01.00.11            DR. FRAISER (OS)-Cassandra!  
                         DR. FRAISER (CONT)-I’m not imagining it. I mean, she was here, was she not?

01.00.17            CARTER-Yeah, for almost the entire time she was opening her presents.

01.00.19            DR. FRAISER-Cassie!

01.00.21            CASSANDRA (OS)-What?!

01.00.25            DR. FRAISER (OS)-I thought you were...  
                         DR. FRAISER (CONT)-wearing the top that Sam bought you.

01.00.29            CASSANDRA-Oh, well, that’s, like, for school.

01.00.31            CARTER-Hey...(CLEARS THROAT)...make a wish.

01.00.33            DR. FRAISER-Yeah.

01.00.34            CASSANDRA-Dominic’s waiting.

01.00.36 DR. FRAISER-Fine. Invite him in. I'm sure he'd love to have a piece of birthday cake  
that *Sam went to all the trouble to bake.*

01.00.41 CARTER (UNDER BREATH)-Buy –

01.00.42 DR. FRAISER-Bring.

01.00.43 CARTER-I'd love to meet him.

01.00.44 CASSANDRA-You said I could go.

01.00.46 DR. FRAISER-Yeah, I did. *After.*

01.00.49 CASSANDRA-We're meeting a bunch of people.

01.00.51 DR. FRAISER-You know, considering that you have not been feeling well, I think  
you're just lucky I'm letting you go out at all.

01.01.04 CASSANDRA-Fine!

01.01.10 CARTER-You know, I could just – ?

01.01.11 DR. FRAISER-Hiyahh... She is going to have a piece of birthday cake. You stay  
right where you are. Coffee?

01.01.21 CARTER-Yes, please.

01.01.24 CASSANDRA-They're not letting me leave yet, so, I mean, if you wanna go and meet  
up with everybody, then...

01.01.29 DOMINIC (OS)-Wait a sec...

DOMINIC (CONT)-Here. Happy birthday.

01.01.49 CASSANDRA-It's just like the ones from class.

01.01.51 DOMINIC (OS)-Yeah.

DOMINIC (CONT)-Well, you, you said it was pretty, so... This one's for decoration  
though. I thought you could, you know, put it in your room.

01.02.31 Cassandra!

DOMINIC (OS CONT, MUFFLED)-Help!

01.02.40 CARTER-What happened?!

01.02.41 DOMINIC-Nothing. She just fell!

01.02.44 DR. FRAISER-She's running a temperature. What was she doing when she “just  
fell”?!

01.02.47 DOMINIC-I, I kissed her.

01.02.48 CARTER-You *kissed her*?!

01.02.48 DOMINIC (OVERLAPPING)-It's her birthday, all right! Look, I'm telling you, the light just exploded and she just passed out! That's what happened!

01.02.53 DR. FRAISER-I want to get her to the infirmary. Get the car keys. (to Cassandra)-  
Cass? Baby? Cassie.

DR. FRAISER (OS CONT)-Cassie...

01.04.23 O'NEILL-How's she doing?

01.04.24 CARTER-Her fever still hasn't come down.

01.04.28 DR. FRAISER-Sam, I need to get a sample of your blood. Cassandra's bloodwork shows the presence of a retrovirus.

01.04.36 O'NEILL-Didn't she just get over the flu?

01.04.38 DR. FRAISER (OS)-Oh, whatever this is, it isn't the flu.

01.04.41 CARTER-Do you think there's a causal relationship between the retrovirus and the e-m field?

01.04.45 DR. FRAISER-Possibly.

- 01.04.48 O'NEILL-What?
- 01.04.49 CARTER-Cassandra's body is somehow generating a low-level electromagnetic field,  
that's periodically spiking. That could be why the light exploded on the porch.
- 01.04.57 DR. FRAISER-And why I can't do an...  
DR. FRAISER (OS CONT)-MRI to find out what other effects this retrovirus is having.
- 01.05.03 CASSANDRA (GROGGY)-Mom?
- 01.05.04 DR. FRAISER-I'm here.
- 01.05.06 CASSANDRA-I couldn't finish the harvest.
- 01.05.11 DR. FRAISER-That's okay.
- 01.05.14 CASSANDRA-I have to go into the forest.
- 01.05.19 CARTER-It's okay, Cassie.
- 01.05.34 HAMMOND-Do I need to put the base under quarantine?

