00.20.10 DANIEL- Okay, what was that?

00.24.22 O'NEILL- Carter?

00.27.10 CARTER- I don't know, sir. The margin of error in calculating planetary shift used to cause the rough ride but we fixed it.

00.35.02 O'NEILL- Carter.

00.36.27 CARTER- We did have to override some of the dialing protocols in order to get a lock.  
I'll check the dialing computer when we get home.

00.44.19 O'NEILL- It's bright.

00:45:24` CARTER- Yes sir. This planet's much closer to its sun than Earth.

00.51.29 O'NEILL- Festive.

00:54.23 DANIEL- This is interesting. I couldn't see theses writings through the MALP.

01.04.01 O'NEILL- What's it say?

01.05.06            DANIEL- Their runic's similar. Similar to the ones we found on Cimmeria. There  
                              could be a connection here to the Asgard.

01.10.07            O'NEILL- What's it say?

01.11.14            DANIEL- I don't know.

01.13.10            CARTER- You think it's a protected planet?

01.15.26            O'NEILL- Well, Teal'c wasn't zapped away.

01.18.02            TEAL'C- There is no Thor's Hammer here.

01.20.09            DANIEL- Well, they wouldn't need one, if it was named in the Goa'uld-Asgard treaty.

01.26.25            O'NEILL- Hey, you!  
                              O'NEILL (OS CONT)- Come on out.

01.34.02            DANIEL- We're not ah, we're not here to hurt you. We're, we're explorers from a...  
                              DANIEL (OS CONT)- place called Earth. You might know it as Midgardr.  
                              DANIEL (CONT)- I'm, I'm Daniel Jackson. This ah...

01.42.09 ELRAD- I am Elrad. Flamen of the thirty-ninth order of K'Tau. My congregation and I were on our way here from morning prayer when we saw a great wave burst forth from the Annulus.

01.57.00 O'NEILL- Annulus. I like that.

02.00.18 ELRAD He is an enemy of the Gods.

02.06.18 O'NEILL- Not anymore. Thor loves this guy.

**02.10.00 ELRAD- You know of Thor?**

02.11.13 O'NEILL- Oh yeah, he's a buddy.

02.16.07 ELRAD- Come forth. It is a time for rejoicing.

**ELRAD (OS CONT)- Freyr has sent us visitors from Midgardr.**

02.22.29 DANIEL- Freyr is the god of the sun and rain, right?

02.25.19 ELRAD- Yes. Our protector. Ally of Thor. Friends of the Gods...

**ELRAD (OS CONT)- are welcome here.**

02.32.06 O'NEILL- What do you got?

**02.33.17 ELRAD (OS)- Please.**

**ELRAD (CONT)- Come. Our village is this way.**

03.01.02 DANIEL- It's as if a Nordic culture had evolved into relatively modern times while continuing to worship the ancient Gods.

03.09.17 ELRAD- This is Brother Malchus. He is Chief...

**ELRAD (OS CONT)- Acolyte within our order.**

**03.13.15 MALCHUS- You must leave. At once.**

03.16.19 O'NEILL- We just got here.

03.17.22 ELRAD- These are not just any strangers, they came through the Annulus.

**03.22.10 MALCHUS- This one bears the mark of evil.**

**03.24.15 ELRAD- He is a friend of Thor.**

**03.27.21 MALCHUS (OS)- The people...**

**MALCHUS (CONT)- will not stand for this.**

03.29.18 ELRAD- You mean you will antagonize them until they agree with you.

03.39.12 O'NEILL- Friendly guy.

03.43.11 ELRAD- You must forgive Malchus, he has a suspicious nature and we have never  
before been visited by Elves.

03.52.02 O'NEILL- Elves?

03.55.04 ELRAD- You travel by way of the Gods. You say you know them well.

03.59.16 DANIEL- In Norse mythology Freyr was the ruler of the Elves. They can bring...  
DANIEL (OS CONT)- good or bad tidings.

04.04.27 ELRAD- We certainly hope you have come to wish us well.

04.28.18 O'NEILL- Carter, what just happened?

04.32.17 ELRAD- Their eye of Odin grows dim.

04.34.28 CARTER- Some sort of shift in the light frequency.

04.37.04 O'NEILL- Good. I thought I was having a stroke.

04.39.25 MALCHUS-You did this!

04.42.09 O'NEILL- What?

04.43.12 ELRAD- Be calm. Is it true?

04.45.17 O'NEILL- No. Is it?

04.49.04 CARTER- I don't know, sir.

04.52.16 MALCHUS- It is no coincidence that this happens moments after they arrive. The  
Elves are the harbingers of our doom. (pause) Leave us or be driven out.

