PROLOGUE

00.09.05 NARRATOR (VO)- Previously on *Stargate SG1*...

00.11.26 OMOC- I am Omoc. Our world is called Tollan.

OMOC (OS CONT)- I find it unbelievable...

OMOC (CONT)- that anyone so primitive could...

OMOC (OS CONT)- have deciphered the gate system.

00.22.12 O'NEILL- Did you say primitive?

00.23.24 TRAVELL (OS)- You are after all...

TRAVELL (CONT)- the people who saved us from the Goa'uld.

00.27.09 DANIEL- Well, in that spirit, we'd like to arrange for a trade.

00.30.20 TRAVELL- What would you like to trade?

00.32.25 DANIEL- Technology.

00.33.27 TRAVELL (OS)- You know that is the one thing we cannot give you.

00.37.03 O'NEILL- Cover!

00.43.18 OMOC (OS)- Narim was right about you.

OMOC (CONT)- Perhaps in time we'll meet again.

TEASER

00.56.08 NARIM (OS)- ...but we should not mourn the passing of our friend Omoc, as much as we should celebrate his existence. He helped us through one of the greatest challenges...

NARIM (CONT)- in our people's recent history. His efforts contributed to the rebirth of our great nation as it stands today. He will always be remembered.

01.34.29 CARTER- Very nice.

01.39.29 O'NEILL (OS)- Very...

O'NEILL (CONT)- intimate.

01.43.16 NARIM- Councilor Omoc was well aware that he had very few true friends. He was not concerned with trivial relationships. In his testament, he asked that his memorial be attended only by those whom he respected.

01.57.16 DANIEL- Uh, no offense, but what are we doing here?

02.01.05 NARIM- He may have not shown you much warmth or affection, but I can tell you
 Omoc had a great deal of reverence for all of you.

02.08.28 TRAVELL- As do we all. Colonel O'Neill, please know...
TRAVELL (OS CONT)- that we have not dismissed what you have done over the past
 few years for the Tollan people.

02.17.11 O'NEILL- Don't mention it. We appreciate everything you've done for us too.

02.22.12 TRAVELL (OS)- If you are referring to our policy of not sharing...
TRAVELL (CONT)- our technology, I think renewing such a discussion would be better
 suited for...
TRAVELL (OS CONT)- another time and place.

02.31.25 O'NEILL- Really?

02.34.14 TRAVELL- The Tollan Curia has recessed for a day of mourning out of respect for
 Omoc. Would you consider returning tomorrow...
TRAVELL (OS CONT)- to meet with me?

02.45.22 O'NEILL- Sure.

02.46.24 TRAVELL- Thank you all for coming today. I look forward to seeing you again soon,
 Colonel.
TRAVELL (OS CONT)- Narim, will you show our guests to the stargate?

03.22.27 O'NEILL- Any idea what she was talking about back there?

03.25.10 NARIM- I was as surprised as you by her invitation.

03.28.09 TEAL'C- The Chancellor seems to suggest the Tollan Curia may now be willing to share its technology.

03.32.03 NARIM- I would seriously doubt that. She merely said they wished to discuss it with you.

03.35.26 DANIEL- You think that she'd invite us back here if things were status quo?

03.38.29 NARIM- I am not on the Curia. I really have no idea what she wishes to see you about. Have a safe trip home. Samantha, I hope I will have the chance to see you upon your return.

04.22.06 CARTER- Sir...Narim just handed me this.

04.30.14 NARIM (VOICE FILTERED THROUGH MESSAGE DEVICE)- Samantha, I'm sorry I was unable to tell you this in person. I do not know who I can trust.

NARIM (VOICE FILTERED THROUGH MESSAGE DEVICE OS CONT)- Before his death, Omoc gave me a...

NARIM (VOICE FILTERED THROUGH MESSAGE DEVICE CONT)- warning and I believe it to be true. Earth is in grave danger.

END OF TEASER

ACT ONE

05.56.14 HAMMOND (OS)- Narim gave you no...

HAMMOND (CONT)- other indication that something might be wrong?

05.59.10 CARTER- No, sir. Everything was fine.

06.01.21 O'NEILL- For a funeral.

06.03.16 DANIEL (OS)- You have to admit it did seem a little strange...

DANIEL (CONT)- there were so few there.

06.06.06 O'NEILL (OS)- Hey...

O'NEILL (CONT)- you knew him. What's strange?

06.10.04 CARTER (OS)- Whatever he meant...

CARTER (CONT)- I'd be willing to bet that Omoc's warning has something to do with
what Travell...

CARTER (OS CONT)- wants to meet with us about.

06.17.14 HAMMOND- Agreed. Let's see what they have to say.

06.21.13 TOLLAN PEOPLE- (TALKING)

06.49.07 O'NEILL- Cozy.
O'NEILL (CONT)- (COUGHS)

06.57.12 TRAVELL- Colonel O'Neill, Dr. Jackson, thank you so much for returning.

07.02.07 O'NEILL- Well, thanks for having us.

07.04.14 TRAVELL- Are Major Carter and Teal'c not with you?

07.06.29 DANIEL- They want to spend some time catching up with Narim.

07.09.15 TRAVELL (OS)- Of course.
TRAVELL (CONT)- Shall we get down to business?
TRAVELL (OS CONT)- The Curia met this morning as I indicated...
TRAVELL (CONT)- and the topic was our policy...
TRAVELL (OS CONT)- of sharing technology with Earth. In an odd...
TRAVELL (CONT)- way, Colonel O'Neill, the unfortunate death of Omoc has proven to
 be advantageous for you.

