02.08.03            CARTER – Kegan, how about some bread?

  

02.09.24            KEGAN – Sorry, just gave away the last piece.

02.12.05 O'NEILL – Oh, here we go. Everytime.

02.14.26 CARTER – What is your problem?

02.15.25 KEGAN – I don't have a problem.

02.16.29 CARTER – And we don't have any bread.

02.18.20 DANIEL – Is there a problem here?

O'NEILL – Stay outta this.

DANIEL – Jonah, there are other people waiting.

02.23.05 O'NEILL (OS) – Give her the damn bread!

02.33.04 TEAL'C – This is not right. The two of you are friends, O'Neill.

O'NEILL – Stay out of it.

TEAL'C – We are part of something called SG-1...

02.38.15 TEAL'C (OS CONT) – I am Teal'c! Do you...

02.39.10 TEAL'C (OS CONT) – not remember?

O'NEILL (OS) – Somebody get this...

02.40.18 O'NEILL (CONT) – guy off me!

02.47.22 BRENNA – Get him upstairs.

02.49.00 TEAL'C – We don't belong here...

02.51.24 TEAL'C (CONT) – You must remember...

TEAL'C (OS CONT) – We must...

02.53.27 TEAL'C (OS CONT) – escape.

02.56.11 O'NEILL – Brenna, it is my honor to serve. I don't know that man.

BRENNA (OS) – I know...

03.02.09 BRENNA (CONT) – Jonah, don't worry. He's nightsick. Give Therra her bread.

Everyone finish, back to work.

### ACT ONE

04.30.01 KEGAN (OS) – These pumps regulate the overflow. Sometimes they get clogged and  
you have to—

KEGAN (CONT) – Carlin.

DANIEL – Where's he been for five days?

04.41.00 KEGAN (OS) – Recovering from nightsickness. It's a strange thing. There...

04.45.11 KEGAN (CONT) – was this guy once, a couple of years ago, tried to smash his way through one of those skylights.

04.55.19 DANIEL – Did he do it?

04.58.02 KEGAN – You would’ve known if he had. This place would’ve been buried under ice and snow and you would’ve frozen to death along with everyone else.

05.04.29 DANIEL – Right.

05.33.04 CARTER (OS) – Cover those valves.

BRENNA (OS) – What happened?

CARTER – One of the stabilizers ruptured. They’re so corroded...

05.41.27 CARTER (OS CONT) – they can’t take the pressure.

BRENNA (OS) – There’s not much we can...

05.43.27 BRENNA (OS CONT) – do.

CARTER – Actually I think there is. If we set up an automatic relief valve on each of the stabilizers...

05.48.21 CARTER (OS CONT) – we can vent the excess pressure...

05.51.06 CARTER (CONT) – I’ve done some calculations. If you want, I could show you.

05.55.19           BRENNA – You can come by my office later.

06.16.04           O'NEILL – You alright?

CARTER – Fine.

O'NEILL – That explosion.

CARTER – On no, no, no, fine, really.

O'NEILL – Good.

CARTER – Brenna wants to see me. She wants to hear my ideas for improving the  
plant.

O'NEILL – You know you could take a few minutes off.

CARTER – (laughs) Please. You work just as hard as I do.

O'NEILL – That's different. It's called stamina.

CARTER – (laughs) Have a good shift.

O'NEILL – Right.

06.50.01 KEGAN – There she goes. Why does Brenna listen to her?

DANIEL – I don't know. She seems pretty smart.

KEGAN – She thinks she's better than the rest of us...

07.07.03 KEGAN (CONT) – They both do.

07.08.26 DANIEL - Teal'c said we were friends.

07.12.26 KEGAN – His name's not Teal'c. It's Tor. Nightsickness.

07.29.13 TECHNICIAN – Sir, we're ready with the video link to P3R-118.

HAMMOND – Very well...