06.27.11 ELRAD- Malchus, the darkening of the eye of Odin is the will of the Gods. You cannot  
blame the messengers.

ELRAD (OS CONT)- We must go to the hall...

ELRAD (CONT)- of Wisdom and pray for forgiveness.

06.47.19 DANIEL- Hall of Wisdom. That sounds like the place where the Cimmerians  
communicated with Thor.

07.02.03 O'NEILL- Carter. What the heck's going on?

07.05.09 CARTER- Somehow the light spectrum of the sun has shifted toward infrared. Now if  
it continues this way, eventually all the green plants will die. With the plants  
goes the oxygen supply—

07.13.16 O'NEILL (INTERRUPTING)- Ah, ah, ah.

07.15.06 CARTER- The MALP should give us more detailed data. Its sensors are more sophisticated.

07.19.16 O'NEILL- Good. You and Teal'c head back to the Annulus. See what you can find out. Daniel, see if these folks have got an Asgard...  
O'NEILL (OS CONT)- phone.

07.29.21 ELRAD- We beseech thee, O Freyr, to have mercy upon us. Make peace with our great father Odin and in doing so remove...  
ELRAD (OS CONT)- the terrible curse from our gentle land.

07.41.21 MALCHUS (OS)- In the name of our Lord Freyr.  
MALCHUS (CONT)- Be it so. We...

07.55.26 O'NEILL- Sorry. Didn't mean to interrupt.

07.59.04 MALCHUS- Haven't you done enough damage here, Elf?

08.01.00 ELRAD- Some respect, Malchus. They are sent by the Gods. We should hear their words.

08.07.17 DANIEL-We were just wondering if you ever speak directly to Freyr.

08.11.12           ELRAD- He hears us always.

08.15.14           DANIEL- Right. You mentioned a Hall of Wisdom. This is it, isn't it?

08.20.06           ELRAD- No, this is a temple.

08.22.29           DANIEL- Right.

08.24.08           ELRAD- Malchus and I were about to go to the Hall to seek Freyr's wisdom on behalf  
                          of our people.

08.29.16           DANIEL- Would you mind if we went with you?

08.30.24           O'NEILL- We could put in a good word.

08.32.16           ELRAD- By all means. Come.

08.46.14           MALCHUS- Bow your heads and prepare to meet our Lord.

08.52.03           ELRAD (OS)- Lord Freyr, Lord of the Aesir, God of K'Tau...

ELRAD (OS CONT)- grant us an audience that we may share your wisdom.

09.11.14           O'NEILL- I better get it back.

09.20.29       FREYR- I am Freyr.

FREYR (OS CONT)- For what reason have you come before me?

09.25.06       ELRAD (OS)- O Lord Freyr,...

ELRAD (CONT)- forgive us for disturbing you, but we seek your wisdom.

09.30.00       MALCHUS- The arrival of these outsiders...

MALCHUS (OS CONT)- has caused the eye of Odin to grow dim.

MALCHUS (CONT)- We fear it is Ragnarok.

09.36.09       DANIEL- It's the end of time.

09.38.04       O'NEILL- Thank you.

09.39.19       ELRAD (OS)- We beg you...

ELRAD (CONT)- to restore Odin's light.

09.42.21       FREYR- You are wise to seek my counsel. But only through faith will you prove  
worthy of my benevolence.

09.49.22       MALCHUS- Do you desire us to put these outsiders to death? They could be drawn  
and quartered before...

MALCHUS (OS CONT)- nightfall.

09.54.16 O'NEILL- That's a bit harsh, isn't it?

09.56.20 FREYR- In time, I will sail to the plain of Vigrid, where my battle will be fought with  
Surtur...

FREYR (OS CONT)- the fire bringer.

10.03.17 MALCHUS (OVERLAPPING)- He fights against Surtur! It is the end time.

10.05.12 ELRAD (OVERLAPPING)- Patience!

10.07.22 FREYR- Likewise, you must face...

FREYR (OS CONT)- your own fears as you now enter the ultimate conflict. How you  
deal with fear will prove your worthiness.

FREYR (CONT)- I wish you well on your voyage.

10.29.12 DANIEL- It's a recording.

10.32.08 O'NEILL- Really?!

10.42.01 MALCHUS- I told you. It is Ragnarok. Lord Freyr tells us to prepare for our death.

10.55.01 O'NEILL- That's a bit of a negative spin with the old paraphrasing,...

O'NEILL (OS CONT)- isn't it?