07.29.24 O'NEILL- Well, then I guess I'm both sad and happy.

07.35.18 TRAVELL- You’ve often expressed a strong interest in obtaining some of our technologies.

07.43.09 O’NEILL- You could say.

07.45.16 TRAVELL (OS)- In the past, the prevailing beliefs of the Curia have made...

TRAVELL (CONT)- any such arrangements impossible.

07.53.04 DANIEL- I’m sorry, what does this have to do with Omoc’s death?

07.55.21 TRAVELL- Some members of the Curia have been slowly changing their point of view about our isolationist ways.

TRAVELL (OS CONT)- Recently, the balance of the votes on these issues...

TRAVELL (CONT)- have been split. Omoc strongly supported the old ways.

08.09.23 DANIEL- So, with his passing, those in favor now control the vote.

08.12.22 TRAVELL- We would like to propose an exchange.

08.15.19 O’NEILL- Ah, the sound of the other shoe.

08.18.11 TRAVELL- Please, Colonel, have you ever known any political body to act solely...

TRAVELL (OS CONT)- without concern for its own needs?

08.28.07 O'NEILL- What do you want?

08.28.29 TRAVELL (OS)- We originally...

TRAVELL (CONT)- chose this planet for our new home because of its natural supply of Trinium. However, our nation has grown much quicker than anyone anticipated and the resources are becoming depleted.

08.41.19 DANIEL (OS)- Always a good...

DANIEL (CONT)- reason to reassess your isolationist ways.

08.44.13 TRAVELL- As I said, Dr. Jackson...

TRAVELL (OS CONT)- politics have common...

TRAVELL (CONT)- threads wherever you go.

08.50.08 O'NEILL- Okay, so you need Trinium. Why not go get some? What'd I say?

08.58.08 DANIEL- I don't know.

09.05.15 TRAVELL (OS)- I have temporarily...

TRAVELL (CONT)- deactivated security in this room.

TRAVELL (OS CONT)- Normally, everything is recorded and I wish...

TRAVELL (CONT)- to speak confidentially without repercussions.

09.15.25 O'NEILL- Off the record?

09.17.00 TRAVELL (OS)- Yes.

TRAVELL (CONT)- The truth is, Colonel, those councilors that oppose this arrangement still have strong voices...

TRAVELL (OS CONT)- among our people.

09.26.00 O'NEILL- So, the whole Trinium thing is just an excuse to save face publicly?

09.31.28 TRAVELL- We do need it...

TRAVELL (OS CONT)- but as you have suggested...

TRAVELL (CONT)- we can get it elsewhere...

TRAVELL (OS CONT)- if necessary.

09.37.22 DANIEL- How much do you need?

09.39.13 TRAVELL- Would you repeat that?

09.46.12 DANIEL- How much do you need?

09.50.02 TRAVELL- Our scientists will work out the specifics. But, given that you now have an off-world Trinium mine, I am sure it is within your capabilities.

10.01.07 O'NEILL- Okay, um, in exchange we get...?

10.05.08 TRAVELL- A Tollan Ion Canon.

10.10.08 O'NEILL- One of those big honkin' space guns that shoots Goa'uld ships out of the sky?

10.18.12 TRAVELL- Yes.

10.22.00 O'NEILL- Cool.

10.33.07 TEAL'C- I have observed that Narim appears to have strong personal feelings for you.

10.36.24 CARTER- I know. It's just that--

10.38.07 NARIM- Forgive me, Samantha. Teal'c. My duties did not allow me...
NARIM (OS CONT)- to get away before...
NARIM (CONT)- now.

10.43.08 CARTER- It's okay. You all right?

10.45.13 NARIM- Yes, fine.

10.46.29 CARTER- You look concerned.

10.53.17 NARIM- I apologize for having to send that message the way I did. There were so many extra security forces around yesterday. I really didn't know who I could trust. Except you, of course.

11.02.19 CARTER- It's okay. Thank you.

11.05.02 TEAL'C- Did Omoc not say any more about the danger to the Tauri?

11.08.08 NARIM- All I know is what I said in the message. Omoc seemed to be under great strain recently.

11.14.05 CARTER- Which may explain why he had the heart attack.

11.18.01 NARIM (OS)- Colonel O'Neill, Dr. Jackson.

11.20.02 CARTER- What did Chancellor Travell say?

11.21.26 O'NEILL (OS)- She...

O'NEILL (CONT)- offered us an ion canon.

11.24.22 NARIM- I don't believe it.

11.26.01 O'NEILL- Neither did we.

11.26.29 DANIEL- In exchange for some Trinium.

11.28.10 NARIM- That's impossible. The Curia would never agree to that.

11.30.25 DANIEL- Well, apparently, Omoc was...

DANIEL (OS CONT)- the swing vote.

11.33.15 NARIM- But it goes against everything we've stood for.

11.37.00 CARTER (OS)- Do you think this is...

CARTER (CONT)- what Omoc was so worried about?

