#### ACT ONE

03.49.11 MARTIN – Colonel O'Neill?

03.52.15 O'NEILL – Yeah.

03.53.10 MARTIN – Sorry I'm late. I think I was followed.

03.58.08 O'NEILL – You sure?

03.59.07 MARTIN – Yeah. But don't worry. I managed to lose 'em.

04.03.04 O'NEILL – Very professional...

04.05.20 O'NEILL (OS CONT) – What's your name?

MARTIN – You can call me Martin.

04.09.04 O'NEILL – Okay, Martin. What's this about?

04.12.00 MARTIN – If, if you don't mind, before we get started...

04.21.26 MARTIN (OS CONT) – Just...

04.22.02 MARTIN (CONT) – like to check you for transmitters.

O'NEILL – Okay.

MARTIN – You're clean...

04.38.00 MARTIN – You understand a man in my position has to take precautions.

04.41.12 O'NEILL – Yeah. You never know who's listening.

MARTIN (OS) – Exact--

04.44.13 MARTIN (OS CONT) –ly. I don’t know about you, but I always feel like I’m bein’  
watched.

O’NEILL (OS) – Come on, Martin. Let’s get to it. What’s goin’ on here?

MARTIN (OS) – You know as well as I do.

O’NEILL (OS) – I don’t.

05.00.24 CARTER (OS) – Okay, here we go. If he’s got a driver’s license...

CARTER (CONT) – we should be able to find

DANIEL – You know I’ve never been on a stakeout before. Shouldn’t we have like,  
like doughnuts or something?

05.12.06 MARTIN – A top-secret government program involving instantaneous travel to other  
solar systems by means of a device known as a Stargate.

05.21.15 O’NEILL – Sounds like a good idea for a TV show. If you’re into that sort of thing.

05.26.28 MARTIN – Colonel, let’s not play games. If it isn’t true, then why would you come all  
this way?

05.31.11 O’NEILL – Okay. The truth...

05.34.27 O’NEILL (OS CONT) – There is a top secret gov--

05.36.19 O'NEILL (CONT) –emment program called Project Stargate.

05.39.03 MARTIN – I knew it!

O'NEILL (OS) – But it has no--

05.40.08 O'NEILL (CONT) –thing to do with space travel.

05.43.07 MARTIN – What does it have to do with?

05.45.20 O'NEILL – Magnets.

05.48.24 MARTIN – What the hell is that supposed to mean?

05.50.12 O'NEILL – Nope. I've already said too much.

MARTIN (OS) – Colonel, you're...

05.52.19 MARTIN (CONT) – not taking this seriously.

05.54.14 O'NEILL – No, I'm not.

05.56.26 MARTIN – I need help.

05.58.01 O'NEILL – Why? What seems to be—

MARTIN (OS INTERRUPTING) – I have to...

- 05.59.18 MARTIN (CONT) – go through the Stargate.
- 06.01.29 O'NEILL – Marty, I don't—
- MARTIN (OS INTERRUPTING) – No...
- 06.03.21 MARTIN (CONT) – I mean it. I've come to realize that I don't belong here...
- 06.07.17 MARTIN (OS CONT) – For the longest time, I was obsessed...
- 06.09.20 MARTIN (OS CONT) – with all those alien conspiracies...
- 06.12.10 MARTIN (CONT) – Crop circles. Cow mutilations. The Apollo cover-up.
- 06.16.00 O'NEILL – I thought the Lunar landings were a hoax.
- 06.18.06 MARTIN – No. That was a story created by the government to direct attention from  
the real cover-up. Everybody knows that...
- 06.24.29 MARTIN (CONT) – Anyway, one day I'm on-line and I find this conspiracy...
- 06.30.02 MARTIN (CONT) – chat room, and they're talking about something called The  
Stargate. Most of it was dis--
- 06.35.12 MARTIN (OS CONT) –formation, but the word Stargate st--
- 06.37.26 MARTIN (CONT) –uck in my head. It triggered what I later realized was a suppressed  
memory...
- 06.44.02 MARTIN (OS CONT) – You see, Colonel O'Neill, the truth is...
- 06.47.07 MARTIN (CONT) – I'm not just interested in outer space. I'm from outer space.
- 06.58.07 O'NEILL (OS) – Check please?