- 10.58.10           MALCHUS- I have been interpreting the word of the Gods for many...  
MALCHUS (OS CONT)- years.
- 11.02.16           ELRAD- I'm afraid I must agree with Malchus.
- 11.09.04           O'NEILL- Hang on! Look, I know I'm the outsider here...
- 11.15.07           MALCHUS- You dare question the will of the Gods?
- 11.17.07           O'NEILL- No, just your interpretation.
- 11.23.02           DANIEL- You sure you want to get in the middle of this?
- 11.24.14           O'NEILL- I'm not sure how to get out of the middle of this. Look, folks, does Freyr  
plant your crops for you?
- 11.37.25           GROUP (OS)- No!
- 11.40.23           O'NEILL (OVERLAPPING)- Does he, huh?  
O'NEILL (OS CONT)- Does he harvest them?
- 11.42.07           GROUP (OS)- No!
- 11.43.20           O'NEILL- Does he build your homes for you?

**11.45.21 ELRAD- Those are the tasks of our own hands.**

11.48.17 O'NEILL (OS)- Exactly. You've always had free will before,...

O'NEILL (CONT)- why not now? Maybe this ultimate conflict is just a test of your ingenuity and courage?

**12.00.03 MALCHUS- Why do you tolerate this?**

**12.02.14**      **O'NEILL- Jump in here anytime, by the way.**

12.03.28 DANIEL (OVERLAPPING)- I don't think this is a good idea.

12.05.02 MALCHUS- In the past, Lord Freyr has always told us to face our fears and not interfere with the ways of the Gods.

12.11.09 ELRAD- I agree Malchus, we must do the Gods will. But perhaps these strangers are  
a part of their plan.

12.16.20 O'NEILL- Nonsense. They are the harbingers of our doom. Elves cannot change the will of the Gods.

12.40.15 O'NEILL- Elrad, Listen to me. We can help your people. We've been in this situation before. Trust me. We can work miracles.

12.49.20            ELRAD- I trust in Freyr. If you are here to do his bidding, either to doom us or to save us then so be it.

13.06.24            DANIEL- Miracles?

13.10.09            O'NEILL- Yeah. That's what it will look like to them.

13.15.05            DANIEL- That's what what will look like to them?

13.16.22            O'NEILL- Whatever Carter comes up with. I don't know. Hey fellas.

13.32.10            CARTER- I got a theory, sir.

13.34.26            O'NEILL- Is it miraculous?

13.37.25            CARTER- Actually, it is. I think the wormhole that we used to travel here passed directly through this planet's son. That might be why we had a problem dialing here in the first place.

13.47.13            DANIEL- We should never have connected with this planet?

13.49.12 CARTER- Well, at least not with the current planetary alignment.

CARTER (OS CONT)- The light from the sun suddenly shifted to the red spectrum after we got here.

CARTER (CONT)- Now as far as I know, the only way that could happen was if an unstable super-heavy element, probably plutonium,...

CARTER (OS CONT)- was introduced to the son's nuclear reaction,...

CARTER (CONT)- sort of a sub-atomic poisoning.

14.09.03 DANIEL-Okay, how did we do that?

14.10.22 CARTER- Well, somehow,...

CARTER (OS CONT)- the plutonium piggybacked onto our wormhole from another star system and bonded with their sun...

CARTER (CONT)- as we passed through it.

14.20.07 O'NEILL- I hope that doesn't mean it's our fault.

14.22.20 TEAL'C- We could not have known, O'Neill.

14.25.06 CARTER- The fact that the gate wouldn't dial here when we first tried leads me to believe that there was some sort of safety protocol built into the gate system that was designed to prevent exactly this sort of thing.

14.34.09 O'NEILL- So, design flaw?

- 14.37.23           CARTER- No. Sir, we bypassed some of the normal dialing protocols.  
CARTER (OS CONT)- The fact is,...
- CARTER (CONT)- this planet is dying and it's probably because of us.
- 14.47.26           O'NEILL- But you can fix it, right? (beat) Hey, Teal'c. Maybe you should hang out  
here. These Asgard devices don't know you like we do.
- 15.39.14           DANIEL- Okay, let's see, they bowed their heads and said a prayer. Lord Freyr, Lord  
of the Aesir,...
- 15.56.25           FREYR- I am Freyr.  
FREYR (OS CONT)- For what reason have you come before me?
- 16.01.18           O'NEILL- We'd like to talk to the real Asgard. Thor, if he's available.
- 16.05.26           FREYR (OS)- You are wise to seek my counsel. But only through faith will you prove  
worthy of my benevolence.
- 16.12.17           O'NEILL- Yada, yada, ah, Carter, you wanta pull the plug on this guy?
- 16.16.01           CARTER- It looks like this is the emitter that's generating the...
- 16.17.27           FREYR (OS)- I will...  
FREYR (CONT)- sail...

