

TIMECODE    DIALOGUE

START TIMECODE 00.00.00 AT FIRST FRAME OF PICTURE

**TEASER**

00.19.24            PA ANNOUNCER (VO FILTERED) – Unscheduled offworld activation.

00.23.05            AIRMEN– Move, Move, Move, Move, Move.

00.39.11            CARTER– I still can't make it out, try to filter out the subspace RF interference.

00.43.24            O'NEILL– Carter?

00.45.06            CARTER– Colonel, sir, this is...  
CARTER (OS CONT)- the fifth incoming wormhole in the last hour and a half...

00.49.05            O'NEILL– Alright, I'm here two hours early. When did you get here?

00.53.24            CARTER– I haven't left yet.

00.56.00            O'NEILL– Didn't I order you to get a life?

00.57.11            CARTER– Yessir, you did but this is...

- 01.00.08 DANIEL– I just heard! They sent a radio signal this time?
- 01.02.21 CARTER (OS)– Yeah, but the frequency they’re using is being  
CARTER (CONT)– distorted just outside the range of our equipment. We’re trying to  
make the adjustment.
- 01.11.01 ONEILL– What are you doing here?
- 01.12.11 DANIEL– Somebody’s trying to contact us. How often does that happen?
- 01.16.00 TECHNICIAN (OS) – We can receive now, Major.
- 01.17.01 CARTER– Ok, pipe it through the speakers, and try to match it so we can transmit  
back from our end.
- 01.24.05 ALAR (VO FILTERED)– I repeat: this is Euronda base, have you reached the other  
side?
- 01.27.25 CARTER– Oh, my God...
- 01.29.03 ALAR (VO FILTERED) – Tralan, if you can hear me, please respond!
- 01.31.04 CARTER– This is Major Carter of the United States Air Force. It is imperative that you  
send no one else through the Stargate.

- 01.35.06 ALAR (VO FILTERED OVERLAPPING)– If anyone can hear me: This is Alar...
- 01.37.07 TECHNICIAN– They can't hear you, Major, we still haven't matched their frequency –
- 01.39.25 ALAR (VO FILTERED OVERLAPPING)– Our historians believe this “stargate” is a  
portal to the world of our ancestors... Your kindred are besieged by a powerful  
enemy, unwilling to listen to reason. Our supplies are all but gone. Our  
defenses are on the verge of collapse. Help us, please...
- 01.58.19 CARTER– Damn, alright, there were four offworld activations prior to this one  
CARTER (OS CONT)- and the Iris was closed the entire time.  
CARTER(CONT)– How many impact events did the computer record?
- 02.14.08 TECHNICIAN– Three.
- 02.17.01 ONEILL– So...three dead.
- 02.20.25 CARTER– Yessir.
- 02.22.12 DANIEL– I'm gonna go look up Euronda.
- 02.31.01 ONEILL– Not your fault, Carter. Move on.

02.37.15 CARTER– Yessir.

**ACT ONE**

03.50.20 ALAR (VO FILTERED)– ...kindred are besieged by a powerful enemy, unwilling to listen to reason. Our supplies are almost gone...Our defenses are on the verge of collapse. Help us, please...

04.03.27 GENERAL HAMMOND– All right. Assuming they make contact again and assuming they transmit the coordinates to their world...What kind of help can we seriously offer?

04.10.12 DANIEL– Uh, food, clothing, medical supplies...

04.13.20 TEAL'C– Clearly they seek military assistance above all else.

04.16.29 GENERAL HAMMOND– God knows who they're up against...

04.18.15 TEAL'C (OS)– They themselves may be Goa'uld.

TEAL'C (CONT)– such a ruse would be keeping within their tactics

04.23.10 CARTER– I don't think that's the case, Teal'c.

04.25.01 DANIEL– They call themselves our kindred.

- 04.28.10 GENERAL HAMMOND– Some of whom have already met their deaths against a closed Iris. That's hardly the ground on which to build diplomatic relations.
- 04.38.24 TECHNICIAN– Sir, we have another off world activation.
- 04.44.01 TECHNICIAN (OS) – We've made the adjustments to our equipment, Major. Two way communications shouldn't be a problem this...  
TECHNICIAN (CONT)- time.
- 04.48.03 CARTER– Thank you, sergeant.
- 04.54.07 ALAR (VO FILTERED)– This is Alar of the nation state of Euronda... If anyone can hear me...
- 04.57.29 GENERAL HAMMOND– Alar, this is General Hammond of the United States Air Force. Can you hear me?
- 05.04.06 ALAR (VO FILTERED)– Yes! And may I say, General, that your voice answers our prayers.
- 05.09.24 GENERAL HAMMOND– We've heard your message and are considering your request for help.
- 05.13.06 ALAR (VO FILTERED)– I am prepared to step through the portal immediately.