- 01.05.36 DR. FRAISER (OS)-I don't think it's contagious,...
- DR. FRAISER (CONT)-sir. Major Carter and I show no evidence of the retrovirus in our blood.
- 01.05.41 HAMMOND-Then where did Cassandra contract it?
- 01.05.44 DR. FRAISER-I'm guessing her home planet.
- 01.05.45 TEAL'C-Cassandra's not been to that planet in several years.
- 01.05.48 DR. FRAISER (OS)-Retroviruses can exist in the body...
- DR. FRAISER (CONT)-for years, undetected before the first symptoms...
- DR. FRAISER (OS CONT)-appear. When it...
- DR. FRAISER (CONT)-does emerge, it starts to rewrite the individual's DNA in order to replicate. I've compared...
- DR. FRAISER (OS CONT)-this one with every...
- DR. FRAISER (CONT)-retrovirus on record, and it doesn't match any...
- DR. FRAISER (OS CONT)-of them.
- 01.06.02 CARTER-So there's obviously no vaccine.
- 01.06.04 DR. FRAISER-I've been giving her anti-viral medications, but her most recent tests show that the virus is not spreading into her cerebrospinal fluid.
- DR. FRAISER (OS CONT)-At this moment, I'm more concerned about brain damage.

- 01.06.16 DANIEL-I just finished going through SG-7's, uh, reports from P8X-987.
- 01.06.21 O'NEILL-Morning.
- 01.06.22 DANIEL-Morning. In their three months on Cassandra's planet, SG-7 witnessed two incidents of high fever and hallucination in teenagers Cassandra's age. The villagers called it the “mind fire.” I found some digital video footage...
- 01.06.37 MAN'S VOICE (VO THRU TV FILTERED)-Hurry, this way! She's over here!
- 01.06.40 PARAMEDIC'S VOICE (VO THRU TVFILTERED)- What happened?
- 01.06.42 GIRL'S VOICE (VO THRU TVFILTERED)-We were just walking along...
- 0.06.43 MAN'S VOICE (VO THRU TV FILTERED)-...and she just dropped and she just started convulsing. What's wrong with her?!
- 01.06.55 DANIEL-There's more, but you, uh, get the idea.
- 01.06.58 CARTER-How did they treat it?
- 01.06.59 DANIEL-SG-7 offered medicine, but the village elders believed that these children were touched by the gods and that interfering would tempt retribution.

- 01.07.05 O'NEILL-What happened to 'em?
- 01.07.07 DANIEL-They were sent alone into the forest near the village.  
DANIEL (OS CONT)-And after several days, they came back.  
DANIEL (CONT)-Cured.
- 01.07.13 HAMMOND-How?
- 01.07.14 DANIEL-SG-7 tried to find out, but the elders insisted the child had to make the  
journey alone as some sort of religious...  
DANIEL (OS CONT)-rite.
- 01.07.19 DR. FRAISER-Cassandra talked about going into the forest.
- 01.07.22 O'NEILL-She was delirious...
- 01.07.24 CARTER (OS)-Well, it's worth checking out,...  
CARTER (CONT)-sir.
- 01.07.26 TEAL'C-When we were last on P8X 987, the atmosphere had been contaminated by  
the Goa'uld Nirrti.
- 01.07.31 CARTER-Well, that was, that was four years ago. The toxin could be non-persistent.  
But we can send a MALP to be sure.

01.07.39 O'NEILL-Sir?

01.07.42 HAMMOND-It's worth a try.

01.08.08 DANIEL (OS)-Here's something.

01.08.29 O'NEILL-It's a handprint.

01.08.35 TEAL'C-A fire burned here.

01.08.38 CARTER (OS)-Maybe we should collect some...

CARTER (CONT)-samples of the local vegetation. I mean, it's possible there might be  
a natural cure around here.

01.08.44 O'NEILL-Yeah, let's collect some of that flora.

01.08.58 Hello.

01.09.31 (INTO RADIO)-Carter? Daniel?

01.09.37 TEAL'C-I believe we are in a Goa'uld laboratory.

01.09.39 O'NEILL-Whose, do you think?

01.09.41 TEAL'C-Nirrti.

01.09.43 O'NEILL-Yeah.

01.09.51 DANIEL-It's okay. It's just, uh, it's us.

01.09.57 CARTER-So where are we?

01.09.58 TEAL'C-I believe we are in the laboratory of Nirrti.

01.10.10 CARTER (OS)-Well, sir, if this is where the...

CARTER (CONT)-children ended up –

01.10.12 DANIEL (OS)-Hey, you're right...

DANIEL (CONT)-about that.

01.10.15 O'NEILL-She didn't finish her sentence.

01.10.17 DANIEL-This *place* is what the initiation rite was all about. (beat) Hankan children suffering from the mind fever wander alone into the forest. It gets dark,...

DANIEL (OS CONT)-they're drawn to the handprint on the tree. *Then* to the warm fire.

DANIEL (CONT)-Then the rings sweep them to *this* lab.

01.10.32 CARTER (OS)-And then...

CARTER (CONT)-they come back cured.

01.10.35 O'NEILL-*Nirrti* cured them?

01.10.36 CARTER-Yeah, it makes sense.

01.10.38 O'NEILL-No, it doesn't.

01.10.39 TEAL'C-Indeed. It seems a plausible...

TEAL'C (OS CONT)-explanation.