- 07.00.07 CARTER (OS) – We got something...
- CARTER (CONT) – That’s him. Martin Lloyd...
- 07.06.22 CARTER (OS CONT) – Brown hair, hazel eyes. Looks like he’s got a criminal record...
- 07.13.07 CARTER (CONT) – He was arrested for protesting outside a TV station. He claimed subliminal advertising was controlling his thoughts.
- 07.21.23 DANIEL – Do you have a current address?
- 07.23.05 CARTER – Oh yeah. I could get the prescription of his glasses if I want it.
- 07.28.24 MARTIN (OS) – So you still don’t believe me?...
- MARTIN (CONT) – I’m an alien.
- O’NEILL – You look pretty human to me.
- MARTIN – No. What I believe...
- 07.35.13 MARTIN (CONT) – is that thousands of years ago, people were taken from Earth...
- 07.39.18 MARTIN (OS CONT) – Maybe as part of some experiment, maybe as slaves...
- 07.42.27 MARTIN (CONT) – Who knows? But the point is, there are entire civilizations up there descended from those original humans.
- 07.50.25 O’NEILL – Now that’s just crazy talk.
- 07.52.26 MARTIN – You want proof?...

07.55.26 MARTIN (CONT) – I can give you...

MARTIN (OS CONT) - proof. I...

07.56.28 MARTIN (CONT) – can show you my ship.

08.01.22 O'NEILL – Look, Marty, I'm a busy man, and you don't strike me as any great threat to  
national secu--

08.07.13 O'NEILL (OS CONT) –rity...

08.12.04 O'NEILL (CONT) – But as you know, it never hurts to be thorough...

08.15.05 O'NEILL (OS CONT) – So...

08.17.15 O'NEILL (CONT) – Show me.

08.32.11 MARTIN (OS) – It's just over the next ridge. The ship's mostly buried but I know  
exactly where it is.

O'NEILL (OS) – Marty, what makes you think you can trust me with all this?

MARTIN (OS) – I can't explain it, Colonel. I just have a gut feeling...

MARTIN (CONT) – Like, we have something in common.

O'NEILL – Well that's very flattering. But I'm not an alien.

MARTIN – I know that. It's something else. Here. Up here.

09.17.21 CARTER (OS) – This is it.

DANIEL (OS) – Nice place.

CARTER – Hello!...

09.46.13 CARTER (CONT) – Oh boy.

DANIEL (OS) – Something tells me we don't need to worry about this guy.

CARTER (OS) – Except for the fact that he happens to be very close to the truth...

CARTER (CONT) – He looks familiar.

10.13.14 TEAL'C – It would appear this weapon is ineffective.

10.42.22 DANIEL – Oh hello. Sam, you're gonna wanna take a look at this.

10.55.13 CARTER – Woah. That's quite a collection. Tranquilizers, anti-depressants, anti-  
psychotics. Looks like our friend here was being treated for a number of  
different psychiatric problems.

DANIEL (OS) – Yeah...

11.06.27 DANIEL (CONT) – Why doesn't that surprise me?

11.15.06 O'NEILL – Marty, we've been walkin' around for half an hour.

MARTIN – I don't understand it. The clearing where I landed should be around here somewhere.

O'NEILL – How do you lose a spaceship?

MARTIN – Well my memory isn't so good. Sometimes I get a little confused. I think it might be the medication.

O'NEILL – Yeah, well there you go. Hey, listen. I'm goin' back to the car.

11.35.17 MARTIN – No. Wait. You can't. Please. It's around here. I know it is.

O'NEILL (OS) – Marty...

11.39.06 O'NEILL (CONT) – Listen to me. There is no spaceship. You're not an ali--

11.42.24 O'NEILL (OS CONT) –en.

MARTIN – You don't understand.

11.45.11 O'NEILL – I get that a lot. Come on, I'll drive you back to town.

12.01.26 CARTER (OS) – Find...

CARTER (CONT) – anything?