- 05.53.02           ALAR (OS)– There is much...  
ALAR (CONT)– my people have to offer in exchange for your help, if I could speak  
                  with you in person...
- 05.59.00           HAMMOND– We need to know more about this enemy you’re facing.
- 06.02.22           ALAR– We have co-existed on this world for centuries. Now they occupy the majority  
                  of Euronda’s land mass.
- 06.11.26           O’NEILL– Rules out anybody we know.
- 06.14.17           CARTER– How have you managed to survive this long?
- 06.17.13           ALAR – Our facility is deep underground, protected by defense fields, and our  
                  weapons technology is far superior.  
ALAR (OS CONT)- But now one or two of their bombers penetrate our airspace each  
                  day...
- 06.31.18           DANIEL– How did you find us?

- 06.33.09           ALAR– We discovered the stargate when creating tunnels for our defense facility.  
                          There were writings...
- ALAR (OS CONT)- on the ancient stone it was buried beneath...
- ALAR (CONT)– We are under attack.
- ALAR (OS CONT)– I must return to the war...
- ALAR (CONT)- room. Please...help us.
- 07.03.18           DANIEL– So what do we do?
- 07.06.15           TEAL’C– There is nothing that can be done Daniel Jackson, without the coordinates to  
                          their world.
- 07.10.11           CARTER– We’ve got them. He transmitted them before disengaging.
- 07.21.24           DANIEL– I know it seems hopeless and I know there are a lot of unanswered  
                          questions, but this is the first time that descendants of Earth have actually called  
                          home. I mean, either we try to do something or we let them die.
- 07.39.21           O’NEILL– It’s your call, sir.
- 07.41.00           HAMMOND– Colonel...
- 07.41.22           DANIEL– Now, I know what you’re going to say.
- 07.41.24           HAMMOND– You have a go.

- 07.43.08 DANIEL (OS)– But from a...  
DANIEL (CONT)– strictly humanitarian point of view... what?
- 08.18.13 HAMMOND– We cannot and would not devote the resources to turn the tide of a world war. However, as Doctor Jackson points out, there are humanitarian concerns.  
HAMMOND (OS CONT)- We'll start...  
HAMMOND (CONT)- with all the food and medical supplies that you can take with you. Major, perhaps...
- 08.01.19 CARTER– We're on it, sir.
- 08.09.01 HAMMOND– Colonel... Humanitarian concerns aside. We may have finally met an advanced civilization willing to exchange technology to help us defend against the Goa'uld...
- 08.19.04 O'NEILL– My thoughts, sir
- 08.20.03 HAMMOND– I've already spoken to the President and Joint Chiefs. If the Eurondan government is open to trade, you're authorized to negotiate.
- 08.47.29 HAMMOND – SG-1, you are to report back within 24 hours. If you do not, your G.D.O's will be locked out.
- 08.57.10 O'NEILL– You've got that look.

- 10.22.05 FARRELL– The defense field is down to minimum sustainable strength.
- 10.27.24 ALAR– I told you our kindred would come, Farrell.
- 10.31.11 FARRELL– You’ll win the people’s medal for this.
- 10.34.19 O’NEILL– Bombings eased up.
- 10.38.04 ALAR– We are far more protected here where the defense field is strongest than in  
the tunnels, where we discovered the Stargate.
- 10.48.16 O’NEILL– How’s your head?
- 10.50.20 ALAR– hmm...well enough to show you what you have come to save.
- 10.55.19 CARTER– Take it easy, Alar. You might have a concussion.
- 10.58.05 ALAR– No, our Beta-cantin assures an immediate recovery...  
ALAR (OS CONT)- Major. I’m quite fine.
- 11.06.10 TEAL’C– Supplies have been distributed as we speak.
- 11.07.29 DANIEL– Apparently, they need everything.