16.26.05            DANIEL- Well, we've either made contact with the Asgard, or trapped ourselves deep within a vault of solid rock.

16.36.07            O'NEILL (OS)- Much better.

16.37.12            FREYR- I am Freyr. Protector of the K'Tau world.

16.41.16            O'NEILL- Ah, so listen, sorry to bother you. Can we talk to Thor?

16.46.29            FREYR- Commander Thor is in a distant part of the galaxy and unavailable. You are the one called O'Neill.

16.55.13            O'NEILL- I am the one.

16.57.09            FREYR- We named a war ship after you, short-lived as it was.

17.03.10            O'NEILL- Yes. That one.

17.05.02            FREYR- Why have you come to this world?

17.07.19            O'NEILL- Exploring. That's what we do.

- 17.10.08           FREYR- K'Tau falls under our protected planet treaty with the Goa'uld.  
FREYR (OS CONT)- I would hope you have not dispelled their current belief system.  
FREYR (CONT)- The Asgard felt it was essential.
- 17.20.14           O'NEILL- Nah, don't worry, we haven't blown your cover. However, we do have a  
                          small little problem that could use some of that Asgard magic.
- 17.34.05           FREYR- Are you implying that our technology is some kind of trickery?
- 17.40.16           O'NEILL- You sure Thor is not around somewhere?
- 17.43.06           CARTER- Sir, if I may.
- 17.44.04           O'NEILL- Yeah. Knock yourself out.
- 17.49.06           CARTER- We may have inadvertently, totally accidentally, caused a foreign element  
                          to enter the K'Tau sun.
- 17.56.22           FREYR- How?
- 17.58.11           CARTER- Uh, well, actually I was hoping you could help us on that one. Is it possible  
                          that our wormhole picked up a super heavy element and carried it into the sun...  
CARTER (OS CONT)- as we passed through?

18.07.09           FREYR- There are safety protocols in place within the Stargate system...  
FREYR (OS CONT)- to prevent wormhole connections that would result in such  
                          events.

18.15.06           CARTER- Uh, yeah. See we, we have our own dialing computer and sometimes we  
                          bypass a few steps in...  
CARTER (OS CONT)- in order to get a lock.  
CARTER (CONT)- We're still experimenting.

18.25.13           FREYR- I see.

18.27.18           CARTER- We could really use your help here.

18.29.25           FREYR- I'm afraid I cannot assist you.

18.32.20           O'NEILL- Why not?

18.34.16           FREYR- It is not the Asgard's responsibility to undo every error...  
FREYR (OS CONT)-you make with the technology that...  
FREYR (CONT)- is advanced and beyond your knowledge.

18.41.25           O'NEILL- Excuse me? There is a whole planet full of people that are going to die.

18.48.26            DANIEL- Um, this may be our mistake, but the K'Tau people depend on you.

DANIEL (OS CONT)- You set up their belief system. They think...

DANIEL (CONT)- that you're their God and you will protect them.

18.57.02            FREYR- From the Goa'uld, yes.

18.59.20            O'NEILL- Forget about all that. Come on. We're friends. We help you, you help us.

That's the way it works. Carter's idea...

O'NEILL (OS CONT)- saved you from the replicators.

O'NEILL (CONT)- Now we're calling in the marker.

19.13.28            FREYR- Ultimately, the decision is not mine.

19.20.03            O'NEILL- Then may I speak to whomever decides?

19.24.05            FREYR- It is possible. Prepare to meet with the Asgard High Council.

19.29.14            O'NEILL- I'm prepared. Right now. Let's go.

19.33.26            FREYR- Step into the place where I stand.

19.42.03            O'NEILL- I'm sort of prepared.

19.43.24            DANIEL- Do you want me to...

19.44.08            O'NEILL (OVERLAPPING)- I got it. Hello!  
O'NEILL (OS CONT)- Echo!

20.18.05            CHIEF ARCHON- Colonel Jack O'Neill of Earth, welcome to the Asgard High Council  
CHIEF ARCHON (OS CONT)- chamber.

20.23.04            O'NEILL- Yeah, listen. Thanks for seeing me on such short notice.  
O'NEILL (OS CONT)- I assume you can see me.

20.29.17            CHIEF ARCHON (OS)- Yes.

20.32.09            O'NEILL- Did Freyr mention why I'm here?

20.34.08            FREYR- Yes, Colonel, they're aware of the circumstances surrounding your request.

20.39.08            O'NEILL- Oh, hey, there you are. Didn't see you. You guys all of look...Thor's not  
here, right?

20.50.27            CHIEF ARCHON- He is not.

20.53.11            O'NEILL- Okay.

20.54.10 CHIEF ARCHON (OS)- As Freyr explained, we are unable to assist you in this matter,...

CHIEF ARCHON (CONT)- O'Neill. Though your actions were unintentional, it will unfortunately mean the K'Tau people will perish.

