVIS (CONT)- We have ten squadrons airborne, on intercept course.

41.53.26 TECHNICIAN- The target has changed heading! It's dropped out of controlled entry
vector.

TECHNICIAN (OS CONT)- Target is breaking up.

41.58.01 DAVIS (OS)- We have visual...

DAVIS (CONT)- confirmation... A fireball headed for the Pacific Ocean 400 miles off
the coast of California.

42.14.27 DAVIS- Naval recovery teams are moving in to deal with any wreckage. (beat) I'm
 sure you were right, Dr. Jackson. The point of commandeering the Stargate
 had to be an escape.

42.33.00 DANIEL- I just hope they made it out in time...