11.40.07 NARIM- Of course. It must have been. As you know, another world once destroyed themselves because we shared our technology with them. That is why we have so strongly resisted sharing what we know with more primitive societies.

11.53.04 O'NEILL- You know, we prefer less advanced, if you don't mind.

11.56.21 NARIM (OS)- My apologies.

NARIM (CONT)- You know what I meant. If used the wrong way, this ion canon could lead you to disaster.

12.09.03 CARTER (OS)- The ion beam technology...

CARTER (CONT)- is very advanced. Unfortunately, it's so advanced that backward engineering one of these things for mass production is well beyond us and that poses a bigger problem.

12.19.13 HAMMOND- How so?

- 12.20.24 CARTER- Well, sir, even strategically placed in say, Washington DC, one ion canon provides very little range of defense coverage for a planet the size of Earth.
And even if we could mobilize...
- CARTER (OS CONT)- it, a fleet of Goa'uld motherships...
- CARTER (CONT)- could still easily strike at will.
- 12.34.29 DANIEL- Not to mention the fact that the Russians might take issue with our having control of a single ion canon.
- 12.40.08 HAMMOND- Our current relationship with them on these matters...
- HAMMOND (OS CONT)- is tenuous at best.
- 12.44.14 CARTER- So, at this point, one ion canon is likely to cause more harm than good.
- 12.48.19 HAMMOND- Well, how many do we need to set up a proper protective net around the entire planet?
- 12.56.25 CARTER- Thirty-eight. Minimum.
- 12.59.03 O'NEILL AND DANIEL (SIMULTANEOUSLY)- Thirty-eight?!
- 13.01.06 CARTER- To provide total global coverage, yes, sir.
CARTER (OS CONT)- And that's not...
CARTER (CONT)- including back-ups.

13.08.15 O'NEILL- It couldn't hurt to ask, sir.

13.10.12 CARTER (OS)- Sir, I feel obligated at this...

CARTER (CONT)- point to mention the fact that Narim is opposed to this exchange
and thinks that Omoc's...

CARTER (OS CONT)- warning was directly related.

13.21.08 HAMMOND- Do you believe the Tollan Council has ulterior motives that do...

HAMMOND (OS CONT)- not represent our best interest?

13.27.01 O'NEILL- Something's going on. I just don't know what.

13.33.21 HAMMOND- I'm ordering you to proceed with the negotiation.

13.38.10 O'NEILL- Okay.

13.41.10 HAMMOND- Colonel, under the circumstances...

13.44.16 O'NEILL- If you're going to recommend, sir, that I continue to be suspicious...

O'NEILL (OS CONT)- and skeptical...

13.48.27 HAMMOND- I wouldn't waste my time.

13.50.18 O'NEILL- Good thinking, sir.

13.51.11 HAMMOND- Just remember, this deal could change the course of our history.

13.54.17 O'NEILL- So, don't blow it?

13.57.00 HAMMOND- What you're sensing as trouble could be simple internal political wrangling.

14.02.03 O'NEILL- I understand that.

14.05.12 HAMMOND- Or we could be walking into a minefield.

14.11.29 O'NEILL- Thank you, sir. These little chats of ours always bring me great joy and serve to ease my mind.

14.34.26 NARIM- Greetings. Chancellor Travell has asked that I personally escort them the rest of...

NARIM (OS CONT)- the way.

14.42.12 O'NEILL- Is that true?

14.43.10 NARIM- No. I heard you had arrived back on Tollana to meet with Chancellor Travell again.

14.48.29 O'NEILL- Yeah, uh, we're gonna ask for a whole whack of space guns.

14.52.12 NARIM- This is much worse than I thought.

14.54.08 CARTER- Narim, we understand why you're concerned but those ion canons could
save Earth one day.

14.58.05 DANIEL- You're just gonna have to trust that our people aren't going to blow each
other up with them.

15.01.02 O'NEILL- And if we do, we won't blame you. Promise.

15.03.22 NARIM- You don't understand. Every Tollan has a small implant that monitors their
health. See, this is my current health data.

15.17.21 CARTER- I'm assuming you're okay?

15.19.03 NARIM- Yes. Perfect health. However, I am overseer of Omoc's personal property,
including this...

NARIM (OS CONT)- device which contains his health records.

NARIM (CONT)- Now, after our last conversation I decided to do some checking.

NARIM (OS CONT)- As you know, Omoc died of a heart attack.

15.30.22 O'NEILL (OS)- Narim...

O'NEILL (CONT)- where're you going with this?

- 15.33.18 NARIM- Despite the fact that...
- 15.35.09 TOLLAN PASSERSBY- (TALKING)
- 15.38.10 NARIM- Despite the fact that Omoc looked as if he was under great stress, he too was
 in perfect health.
- 15.42.26 CARTER- Well, people sometimes die of heart...
 CARTER (OS CONT)- attacks without warning.
- 15.46.09 NARIM- Our implants are linked to a central system. If anything goes wrong, health
 officers are dispatched immediately.
 NARIM (OS CONT)- Now normally, maximum response time is under five minutes.
 NARIM (CONT)- The night of Omoc's death, it took them over ten...
 NARIM (OS CONT)- minutes.
- 15.59.08 CARTER- What are you saying?
- 16.00.11 NARIM- That just doesn't happen. The system is flawless.
- 16.02.14 O'NEILL- No, what are you *saying*?
- 16.06.10 NARIM- Well, I believe...