21.05.13 O'NEILL- Hey, this is not entirely our fault. I mean, you could have warned us about this crazy gate through the sun thing. For that matter, you could have given us a list of all the planets that are off limits.

21.19.05 WAR ARCHON- Both points are true. However, neither is reason enough to interfere.

21.25.02 O'NEILL- You're interfering right now! These people think you're their Gods. Now granted, you're not the Goa'ulds, but you're still pretending to be something you're not.

21.34.25 FREYR- You are correct. However, we saved these people from the Goa'uld. They were not ready to have their beliefs completely stripped away.

21.45.00 WAR ARCHON- In time, when they are ready, the K'Tau will know the truth.

21.49.07 O'NEILL- Yeah, see there's the snag. They won't. They'll be dead.

O'NEILL (OS CONT)- I don't get it. You obviously saved them once.

O'NEILL (CONT)- Why not this time?

**22.03.13**      **WAR ARCHON-** It is not that simple.

22.05.11 O'NEILL- Yes it is. You've got the technology, don't you?

22.08.13 CHIEF ARCHON- Yes.

22.09.20 O'NEILL- Okay. Fine. We made a mistake. A big mistake. And we're very, very sorry.

O'NEILL (OS CONT)- But we also saved your little gray butts from the replicators and now we want your help.

O'NEILL (CONT)- I'm not asking you to change the course of their "cultural" development. Just fix the damn sun. No one will know. We won't tell.

22.37.08 WAR ARCHON- Unfortunately, we cannot.

22.42.21 O'NEILL- Okay. At the risk of sounding like the petulant inferior race. Why not?

22.56.00 DANIEL- Little gray butts.

22.58.22 CARTER- Yeah.

23.04.09 CHIEF ARCHON- It would be in violation of our treaty with the Goa'uld.

23.09.06 O'NEILL- What?

23.11.27      WAR ARCHON- The treaty states that the people of a planet categorized as protected will be free from Goa'uld...

WAR ARCHON (OS CONT)- domination. However, subsection 42 states that the people on those planets cannot be artificially advanced...

WAR ARCHON (CONT)- through Asgard technological means. Using our technology to...

WAR ARCHON (OS CONT)- prevent a natural disaster would be a violation of that order...

WAR ARCHON (CONT)- and would nullify the treaty as...

WAR ARCHON (OS CONT)- a whole. The Goa'uld would be free to invade any of the protected planets.

WAR ARCHON (CONT)- Including Earth.

23.44.20      O'NEILL- Oh. Are you sure?

23.49.03      CHIEF ARCHON- Yes. The war with the replicators wages on here in our galaxy.  
We do not have the military forces to defend every planet covered under the treaty. You would be vulnerable to Goa'uld attack.

24.04.25      O'NEILL- Okay, what if I were to say we're willing to take the risk?

24.09.28      CHIEF ARCHON- Even if you could make that decision on behalf of your planet,  
O'Neill, You cannot make it for every other planet that would be affected.

24.18.05 O'NEILL- I suppose not.

24.21.25 CHIEF ARCHON- We are greatly disturbed that this disaster can not be averted. We  
wish there was a way.

24.30.19 O'NEILL- Well, they're not dead yet. Maybe there is.

24.34.22 CHIEF ARCHON- If that is the case, the solution will be...  
CHIEF ARCHON (OS CONT)- up to you.

24.39.22 O'NEILL- Fine. (beat) That went well.

25.04.07 CARTER- Sir, I've been thinking.

25.05.26 O'NEILL- I'd be shocked if you ever stopped, Carter.

25.09.27 CARTER (OS)- Here.

CARTER (CONT)- Okay. Let's say these are the unstable plutonium molecules that  
are poisoning the sun.

25.21.12 O'NEILL- Okay.

25.23.00 CARTER- What if these are molecules of a more stable super-heavy element? Say  
something with an atomic weight above two hundred.

25.30.01 O'NEILL- Sure. I can think of a few.

25.32.29 CARTER- Actually, sir, they don't occur in nature. At least not on Earth.

CARTER (OS CONT)- But I have read about such elements being created in super-...

CARTER (CONT)- collides. At least in theory.

25.39.20 DANIEL- You realize you're mixing your apples and your...

25.42.26 CARTER (OS)- Now, if we...

CARTER (CONT)- could introduce these stable super-heavies into the...

CARTER (OS CONT)- K'Tau sun, they would bind with the unstable plutonium  
molecules rendering them inert.

CARTER (CONT)- The sun could then be restored to its normal nuclear reaction.