- 11.10.25 ALAR– Who is this?
- 11.12.14 DANIEL– Uh..Alar, this is Teal'c.
- 11.17.04 ALAR – You are not of their kin?
- 11.18.29 TEALC– I am in fact, a Jaffa. Though like you, my ancestors are descendants of the Taree.
- 11.24.23 DANIEL– The Taree is Earth.
- 11.27.01 ALAR– Ahhh...
- 11.28.14 O'NEILL– He's part of our team.
- 11.32.03 ALAR– Is he...? Then... welcome. Come!
- 11.51.24 TEAL'C– You appear to be a leader among your people.
- 11.54.03 ALAR– I am accorded the respect of my father. He was among our leadership when the war began. Now that we are fewer in numbers, we each share in the daily work.
- 12.02.15 DANIEL– You do know the stargate is capable of transporting your people you to other worlds.

**ACT TWO**

- 12.06.03 ALAR– Yes. That seemed apparent.
- 12.07.11 DANIEL– Then why haven't you tried to evacuate through the stargate?
- 12.08.26 ALAR– Because of what I'm about to show you.
- 12.36.20 CARTER– They're in stasis.
- 12.40.25 ALAR (OS CONT)– Their autonomic functions have been regulated so that their hearts beat but once every few minutes. We had little choice but to live underground, and this facility's resources are limited. It was the only way to preserve the generation of my father.
- 12.55.17 TEAL'C– May they be revived again?
- 12.57.25 ALAR– Not until the day we reclaim our world.
- 13.00.28 DANIEL– How many are there?
- 13.03.06 ALAR– Thousands sleep here. Thousands more in another chamber like this one.  
Awaiting the end of a war that will not end.
- 13.38.20 ALAR– From this room we conduct our national defense.

- 13.42.20 CARTER- For all of Euronda?
- 13.43.19 ALAR– Yes.
- 13.44.18 CONTROLLER (OS)– A single enemy recon...  
CONTROLLER (CONT)– drone approaches our airspace, sir.
- 13.47.14 ALAR– Thank you, Controller. Each...  
ALAR (OS CONT)– station is capable of piloting a formation of unmanned aero-  
fighters.  
ALAR (CONT)– Because of these men and women, enemy bombers rarely return to  
their homeland.
- 14.05.15 TEAL’C– Most impressive.
- 14.07.25 O’NEILL– What about ground attack?
- 14.09.24 ALAR– The fighters are capable of deterring it, but the enemy has not risked such an  
attack in several years.
- 14.15.10 TEAL’C– For what reason? You are both outnumbered and surrounded.  
TEAL’C (OS CONT)- Why would they not press their advantage?
- 14.20.29 FARRELL– The atmosphere of Euronda has been poisoned since the war began.  
The surface is unlivable.

- 14.25.25 DANIEL– Um, then forgive me if this sounds... uh, what is there left to fight over?
- 14.32.08 ALAR– It will not always be this way. An enemy craft is approaching our perimeter.  
Would any of you care to attempt to shoot it down?
- 14.42.27 FARRELL– The target is merely an unmanned reconnaissance drone sent for bomb damage assessment.
- 14.48.13 O'NEILL– Unmanned?
- 14.49.06 ALAR– Think of it as a demonstration, Colonel. Are not your people more likely to be forthcoming with assistance, if we have something to offer in exchange?
- 15.01.18 O'NEILL– Sure. Does this thing take quarters or...
- 15.21.29 FARRELL– You will find the weapons system most intuitive. The hand controls are secondary. Targeting and vectoring occur as a result of direct neural interface.
- 15.32.06 O'NEILL– Carter?
- 15.33.08 CARTER– Uh, It'll do whatever your mind wants it to do, sir?
- 15.39.09 O'NEILL– Whoa. Thing's fast.
- 15.43.05 FARRELL– You are piloting several aero-fighters at once in formation.

- 15.51.09 O'NEILL– Got it...got it, eleven o'clock... Looks like a biplane. Nice.
- 16.17.27 ALAR– Well done.
- 16.22.08 O'NEILL– Not bad. Not bad for an old guy, huh? What's with him?
- 16.35.24 ALAR– Ollan is one of best pilots, Colonel, but he's spent most of his adult life in that  
chair. Years of exposure to the neural interface is damaging.  
ALAR (OS CONT)– Very few of us, including myself...  
ALAR (CONT)– can ever pilot again without risking what has happened to Ollan...
- 16.53.25 O'NEILL– Excuse me?
- 16.54.27 ALAR– Rest assured, Colonel, your brief exposure will cause you no harm. Now  
come, let us celebrate our new alliance.
- 17.19.15 ALAR– I intended to save this bottle to toast the end of the war. May the friendship  
between our worlds be the first step toward that end. To friendship.
- 17.33.00 FARRELL– To friendship.
- 17.34.03 DANIEL– To friendship.
- 17.35.02 CARTER– Friendship.