01.10.42 O'NEILL-No! She killed everyone on this planet except Cassie. Why would she cure  
a bunch of kids?

01.10.48 DANIEL (OS)-Well, if I'm reading...

DANIEL (CONT)-this right, it was part of some sort of “experiment” she was  
conducting.

01.10.51 O'NEILL-Now see? *That* sounds like a Goa'uld.

01.10.53 TEAL'C-The last we saw of *Nirrti*, she was a prisoner of the System Lords.

01.10.56 DANIEL (OS)-Which means she's...

DANIEL (CONT)-in no position to help us. Even if she...would. Oh boy... (beat) I  
did that.

01.11.24 O'NEILL-Let's take it with us.

01.11.39 DR. FRAISER-Cassie?!

DR. FRAISER (OS CONT)-Cassandra, what are you...

DR. FRAISER (CONT)-doing?

01.11.44 CASSANDRA-I have to go.

01.11.45 DR. FRAISER (OS)-Honey, you're not well enough to go anywhere.

01.11.46 CASSANDRA (OVERLAPPING)-I have to go into the forest.

01.11.47 DR. FRAISER (OS)-Look, I need you to get back into bed, okay?

01.11.49 CASSANDRA (OVERLAPPING)-You're not my mother.

01.11.51 DR. FRAISER-Okay, then what have I been to you these past few...

DR. FRAISER (OS CONT)-years?

01.11.54 CASSANDRA (OVERLAPPING)-You don't understand!

01.11.55 DR. FRAISER (OS)-All right, listen to me.

DR. FRAISER (CONT)-If nothing else, I am your doctor, Cassandra. Now, let's go.

01.11.59 CASSANDRA (OVERLAPPING)-SO WHAT?!!!

01.12.01 DR. FRAISER-I care about what happens to you. Honey, don't you know what you  
mean to me?

01.12.07 CASSANDRA-Don't you get it? It doesn't matter!

01.12.08 DR. FRAISER (OS)-It's the only thing that matters!  
DR. FRAISER (CONT)-Please, let me try and...  
DR. FRAISER (OS CONT)-help you.

01.12.12 CASSANDRA (OVERLAPPING)-You can't! If you wanna help me, then let me go!

01.12.15 DR. FRAISER (OS)-Okay.  
DR. FRAISER (CONT)-Just hear me out. Let's get you back into bed, and then we'll  
talk. Okay?  
DR. FRAISER (OS CONT)-SG-1 will be back soon. Then...

01.12.25 CASSANDRA (OVERLAPPING)-NO!!!  
CASSANDRA (OS CONT)-LEAVE ME ALONE!!!

01.12.27 DR. FRAISER-CASSIE?!!!

01.12.31 CASSANDRA-No, no, no, no! Let me go, let me go, let me go!

- 01.12.35 DR. FRAISER-I can't do that.
- 01.12.37 CASSANDRA-YOU'RE KILLING ME!!!
- 01.12.54 HAMMOND-Major?
- 01.12.55 CARTER (OS)-Colonel O'Neill wanted me to report back, sir.  
CARTER (CONT)-Daniel and Teal'c wanted more time to search the lab.
- 01.13.00 HAMMOND-Let's hope they find something.
- 01.13.02 CARTER-Is she getting worse?
- 01.13.07 HAMMOND-You should see for yourself.
- 01.13.20 DR. FRAISER-We had to move her in here.
- 01.13.22 CARTER-Is she still running a fever?
- 01.13.24 DR. FRAISER-It seems to have peaked, but her blood work says otherwise. There's  
no antibodies, no indication that her body's trying to fight this thing, just more  
retrovirus.
- 01.13.33 CARTER-Does she know what's happening to her?

- 01.13.35 DR. FRAISER-She seems driven to go back to the planet. I don't know if that's  
instinctual, or a side effect of this retrovirus.
- 01.13.42 CARTER-What are we gonna tell her?
- 01.13.54 DR. FRAISER-Hey... How are you feeling? Any better?
- 01.13.59 CASSANDRA-Why are you keeping me in here?
- 01.14.01 DR. FRAISER-We have to. Your body is generating something called an e-m field.  
See, you can even see the effect it's having on the monitors here. So this room  
is shielded from the rest of the base.
- 01.14.12 CASSANDRA-If you let me go back to the planet, then that won't happen anymore.
- 01.14.18 DR. FRAISER-That's not true.
- 01.14.19 CASSANDRA (OS)-You don't know that.  
CASSANDRA (CONT)-You don't know anything. You're just keeping me here  
because you're afraid.
- 01.14.25 CARTER-We found the place where the initiation rite was supposed to happen.
- 01.14.29 CASSANDRA-Then let me go there.