25.54.23 O'NEILL- Huh, how 'bout that?

25.58.00 CARTER- Well, this is all very theoretical, sir.

26.00.17 O'NEILL- I have great confidence in you, Carter. Go on back to the SGC and confuse  
Hammond.

26.07.22 CARTER- Yes sir.

26.21.23 HAMMOND- A rocket?

26.22.21           CARTER- With a payload of the super-heavy element I've indicated. We send it in stages through the Stargate to K'Tau and then assemble it there. When it's complete,...

CARTER (OS CONT)- we launch it into their sun.

26.32.12           HAMMOND- (OS)- Will it get there in time?

26.33.29           CARTER- We have three months before the plutonium reaction in the K'Tau sun becomes irreversible. If we can launch inside three weeks, we'll just make it.

26.41.14           HAMMOND- Well, have you considered other options?

26.43.14           CARTER- The other option we considered turned out to be a one in a million shot, sir. The rocket gives us a better than fifty-fifty odds.

26.51.02           HAMMOND- Rockets don't exactly grow on trees, Major.

26.53.25           CARTER- I know that, sir. However, as you know, the Air Force is currently preparing a launch form Vandenberg.

26.59.06           HAMMOND- Major, do you realize how much has been invested in that project?

27.02.14           CARTER- I'm aware of that, sir. It's hard to put a price on the K'Tau people.

27.19.00 MALCHUS (OS)- Colonel,...

27.21.17 O'NEILL- Shouldn't you be off inciting a mob?

27.23.28 MALCHUS- Look at the sky. Ragnarok grows ever closer. Your machine does  
nothing.

27.29.08 O'NEILL- It's a rocket. It won't work until we launch it. We can't launch it until we build  
it.

27.35.14 TEAL'C- Time still remains before the sun does permanent damage to your world.

27.39.14 MALCHUS- All they ha done is bring more outsiders.

27.43.03 DANIEL- You have to be patient.

27.44.27 MALCHUS- The problem grows ever worse as long as you are here.

MALCHUS (OS CONT)- If you can't see...

MALCHUS (CONT)- that the Gods wish you to leave, then we will be forced to make it  
clear on their behalf.

27.55.03 ELRAD- Malchus! This is not the way of the K'Tau. If the Gods did not want them  
here they wouldn't be here.

28.01.13 MALCHUS- If their presence is truly part of a test, then we have failed. Miserably.

28.38.01 CARTER- General, we're ahead of schedule.

28.40.06 HAMMOND- This should be the last shipment of parts.

28.42.19 CARTER- Any word yet on the HU2340?

28.44.26 HAMMOND- Quite frankly, I never expected it to be easier to get the rocket.

28.48.28 CARTER- Sir, without the super-heavy element this whole thing will have been a giant waste of time.

28.53.16 HAMMOND- Don't worry, Major.

29.05.25 CARTER- Dr. MacLaren.

29.07.14 DR. MACLAREN- Very impressive operation you've got here. I hope you consider yourself lucky, Major.

29.14.29 HAMMOND- Dr. MacLaren finally decided a peek at the SGC was worth the exchange.

29.25.04 DR. MACLAREN- It took me five years to make that much HU2340.

29.28.25           CARTER- Well, maybe one day you'll be able to visit the planet that your Maclarium is saving.

29.34.03           DR. MACLAREN- Did you say Maclarium?

29.37.00           HAMMOND- Sounds like a goo name to me.

HAMMOND (OS CONT)- I'll use it in my official report to the Pentagon.

29.44.01           DR. MACLAREN- I don't know want to be in your way. You've obviously got a job to do here.

DR. MACLAREN (OS CONT)- Good luck, Major.

29.49.00           CARTER- Thank you, Doctor. (beat) That's the last of it, sir. We've got everything we need.

30.04.29           O'NEILL- Good.

30.05.24           CARTER- Daniel and Teal'c?

30.07.09           O'NEILL- Ah, they're in the village. Still trying to convince the folks we're friendly elves.

O'NEILL (OS CONT)- I think the sooner we get out of here, the better.

30.17.16           CARTER- Is that smoke?

30.30.10 DANIEL- What happened?

30.31.07 CARTER- Somebody set a fire.

30.32.29 DANIEL- Was anybody hurt?

30.23.25 CARTER- We lost two members of SG-6. The rocket was destroyed.

30.36.21 O'NEILL- You stupid son...

O'NEILL (OS CONT)- of a bitch.

30.39.03 MALCHUS- The Gods have spoken.

20.40.15 O'NEILL- You just killed two of my men and screwed your whole planet.

30.43.25 MALCHUS- Two of our brothers also gave their lives to serve the Gods.

30.47.25 O'NEILL- You coward!

O'NEILL (OS CONT)- Why didn't you do it yourself?