- 17.35.17 O'NEILL– Friendship.
- 17.47.14 ALAR– You did not join in the pledge.
- 17.51.09 TEAL'C- I do not consume alcohol.
- 17.53.11 ALAR– Ahh...
- 17.56.13 FARRELL– Were you impressed by our weapons system, Colonel O'Neill?
- 17.58.29 O'NEILL– Oh yeah, we'll take a dozen.
- 18.04.03 FARRELL– This food you have brought is most flavorful.
- 18.06.19 O'NEILL– We can do much better, believe me?
- 18.09.06 FARRELL– You must understand that we have survived on nothing more than  
hydroponically grown yeasts for many years.
- 18.14.06 DANIEL– Is that what this is?
- 18.15.21 CARTER (OS)– Your power generation requirements...  
CARTER (CONT)- must be enormous.
- 18.18.22 ALAR– Do you not utilize controlled fusion on Earth?

- 18.22.11 O'NEILL– Controlled?
- 18.25.13 ALAR (OS)– It is a most efficient means of...  
ALAR (CONT)– power generation. Unfortunately the Deuterium Oxide fuel we require to operate the reactors is now in short supply.
- 18.36.07 CARTER– Heavy Water... It's like regular water, sir, except the hydrogen nucleus contains two...
- 18.41.11 O'NEILL– I know what Heavy Water is, Major. And if that's what the Eurondans need, we'd be happy to provide it.
- 18.54.17 ALAR– In turn, we can teach your people how to construct weapons systems such as ours: aero fighters, stasis devices, fusion reactors...
- 19.04.20 O'NEILL– Sounds fair...Carter?
- 19.09.00 CARTER– Medicine, sir.
- 10.09.29 O'NEILL– Oh right, uh, we were very impressed with that beta caro...candy stuff.
- 19.17.09 ALAR– Beta-cantin. Of course.
- 19.19.07 DANIEL – Jack...?

- 19.21.20 O'NEILL– Daniel...?
- 19.22.24 DANIEL– Shouldn't we ask them what they want the Heavy Water for?
- 19.25.08 O'NEILL– No, I don't think so.
- 19.26.21 ALAR (OS) – The power generated by your “Heavy Water”...  
ALAR (CONT)- would be used to reinforce our defenses, Doctor Jackson.
- 19.33.22 O'NEILL– Daniel?
- 19.35.20 ALAR (OS)– And, in due course...  
ALAR (CONT)- to strike back at the enemy.
- 19.41.28 DANIEL– Jack?
- 19.43.00 O'NEILL– Daniel? Shouldn't we have this discussion some other time?
- 19.47.01 DANIEL– No, I don't think so...
- 19.49.20 ALAR (OS)– Surely you can understand our desire to end...  
ALAR (CONT)- a war that has lasted for a generation.
- 19.54.04 DANIEL– No, I do understand that, Alar, I do. Uh, it's just that the stargate, because  
it's capable of transporting your people to another world entirely...

- 20.01.20 ALAR– But I have told you, thousands of our people are in stasis...
- 20.06.06 DANIEL– Well, take them out of stasis and find a new home...
- 20.08.11 ALAR– Then what will all this have been for? This is our home.
- 20.12.15 DANIEL (OS)– I'm sorry, I just don't understand why you would want to...  
DANIEL (CONT)– continue to fight a war when there's another choice...
- 20.17.17 O'NEILL– Daniel, you heard the man.
- 20.21.18 DANIEL– You said yourself the atmosphere is poisoned, what is there left to win?
- 20.34.11 EURONDAN SOLDIER– Alar, enemy bombers have penetrated the outer perimeter.
- 20.37.19 FARRELL– Defense stations.
- 20.39.14 ALAR– Please excuse us. We'll be in the war room once you have reach your  
decision.
- 20.50.24 O'NEILL– Next time I tell you to shut up...