DANIEL – Oh, yeah, it's a diary. Take a look at this. Um, April 12<sup>th</sup>, someone's been going through my garbage, suspect CIA. Must take precautions. May 2<sup>nd</sup>. Comb missing. Suspect CIA has stolen it to acquire genetic identification. Uh, June 26<sup>th</sup>, comb found behind dresser. Disposed of it...

12.23.05 DANIEL (OS CONT) – in case of tampering, bought new comb, thirty-nine cents at Shop-More. I'm telling you this is like a, a complete waste of time. This guy's got paranoid delusions.

12.41.17 TED – What've we got?

BOB (OS) – Activity in the house.

TED – Look's like Martin's got visitors.

BOB – That's not all. See the big guy? Watch what happens when I go Thermoscan...

13.09.18 BOB (CONT) – Definitely not human.

**ACT TWO**

13.23.20 HAMMOND (OS) – Come in.

FRASIER (OS) – Sir, I have the results of the tests done on the medication that Major Carter took from Martin’s house.

HAMMOND – That was fast.

FRASIER (OS) – Preliminary analysis done at a lab...

13.35.00 FRASIER (CONT) – in Montana. They faxed it over. There are some anomalies.

13.40.15 HAMMOND – Meaning?

13.41.23 FRASIER – Several unidentifiable chemicals were present...

13.44.20 FRASIER (OS CONT) – I believe that the drugs may’ve been tampered with.

HAMMOND – For what purpose?

13.48.27 FRASIER – I can’t say. I mean for all we know, the medication may be the cause of his delusional state.

13.53.20 HAMMOND – I’ll mention that to Colonel O’Neill.

FRASIER (OS) – The name of the psych--

13.55.27 FRASIER (CONT) –iatrist who prescribed the drugs was on the label.

- 13.59.23 TANNER (OS) – I must say your phone...  
TANNER (CONT) – call piqued my curiosity. I don't often get requests for information from the military.
- 14.06.12 CARTER – Well this concerns a particular patient of yours. Martin Lloyd.
- 14.11.05 TANNER – Oh, I see. Of course you understand the doctor-patient privilege prohibits me from discussing the...
- 14.16.14 TANNER (OS CONT) – case history of my clients.  
  
CARTER – This is a matter of national security, Doctor Tanner...
- 14.20.10 CARTER (OS CONT) – That privilege doesn't exist in this case.  
  
TANNER – National security, involving Martin? I find that hard to believe.
- 14.27.17 DANIEL – Why do you say that?
- 14.29.11 TANNER – Let's put it this way. People like Martin sometimes compensate for their feelings of insignificance by creating elaborate fantasies...  
feelings of insignificance by creating elaborate fantasies...
- 14.37.14 TANNER (OS CONT) – in which they are the center and focus of all attention...
- 14.40.29 TANNER (OS CONT) – These people are usually harmless, alth--
- 14.42.19 TANNER (CONT) –ough often they try and draw others into their delusions. That's what's happened here.
- 15.35.20 MARTIN (OS) – Colonel O'Neill...

15.37.02 MARTIN (OS CONT) – Colonel O’Neill, are you in there?

O’NEILL (OS) – Martin?

MARTIN (OS) – Please, I have to see you...

15.56.09 MARTIN (CONT) – Oh...

MARTIN (OS CONT) - so good...

MARTIN (CONT) – you’re here. You have no idea what’s-- Who’s he?

O’NEILL – Uhh, my friend. Murray.

16.09.16 MARTIN – You trust him?

16.10.20 O’NEILL – Oh yeah.

16.13.10 MARTIN – I guess it’s okay for me, then.

16.16.00 O’NEILL – Good. Glad you’re comfortable.

16.20.26 MARTIN (OS) – Don’t you want to know how I found you?

16.24.06 O’NEILL – Uh, okay.

17.18.13 O'NEILL (OS) – So you leave the window unlocked?

MARTIN (OS) – Yeah, but...

17.20.17 MARTIN (CONT) – I put a hair on the inside of the windowsill. Now if that's gone  
when...

17.24.06 MARTIN (OS CONT) – get back then I—

O'NEILL (INTERRUPTING) – Marty.

17.25.28 MARTIN – The point is someone was there. They're...

MARTIN (OS CONT) – after me...