16.10.18 TOLLAN PASSERSBY (OS)- (TALKING)

16.11.21 NARIM- I believe Omoc may have been murdered.

END OF ACT ONE

ACT TWO

16.21.21 DANIEL (OS)- What if I ask what you need the Trinium for?

16.24.29 TRAVELL- Trinium is combined with a number of elements to create a compound...

TRAVELL (OS CONT)- that is used...

TRAVELL (CONT)- in various Tollan technologies.

16.33.05 O'NEILL- Do you people practice being vague?

16.36.13 TRAVELL- I will have this sample analyzed...

TRAVELL (OS CONT)- for purity. Then I will be able to provide you with the amounts
we require...

TRAVELL (CONT)- for our exchange.

16.45.24 O'NEILL- Yeah...about that.

16.48.19 TRAVELL- Have you reconsidered?

16.50.04 O'NEILL- No. No, no, no. Um, we just don't feel one canon is gonna work.

16.56.24 DANIEL- You see, one doesn't go so far in protecting an entire planet.

16.59.22 TRAVELL- Yes, that was discussed by the Curia.

17.02.07 O'NEILL- Well, we've come up with a solution you may not have considered.

17.05.12 DANIEL- Mm-hmm.

17.06.03 TRAVELL- Yes?

17.06.29 O'NEILL- Give us more than one.

17.08.00 DANIEL (OVERLAPPING)- More than one.

17.10.08 TRAVELL- How many would you require?

17.13.25 DANIEL- Mmm, thirty...

17.15.20 O'NEILL- ...eight.

17.16.11 DANIEL- Thirty-eight, total.

17.18.28 TRAVELL- I see. Well, I understand your dilemma. Please, give me some time to
present your request to the Curia.

17.37.16 O'NEILL- That went well.

17.38.21 DANIEL- Mm-hmm.

17.55.20 COMPUTER VOICE (OS)- Greetings, Narim. Welcome home. Atmosphere control is
active. Shall I prepare a mid-day meal for you and your guests?

18.02.14 NARIM- No. Thank you.

18.04.10 CARTER- Narim?

18.06.00 NARIM- Yes, Samantha.

18.07.19 CARTER- Is that my voice?

18.09.21 NARIM- I'm sorry. I was hoping you wouldn't notice.

18.14.22 TEAL'C- Colonel O'Neill asked us to find proof of Omoc's murder. Should we not
begin?

- 18.21.27 NARIM- I really don't know where to start. The fact is that there hasn't been a murder
 among the Tollan for as long...
- NARIM (OS CONT)- as I can remember.
- 18.27.09 TEAL'C- Is crime so uncommon here?
- 18.29.07 NARIM- There are occasional crimes of indiscretion which are duly punished but
 nothing even approaching the severity of murder. Our security systems prevent
 it. Which is why I was so reluctant to even suggest it.
- 18.41.29 CARTER- This doesn't make any...
- CARTER (OS CONT)- sense.
- CARTER (CONT)- Sure, the Curia had disagreed with Omoc over whether or not to
 give us your weapons, but do you really think they would kill him over it?
- 18.52.03 NARIM- I don't know what to believe anymore, Samantha. The records of all Curia
 meetings are public. We can read through them right here.
- 19.15.27 TEAL'C- There appears to be much information.
- 19.18.03 NARIM (OS)- Yes...
- NARIM (CONT)- but as Samantha suggested, maybe there is something in all this that
 will indicate the seriousness of the conflict between Omoc and the other
 members.

19.26.12 CARTER- Can you translate it for us?

19.37.15 DANIEL (OS)- You think Narim's right about...

DANIEL (CONT)- Omoc?

19.40.01 O'NEILL- I think this thing smells worse and worse...

O'NEILL (OS CONT)- by the minute.

19.44.10 DANIEL- But you're still willing to proceed?

19.47.19 O'NEILL (OS)- Well, I think...

O'NEILL (CONT)- it's the only way we're going to find out what's really going on here.

19.51.11 DANIEL- The question is, how far to we go?

19.54.25 O'NEILL- Well, all we know is that these people might be willing to part with some very
powerful weapons. I have no problem with that.

20.03.20 DANIEL- No, no surprise there.

20.07.07 O'NEILL- At worst, some people disagree on some philosophical level that I don't even
care to understand.

20.12.18 DANIEL- Actually, at worst they killed someone to make sure this would happen.

20.15.22 O'NEILL- Now see, that makes no sense to me.

20.18.15 DANIEL- Exactly. So, push on blindly then?

20.21.21 O'NEILL- Blindly, yes. But we still have our slightly heightened sense of smell.

20.28.10 TOLLAN GUARD (OS)- Chancellor...

TOLLAN GUARD (CONT)- Travell is ready for you now.