- 20.52.28 DANIEL– I didn't hear you tell me to shut up.
- 20.54.06 O'NEILL– Too subtle for you?
- 20.55.04 DANIEL– Well for once, yes, would you hear me out?
- 20.56.20 O'NEILL– Carter, our standing orders? What are they?
- 21.01.08 CARTER– To seek new allies and procure technologies, to aid in defense against the  
Goa'uld.
- 21.06.01 O'NEILL– And have we carried out those orders?
- 21.08.01 DANIEL– We came here to help them?
- 21.11.16 TEAL'C– Is that not what we are doing, Daniel Jackson?
- 21.13.23 DANIEL– No! Their whole world is in flames, and we're offering gasoline.  
DANIEL (OS CONT)– How is that help?
- 21.18.20 TEAL'C– We are, in fact, offering water.
- 21.20.15 O'NEILL– Thank you.
- 21.21.16 DANIEL– I was speaking metaphorically

- 21.22.18            ONEILL (OS)– Well, stop...  
                         O'NEILL (CONT)– it. It's not fair to Teal'c. Decision's made.
- 21.29.25            DANIEL– This mission has never had anything to do with helping them, has it. We  
                         came here to help ourselves...
- 21.33.26            O'NEILL– Carter, take Daniel back with you. Tell Hammond we struck a deal.
- 21.27.01            CARTER– Yessir.
- 21.37.27            DANIEL– You don't give a damn what's going to happen to them. You want their  
                         technology and you're...you're taking advantage of their situation.
- 21.43.00            O'NEILL– Yes I am, Daniel. They're getting something they want. We're getting  
                         everything we want. I don't have a problem with that. Carter?
- 21.50.14            CARTER– We're on our way, sir.
- 21.51.24            DANIEL – This conversation isn't over.
- 21.53.26            O'NEILL– No, you're right, Daniel. It's never over, with you. It's always the same  
                         damn thing...
- 21.57.05            DANIEL– This has got nothing to do with me...

21.58.19 O'NEILL– Do you even realize what they're offering?

22.20.20 DANIEL– At what price?

22.03.15 O'NEILL– Oh, for crying out loud...

22.05.12 DANIEL– Where you going?

22.06.16 O'NEILL– To see what I can do to help.

**ACT THREE**

22.21.02 CARTER– I am not defending him, Daniel. I happen to agree with him.

22.23.26 DANIEL– Well don't you realize what we'd be doing?

22.27.14 HAMMOND (OS)– Major?

HAMMOND (CONT)– Doctor?

22.31.00 CARTER (OS) – Sir, Colonel O'Neill has negotiated...

CARTER (CONT) – access and availability to virtually every advanced Eurondan technology, in exchange for an unspecified quantity of heavy water.

- 22.39.25           HAMMOND– That’s all they want?
- 22.40.16           CARTER– That’s all.
- 22.41.22           HAMMOND– What do they want it for?
- 22.43.01           DANIEL– Thank you. Thank you for asking the question.
- 22.46.05           CARTER (OS)– As you know, sir...  
CARTER (CONT)– heavy water contains deuterium.
- 22.49.24           HAMMOND– Which can be used to make nuclear weapons.
- 22.51.16           CARTER– Yes, but they use it to fuel nuclear fusion generators.
- 22.54.58           HAMMOND– Fusion?
- 22.55.17           CARTER– According to Alar, the additional power would be enough to stave off  
                          defeat.
- 22.59.04           HAMMOND– They’re willing to share that technology as well?
- 23.01.14           DANIEL– Of course they’re willing, they’re desperate.

- 23.03.00 CARTER (OS)– Yessir. Everything.
- CARTER (CONT)– And it is incredible. They are at least a hundred years ahead of us, maybe more. But if we don't act soon, they are going to be overrun.
- 23.11.22 HAMMOND– Sergeant Siler..?
- 23.12.23 SILER– I'll get right on it, sir.
- 23.17.02 HAMMOND– Doctor, you don't approve.
- 23.20.15 DANIEL– You said yourself that we could not and would devote the resources necessary to win a war.
- 23.25.25 HAMMOND– Obviously, I was speaking in terms of committing military assets...human lives.
- 23.29.24 DANIEL– But there was a moral issue.
- 23.31.28 HAMMOND– Yes.
- 23.33.06 DANIEL (OS)– But if we can provide the...
- DANIEL (CONT)– power of all that and more in the form of water, then moral issue just evaporates.