- 01.14.31 DR. FRAISER (OS)-We think the place in the forest...  
DR. FRAISER (CONT)-that you've been feeling drawn to led to a Goa'uld laboratory.  
One that belonged to *Nirrti*.
- 01.14.37 CASSANDRA-She killed everyone in my village.
- 01.14.40 CARTER-Yeah.
- 01.14.41 DR. FRAISER-She also tried to use you to kill all of *us*.
- 01.14.44 CARTER-We think she was using your initiation ritual to conduct experiments on the  
children of your planet.
- 01.14.49 CASSANDRA-Why?
- 01.14.50 CARTER-We don't know.
- 01.14.51 DR. FRAISER-It's possible that the retrovirus you're carrying was a part of her  
experiment.
- 01.14.55 CASSANDRA-What was the experiment?

01.14.59 DR. FRAISER-All we know, so far, is that this retrovirus is changing the way your cells generate electrical fields.

DR. FRAISER (OS CONT)-So, your body's generating heat,...

DR. FRAISER (CONT)-and your EEG is showing that your brain activity...

DR. FRAISER (OS CONT)-is increasing.

01.15.12 CASSANDRA-You don't know why, do you?

01.15.19 CARTER-No.

01.15.21 CASSANDRA-And now she's gone.

01.15.23 CARTER-Yes, she is.

01.14.25 CASSANDRA-So... You won't be able to stop it.

01.15.31 DR. FRAISER-We didn't say that.

01.15.46 O'NEILL-What's this for?

01.15.49 TEAL'C-What do you think it is for?

01.15.54 DANIEL (OS)-“Evolution...”

01.15.56 O'NEILL-What?

01.15.58 DANIEL (reading)-“...of the Hok'tar”...*Hok'tar*. Teal'c, what's,...  
DANIEL (OS CONT)-what's Hok'tar?

01.16.02 TEAL'C-I have not heard that word in many years.

01.16.05 DANIEL-Well, it's in reference to the children that underwent the initiation rite, so  
obviously it has something to do with the children and what –

01.16.18 O'NEILL-Hello?

01.16.22 DANIEL-Oh, sorry, guys. I think I may have just done that.

01.16.24 O'NEILL-Well, do it again. It's time to go.

01.16.57 CARTER-Hey, kiddo. It's Saturday.

01.17.03 CASSANDRA-So?

01.17.05 CARTER-So, every other Saturday – at least while I'm on Earth – we play chess. And  
since I'm on Earth, and it's Saturday –

01.17.12 CASSANDRA-I know what's happening.

01.17.15 CARTER-Oh. Okay...what?

01.17.19 CASSANDRA-I'm changing...into something. And there's nothing you can do to stop it.

01.17.25 CARTER-You know how me and your mom feel when someone issues a challenge like that.

01.17.30 CASSANDRA-Dr. Fraiser isn't my real mother. She died...when Nirrti poisoned my village.

01.17.41 CARTER-I know that. Janet knows that too. And please, don't call her Dr. Fraiser.

01.17.46 CASSANDRA-Why?

01.17.48 CARTER-Because she loves you, and she deserves better. We all love you for that matter...

01.17.54 CASSANDRA-That doesn't change anything.

01.17.58 CARTER-You're wrong about that.

01.18.02 CASSANDRA-It's different now. *I'm* different now. I can do things.

01.18.19 CARTER-How did you do that?

01.18.21 CASSANDRA-I just...thought it. I thought I wanted a knight, and it flew into my hand.

CASSANDRA (OS CONT)-Jack calls them horses.

01.18.33 CARTER-Yeah well, that's Colonel O'Neill for you.

01.18.35 CASSANDRA-He always pretends he's not as smart as he really is.

01.18.40 CARTER-You know, if you take a close look, they really are horses.

01.18.48 CASSANDRA-What do you see when you look at me now?

01.18.55 CARTER-I see *you*. (beat) And until your head starts spinning around – and probably even then – I will still see *you*.

01.19.25 HAMMOND (OS)-How can...

HAMMOND (CONT)-she do that?

01.19.29 O'NEILL-Magnets. Magnets. Every...every one of those pieces has got a little, tiny magnet in the bottom to hold it on the board, like, when you're driving, so they don't rattle off. Anyway, every one of those magnets has got a little electrical field around it. That's how she was able to manipulate 'em. Magnets. (beat) They *do* look like horses.

01.19.56 DR. FRAISER-I have no idea how she was able to do it physiologically, sir.

01.20.00 DANIEL-Uh, actually, Teal’c filled me in on something that might...

DANIEL (OS CONT)-explain that.

DANIEL (CONT)-“Hok’tar” is actually a hybrid of two Goa’uld words. “Hok” which means “advanced”, and “tar”...which I believe is a sort of slang.

01.20.11 O’NEILL-For?

01.20.12 TEAL’C-Human.

01.20.14 DANIEL-So essentially it’s Advanced Human. “Hok tauri.”

DANIEL (OS CONT)-Anyway,...