07.39.29 HAMMOND (CONT) – Administrator Calder.

07.41.25 CALDER (FILTERED) – General Hammond. I'm sorry to have to tell you this, but our search has turned up nothing. Given the hostile conditions outside the dome, I don't see how SG-1 could have survived this long.

HAMMOND (OS) – With...

07.53.13 HAMMOND (CONT) - all due respect, Administrator, I'm not ready to give up on my people just yet. We have specialized equipment and teams specifically trained for this kind of operation.

08.03.26 CALDER (FILTERED) – When Major Carter first expressed an interest in exploring the glacier I tried to explain the danger, but Colonel O’Neill was quite overly confident he could handle the conditions.

08.14.16 HAMMOND – I appreciate your concern. But I assure you I’ll take full responsibility.

08.23.02 CALDER (FILTERED) – Very well...

08.34.26 CALDER (OS CONT) – Tell Brenna I want to see her tomorrow. I’d like to know how our new workers are doing.

09.03.29 O’NEILL – Go ahead.

09.05.12 DANIEL – Go where?

09.07.26 O’NEILL – The other side.

KEGAN (OS) – Carlin...

09.11.05 KEGAN (CONT) – Don’t listen to him.

## ACT TWO

09.27.07 HAMMOND – Major? What’s your status?

GRIFF (OS FILTERED) – We--

09.29.06

GRIFF (OS FILTERED CONT) —'ve launched the UAV, we're getting telemetry now.

But I have to tell you sir, it doesn't look good. This place is pretty nasty.

09.46.02 DANIEL – What happened?

TEAL'C – I was injured.

DANIEL – When?

TEAL'C – Why are you speaking to me?

DANIEL – I just thought, uhhh...

DANIEL (OS CONT) – since apparently we're friends from way back, I...

DANIEL (CONT) - just thought that, what is that, uh, thing on your forehead?

TEAL'C – A birthmark.

DANIEL – A birthmark. You'd think I'd remember something like that.

TEAL'C – I don't know you.

DANIEL (OS) – You said you did...

DANIEL (CONT) - Last week...

DANIEL (OS CONT) - during morning—

TEAL'C (OVERLAPPING INTERRUPTING) – I wasn't here last week.

DANIEL – You said we were friends and you said we had to escape and I'd really like  
an explanation.

TEAL'C – I said no such thing.

10.54.15 KEGAN – I told you to leave him alone.

DANIEL – He was there, Kegan. You heard him. Why would he deny that?

KEGAN – Nightsickness affects your mind.

DANIEL – That doesn't explain the dreams I've had. Something's wrong here, Kegan.

Something's not—

KEGAN (INTERRUPTING) – Carlin. It's bad enough he named you as part of his delusion. Now people hear you talking like this they're gonna think you're nightsick.

DANIEL – People?

KEGAN – Not that I would ever-- Carlin.

DANIEL – No, no, no, of course not. It's just a dream.

11.55.07 CALDER (OS) – Why didn't the memory stamp work on Teal'c?

11.57.24 BRENNA – I'm sure it was the creature his species carries within them. We've stamped him again. This time it seems to be holding.

- 12.05.07 CALDER – What about the others?
- 12.06.14 BRENNNA – They’re all proving to be excellent workers. In fact, Therra has some very interesting ideas...
- 12.11.14 BRENNNA (OS CONT) – for improving the plant.
- CALDER – Therra?
- 12.14.29 BRENNNA – The personality we stamped Major Carter with. We’ve been having some problems with pressure overload. She suggested an automated relief valve...
- 12.35.14 BRENNNA (OS CONT) – which would relieve the excess pressure...
- 12.37.18 BRENNNA (CONT) – If we didn’t have to regulate the pressure manually it would free up workers for other tasks.
- 12.43.02 CALDER – Maybe one day she could increase productivity to the point where we don’t even need workers.
- 12.50.10 BRENNNA – What would be so wrong with that?
- 12.54.22 CALDER – Nothing. I’m sure they’d fit right in. Of course, they don’t even know the city exists.
- 13.02.19 BRENNNA – We could tell them.
- 13.03.27 CALDER – Look, they’ve been lied to all their lives...