20.43.16 NARIM- Shall we take a break?

20.45.11 CARTER- Isn't there some way to narrow this down, like search the records for
specific topics?

20.50.09 COMPUTER VOICE (OS)- Please indicate the topic of interest.

20.53.04 CARTER- Okay, how do we shut that off?

20.55.06 NARIM- Voice system off. What do you want to search for?

20.58.28 CARTER- Let's start with Ion Canons.

21.02.10 NARIM- Okay, search topic: Ion Canons. Time frame: six months.

21.08.15 O'NEILL (FILTERED THROUGH VIDEO SCREEN)- Hello? Hello? You sure this is the right spot?

21.13.28 DANIEL (FILTERED THROUGH VIDEO SCREEN)- The directions he gave...
DANIEL (OS CONT FILTERED THROUGH VIDEO SCREEN)- led us here.

21.16.19 O'NEILL (FILTERED THROUGH VIDEO SCREEN)- How do you know this is Narim's house? They all look the same here.

21.22.22 DANIEL- 'Cause that's Narim.

21.26.17 O'NEILL- You're good.

21.27.19 NARIM- Come in.

21.30.11 O'NEILL- Whatcha reading there, fella?

21.32.07 TEAL'C- Tollan Curia records.

21.34.01 O'NEILL- Don't wreck it for me.

21.37.28 CARTER- So what did Travell say?

21.40.02 O'NEILL- We got the guns.

21.42.04 NARIM- It cannot be true.

21.44.05 CARTER- All of them?

21.45.00 DANIEL- Over time, as we deliver the Trinium.

21.47.15 CARTER- Wow.

21.49.06 O'NEILL- What do you guys got?

21.52.05 CARTER- Uh, well, so far not much.

21.55.16 TEAL'C (OS)- Narim. Colonel O'Neill. It says that two months ago...

TEAL'C (CONT)- there was an unscheduled test of Tollar ion canons and that Omoc
filed...

TEAL'C (OS CONT)- an official protest.

22.11.03 NARIM- Yes, I remember it well. We were supposed to have an evening meal together. Omoc was late. He was very angry when he arrived. He spent the entire time ranting about the unfairness of random testing on the Tollan people.

22.22.20 DANIEL- I don't understand. Why is this important?

22.24.29 CARTER- Well, we're looking for indications of Omoc's difference of opinion with the Curia.

22.28.22 NARIM- This can't be.

22.31.18 O'NEILL- What?

22.32.06 NARIM (OS)- According to this record, the Curia meeting adjourned in the late afternoon.

NARIM (CONT)- Omoc came here straight from the meeting. I'm sure it was well into the evening.

22.39.12 CARTER- So?

22.39.28 NARIM (OS)- It means there are at least two hours of notations...

NARIM (CONT)- missing from these records.

22.43.17 O'NEILL- A slight omission?

22.45.03 NARIM- That's not possible.

22.47.06 CARTER (OS)- Narim, if the Curia...

CARTER (CONT)- can commit murder, they can certainly erase a couple of...

CARTER (OS CONT)- hours from the public records.

22.51.19 NARIM- You don't understand our laws.

NARIM (OS CONT)- For the highest members of our government to deceive...

NARIM (CONT)- the people...as strange as it may sound, it's an even more heinous crime than murder. It's...it's unthinkable.

NARIM (OS CONT)- At the time I thought it was strange that Omoc would...

NARIM (CONT)- be so upset over an ion canon test.

23.10.17 O'NEILL- So, slightly more to it than that, eh?

23.13.07 DANIEL (OS)- If the Curia wanted to cover up details of this...

DANIEL (CONT)- incident, why leave Omoc's protest on record?

23.17.15 NARIM (OS)- Because...

NARIM (CONT)- an official protest of Tollan policy is filed with every level of every branch of the government. It would be impossible to erase it without a conspiracy of massive proportions reaching far outside the Curia.

23.30.03 CARTER- So whatever happened in the time missing from these records, it could be why Omoc was killed.

END OF ACT TWO

ACT THREE

23.42.04 HAMMOND (OS)- As far as what you...

HAMMOND (CONT)- told me, there seems to be an evil conspiracy among the Tollan
Curia whose apparent goal is to give us everything we've ever wanted. That
makes no sense.

23.51.29 O'NEILL- I said that.

23.53.01 TEAL'C (OS)- Unless the Tollan cannot procure...

TEAL'C (CONT)- Trinium on their own as easily as they claim.

23.57.03 DANIEL (OS)- Travell did go to great lengths...

DANIEL (CONT)- to convince us that it was just a face-saving exercise to appease the
naysayers.

24.01.28 HAMMOND (OS)- Do we have any...

HAMMOND (CONT)- idea what the Tollans are going to do with the Trinium?

24.05.05 O'NEILL- Lots and lots of very interesting and unspecific things.

24.10.15 CARTER (OS)- Sir, we could try...

CARTER (CONT)- tagging the first shipment to see where it goes.

24.13.21 HAMMOND- How?

24.14.04 CARTER- Well, we introduce a barely detectable radioactive isotope.

CARTER (OS CONT)- If the Tollans catch it and inquire, we say...

CARTER (CONT)- it's a byproduct of the purification process...

CARTER (OS CONT)- and we've...

CARTER (CONT)- been unable to eliminate it entirely.

24.27.28 HAMMOND- Do it.

24.32.12 TOLLAN PEOPLE- (TALKING)

24.38.16 NARIM (OS)- And Travell doesn't...

NARIM (CONT)- suspect you?