DANIEL (CONT)-Nirrti was studying the children on Hanka because she believed they were evolving into *Hok’tar*.

01.20.24 HAMMOND (OS)-You’re...

HAMMOND (CONT)-saying Cassandra is becoming some form of advanced...

HAMMOND (OS CONT)-human?

01.20.28 DR. FRAISER-And the retrovirus is the catalyst.

01.20.31 TEAL’C (OS)-Such an advanced...

TEAL’C (CONT)-human would represent a powerful host for the Goa’uld.

- 01.20.34 CARTER-Which explains why Nirrti was performing the experiments.
- 01.20.36 DANIEL-And it also explains why she exterminated the entire population when we came on the scene. She didn't want her experiment exposed.
- 01.20.43 DR. FRAISER-Prior to our arrival on P8X 987 – and for as long as SG-7 was there – none of the villagers exhibited advanced intelligence or the ability to manipulate the e-m fields.
- 01.20.53 CARTER-So Nirrti created the retrovirus in an attempt to engineer her own host.
- 01.20.58 DR. FRAISER-It seems almost inconceivable anybody could do something like that.
- 01.21.01 DANIEL-Well, it never worked.  
DANIEL (OS CONT)-According to all the reports, the children went into the forest sick and...  
DANIEL (CONT)-they came out well again. If this was some sort of transformation or evolutionary process, somewhere along the line it was stopped.
- 01.21.13 TEAL'C-By Nirrti.
- 01.21.16 CARTER-*Why* would she do that?

- 01.21.18 DR. FRAISER-The retrovirus rewrites DNA. If the carrier died before they were able to pass on the altered genes to the next generation, evolution couldn't take place.
- 01.21.26 CARTER-So the experiment was long term.
- 01.21.28 TEAL'C-With each generation getting closer to truly becoming *Hok'tar*.
- 01.21.32 DANIEL-The question is, how far along is Cassandra? I mean, maybe she really is transforming into something else.
- 01.21.39 O'NEILL-*She* thinks so.
- 01.21.40 DR. FRAISER-Whatever she believes, her fever is still rising. Admittedly more slowly, and she seems to be able to handle it better, but...I can't control it.
- 01.21.56 HAMMOND-Let's find the answers. (beat) Dismissed.
- 01.22.08 DR. FRAISER-Cassandra? What are you doing?
- 01.22.12 CASSANDRA-It helps to do this.
- 01.22.15 DR. FRAISER-How?

- 01.22.16 CASSANDRA-It's almost like the heat is leaving my body and going *into* the chess piece. (beat) You haven't found a cure, have you?
- 01.22.28 DR. FRAISER-No. We're still trying –
- 01.22.30 CASSANDRA (OS)-It's all right.
- 01.22.33 DR. FRAISER-No, it's not. We may still learn something from the biosamples that SG-1 brought back. There might be something there that will help your body produce some antibodies.
- 01.22.42 CASSANDRA-I want this to happen, Janet.
- 01.21.45 DR. FRAISER (whispers)-Don't say that.
- 01.22.47 CASSANDRA-It's going to happen anyway.
- 01.22.48 DR. FRAISER-You're ill.
- 01.22.49 CASSANDRA (OS)-You know that it's more than that now.  
CASSANDRA (CONT)-I can feel a power inside me.  
CASSANDRA (OS CONT)-It's only the beginning.
- 01.22.57 DR. FRAISER-And along with it, your body is undergoing an enormous physical strain.

- 01.23.01 CASSANDRA-You think it's gonna kill me?
- 01.23.02 DR. FRAISER-I am worried about that possibility, yes.
- 01.23.04 CASSANDRA-I don't care.
- 01.23.05 DR. FRAISER (OS)-Well,...
- DR. FRAISER (CONT)-you should; I know the limitations of the human body and –
- 01.23.09 CASSANDRA (OS OVERLAPPING)-Maybe I'm not...
- CASSANDRA (CONT)-human anymore.
- 01.23.11 DR. FRAISER (OS)-Of...
- DR. FRAISER (CONT)-course you are.
- 01.23.12 CASSANDRA-Maybe dying is a part of the transformation.
- 01.23.15 DR. FRAISER-I don't care whether it is or not! (beat) (GASPS)
- 01.23.24 CASSANDRA (whispers)-I'm sorry.
- 01.23.31 DR. FRAISER-Sweetheart,...
- DR. FRAISER (OS CONT)-sometimes, when a person is sick,...
- DR. FRAISER (CONT)-it's important for them to *fight*. I want you to fight this, okay?

01.24.07 CARTER-That can't be right. The e-m field must be interfering.

01.24.10 DR. FRAISER-No, she'll be able to control that now. I ran the test three times. The results were consistent. And it corresponds with the EEG. (beat) That's a twenty-five percent higher level of activity than normal.