13.06.03 CALDER (OS CONT) – How would the people of the city react when there’s less to go around? When we have to make room for...

13.12.13 CALDER (CONT) – workers? Right now in our city, Brenna, we have no crime...

13.19.22 CALDER (OS CONT) – No unemployment.

BRENNA – But—

CALDER (OS) – They’re happy...

13.22.08 CALDER (CONT) – where they are. That’s what the stamp assures...

13.33.15 CALDER (OS CONT) – Do only what is necessary to guarantee uninterrupted power.

BRENNA (OS) – Yes, Administrator.

14.00.19 CARTER – Did you have a chance to look over my plans yet? I’d like to get start--

14.03.17 CARTER (OS CONT) –ed right away--

BRENNA (INTERRUPTING) – We can’t do the improvements.

14.07.19 CARTER – But you said before—

BRENNA (OS INTERRUPTING) – No. They would re--

14.09.17 BRENNA (CONT) –quire the generators to be off-line for too long. If any of the critical systems began to freeze we might not be able to get them started again.

- 14.16.04 CARTER – I agree there’s some risk.
- 14.17.19 BRENNNA – Too much risk.
- 14.21.06 CARTER – Okay, well, uh, what about my other ideas?
- 14.25.13 BRENNNA – I’m sorry. This plant is all that stands between us and the...
- 14.38.21 BRENNNA (OS CONT) – ice. Uninterrupted production is more important th--
- 14.31.15 BRENNNA (CONT) –an efficiency. You may return to work.
- 14.37.21 CARTER – Brenna, I know you were excited about this. What’s happened?
- 14.40.28 BRENNNA – Well, I’ve thought it over
- 14.43.06 CARTER – Well at least let me come up with a safer way—
- BRENNNA (OS INTERRUPTING) – Therra...
- 14.46.17 BRENNNA (CONT) – Please leave.
- 14.53.05 CARTER – It’s my honor to serve...

15.04.21 CARTER (CONT) – It’s not like I’m making this up off the top of my head. No, I’ve got a detailed plan...

CARTER (OS CONT) – including safeguards.

O’NEILL – I’m sure she knows that.

15.12.16 CARTER (OS) – Look...

CARTER (CONT) - I could make a difference here. She won’t even let me.

15.23.20 O’NEILL – Why don’t you go back to her in a couple of days, offer up something small? Maybe you gotta work in to the big stuff.

CARTER – How do you stay...

CARTER (OS CONT) – so calm?

O’NEILL – I think in another life I’ve handled dangerous explosives. I don’t know.

15.43.20 CARTER – What, what do you mean in another life?

15.48.16 O’NEILL – I don’t mean anything by it. It’s just an expression, isn’t it?

16.02.12 HAMMOND (OS) – Major.

GRIFF – I’m sorry, sir, there’s no sign of ‘em.

- 16.06.14           HAMMOND – I understand. You and your team have been out there a long time.
- 16.10.29           GRIFF – No sir. When I say there's no sign, I mean literally not a trace.
- 16.16.04           HAMMOND – What are you saying, Major?
- 16.18.12           GRIFF – I can't imagine what scientific reason Major Carter or Dr. Jackson might've  
                          had to want to check out those ice fields, but even if they wanted to go out there,  
                          there's no way in hell Colonel O'Neill would'a let them.
- 16.30.18           HAMMOND – According to Administrator Calder, Colonel O'Neill believed the risk was  
                          acceptable.
- 16.36.10           GRIFF – I can't speak to that, sir. I'm not a diplomat.
- 16.38.27           HAMMOND – Off the record.
- 16.40.29           GRIFF – They're not out there, sir. No way.
- 16.43.13           HAMMOND – Administrator Calder says they are.
- 16.47.09           GRIFF – Then I'd say he's a damn liar.