17.29.08 MARTIN (CONT) – You have to help me, please. I'm running out of time.

17.33.03 O'NEILL – What do you want?

17.35.04 MARTIN – I want to go home. You have to take me through the Stargate.

17.41.23 DANIEL – Dr. Tanner, it may be true that Martin is delusional but there are still some  
unanswered questions here.

17.46.26 TANNER – Such as?

17.48.09 DANIEL – Well he seems to be taking a lot of medication.

17.50.17 TANNER – No more than necessary.

CARTER (OS) – Doxepin, Halo--

17.53.12 CARTER (CONT) –peridol, Perphenazine, Lithium, Valium—

17.55.26 TANNER – Major, please. I don't have time to discuss the benefits of  
psychopharmacology. This interview is over.

CARTER (OS) – Dr. Tanner...

18.04.09 CARTER (CONT) – We obtained samples of Martin's medication and ran an analysis.  
Apparently the drugs have been laced with some indeterminate chemicals.

18.12.01 TANNER – Well that's absurd. There must be some mistake.

18.14.04 CARTER – The tests were very thorough.

18.15.28 TANNER – Well I don't know anything about this. I mean, I just write the  
prescriptions, I don't make the drugs.

CARTER (OS) – We're not...

18.20.07 CARTER (CONT) – accusing you of anything. We're just looking for answers.

18.24.09 TANNER – You realize that this investigation is only going to fuel Martin's paranoia?

CARTER (OS) – We don't have...

- 18.28.01 CARTER (CONT) – a choice. Now we are gonna get to the bottom of this with or without your help.
- 18.36.00 TANNER – I don't know what else I can tell you.
- 18.38.18 DANIEL – Does he have any friends or relatives we can contact? Anyone else?
- 18.59.01 TANNER – This is his work address. It's the best I can do.
- 19.11.29 MARTIN (OS) – I knew it would come to this. They're gonna do tests on me, and then they're gonna...
- MARTIN (CONT) – dissect me like one of those...
- MARTIN (OS CONT) – demented high school biology experiments.
- O'NEILL – Marty, take it easy.
- MARTIN – I'm never gonna get home. I wanna go home!
- O'NEILL – Sit!...
- 19.28.03 O'NEILL (OS CONT) – You gotta relax. Nobody's gonna...
- 19.30.13 O'NEILL (CONT) – do anything to you, I promise. Now if, and I stress the word if there is such a thing, what makes you think your way home is through this Stargate?
- 19.44.20 MARTIN – I-- I, I, I don't know. I, uh, I get these ideas. Flashes...
- 19.52.11 MARTIN (OS CONT) – It-- It's a little confusing, actually...

- 19.55.06 MARTIN (CONT) – I don't even know for sure why I wanna go...
- 19.57.16 MARTIN (OS CONT) – It's just a, a feeling. Like I'm somebody there. Like, like  
there's...
- 20.04.06 MARTIN (CONT) – something important for me to do there. More Important than  
anything I do here. Can, can I have a glass of water?
- 20.12.29 O'NEILL – Yeah...
- 20.34.26 O'NEILL (OS CONT) – Let me see those...
- 20.42.12 O'NEILL (CONT) – You should go easy on this.
- 20.44.08 MARTIN – But—
- O'NEILL (OS) – Just for awhile...
- 20.46.23 O'NEILL (CONT) – Trust me.
- 20.49.26 MARTIN – What, what about the symbols?
- 20.52.05 O'NEILL – What symbols?
- 20.53.20 MARTIN – It, it's one of the things I see in the flashes. There's seven of them. I wrote  
them down.

21.28.14 CARTER (OS) – Hello?!

DANIEL – This is the place?

CARTER – Yeah. This is the address he gave us.

DANIEL (OS) – It, uh, it doesn't really look like anybody's place of work. There's no one here.

CARTER – Except for the guys with guns.

### ACT THREE

22.08.03 MARTIN (OS) – This is totally unfair...

MARTIN (CONT) – Just 'cause I'm from another planet, I don't have rights? I mean doesn't the Geneva Convention cover extra-terrestrials? I have to remember to go on-line and look that...

MARTIN (OS CONT) – up.

O'NEILL – Carter's not answering her phone.