- 24.41.13           TEAL'C– Major Carter and Daniel Jackson will...  
TEAL'C (OS CONT)– return as soon as they are able.
- 24.43.25           FARRELL– There are too many.
- 24.45.13           O'NEILL– Use a couple more pilots?
- 24.47.25           FARRELL– Yes.
- 24.56.05           P.A ANNOUNCER (VO FILTERED)– Aero fighter squadron, deck three. Target.
- 25.01.10           CONTROLLER (OS)– Enemy bombers incoming...  
CONTROLLER (CONT)– bearing zero, zero, mark three.
- 25.04.13           O'NEILL – I see 'em.
- 25.14.10           ALAR– This is all you were able to bring?
- 25.15.19           CARTER– On short notice, yes.
- 25.16.22           ALAR– This much will not last a day!
- 25.18.18           CARTER– There's more coming. We thought it would be best to bring what little we  
could as soon as possible.

- 25.21.24 ALAR– More is on the way. You’re certain?
- 25.23.22 CARTER– Much more. Yes.
- 25.24.28 ALAR (OS)– Add the fuel to the reactors...  
ALAR (CONT)- immediately, and set the defense field to full power! A demonstration  
to the enemy. We must show that we are strong once more.
- 25.36.17 DANIEL– In the meantime, we have questions...
- 25.38.29 ALAR– Yes, yes! As soon as the attack is over, we will provide...  
ALAR (OS CONT)– all that we have promised.  
ALAR (CONT)– Come, it isn’t safe.
- 25.52.10 CONTROLLER (OS)– Enemy bombers over the city.
- 25.53.18 O’NEILL– Teal’c, target the lead bomber. I’ll take the other one.
- 25.56.15 TEAL’C– I have it, O’Neill.
- 26.16.19 CARTER– That one sounded close.

- 26.28.07           ALAR– Directly above us. In the old city. Let me show you another of the wonders we intend to share with you for all you’ve done. The field generator is capable of repelling the force of many bombs, like a great shield. It has saved our people from destruction for my entire life.
- ALAR– You see. The fuel you brought has strengthened it again.
- 26.55.01           FARRELL– How long will that last?
- 26.57.27           ALAR– For several hours.
- 27.00.12           CARTER– I’m certain we’ll be able to send more heavy water by then.
- 27.08.28           O’NEILL– Mine’s going for the deck. God!
- 27.35.27           TEAL’C– O’Neill, are you all right?
- 27.37.03           CONTROLLER (VO)– Enemy bombers destroyed.
- 27.41.11           O’NEILL– What the hell was that?
- 27.42.19           FARRELL– The lead aero-fighter in your formation struck an enemy bomber head on.

27.45.22 O'NEILL– I saw people in that thing... You said they were unmanned.

27.49.29 FARRELL– I said the reconnaissance craft was an unmanned drone.

FARRELL (OS CONT)– It presented an easy target and therefore a suitable demonstration. But their bombers are manned.

FARRELL– You have killed several of our enemy, Colonel, and we are grateful.

#### **ACT FOUR**

28.17.22 ALAR/FARRELL/OTHERS– He is remembered.

28.25.05 TEAL'C– For whom do you pledge this remembrance?

28.28.09 ALAR– My father. Through his vision, our nation has survived.

28.33.19 TEAL'C– I see.

28.39.14 ALAR– It is customary...

ALAR (OS CONT) – among our people to formalize...

ALAR (CONT)– new alliances...

ALAR (OS CONT)- such as ours.

ALAR (CONT)- In exchange for all of our knowledge, technologies, medicines...

ALAR (OS CONT)– Earth will provide us...

ALAR (CONT)- with however much “Heavy Water” as we require to end this war once and for all. Do not be alarmed, Colonel, merely three or four times that which you have just provided, on a daily basis.

29.08.17 CARTER– That adds up to several metric tons a year, sir.

29.11.10 ALAR– A small price to pay for what we offer in return.

29.15.06 FARRELL– Alar...listen.

29.22.25 O'NEILL– What?

29.24.03 ALAR– Silence. I hardly recognize it.

ALAR (OS CONT) – When at full strength...

ALAR (CONT)- our defense field makes us as invulnerable as when I was a boy. I  
propose that we write into words what we already share in our hearts.

29.40.29 DANIEL– Um, before we do that, I have a question.

29.47.05 ALAR (OS)– It's all right...

ALAR (CONT)- Colonel, I don't mind.