**ACT THREE**

17.04.15 DANIEL – Kegan, I need to ask you something. How did I get here?

17.10.17 KEGAN – What do you mean how'd you get here? You were transferred from the mines.

17.12.27 DANIEL – No. Before that.

KEGAN (OS) – Before?

DANIEL – Yes.

17.19.17 KEGAN – You don't remember?

17.21.09 DANIEL – I keep thinking about it and all I come up with is a handful of memories.

17.27.09 KEGAN – What is this about, anyway?

17.29.27 DANIEL – I'm just wondering if Jonah and Therra were ever my friends.

17.36.06 KEGAN – Friends.

17.37.11 DANIEL – Maybe I don't recognize 'em because it was years ago.

17.38.26 KEGAN – Listen to me. They are just tryin' to get close to Brenna so that they can get special treat--

17.44.00 KEGAN (OS CONT) –ment. Especially Therra.

DANIEL – All I’m saying—

KEGAN (OS CONT) – And all I’m saying...

17.48.19 KEGAN (CONT) – that if you’re friends with those two, you’re not mine.

18.45.14 WORKER #1 – Pressure’s too high. Pipes are hot.

WORKER #2 (OS) – We’re too late. This whole section’s gonna blow. Help me get  
him outta here!

19.04.19 CARTER – What’s going on?

WORKER #1 – Pressure overload.

CARTER – We’ve gotta fix it.

WORKER #1 – It’s too late. We have to evacuate.

DANIEL – What’s happening?

CARTER – If that boiler blows it’ll take this whole section with it. Now I can shut off the main boiler from here but somebody’s gonna have to get back there and open the primary release valve.

KEGAN (OS) – Carlin!

DANIEL (OS) – Get these people outta here.

KEGAN (OS) – Get out of here! Clear this section!

19.40.21 DANIEL (OS) – Here!

19.50.20 WORKER #3 (OS) – This way, let’s go!

20.03.05 O’NEILL (OS) – Damnit!...

20.21.27 O'NEILL (CONT) – Hey!

20.33.28 TEAL'C – I must return to my duties.

BRENNA – I want you to rest. You'll stay here until I say you're well enough to work.

As for you...

20.45.24 BRENNA (OS CONT) – three, we all owe you a debt of gratitude. You risked your lives to save the plant.

CARTER (AND DANIEL AND O'NEILL OS) – It is my honor to serve.

20.53.07 O'NEILL – Right.

20.54.20 BRENNA (OS) – If it...

20.54.25 BRENNA (OS CONT) – hadn't been for your quick action, m--

20.56.11 BRENNA (CONT) –any lives might've been lost.

20.57.27 CARTER – Next time will be different.

20.59.10 BRENNA – Oh, hopefully there won't be a next time.

21.01.07 CARTER – Well if you had listened to me in the...

21.02.16 CARTER (OS CONT) – first place—

BRENNA – Therra! You're dismissed.

21.22.17 O'NEILL (OS) – Hey next time don't hold back. Just, you know...

O'NEILL (CONT) - speak your mind.

CARTER – She knows I'm right.

DANIEL (OS) – There's something else going on...