TEAL'C – Should they not have contacted us by now?

O'NEILL – Yep.

22.23.19 MARTIN - You know, guys, I think it would be a really good idea if I took some of my medication now.

22.27.25 O'NEILL – I don't think so.

MARTIN (OS) – The thing is if I...

22.29.07 MARTIN (CONT) – go too long without, I tend to get a little nervous. No, really.

22.40.29 O'NEILL – Marty, sit down...

22.44.04 O'NEILL (OS CONT) – Let's...

22.45.21 O'NEILL (CONT) – talk about these symbols.

22.48.15 MARTIN – They mean something, don't they?

22.50.13 O'NEILL – Right now I need you to think very carefully. Where did you see them?

22.55.22 MARTIN – I told you, I have these visions. I don't know where they come from.  
Maybe it has somethin' to do with my implant.

23.05.24 O'NEILL – Excuse me?

MARTIN (OS) – They put an implant in...

23.07.19 MARTIN (CONT) – my head. I always thought they were sending me signals.

23.13.14           TEAL'C – To whom are you referring?

23.15.26           MARTIN – You know: Them? The secret government. The, the New World Order.  
                          Black helicopters. Undergr--

23.24.20           MARTIN (OS CONT) –ound bases—Don't you guys read the papers?

23.26.19           O'NEILL – Marty, for...

                          O'NEILL (OS CONT) – God's sake.

                          MARTIN (OS) – You don't believe me. My neurologist didn't believe me either, but  
                          that's only because the implant is so small, it can't be read...

23.34.07           MARTIN (CONT) – on a normal x-ray.

                          O'NEILL – Alright, this is goin' nowhere. I'm gonna go look for Carter and Daniel.  
                          Keep an eye on him.

23.54.13           MARTIN (OS) – Hey. Where're you goin'?...

                          MARTIN (CONT) – Murray?

24.15.02 TED – Okay. Let’s keep this simple. Who are you?

CARTER (OS) – Who are you?

TED – We’re the guys with the guns which means you answer our questions. So once again, who are you?

24.29.01 DANIEL – I’m Dr. Daniel Jackson, this is Major Samantha Carter.

CARTER – We’re with the Air Force.

24.33.12 TED – What are you doing here?

24.35.24 CARTER – Classified.

24.38.06 TED – What do you know about Martin Lloyd?

24.41.18 CARTER – Never heard of him.

TED (OS) – Yesterday you were con--

24.43.03 TED (CONT) –ducting an illegal search in his house.

24.45.06 DANIEL – No we weren’t.

24.50.17 CARTER – So who are you guys, really? CIA? NID?

24.58.08 TED – What do you know about Martin Lloyd?

25.32.05 MARTIN – Can I come out yet?

TEAL'C – No.

O'NEILL – Psychiatrist's office was completely empty, like no one had ever been there.

25.50.00 TEAL'C – So what now, O'Neill?

25.52.08 O'NEILL – I got some people on it. Where's Marty?

25.58.11 TEAL'C – He became insistent in his demands for medication.

26.02.20 MARTIN (OS) – Uh, Murray?...

26.04.15 MARTIN (OS CONT) – Listen, uh, I'm really sorry I tried to bite you...

26.08.00 MARTIN (OS CONT) – and I realize it's totally out of...

26.09.25 MARTIN (OS CONT) – line, but, um, I was wonder--

26.11.18 MARTIN (OS CONT) –ing if, uh, maybe, maybe I could come out now?...

26.16.25 MARTIN (CONT) – Or, or I could just stay in here. That's, that's good, too...

26.23.17 MARTIN (OS CONT) – It's just I'm, I'm getting a little dizzy.

O'NEILL (OS) – I don't get it...

26.27.29 O'NEILL (CONT) – How does a nut-job like that get a set of gate coordinates?...

26.36.23 O'NEILL (CONT) – Marty?...

26.41.20 O'NEILL (CONT) – Martin! You alright?...

26.48.19 O'NEILL (CONT) – Oh...

26.49.01 O'NEILL (OS CONT) – crap. Marty. Marty...

26.52.26 O'NEILL (CONT) – Come on, Marty.

TEAL'C – In hindsight, perhaps we should've given him his medication, O'Neill.