01.24.23 CARTER-How can her body sustain that?

01.24.25 DR. FRAISER-Well, she's found a way to channel the heat from her body – don't ask me how – but I don't know how long she's gonna be able to keep it up. What I'd like her to do is *sleep*; she's been awake for thirty hours straight.

01.24.38 CARTER-I was about to go and see her.

01.24.39 DR. FRAISER-Thank you.

01.25.13 CARTER-Hey. (beat) I hear you don't want to sleep. You want some company?

01.25.20 CASSANDRA (OS)-You wouldn't leave.

CASSANDRA (CONT)-When the Goa'uld planted the...

CASSANDRA (OS CONT)-bomb inside me... You wouldn't leave. Even though...

CASSANDRA (CONT)-your orders were to leave me there alone, you stayed with me.

01.25.36 CARTER-Yeah.

01.25.38 CASSANDRA-Why?

01.25.40 CARTER-I don't know. It's just an instinct.

01.25.42 CASSANDRA-That I was gonna be okay.

01.25.44 CARTER-Yeah, I think so.

01.25.46 CASSANDRA-But you didn't know for sure.

01.25.49 CARTER-No.

01.25.52 CASSANDRA-Well...that's how I feel about what's happening to me now. Do you...  
CASSANDRA (OS CONT)-understand?

01.26.04 CARTER-Yeah, I think I do. (beat) You want me to stay with you for a while?

01.26.11 CASSANDRA-Oh, it's not time yet.

01.26.12 CARTER-Don't say that.

01.26.15 CASSANDRA-Well...when it *is* time...will you be here?

01.26.24 CARTER-I promise.

01.26.28 CASSANDRA (soft voice)-I think I can sleep now. For a little while.

01.26.33 CARTER (OS)-Okay.

01.28.53 MAN #1 (VO THRU PA FILTERED)-Sir?

01.28.54 MAN #2 (VO THRU PA FILTERED)-Yes, Lieutenant.

01.28.56 DR. FRAISER-Sam?

01.28.58 CARTER-I think she's asleep.

01.28.59 DR. FRAISER-Good. Listen... The, the, the bodies of the villagers, what happened to  
them?

01.29.03 CARTER (OS)-They were cremated...

CARTER (CONT)-on 987, we sent a team back.

01.29.05 DR. FRAISER-Good. So there could still be a bone fragment. Now, if we just find one  
from someone who's been through the initiation, there still may be...

DR. FRAISER (OS CONT)-antibodies still in the –

- 01.29.11 CARTER (OVERLAPPING)-Janet...  
CARTER (OS CONT)-That was...  
CARTER (CONT)-four years ago. The chances of us even –
- 01.29.19 Oh, no...
- 01.29.25 DR. FRAISER-Cassandra?!
- 01.29.28 CASSANDRA (OS)-It was a Goa'uld.
- 01.29.29 DR. FRAISER (OS)-What?!
- 01.29.30 CASSANDRA-I...  
CASSANDRA (OS CONT)-was asleep, I thought it was a nurse coming in to take  
more blood, but I *did* sense its presense.
- 01.29.35 CARTER-I haven't sensed anything.
- 01.29.36 CASSANDRA-It was after you left. At first, there was no one there, but then, when it  
got closer, I saw someone.
- 01.29.45 CARTER (OS)-This is a CODE 3 alert.  
CARTER (CONT INTO PHONE)-We need Zats and TER's in isolation room four, now.
- 01.29.52 DR. FRAISER-Are you all right?

- 01.29.53 CASSANDRA-It ran away when I screamed.
- 01.29.57 HAMMOND-Major?
- 01.29.58 CARTER-Apparently there's a Goa'uld on the base, sir.
- 01.30.00 O'NEILL-What?
- 01.30.02 HAMMOND-How is that possible?
- 01.30.03 TEAL'C-Nirrti possesses the technology to become invisible.
- 01.30.06 DANIEL-Cronus is dead. If it was the System Lord that was holding her...  
DANIEL (OS CONT)-prisoner
- 01.30.10 O'NEILL-So she's out.
- 01.30.12 DANIEL-The rings in her lab. That wasn't me, that was *her*. She came back through  
the Stargate with us.
- 01.30.15 CARTER-Well, that would mean that she was waiting for us in her lab the whole time.
- 01.30.18 TEAL'C (OS)-We may have inadvertently triggered a device...  
TEAL'C (CONT)-alerting her to our presence.