DANIEL (CONT) – The big nightsick guy with the uh—

21.35.19 CARTER – Tor.

21.39.13 DANIEL – He said we were part of something called SG-1.

21.42.00 O'NEILL – Yeah, what is that?

21.43.19 CARTER – A team?

21.45.20 O'NEILL – What kind of a name is that for a team?

21.48.04 DANIEL (OS) – I don't know...

21.49.21 DANIEL (CONT) – Look, I just think I’m s’posed to be doing something more important.

21.53.27 CARTER – We’re helping our people survive an ice age.

21.56.06 O’NEILL – Yeah, what’s more important than that?

21.58.02 DANIEL – I don’t know. Look, I just have this feeling that all of us are part of some bigger, grander thing.

22.13.07 O’NEILL – Well I certainly understand what you’re talkin’ about.

22.16.24 DANIEL – You do?

22.17.17 O’NEILL – No.

22.19.17 DANIEL – Look, I don’t know how to explain this but I had this dream. You were in it.

22.26.26 O’NEILL – Me?

22.28.25 DANIEL – There was this big, glowing puddle.

22.31.16 O’NEILL – Okay, just stop talking, right now.

- 22.34.07 CARTER – Wait a second, Jonah. I had the same dream.
- 22.36.27 O'NEILL – Will you two stop talkin' like that, for cryin' out loud? It's an expression.  
Right?
- 22.48.10 DANIEL – Look, we can't talk right now. Let's meet after lights out.
- 23.39.24 DANIEL (OS) – So?
- CARTER – So?
- 23.42.07 DANIEL – Did you have the same dream?
- 23.45.11 O'NEILL – About you?
- 23.46.24 CARTER – No. About the shimmering circle of water.
- 23.49.03 O'NEILL – No. My dreams are about other things.
- 23.57.12 DANIEL (OS) – Tor said we had to...
- 23.58.07 DANIEL (OS CONT) – escape...
- 24.0.11 DANIEL (CONT) – He also said we had to remember. Remember what?

- 24.02.26 O'NEILL – Well I remember when I was foreman, anyone caught doing what we're doing right now had their rations cut in half for a month.
- 24.09.17 CARTER – Well we'll have to risk it.
- 24.11.17 DANIEL – What if our memories have been somehow altered?
- 24.14.02 CARTER – Well if that's true then we can't be sure of anything.
- 24.16.27 O'NEILL – My memory's fine.
- 24.19.03 DANIEL – Really?
- 24.20.09 O'NEILL – Yeah.
- 24.21.28 DANIEL – What'd you do in the mines?
- 24.25.11 O'NEILL – I mined.
- 24.27.08 DANIEL – No, what did you do?
- 24.30.08 O'NEILL – I remember shoveling ore into a cart.
- 24.33.19 DANIEL – And?

- 24.36.23 O'NEILL – I did that a lot.
- 24.45.07 CARTER – I remember a feeling of cold and darkness.
- 24.48.07 DANIEL – And that's where the two of you met?
- 24.50.05 O'NEILL – Yeah.
- 24.51.25 CARTER – Really?
- 24.55.01 O'NEILL – Sure. So what's this important thing we're s'posed to be doing?
- 25.03.05 DANIEL – I told you I don't know. I keep tryin' to remember but all I, I come up with  
are images of this place.
- 25.11.06 CARTER – But if you're right then everything we remember about this place is a lie.
- 25.14.18 DANIEL – It's like a façade. It only works if we don't dig too deep beneath the surface,  
if we don't question it. So that's what we have to do. We have to question  
everything, every assumption, everything.
- 25.26.19 CARTER (OS) – We have to keep this to ourselves...
- 25.28.21 CARTER (CONT) – If the others heard us talking this way they'd think we were  
nightsick.

25.32.04 O'NEILL – What if we are nightsick?

25.34.09 CARTER – I don't think so, sir.

25.37.06 DANIEL – What?

25.39.00 CARTER – What?

25.40.01 DANIEL – You just called Jonah “Sir”.

25.47.17 CARTER – Well it's an expression. Isn't it?

#### ACT FOUR

26.06.06 FRASIER – Sir? I have those medical reports you were waiting for. Major Griff did  
suffer some minor frost--

26.12.17 FRASIER (OS CONT) –bite, but the rest of his team is fine.

HAMMOND – Thank you, Doctor.

26.23.28 FRASIER – Any word from the planet?

26.26.09 HAMMOND – I spoke to Administrator Calder about an hour ago. He regretfully  
informed me that a search of the city turned up nothing.

26.32.25 FRASIER – So that's it?

26.34.14 HAMMOND – Short of going to war all we can really do is break off diplomatic relations. I'm not authorized to do that just yet.

26.40.16 FRASIER – I take it they have something we want.

26.43.19 HAMMOND – They're quite advanced in metallurgical and chemical technolo--

26.47.08 HAMMOND (OS CONT) –gies.

FRASIER – Well we must have something they want or they wouldn't have proposed trade.