29.50.14 DANIEL– How did this war start?

- 29.54.00 ALAR– The first enemy bombs fell on Euronda in a surprise attack. I was a boy of nine. I remember that night. I remember the floor of the room in which my father had sequestered me shook with each explosion. I remember knowing that each bomber than got through
- ALAR (OS CONT) - meant that another building...
- ALAR (CONT)- another home, another street in the city above me was gone. That is how this war began, doctor.
- 30.33.04 DANIEL- And we have only your word.
- 30.35.23 ALAR (OS)- Three of our best
- ALAR (CONT)- men died attempting to reach Earth through the stargate.
- 30.42.06 DANIEL- That was an accident.
- 30.43.11 ALAR- And we have only your word.
- 30.52.15 O'NEILL- Any more questions, Daniel?
- 30.55.05 DANIEL- Yes. I'd like to know more about your enemy.
- 30.58.26 ALAR– Is this part of your bargaining process, Colonel?
- 31.03.01 O'NEILL– Not normally.

- 31.04.11 ALAR (OS)– What more can we...  
ALAR (CONT) – promise you than everything we have?
- 31.08.16 DANIEL– Why don’t you just answer the question?
- 31.11.01 ALAR– Colonel O’Neill, do we have an agreement?
- 31.14.03 O’NEILL– We do.
- 31.14.26 DANIEL– Jack.
- 31.15.14 O’NEILL– Daniel, shut up. Is that clear enough?
- 31.28.26 CARTER– Sir, if you’re gonna go back and tell General Hammond, I would like to stay here and take a look at their fusion technology.
- 31.34.02 O’NEILL (OVERLAPPING)– Fine.
- 31.35.14 ALAR– It would be my pleasure to show you personally.  
ALAR (OS) – I understand you shot...  
ALAR (CONT)– down an enemy bomber for us, Colonel. Congratulations. Perhaps you’ll try your hand at it again.
- 31.57.16 O’NEILL– I don’t think so.

- 31.59.17 ALAR– Well, if you’re concerned about lives lost, remember they’re your enemy now. I look forward to your return. Which reminds me, perhaps it would be best if the Jaffa did not return.
- 32.16.20 O’NEILL (OS)– Teal’c? Why? He hasn’t said a word.
- 32.20.16 ALAR (OS)– It’s not what he said.  
ALAR (CONT)–It’s what he is.
- 32.26.00 O’NEILL– Well he’s different, I’ll grant you that.
- 32.28.12 ALAR– Not like us.
- 32.34.12 O’NEILL– Right.
- 32.38.12 ALAR– Major Carter?  
ALAR (OS CONT) - After you.
- 32.50.05 O’NEILL- We’re not going
- 32.53.09 DANIEL– Why?
- 32.55.18 O’NEILL– Teal’c and I are gonna have a look around first. You...ask questions.
- 33.02.00 DANIEL– I...I thought you told me to...

33.03.02 O'NEILL– I know what I said, Daniel. It was rude, short sighted and I'm sorry.

33.09.11 DANIEL– Well, thank you for recognizing that.

33.12.07 O'NEILL (OS)– Now, I'm saying this.

O'NEILL (CONT)- Go ask questions. Lots of questions.

### ACT FIVE

33.28.10 ALAR(OS)– One single fusion reactor is

ALAR (CONT)- capable of generating power for the entire facility. I assume you extract deuterium from seawater?

33.37.23 CARTER– Yes, seventy percent of the Earth's surface is ocean, so heavy water production shouldn't be a problem.

33.43.22 ALAR– The sea from which we used to extract our own “Heavy Water” as you call it, is now in enemy hands...

ALAR (OS CONT) – hundreds of miles away.

ALAR (CONT)– You can see the storage tanks are nearly empty.

34.01.21 CARTER– You must have been building this place long before the war started.

34.05.12 ALAR– The war was inevitable.

- 34.07.17           CARTER– Well, how long did you expect to stay down here?
- 34.11.09           ALAR– Until the air was free from poison. Excuse me.
- 34.31.23           O'NEILL– So, what's your impression of Alar?
- 34.34.19           TEAL'C– That he is concealing something.
- 34.36.10           O'NEILL– Like what?
- 34.37.07           TEAL'C– I am unsure. He is concealing it. What is it, O'Neill?
- 35.16.28           O'NEILL– They're the same...Every damn one of 'em is the same.
- 35.46.01           DANIEL(OS)– Farrell.
- 35.46.25           FARRELL– Doctor.
- 35.48.17           DANIEL– Uh, I just thought that, uh since we're going to be allies, I thought we should get to know a little bit more about our new enemy. Ok, um...well you call them the enemy. Understandably, they're your enemy. But they must have a name.  
DANIEL (OS CONT)– Well, for example, I'm American.  
DANIEL (CONT)– My grandfather was Dutch. What do you call them?
- 36.17.11           FARRELL– Sometimes we call them “breeders”.