24.40.13 O'NEILL- If she does, she's not letting on.

24.42.07 DANIEL- We're the primitive inferior race. Why would she suspect us?

24.44.24 CARTER (OS)- The Trinium's still moving. Right now it's...

CARTER (CONT)- two clicks south-south west of here.

24.48.06 NARIM (OS)- Do you realize what you have...

NARIM (CONT)- done by involving me in this? Just knowing what you've done...

- 24.51.02 O'NEILL- Hey, you involved yourself in this when you sent us that...
O'NEILL (OS CONT)- warning.
- 24.55.20 NARIM- Warning you that your world is in danger is not the same as committing
 treason against my own government.
- 24.59.06 DANIEL (OS)- If your leaders are...
DANIEL (CONT)- involved in something untoward and they've committed murder to
 cover it up, what you're doing is not treason.
- 25.04.15 NARIM- What I am doing is nothing.
- 25.06.12 O'NEILL- Then help us.
- 25.10.08 NARIM- How?
- 25.14.06 CARTER- Tell us how to get into Travell's office and access her...
CARTER (OS CONT)- computer.
- 25.17.23 NARIM- What?
- 25.18.24 DANIEL (OS)- If there is a conspiracy...
DANIEL (CONT)- she's in on it.

- 25.21.07 TEAL’C (OS)- It was...
- TEAL’C (CONT)- in fact Travell that offered us the ion canons.
- 25.25.08 NARIM- It’s impossible. There is no way.
- 25.26.28 O’NEILL- Narim, will you...
- O’NEILL (OS CONT)- get...
- O’NEILL (CONT)- your head outta your ass! You started this.
- 25.32.00 DANIEL (OS)- Your government is deceiving...
- DANIEL (CONT)- its people. You said yourself that’s the most heinous crime you can think of.
- 25.37.05 NARIM- I should have reported this to the security office long ago.
- 25.39.11 CARTER (OS)- But you can’t...
- CARTER (CONT)- because the Curia ultimately have more power.
- 25.42.07 TEAL’C- As a citizen is it not your duty to investigate such a crime?
- 25.45.22 NARIM- The security systems prevent...
- 25.46.28 DANIEL (OS)- Travell was able to turn them...
- DANIEL (CONT)- off in her office.

- 25.49.02 NARIM- Why would she do that?
- 25.50.06 O'NEILL- So she could talk to us off the record.
- 25.54.03 NARIM- That is a severe violation of the governmental conduct code.
- 25.57.00 O'NEILL- Gee, what a shock.
- 26.04.01 NARIM- There is one chance. Only the highest-ranking members of the Curia would
 have access codes to the security system in the building where Travell's office
 is located. Omoc was among them.
- 26.16.08 CARTER- And you have his personal effects.
- 26.18.14 NARIM- His code would be in the data device. If it is not deactivated.
- 26.22.28 O'NEILL- Okay, Daniel, Carter go with Narim. Check out Travell's office. See what
 you come up with. Teal'c and I'll...
- O'NEILL (OS CONT)- track the Trinium.
- O'NEILL (CONT)- Uh, that's the thing that let's you go through walls, right?
- 26.36.03 NARIM- Yes.
- 26.37.10 O'NEILL- Got a couple extra laying around?

26.40.23 NARIM- That would be a violation of--

26.41.29 O'NEILL (OS)- Good.

O'NEILL (CONT)- How about weapons?

26.43.29 NARIM- Colonel O'Neill...

26.45.17 O'NEILL- Just in case.

26.46.22 NARIM- You know our security system disab--

26.48.02 TEAL'C (OS INTERRUPTING)- The weapons carried by...

TEAL'C (CONT)- your security forces remain unaffected.

27.14.24 NARIM- If this doesn't work...

NARIM (OS CONT)- security...

NARIM (CONT)- will be here in seconds.

27.31.13 DANIEL- Way to go, Omoc.

27.58.00 NARIM- Here. This is a private communication sent to our chief of science and technology just after the meeting.

28.04.10 CARTER- That was no random ion canon test.

28.06.24 NARIM- It says a Goa'uld ship entered orbit and that the ion canons...

NARIM (OS CONT)- fired in defense.

28.10.18 DANIEL- Ineffectively.

28.12.22 NARIM- I don't see how that could be. Our ion canons have always been successful
against Goa'uld motherships.

28.17.27 CARTER- Maybe this Goa'uld has developed shields that defend against...

CARTER (OS CONT)- them.

28.20.19 NARIM- That would be catastrophic. We have no other weapons capable of
defending--

28.24.04 CARTER- Wait a second. This makes no sense. It says despite resisting your attack,
the ship left peacefully.

28.30.29 DANIEL- Yeah, right.

28.32.07 CARTER- Why would a Goa'uld mothership, impervious to your ion canons, just
leave?

28.36.08 NARIM- There must be more.

NARIM (OS CONT)- No other records or communications mention a Goa'uld ship.

28.45.12 DANIEL- Must have been discussed off the record after that.

28.47.25 CARTER (OS)- Well, we know the ion...

CARTER (CONT)- canons are useless if they won't defend against Goa'uld motherships...

CARTER (OS CONT)- anymore.