26.50.22 HAMMOND – Stargate technology. Gate addresses.

26.53.22 FRASIER – Yeah, well, I understand that. They're surrounded by ice.

26.56.26 HAMMOND – As far as I am concerned they need us a helluvalot more than we need them. Apparently Administrator Calder doesn't seem to think so. Frankly, I think he likes things just the way they are.

27.08.15 FRASIER – Doesn't leave you with many options, does it, sir?

27.10.25           HAMMOND – No it doesn't. Which is why I've ordered Major Griff to draw up a covert search and rescue plan.

27.18.05           FRASIER – Well, if, if you're looking for volunteers, sir?

27.21.13           HAMMOND – Thank you, Doctor. I'll keep that in mind.

27.52.08           O'NEILL – Any more dreams?

DANIEL (OS) – I saw the pool of light again...

27.59.09           DANIEL (CONT) – Except this time we were all there. Including Tor.

28.04.24           O'NEILL – I've dreamed about mining. Naked.

28.15.28           DANIEL – Therra?

28.17.06           CARTER – Uhm, a lot of numbers and letters keep popping into my mind. SG-1...

28.23.28           CARTER (OS CONT) – DHD, GDO.

DANIEL – Sounds like gibberish to me.

28.29.29           CARTER – Well it must mean something.

28.34.17           O'NEILL – Excuse me.

28.48.06 CARTER – Jonah?

28.54.26 O'NEILL (OS) – That means something.

28.57.29 CARTER – What is it?

29.00.08 O'NEILL – I don't know yet...

29.11.21 O'NEILL (CONT) – Very impressive.

29.28.07 KEGAN – I see you made some new friends.

DANIEL – Yeah.

29.32.08 KEGAN – Carlin.

29.33.15 DANIEL – I'm sorry, Kegan.

29.45.11 ATTENDANT (OS) – I don't understand. His condition's getting worse...

29.48.06 ATTENDANT (CONT) – Here, let me check his wound.

29.50.04 BRENNA (OS) – Under no cir—

BRENNA (CONT) –cumstances are you to remove those bandages...

29.56.04 BRENNA (CONT) – Just make sure he continues to eat and drink.

30.36.01 O'NEILL – I remember something. There's a man. He's bald and wears a short-sleeved shirt. And somehow he's very important to me. I think his name is Homer.

CARTER – Doesn't ring a bell.

O'NEILL – You?

CARTER – Just a lot of vague images. You know there are things about this place that I like.

O'NEILL – Really? Would it mean anything if I told you I remember something else?

CARTER – What?

O'NEILL – Feelings.

CARTER – Feelings.

O'NEILL – I remember feeling feelings.

CARTER – For me?

O'NEILL – No. For Tor. I don't remember much, but I do remember that.

CARTER – So?

O'NEILL – So, uh, I'm just saying.

32.21.00           BRENNA (OS) – For some reason Tor seems to be having an adverse reaction to the memory stamp. I, I think he may be dying.

32.28.11           CALDER – Workers die. What about his friends?

BRENNA – I've received a report. They've been gathering together in secret.

Administrator, I think that they're starting to remember. Their brain chemistry is slightly different than ours. That could be the reason. But we can re-stamp them.

CALDER – No...

32.49.29           CALDER (CONT) - No, I think it's time they found out what it was like outside.

32.53.18           BRENNA – All they really did was disapprove of our treatment of the workers.

32.57.14           CALDER – No, no. No, they did much more than disapprove. They passed judgment on us, Brenna. I'm simply doing the same.

33.11.05           BRENNA – Yes sir.

CALDER (OS) – Brenna...

33.15.13           CALDER (CONT) – If for some reason you can't comply with my

33.16.12 CALDER (OS CONT) – orders—

BRENNA – It’s an honor to serve, Administrator.