36.20.07 DANIEL– Breeders?

36.21.23 FARRELL– How they reproduce. Indiscriminately, with no regard for genetic purity.

36.28.12 DANIEL– Really. So basically they...they come in all shapes and sizes.

36.32.17 FARRELL– Yes.

36.34.06 DANIEL– And colors...?

36.36.00 FARRELL– Yes.

36.38.15 DANIEL– Really...

36.46.02 ALAR (OS)– This storage cylinder...

ALAR (CONT)– contains plans, specifications, and formulas upon which our technology is based. Together, I'm certain we will find a means of transferring ALAR (OS CONT)- the information to your computers.

36.57.14 CARTER– Alar, these pipes extend from the lowest level right up to the surface...

37.02.12 ALAR– Yes.

37.04.00 CARTER– But you said the atmosphere was poisoned, it doesn't make any sense...

- 37.09.14           **CONTROLLER**– Enemy bombers approaching the perimeter.
- 37.11.16           **ALAR**– Engage them.
- 37.23.01           **DANIEL (OS)**– Jack...
- 37.23.11           **O'NEILL**– What'd you find out?
- 37.24.10           **DANIEL**- They did it. They started the war. I don't know how they did it, but they did.
- 37.34.03           **ALAR**– Where is the fuel?
- 37.35.16           **O'NEILL**– There's been a delay.
- 37.36.22           **ALAR**– What sort of delay? The enemy is attacking in force. We need that fuel...
- 37.39.21           **O'NEILL**– We just have to buy a little time. Teal'c and I can help fight 'em off until it gets here.
- 37.47.20           **ALAR**– Do it.
- 38.03.04           **O'NEILL**– Stay on my wing, Teal'c.
- 36.06.05           **CARTER**– It was a preemptive strike. Your enemy. When they began bombing, were trying to stop you.

- 38.11.10 ALAR– Now is not the time, Major.
- 38.15.22 FARRELL– The defense field is at minimum sustainable strength.
- 38.17.27 ALAR– Transfer energy from the stasis room!
- 38.23.21 CARTER– The Eurondans  
CARTER (OS)– built this place long before...  
CARTER (CONT)– the war started, they planned it from the beginning.
- 38.29.00 DANIEL– Right, but how did they expect to win a war from underground?
- 38.31.10 CARTER– There are these enormous gas pipes...  
CARTER (OS CONT)- that run from holding tanks underneath this facility...  
CARTER (CONT)– right up to the surface.
- 38.36.24 DANIEL– And the surface is poisoned.
- 38.38.05 CARTER– They didn't just start a war, they were trying to exterminate them
- 38.41.11 ALAR (OS)– It was his vision.  
ALAR (CONT)– My father saw that breeders were spreading across the face of Euronda like a plague. Millions of them.  
ALAR (OS CONT)– We don't know how so many of them manage to survive...  
ALAR (CONT)– but they do, in spite of our best efforts. Contact your General Hammond. Tell him we need that fuel immediately

- 39.05.15            DANIEL– We’re not gonna do that.
- 39.08.12            ALAR– Arm. Contact...  
ALAR (OS)– Contact  
ALAR (CONT)– your General Hammond.
- 39.46.01            FARRELL– They’re escorting the enemy bombers.
- 39.48.00            ALAR– What?
- 39.48.22            FARRELL (OS)– He’s attacking...  
FARRELL (CONT)– our own fighters.
- 39.50.14            ALAR– Stop him!
- 40.48.21            ALAR(OS)– It could  
ALAR (CONT)- have all been yours.
- 40.51.16            O’NEILL– I wouldn’t follow us if I were you. Go!
- 41.49.08            ALAR– Wait! Wait! I can teach you everything I know. Just let me come with you.  
Please!
- 42.12.17            O’NEILL– Close the iris!

42.14.12           HAMMOND– Do it.

HAMMOND (OS CONT)– I take...

HAMMOND (CONT)– Colonel, that you were unable to procure any of the Eurondan technologies.

42.33.00           O'NEILL– That's correct, sir.

42.36.10           HAMMOND– I'm sorry to hear that.

42.40.16           O'NEILL– Don't be.

42.43.28           HAMMOND (OS)– We'll debrief in one hour.

42.46.27           O'NEILL– Yessir.

**THE END**