- 01.30.23           HAMMOND-Look. Go level by level. Check everything.  
                      HAMMOND (OS CONT)-Keep in radio contact. If you locate her, do not shoot...  
                      HAMMOND (CONT)-to kill. (to O'Neill)-Colonel?
- 01.30.30           O'NEILL-Stayin' here, sir.
- 01.30.37                       I figure you fought her off the first time, I'm safer here with you.
- 01.30.42           CASSANDRA-She was here the whole time you've been back.
- 01.30.46           O'NEILL-We'll find her.
- 01.30.47           DR. FRAISER-No, she's right. Why did she wait until now to come after Cassandra?
- 01.31.00           CARTER (INTO WALKIE)-Level 22 is clear.
- 01.31.18           TEAL'C (VO THRU WALKIE FILTERED)-Level 21 clear.
- 01.31.20           O'NEILL (INTO WALKIE)-Roger that.
- 01.31.21           CASSANDRA-She wanted to know if her experiment worked.
- 01.31.23           DR. FRAISER-We don't know what she wants.
- 01.31.25           CASSANDRA-No. If, if the transformation was going to kill me, she would have just  
                      let it happen. Don't you see?

- 01.31.31 DR. FRAISER-Honey, not now.
- 01.31.32 CASSANDRA-No...but it did work!
- 01.31.34 DR. FRAISER-Cassandra –
- 01.31.37 CASSANDRA-No... Look out!!!
- 01.31.57 O’NEILL (OS)-Easy!  
O’NEILL (CONT)-We need her alive.
- 01.32.07 (INTO WALKIE)-Security to Iso room four. All search teams stand down.
- 01.32.13 DR. FRAISER (OS)-Cassie?  
DR. FRAISER (CONT)-Cassie, don’t...  
DR. FRAISER (OS CONT)-do this.  
DR. FRAISER (CONT)-Please get her out of here.  
DR. FRAISER (OS CONT)-Come on, move! Roll her over!  
DR. FRAISER (CONT)-Easy.
- 01.32.42 O’NEILL-What’s going to happen to Cassandra?
- 01.32.43 NIRRTI-What is her condition?
- 01.32.45 O’NEILL-She just lost consciousness.

01.32.49 NIRRTI-Then the end is very near.

01.32.52 O'NEILL-If she dies, so do you.

01.32.57 NIRRTI-And what do you offer in return?

01.33.00 HAMMOND-I don't think you're in any position to bargain.

01.33.02 NIRRTI-I am in the position to save the life of a child you hold dear. (beat) Release  
me.

01.33.10 HAMMOND-We can't do that.

01.33.14 O'NEILL-General –

01.33.18 NIRRTI-With my invisibility device, intact.

NIRRTI (OS CONT)-I also require...

NIRRTI (CONT)-a sample of her blood.

01.33.27 HAMMOND-Absolutely not.

01.33.30 NIRRTI-Those are my terms.

- 01.33.41 DANIEL (OS)-She says...  
DANIEL (CONT)-that she can help Cassandra.
- 01.33.43 DR. FRAISER-If we trust her.
- 01.33.44 DANIEL-No, if we let her go.
- 01.33.47 DR. FRAISER-Do you believe that she can actually help?
- 01.33.50 DANIEL-Well, seeing as how we don't have a choice, I guess it's worth a shot.
- 01.33.55 DR. FRAISER-And what about General Hammond? What's he gonna do?
- 01.33.57 DANIEL-He hasn't decided yet.
- 01.34.01 DR. FRAISER-I...I really need to get back and see Cassandra.
- 01.34.06 DANIEL-We all know how tough this has been for you, so if you need anything...
- 01.34.13 DR. FRAISER-Thanks.
- 01.34.30 All right. Give me 70 milligrams of Dantrolene.
- 01.34.34 NURSE-Doctor?

01.34.35 DR. FRAISER-Now.

01.34.41 CASSANDRA-Mom?

01.34.41 DR. FRAISER-I'm here. We're just giving you something else to try and get your fever  
down.

01.34.47 CASSANDRA-It's happening.

01.34.50 DR. FRAISER-Okay. I want you to do what we talked about, okay? I want you to fight  
this.

01.34.56 CASSANDRA (whispers)-I don't wanna fight it.

01.34.57 DR. FRAISER (OVERLAPPING)-You have to. Honey, your body's not gonna be able  
to survive what this retrovirus is trying to do.

01.35.06 CASSANDRA-Where's Sam?

01.35.07 DR. FRAISER-She's gone to see if she can get Nirrti to help.

01.35.12 CASSANDRA (with effort)-No! Let it happen...let it happen...! (GROANS)

01.35.18 DR. FRAISER-Drop 10 of Valium.

- 01.35.25 NURSE (OS)-Valium's in.
- 01.35.34 NURSE (CONT)-Temperature's a hundred and six.
- 01.35.37 DR. FRAISER-Dantrolene is not working?
- 01.35.52 O'NEILL-General, with all due respect, it's not like we're negotiating with terrorists.
- 01.35.57 HAMMOND-It's exactly that, Colonel. You're letting your emotions get in the way.
- 01.36.01 O'NEILL (OS OVERLAPPING)-Yes!  
O'NEILL (CONT)-I am! Shouldn't you be?!
- 01.36.05 HAMMOND-Jack –
- 01.36.05 CARTER (OS)-Sir,...
- CARTER (CONT)-up until yesterday we didn't even know Nirrti was still alive.
- 01.36.09 O'NEILL-Exactly! Who cares if we let her go?! What difference does it make in the  
grand scheme of things? It's just one more Goa'uld runnin' around.
- 01.36.18 HAMMOND-If we were to allow Nirrti to leave with a sample...
- HAMMOND (OS CONT)-of Cassandra's blood, she could well succeed...
- HAMMOND (CONT)-in her experiment to create a genetically advanced host, and  
become dangerously powerful.