O'NEILL (CONT)- Why?

30.51.29 MALCHUS- I would gladly die to serve the Gods.

30.54.19 O'NEILL- Maybe you should!

30.57.11            DANIEL (OS)- Jack!

30.58.03            CARTER- Sir!

30.58.24            ELRAD- Stop, please! I, I'm truly sorry...

ELRAD (OS CONT)- for what has happened to you, you must believe me Malchus is  
                         acting without my knowledge

ELRAD (CONT)- He will be punished. Please! More death serves no one.

31.20.28            O'NEILL- More death is exactly what you people are going to get.

31.52.07            DANIEL- Jack, stop! We can't leave.

31.55.15            O'NEILL- The hell we can't. Carter dial it up. Get these people home.

31.58.15            CARTER- Sir...

31.59.04            O'NEILL- That's an order!

31.59.25            DANIEL- Jack, would you stop!

32.01.22            O'NEILL- They killed two of my men.

- 32.03.02            DANIEL- Yes they did, but not all these people are responsible...  
DANIEL (OS CONT)- for that, and even ones that were were...  
DANIEL (CONT)- they were, they were just doing what they believed was right.
- 32.10.26            O'NEILL- I really don't care.
- 32.12.10            DANIEL- I do. And leaving right now would be irredeemable.
- 32.19.00            O'NEILL- In whose eyes? The Asgard? They had their chance.
- 32.22.15            CARTER- Sir, essentially pressed the button that could end this civilization.
- 32.25.17            O'NEILL- All right. We made the first mistake. But we were gonna fix it. Is it obvious  
only to me that these people don't want help?
- 32.33.11            CARTER- I couldn't live with myself if I just walked away now.
- 32.36.24            TEAL'C- I do not believe the majority of the people of this world support the actions of  
Malchus.
- 32.45.00            O'NEILL- What then?
- 32.45.26            DANIEL- Relocate them.

32.48.24           TEAL'C- Their ties to this world are strong, Daniel Jackson.

32.50.29           Well, we have to give them the option. Then it's their choice.

32.57.22           CARTER (OS)- Sir, we still have the Maclarium.

CARTER (CONT)- With your permission I'd like to return to the SGC and run a few  
more simulations.

33.11.00           DANIEL (OS)- Okay. I know this world has been your home for generations.

DANIEL (CONT)- But it looks now like the eye of Odin will not be restored.

33.20.16           ELRAD- That is for the Gods to decide.

33.22.28           DANIEL- Right. But consider this. That the Gods are giving you another choice.

33.29.05           ELRAD- What is that?

33.31.00           DANIEL- The chance to move to another world. You can come through the Annulus  
with us.

DANIEL (OS CONT)- It's really, it's, it's very simple.

33.38.25           ELRAD- If Freyr wished us to leave this world, he would come...

ELRAD (OS CONT)- to take us away in his chariot.

33.46.02 DANIEL- He does. He wishes you to leave. He, he's very busy right now. He sent us to take you our way. If you don't go, you will all die.

33.57.26 ELRAD- Your efforts are noble. But if our destruction is the will of the Gods, we must face our fate bravely.

34.35.03 O'NEILL- Now, can we go?

34.28.29 TEAL'C- K'Tau were not convinced.

**34.30.13 O'NEILL- No. Because you didn't way what needed to be said.**

**34.34.28** DANIEL- Well, what would you have said? Wait, what are going to say?

34.49.15 O'NEILL- Hey folks, wanta join me over here?

O'NEILL (OS CONT)- Come on. Come on down here, folks, I've got a few things I wanta say.

**35.01.02 DANIEL (OS)- What are you doing?**

**35.02.20 O'NEILL- Telling them the truth, Daniel.**

35.04.20 DANIEL- Whether God really exists is not as important as whether a belief in God exists.

35.09.24 O'NEILL- You wouldn't say that if we were talking about a Goa'uld.

35.11.27 DANIEL (OVERLAPPING)- We're not talking about a Goa'uld.

35.14.04 ELRAD (OS)- Have we not made...

ELRAD (CONT)- our position clear?

35.16.25 O'NEILL (OS)- Yes.

O'NEILL (CONT)- Yes you have. I just don't think we've made ourselves clear.

35.22.10 DANIEL- Jack, the Asgard...

35.23.12 O'NEILL- Are not Gods. Hi folks, listen. You all know Freyr. Big guy, kinda good-looking, lotta fancy gold armor. Well, here's a flash for you. That's not what he looks like.