33.21.09 CALDER – Yes it is.

34.11.09 O’NEILL – Very impressive...

34.14.23 O’NEILL (OS CONT) – Too bad it’s a lie.

34.19.04 CALDER – I don’t understand.

34.20.28 O’NEILL – While we were on the grand tour, Carter spotted some ventilation shafts coming out of, apparently, no where. We checked it out.

34.28.22 CALDER – You were supposed to stay with your escort.

34.30.26 O’NEILL – Yeah. I can see how you wouldn’t want outsiders to know about the slave labor force you keep underground.

34.39.04 CALDER – They’re merely workers.

34.40.26 O’NEILL – And what made them so worthy of that?

34.45.20 CALDER – Colonel—

O'NEILL (OS) – Administrator...

34.51.12 O'NEILL (CONT) – I will not recommend trade with a culture that enslaves its own people. I don't care what kind of technology you have to offer.

35.01.06 CALDER – This system of government has allowed our culture to survive an ice age.

35.07.15 O'NEILL – Tell me, what's the secret? Starvation? Torture?...

35.14.24 O'NEILL (OS CONT) – What?

CALDER – Our methods are actually quite civilized.

35.22.09 O'NEILL – Really?

35.24.18 CALDER – Yes. In fact, I'll show you.

35.46.20 O'NEILL (OS) – Therra, I think I know what's...

O'NEILL (CONT) - goin' on.

WORKER #2 (OS) – Jonah, Therra...

35.51.12 WORKER #2 (CONT) – Report to Brenna's quarters.

**ACT FIVE**

36.05.10 ATTENDANT – What is it?...

ATTENDANT (OS CONT) – What're you doing?

WORKER #1 – Got orders to take him up to Brenna's room.

36.24.17 BRENNA – Put him down over there. You're dismissed.

36.42.09 CARTER – What's the matter with him?

36.44.04 BRENNA – He's dying.

36.47.00 DANIEL – Kelnoreem.

36.51.17 O'NEILL – What?

36.54.29 DANIEL – I'm not sure what it means but I think—

36.59.06 O'NEILL – It's a kind of meditation...

37.01.23 O'NEILL (OS CONT) – He has to do it every--

37.02.21 O'NEILL (OS CONT) –day or he gets sick...

37.05.05 O'NEILL (CONT) – Right?

37.06.24 CARTER – So why doesn't he do it?

- 37.12.06 O'NEILL – Because he can't remember.
- BRENNA (OS) – Colonel O'Neill is correct...
- 37.16.25 BRENNA (CONT) – As you've begun to suspect, all of you have had your memories altered...
- 37.21.06 BRENNA (OS CONT) – You are Major Samantha Carter...
- 37.24.15 BRENNA (CONT) – Dr. Dan--
- 37.25.02 BRENNA (OS CONT) –iel Jackson. And your friend here is named Teal'c.
- 37.28.04 O'NEILL – Where does Homer fit in?
- 37.30.25 BRENNA – You were all they sent down...
- 37.34.01 BRENNA (OS CONT) – At first I, I thought it was necessary to protect the city, but...
- 37.38.28 BRENNA (CONT) – now things have gone too far...
- 37.42.19 BRENNA (OS CONT) – You don't belong...
- 37.43.08 BRENNA (OS CONT) – here. You need to return to your...
- 37.45.12 BRENNA (OS CONT) – own world...
- 37.46.23 BRENNA (CONT) – And your memories will come back more quickly once you get home.
- 37.51.20 O'NEILL – Home?
- 37.52.18 BRENNA – Yes. Through there...
- 38.03.03 BRENNA (CONT) – Administrator Calder