01.36.28 TEAL’C-I am in agreement with General Hammond.

01.36.31 O’NEILL-What?

01.36.32 TEAL’C-The life of a child may be sacrificed, but Nirrti possesses valuable information  
that would be lost if we...

TEAL’C (OS CONT)-allowed her to leave.

01.36.47 DR. FRASIER-General Hammond would like me check in on her.

01.37.06 CARTER-Teal’c, we’re talking about Cassandra.

01.37.08 TEAL’C (OS)-Of that...

TEAL’C (CONT)-I am aware. But her sacrifice would benefit both of our peoples.

TEAL’C (OS CONT)-Nirrti possesses...

TEAL’C (CONT)-valuable information that could allow us to defeat the Goa’uld.

01.37.17 DANIEL-We’ll find another way.

01.37.22 HAMMOND (OS)-We may never have...

HAMMOND (CONT)-a Goa’uld as a prisoner again.

- 01.37.25 CARTER (OS)-Sir, I don't have to remind...  
CARTE (CONT)-you what Cassandra has gone through because of the Goa'uld.  
Now, if we're gonna put what we *may* learn or what might happen over *her* life...
- 01.37.32 O'NEILL (OVERLAPPING)-It's time to pack it in.
- 01.37.38 DANIEL-I agree.
- 01.37.44 INTERCOM VOICE (VO THRU INTERCOM FILTERED)-General Hammond, to the  
holding room!
- 01.37.55 HAMMOND-Dr. Fraiser, stand down.
- 01.37.57 DR. FRAISER-I can't do that, sir.  
DR. FRAISER (OS CONT)-I don't have a choice.
- 01.38.00 CARTER (OS)-Janet,...  
CARTER (CONT)-don't do this.
- 01.38.03 DR. FRAISER-I can't help Cassandra. *She can.*
- 01.38.07 HAMMOND-Dr. Fraiser, SG-1 has already convinced me to make a deal for  
Cassandra's life. This isn't necessary.

01.38.13 NIRRTI-Then you agree to my terms.

01.38.17 HAMMOND-Just one. Once you've cured Cassandra of her illness, you'll be free to go.

01.38.22 NIRRTI-And how do I know you will honor this?

01.38.24 HAMMOND-You have only my word.

01.38.26 NIRRTI-Not enough.

01.38.32 HAMMOND-Then I should remind you that the woman holding the gun on you is Cassandra's mother.

01.39.31 NIRRTI-You have waited too long.

01.39.34 DR. FRAISER-You try again.

01.40.14 NIRRTI-It is done.

01.40.16 NURSE (OS)-Vital signs are all returning to normal.

01.40.26 CASSANDRA-Mom?

01.40.27 DR. FRAISER-It's okay. I'm here.

01.40.34 NIRRTI-I have honored *my* part.

01.40.47 O'NEILL-Let's go to the gate.

01.41.14 We've never dialed these coordinates before. I...sort of hope you know what you're doing.

01.41.20 NIRRTI-It is not my final destination. Without a sample of her blood, I will have to begin my experiment again.

01.41.29 O'NEILL-Aw, nuts.

01.41.32 NIRRTI-At least you have honored this much of our bargain.

NIRRTI (OS CONT)-In your place,...

NIRRTI (CONT)-I doubt I would have done the same.

01.41.43 O'NEILL-I'll keep that thought alive.

01.42.23 CARTER-Hey, Janet. How's our patient?

01.42.26 CASSANDRA-Bored.

01.42.28 DR. FRAISER-The, uh, homework stacked up a bit, but, other than that, she's just fine. I get to take her home tonight.

01.42.33 CARTER-Ah... Dominic awaits.

01.42.37 CASSANDRA-Stop it.

01.42.38 CARTER-Oh, come on. That last kiss was impressive.

01.42.40 CASSANDRA (OS)-Stop it!

01.42.41 CARTER-Lights exploded overhead.

01.42.43 CASSANDRA-Stop it!

01.42.46 CARTER-It's Saturday.

01.42.47 CASSANDRA-Okay, but I won't be able to move the pieces around by thinking about it. Sorry.

01.42.52 CARTER-Good. Then we're even.

01.43.01 FADE TO BLACK.  
END CREDITS.

01.44.19 END EPISODE #4953.