28.52.06 DANIEL- Which explains why Travell was willing to give us as many as we wanted.

28.55.21 CARTER- Let's see if we can find out what the Trinium's being used...

CARTER (OS CONT)- for.

29.20.27 O'NEILL- Uh. Looks like our Trinium's in here.

29.32.27 TEAL'C- Narim said in order for the device to work on both of us, we must hold hands,
O'Neill.

29.40.09 O'NEILL- I know.

30.27.07 TEAL'C- This is unlike any Tollan device I have previously seen.

30.44.03 O'NEILL- Well, whatever it is, they seem to think they're gonna need a lot of 'em.

31.00.04 CARTER- Whoa.

31.01.22 NARIM- It's a weapon of mass destruction.

31.12.25 DANIEL- Okay, where does the Trinium come in?

31.16.17 NARIM- Trinium is required to house any device that generates our phase shift technology.

31.22.21 DANIEL- Are you saying this bomb is being made so it can go through anything?

31.26.13 NARIM- Theoretically, yes.

NARIM (OS CONT)- Of course.

NARIM (CONT)- That must be it. This weapon is intended to replace the ion canon in defense of our planet.

31.35.04 CARTER (OS)- Sorry, Narim, that just doesn't add up.

CARTER (CONT)- A Goa'uld would never drop by just so you could check out his new shield technology and then go away to give your people time to build a weapon to penetrate it.

31.44.16 NARIM- What else could have possibly happened?

31.50.10 TRAVELL (OS)- Please...

TRAVELL (CONT)- lower your weapons. The building is full of security. What do you think you're doing, Narim?

32.03.14 NARIM- What do you think you are doing, Chancellor?

32.12.11 TANITH- She is doing what she must to preserve your world.

END OF ACT THREE

ACT FOUR

32.47.19 O'NEILL- Hello, fellas.

32.50.22 TOLLAN GUARD #1- (GROANS IN PAIN)

32.52.11 TOLLAN GUARD #2- (GROANS IN PAIN)

33.01.15 O'NEILL- This is not a good sign.

33.05.07 NARIM (OS)- You are in league with a Goa'uld.

33.07.26 CARTER- His name is Tanith.

33.09.17 DANIEL- Yeah, aren't you supposed to be dead?

33.12.11 TANITH- If you must know...

33.13.19 DANEL- I must.

33.14.26 TANITH (OS)- I had left...

TANITH (CONT)- Apophis' ship in an escape pod long before the sun exploded.

Thank you, by the way. In destroying his fleet, you did me a great favor.

33.27.29 CARTER- It was nothing.

33.29.16 TANITH- How lovely it is to see you both here.

TANITH (OS CONT)- I assume...

TANITH (CONT)- Teal'c must be around somewhere.

33.37.01 TRAVELL (OS)- The others...

TRAVELL (CONT)- are being apprehended as we speak.

33.40.07 TANITH (OS)- I am so...

TANITH (CONT) looking forward to seeing him and Colonel O'Neill again.

33.44.16 NARIM- How could you do this?

33.47.10 TRAVELL- I have done nothing alone, Narim. The Curia is acting in the interest...

TRAVELL (OS CONT)- of Tollana.

33.53.11 NARIM- You murdered Omoc.

- 33.54.27 TRAVELL- Had we not done what we did, there would be no...
TRAVELL (OS CONT)- Tollana to speak of.
- 33.58.08 TANITH (OS)- And there won't be...
TANITH (CONT)- if you do not fulfill your promise, Chancellor.
- 34.02.11 TRAVELL- Rest assured, we will deliver as promised.
- 34.06.10 NARIM- You and the Curia are not empowered to make such deals on behalf of the
Tollan people. We would rather fight and die than trade our technology to the
Goa'uld.
- 34.15.23 TRAVELL (OS)- I wonder...
TRAVELL (CONT)- if you would be so quick to make that...
TRAVELL (OS CONT)- decision were in my position.
- 34.29.28 DANIEL- (GROANS IN PAIN)
- 34.33.07 TRAVELL- After him! He will not get away.
- 34.59.10 NARIM (SIGHS)- How did you find me?
- 35.03.15 O'NEILL- You're the one wearing gray.

- 35.06.16 TEAL’C- Daniel Jackson and Major Carter?
- 35.08.08 NARIM- We were caught by Travell and the Goa’uld...
- NARIM (OS CONT)- the Curia have entered into a bargain with.
- NARIM (CONT)- I managed to escape with this. But the entire security force of
 Tollana must be looking for me – and you for that matter.
- 35.19.17 O’NEILL- Um, back up to that Goa’uld bargain part.
- 35.23.14 NARIM- The Tollan Curia have made a deal with a Goa’uld. His name is Tanith.
- 35.30.15 O’NEILL- Easy, big fella. What kind of deal?
- 35.35.03 NARIM (OS)- This Goa’uld’s mothership has a new kind of shield...
- NARIM (CONT)- that is impervious to our ion canons. For the first time, Tollana is
 vulnerable to attack.
- 35.43.09 O’NEILL- There hasn’t been an attack.
- 35.44.19 NARIM- No, to prevent our destruction, the Curia has agreed to...
- NARIM (OS CONT)- build weapons for the Goa’uld.
- 35.49.22 TEAL’C- We have seen these weapons. There are a great many.