- 38.05.00 CALDER – Brenna. I must say I'm disappointed...
- 38.09.02 CALDER (OS CONT) – but not surprised...
- 38.10.15 CALDER (OS CONT) – See, I've been watching you...
- 38.12.07 CALDER (CONT) – grow weaker for some time now.
- 38.14.12 BRENNA – I've been coming to my senses.
- 38.16.22 CALDER – Either way. You're no longer of any use to me...
- 38.32.21 CALDER (CONT) – As for the rest of you. It's time you found out what the surface  
of...
- 38.36.14 CALDER (OS CONT) – this planet is really like.
- 38.54.15 O'NEILL (OS) - Teal'c?...
- 38.56.10 O'NEILL (CONT) – You alright?
- 38.57.07 TEAL'C – I am.
- 38.58.02 DANIEL – What happened?
- 38.59.13 TEAL'C – When I removed my bandages and realized I was unlike the rest of you, I  
began to remember. I placed myself in a deep state of kelnoreem through the  
night, and my symbiote restored me to health.
- 39.10.09 CARTER – Brenna should be alright if we can get her to the, uh—

- 39.12.24 O'NEILL – Infirmary.
- 39.14.03 CARTER – Right.
- CALDER (OS) – You'll...
- 39.15.14 CALDER (CONT) - never make it back to the Stargate.
- 39.17.21 O'NEILL – You know something? We've got you as a hostage. I don't see a problem.
- 39.20.24 DANIEL – Jonah.
- 39.21.16 O'NEILL – Jack.
- 39.22.13 DANIEL – Right. We can't. We have to tell these people what's happening here.
- 39.29.23 O'NEILL – Yep. You're right...
- 39.40.29 O'NEILL (OS CONT) – Everybody! Can we have your attention please? Like to  
introduce you to someone...
- 39.51.10 O'NEILL (CONT) – This man has been keeping you locked up down here while he and  
his friends live it up on the...
- 39.57.21 O'NEILL (OS CONT) – surface.
- KEGAN – What're you talking about?
- 39.59.25 CALDER – Don't listen to them. They shot Brenna...

- 40.04.10 CALDER (OS CONT) – It's true.
- 40.05.05 O'NEILL – Listen to me! There is a big domed city...
- 40.09.11 O'NEILL (OS CONT) – up there, full of people you serve. They've...
- 40.13.04 O'NEILL (CONT) – been hiding it from you your entire lives.
- 40.15.20 KEGAN (OS) – It's a lie.
- 40.17.12 DANIEL – He's telling the truth, Kagen.
- 40.20.16 CALDER – You can't let them get away.
- 40.22.01 KEGAN – Who are you?
- 40.24.08 O'NEILL – It's a good question.
- 40.27.02 CALDER – My name is Calder...
- 40.30.01 CALDER (OS CONT) – I was a...
- 40.30.10 CALDER (OS CONT) – supervisor in the mines. Before I was transferred.
- 40.33.09 O'NEILL – Yeah, whatever. You want proof?
- 40.40.16 KEGAN (AND OTHERS OS) – No!

42.16.27 CARTER – So, Colonel.

42.23.21 O'NEILL – Major.

42.26.01 CARTER – That bald man you were tryin' to remember.

42.27.27 O'NEILL – General Hammond.

42.29.12 CARTER – Right.

42.60.25 O'NEILL – He's from Texas, you know? It's all coming back.

42.35.14 CARTER – Yes sir.

42.39.23 O'NEILL – Sir. Let's go home.

42.52.08 CARTER – Yes sir.

41.07.10 O'NEILL – No ice. No snow.

41.12.27 CALDER – You've accomplished nothing. These people will never be accepted in the city.

41.17.22 O'NEILL – I think you're right about that.

41.21.11 DANIEL – That's why we're gonna offer them a better place.

41.23.28 O'NEILL – There's this nice, little tropical planet out there, where the beaches go on forever. This, I remember clearly. You and your people can do your own shoveling for awhile.

41.39.20 CALDER – You're destroying a way of life.

41.42.08 O'NEILL – That's a shame. Teal'c, wanna show these people how to get out of here?

42.02.14 BRENNNA – Uh, it hurts.

CARTER (OS) – I know. Try not...

CARTER (CONT) – to move it. I'm gonna take you home with us.

BRENNNA (OS) – Uh, thank you.