35.45.26 ELRAD- What do you mean?

35.50.10 O'NEILL- He an alien who's been pretending to be your god. He doesn't have a chariot. He's got a space ship. Space ship. Big machine, like the one we were building. Only his is way better. And not blown up. I'm not kidding you, folks. This little feller is about three feet tall, got clammy gray skin, big black eyes, and skinny, tinny, little arms and legs. Like toothpicks. They think you need to believe in a God. That you are not developed enough as a culture to think for yourselves.

36.40.14 ELRAD- Enough!

36.41.12 O'NEILL (OS)- Elrad, listen to me.

O'NEILL (CONT)- These aliens have the power to help you. They chose not to.

36.48.08 ELRAD (OS)- I am sorry for what happened to your people.

ELRAD (CONT)- I know you think you are trying to help us, but please, it is time for you to leave.

37.16.06 O'NEILL- Okay. Sorry to bother you. Thanks for your time, folks. There. Gave them a choice. They chose. Let's go.

37.49.25 HAMMOND- I thought the odds of success for this scenario were one in a million, Major?

37.53.21 CARTER- Yes, sir. But I now think we can increase that estimate to one percent.

38.00.01            O'NEILL- It's your call, General. I only understand about one percent of what she says half the time.

38.06.18            HAMMOND- Run it by me again.

38.17.08            CARTER- We send Maclarium through the wormhole to K'Tau. Now, based on the distance from Earth and the rate of...

CARTER (OS CONT)- travel, I've tried to calculate the exact time we should...

CARTER (CONT)- shut down the gate so the Maclarium stops short of reaching the planet and actually ends up in their sun.

38.35.05            O'NEILL- I thought when something was in a wormhole it existed only as energy?  
That you needed another Stargate to turn it back into solid matter.

38.44.06            CARTER- Actually, you're absolutely correct, sir.

38.49.07            O'NEILL- I am?

38.50.10            CARTER- Yes. See, it's the Stargate on the other side...

CARTER (OS CONT)- that actually reintegrates the matter into it's preorganized form.  
Without it, the energy in the wormhole would...

CARTER (CONT)- rematerialize in its base form. Now, in the case of a person, that would be very bad. In the case of an element, it shouldn't be a problem.

39.08.20 O'NEILL- I was right.

39.11.00 HAMMOND- Okay. You have a go, Major.

39.23.07 CARTER- Sending the MALP through.

CARTER (OS CONT)- Payload is en route.

CARTER (CONT)- Executing controlled shut-down.

CARTER (OS CONT)- Now.

CARTER (CONT)- Well, there's only one way to know if it worked.

39.55.16 ELRAD- Brothers and sisters, in these troubled times, it is important for us to come  
together as a family.

ELRAD (OS CONT)- We must remember the great gifts of Freyr, and we must be  
grateful for the lives that he has given us.

ELRAD (CONT)- In this, a troubled time,...

ELRAD (OS CONT)- we must still remember...

40.18.17 DANIEL- They agreed to let us stay so long as we stop trying to tell them Freyr is not  
a God.

40.22.29 ELRAD (OS)- And our protector.

40.24.17 O'NEILL- I don't think we'll be staying.

- 40.25.24 ELRAD (OS)- Freyr will be with us, wherever his will...
- 40.28.20 TEAL'C (OS OVERLAPPING)- Did your method not succeed,...  
TEAL'C (OS CONT)- Major Carter?
- 40.30.29 CARTER- It doesn't look good. I think we missed.
- 40.34.20 DANIEL- Are you sure it's not just taking longer than you thought or...
- 40.37.28 CARTER- We should have noticed a change by now.
- 40.41.19 O'NEILL- Let's go.
- 40.44.17 DANIEL- I'm going to tell them. And say goodbye. (beat) Sorry,...  
DANIEL (OS CONT)- it didn't work. But it's, it's not too late to change your mind about  
leaving.
- 41.14.04 ELRAD- Great Protector. O Freyr, our Lord and Savior, accept our frailties and forgive  
our sins.
- 41.23.19 DANIEL- We beg you, grant us your mercy and return the light that gives us life.  
Good bye.
- 41.53.16 O'NEILL- Am I having a stroke?

41.56.22 ELRAD- Blessed be Freyr. Bow your heads and thank him for granting our prayers.

42.07.03 CARTER- I don't think we did this, sir. At least not on our own.

42.14.10 TEAL'C- The Asgard.

42.15.24 CARTER- They said they wouldn't help.

42.17.10 O'NEILL- Overtly.

42.20.16 CARTER- Are you saying just by starting the process, we gave them the opportunity  
to step in without the Goa'uld knowing?

42.27.04 O'NEILL- A way of saving face. Technical loophole.

42.31.06 DANIEL- Or not. Well, we'll never really know for sure, will we?