MARTIN (OS) – Colonel...

27.03.04 MARTIN (CONT) – I remember where my ship is.

27.10.25 TED (OS) – We know you were in Martin's house because we have you on the...

TED (CONT) – video. What can you tell us about him?

27.21.10 DANIEL – He's an associate.

TED (OS) – We know that...

37.23.14 TED (CONT) – We also know that he's not from around here.

27.26.02 DANIEL – Not from Montana?

27.29.27 TED – I think you know what I mean.

27.37.17 MARTIN (OS) – We should've...

MARTIN (CONT) – turned left at the bottom of the ravine instead of turning right.

27.46.17 TEAL'C – Do you now believe Martin is correct about his spaceship?

O'NEILL – No. But he's the closest thing we've got to a lead on Carter and Daniel.

After you, Murray.

28.02.26 MARTIN (OS) – This is it! I told you! This is the clearing! The ship is around here  
somewhere, but, remember...

28.11.29 MARTIN (CONT) – it's mostly buried, so keep your eyes open...

MARTIN (OS CONT) – and watch your step—aghghghh...

28.22.27 MARTIN (CONT) – This is it...

28.27.11 MARTIN (OS CONT) – I knew it was here. I...

28.29.02 MARTIN (OS CONT) – knew it...

MARTIN (CONT) – I'm not crazy.

#### ACT FOUR

28.49.27 PETERS (OS) – The material the object is made from is...

PETERS (CONT) - definitely not terrestrial. We used Sonar to get the general size  
and shape. And I've enhanced the image by extrapolating from the exposed  
portion...

- 29.02.14           PETERS (OS CONT) – It should look something like this. It's approximately sixteen feet long by ten feet wide.
- 29.08.11           MARTIN – That's not right. It's too small. That can't be my ship.
- O'NEILL – There's another ship out there?
- 29.17.22           TEAL'C – Could it be an escape pod?
- 29.20.22           MARTIN – That's it. There must've been some kind of malfunction. We abandoned the ship and came down in the pod.
- 29.30.04           O'NEILL – We? There's more of you? How many more?
- 29.37.00           MARTIN – I'm not sure.
- 29.38.05           PETERS – Can't be too many, sir. From the size of that thing, I'd say four, maybe five, max.
- 29.43.04           MARTIN (OS) – All this time I thought the government was watching...
- 29.45.04           MARTIN (CONT) – me. What if it was the others?
- 29.49.03           TEAL'C – What would these others want?

- 29.51.21 MARTIN – I don't know. Maybe they're afraid. They don't want to be exposed.
- 29.58.07 TEAL'C (OS) – If that is the case...
- 30.00.02 TEAL'C (CONT) – then these others may indeed be responsible for the disappearance  
of Daniel Jackson and Major Carter.
- 30.08.16 TED (OS) – So you're telling me this man is an ordinary technical...  
TED (CONT) – sergeant?
- 30.13.08 DANIEL – I wouldn't say ordinary.
- 30.15.19 CARTER – He's very good at what he does.
- 30.17.26 TED – What's his area of expertise?
- 30.22.14 CARTER – Speechwriter.
- 30.30.18 TED – What about this?
- 30.32.22 DANIEL – Oh, that's, that's very good. Did you draw that yourself?
- CARTER – What is it?
- DANIEL – That's a, that's a duck, isn't it?...

30.57.29 DANIEL (CONT) – We'll just wait here.

31.04.22 MARTIN (OS) – Our homeworld was under attack...

MARTIN (CONT) – We were sent out to find allies but when we got here we realized  
you weren't advanced enough to help us.

O'NEILL (OS) – Well we have our moments.

MARTIN – The enemy was too powerful. They wanted to make us slaves. They  
wanted us to worship them like Gods.

31.25.06 TEAL'C – The Goa'uld.

31.27.21 MARTIN – Yes. That's it.

31.33.05 O'NEILL – Show him.

31.34.27 TEAL'C (OS) – The enemy of which you speak enslaved my people...

31.37.28 TEAL'C (CONT) – murdered my father, and banished my wife and child from our  
people. I am branded with the symbol of this false God.

31.47.10 MARTIN – Murray!

PETERS – Colonel...

31.59.28 PETERS (OS CONT) – We've completed the...

31.50.25 PETERS (CONT) – radiation sweep. We’re ready to open the hatch.

O’NEILL (OS) – Alright, let’s to it.

MARTIN (OS) – Wait, wait. You can’t...

MARTIN (CONT) – The pod has remote sensors. If you penetrate the hull, they’re gonna know about it.

32.04.11 TEAL’C – Perhaps it can be used to our advantage, O’Neill.

32.14.14 CARTER (OS) – I don’t get this. These guys know what a symbiote is...

CARTER (CONT) – But if they were really N.I.D. they’d know that Teal’c isn’t a security threat.

DANIEL (OS) – I don’t know. That’s why I...

DANIEL (CONT) – hate workin’ for the government. Every department has its own agenda, it’s own little secret.

TANNER (OS) – Very true, Dr. Jackson.

DANIEL – Oh yeah, yep, didn’t see that one coming.

TANNER – I understand your reluctance to cooperate. In situations like this, information is on a need to know basis...

32.48.10 TANNER (CONT) – The fact of the matter is, we’re running out of time...

32.53.20 TANNER (OS CONT) – I’m running out of patience. And I really...

32.57.28 TANNER (CONT) – need to know.

33.04.27 DANIEL – You’re not a real Doctor, are you?

33.14.00 TED – Looks like the experiment’s been discovered...

33.16.24 TED (OS CONT) – What do we do?

33.17.29 TANNER – Get the van.

33.23.02 DANIEL – We’re going for a ride?

33.24.18 TANNER – Not exactly.

#### ACT FIVE

33.34.14 MARTIN (OS) – This is not a good idea. Did I mention this is not a good idea? I don’t  
exactly appreciate being used as...

MARTIN (CONT) – bait.

33.42.23 O’NEILL – Hang in there, Marty. Stop talking into your lapel.

33.47.14 MARTIN – Oh it’s easy for you guys, all nice and cozy back in your van, eating your  
Crullers and your bearclaws...

33.54.19 MARTIN (OS CONT FILTERED) – I’m the one standing out here...

33.56.09           MARTIN (CONT) – risking...  
                      MARTIN (OS CONT) – my—  
                      MARTIN (CONT) – We got company.

                      TANNER (OS) - I must say, Martin...  
                      TANNER (CONT) - this is very disappointing...

34.05.00           TANNER (OS CONT FILTERED) – You stopped taking your medication, didn't you?

34.07.09           MARTIN (OS) – I'm not crazy, and you're not a psychiatrist. You see this?...  
                      MARTIN (CONT) – This is what brought us...

34.12.25           MARTIN (CONT) – here. I know it. I remember now.

34.15.11           TANNER – Martin, you've really made a mess of things this time.

34.41.19           MARTIN – Nice van. What do you call that color? Kind of a grayish-green, huh?

                      BOB – Just get in.

35.01.14           O'NEILL – Alright, they're movin'.

35.07.04           MARTIN – So you gonna drug me again?

                      TANNER – Well obviously that didn't work...

35.11.18           TANNER (OS CONT) – I'm afraid we're gonna have to take more drastic measures.

- 35.18.13 MARTIN – You’re not gonna kill me...
- 35.20.17 MARTIN (OS CONT FILTERED) – You know how many people know about this  
now?...
- 35.23.05 MARTIN (OS CONT FILTERED) – What, what about Major Carter and...
- 35.24.21 MARTIN (OS CONT FILTERED) – Dr. Jackson? You gonna kill all of us?
- 35.27.25 TANNER – We’re gonna do what we have to do.
- 35.34.16 MARTIN – This isn’t right. I know you. I know all of you...
- 35.38.21 MARTIN (OS CONT) – We were on the ship together...
- 35.40.25 MARTIN (CONT) – We’re soldiers, not murderers. That’s why you drugged me  
instead of kill--
- 35.43.28 MARTIN (OS CONT) –ing me in the first place.
- TANNER – Martin.
- 35.46.02 MARTIN – It’s not too late. Our people are at war. They need us.
- 35.51.28 TANNER – Martin, I hate to see you like this. You were my best agent.
- 35.56.15 MARTIN – I, I, I was never any kind of agent. You’re just saying that ‘cause you think  
I’m bugged.

- 36.01.12 TANNER (OS FILTERED) – Well aren't you?
- MARTIN (OS FILTERED) – No. Of course not...
- 36.04.18 MARTIN (OS CONT FILTERED) – This whole government agency thing...
- 36.07.10 MARTIN (OS CONT FILTERED) – It, it's just a cover...
- 36.09.16 MARTIN (CONT) – We're all really aliens, right?
- 36.12.20 TANNER (OS) – With all the secrecy...
- 36.14.02 TANNER (OS CONT) – and all the lies...
- 36.15.19 TANNER (CONT) – it's easy to get confused.
- 36.17.23 MARTIN (OS FILTERED) – I'm not confused. I know who I am...
- 36.22.10 MARTIN (CONT) – Why are you guys doing this? Why don't you just admit who we  
are? We can all just go home...
- 36.29.25 MARTIN (CONT) – They have a Stargate.
- 36.40.20 O'NEILL – It stopped. Get to 'em...
- 37.06.10 O'NEILL (CONT) – Seal off the area. No one in or out...

37.31.22 O'NEILL (OS CONT) – Carter?!

CARTER (OS) – Sir?

O'NEILL (OS) – You alright?

CARTER – Yeah.

37.51.19 MARTIN (OS) – Uhhh...

37.57.16 MARTIN (OS CONT) – Uhh, oh Murray. Am I glad to see you. Oh.

O'NEILL – Where are your friends?

38.06.03 MARTIN – I'm not sure.

38.08.07 O'NEILL – Sergeant. Any sign of the targets?

PETERS (OS FILTERED) – Negative, sir.

O'NEILL – They just disappeared?

38.14.05 MARTIN – They're aliens, right?...

38.16.17 MARTIN (OS CONT) – I have more evidence. Look.

O'NEILL – What's that?

MARTIN – A mobile computing device...

38.23.04 MARTIN (CONT) – I snuck it out of Tanner's bag. It has multiple functions, see? Uh  
oh.

38.33.14 O'NEILL – What?

38.34.15 MARTIN – Guys, we better get out of here. This thing is countin' down.

38.41.17 O'NEILL (OS) – Clear the area!...

39.00.16 O'NEILL (CONT) – Well?

39.02.27 MARTIN – That's weird. I'm sure this is a countdown for some sort of detonation.

39.49.03 MARTIN – Exactly. This is just like I remember.

39.55.19 CARTER – Chevron seven is locked.

40.04.13 DANIEL – He was right. It's an active gate.

40.06.12 CARTER – Sending the MALP through.

40.21.14 MARTIN – I remember everything now. There was no malfunction.

40.27.08 O'NEILL – What're you talkin' about?

MARTIN – We aband--

40.30.02 MARTIN (CONT) --oned the ship, we did it deliberately, we were losing the war. We're  
deserters...

40.39.01 MARTIN (CONT) – After aw--

40.40.01 MARTIN (OS CONT) --ile I realized what we'd done wrong, I wanted to go

40.42.25 MARTIN (CONT) – home, but the others were afraid.

40.46.02 O'NEILL – So they gave you the drugs.

40.49.24 MARTIN – They're not bad guys. They're just hiding.

40.57.15 CARTER (OS) – Receiving MALP telemetry.

41.08.11 MARTIN – You're gonna...

MARTIN (OS CONT) – hunt them down, aren't you?

O'NEILL – Not me.

41.15.04 MARTIN – But, the military, the government.

41.18.28 O'NEILL – I don't think anyone's gonna find 'em.

41.24.16 DANIEL – General Hammond says you're a go.

MARTIN (OS) – Really?

DANIEL – Yeah. It's safe, but, uh, you're not gonna like it.

42.17.29 MARTIN – They were right. If we'd gone back, we'd be dead now.

42.29.17 O'NEILL – I'm sorry, Martin.

42.31.26 MARTIN (OS) – So...

MARTIN (CONT) – now what?

42.37.08 O'NEILL – We go home.