- 35.53.12 O'NEILL- What exactly can they do?
- 35.55.22 NARIM- They are explosives of great power that utilize the Tollan phase shift technology. They will be able to penetrate any solid matter prior to detonation.
- 36.04.19 O'NEILL- Like an iris?
- 36.07.21 NARIM- As you have witnessed before, I have used our technology to walk right through the barrier that protects your planet's stargate.
- 36.17.10 TOLLAN GUARD- We've been unable to locate them this far. Our efforts continue.
- 36.20.24 TRAVELL- Use Narim's health implant to locate him.
- 36.23.06 TOLLAN GUARD- That would be in violation of the code--
- 36.24.08 TRAVELL- Do it!
TRAVELL (OS)- Tell your master...
TRAVELL (CONT)- we will make the delivery on schedule.
- 36.35.07 CARTER (OS)- Excuse me...
CARTER (CONT)- Your master?
- 36.37.27 DANIEL- Well, you don't think he could do all this by himself, do you?

- 36.41.13 CARTER- Apophis dead, fresh...
- CARTER (OS CONT)- out of an escape pod. Of course he'd have to ally...
- CARTER (CONT)- himself with someone more powerful, wouldn't he?
- 36.47.21 DANIEL- So who you taking orders from now?
- 36.49.11 TRAVELL- Apparently, the one he serves has no name.
- 36.53.03 TANITH- Oh, he has a name. The likes of you are simply forbidden to know...
- TANITH (OS CONT)- it.
- TANITH (CONT)- Do with them as you wish. However, if your pathetic...
- TANITH (OS CONT)- security forces finally manage to capture Teal'c...
- TANITH (CONT)- have him transported up to me.
- 37.23.04 TEAL'C- We must not allow Tanith to possess those weapons.
- 37.25.17 O'NEILL- I know.
- 37.27.03 NARIM- What can we do?
- 37.29.07 O'NEILL- Destroy them.
- 37.30.22 NARIM- How?

37.32.09 O'NEILL- You tell me.

37.37.06 NARIM- Travell was right. It's not so easy when the fate of your planet is in your own hands.

37.43.01 O'NEILL- Narim...

37.43.17 NARIM- Look, the Goa'uld will attack Tollana if the delivery is not made. You are asking me to destroy my own world.

37.49.04 O'NEILL- I'm asking you not to sacrifice Earth and God knows how many other planets to save you own ass!

O'NEILL (OS CONT)- I'm asking you to...

O'NEILL (CONT)- do the right thing and you know it.

38.10.15 TANITH- Your time is up, Chancellor.

38.12.06 TRAVELL- We are ready to make the first delivery.

38.15.03 TANITH (OS)- Very well.

TANITH (CONT)- However, before accepting, we will first require a demonstration of the technology to ensure that it works as expected.

38.25.14 TRAVELL- I assure you it has been tested and each weapon is fully--

38.28.22 TANITH (OS)- You will...

TANITH (CONT)- activate one of the weapons and send it through your stargate to the
 Tauri. You have thirty minutes.

END OF ACT FOUR

ACT FIVE

38.59.23 O'NEILL- You got any idea what you're doing?

39.05.21 TEAL'C- None.

39.22.20 O'NEILL- Good enough.

39.24.09 DANIEL (OS)- You knew exactly why you were building these devices...

DANIEL (CONT)- and what they'd be used for.

39.28.05 CARTER- You just didn't expect them to make you pull the trigger.

39.31.07 DANIEL (OS)- The Goa'uld have no choice. Earth is a protected planet.

DANIEL (CONT)- They can't do it themselves without having to deal with the Asgard.

39.36.25 TRAVELL- I had no choice either.

39.39.20 CARTER- Yes, you did.

39.43.23 O'NEILL- Hi, kids.

39.45.11 TOLLAN GUARD- They were captured attempting to sabotage one of the weapons.
They had this on them.

39.51.16 TRAVELL- Narim's health implant. What have you done to him?

39.54.11 O'NEILL- Nothing. However, while these guys were chasing us...

39.58.05 TEAL'C- Narim was able to move freely.

40.15.17 TRAVELL- Leave them! Come!

40.18.28 O'NEILL (OS)- Where you guys going? Hey!

O'NEILL (CONT)- Ow! Damn!

40.38.26 NARIM- If they haven't already, the Goa'uld will soon realize that we no longer intend
to honor our end of the bargain.

40.48.15 O'NEILL- Um, hey – we should go.

40.56.01 TOLLAN PEOPLE- (SCREAMING AND SHOUTING)

41.04.27 NARIM- You must hurry straight to the stargate.

41.07.07 CARTER- Aren't you coming with us?

41.08.09 NARIM- My actions have forced my people to fight a battle we may very well lose.
 The least I can do is stay and fight with them.

41.14.09 O'NEILL- Thank you. Good luck.

41.19.05 CARTER- I hope this isn't goodbye.

41.22.15 NARIM- Go.

41.24.02 TOLLAN PEOPLE- (SCREAMING AND SHOUTING)
 TOLLAN PEOPLE- (OS CONT SCREAMING AND SHOUTING)
 TOLLAN PEOPLE- (CONT SCREAMING AND SHOUTING)

41.40.02 HAMMOND- So, we can reasonably assume the Goa'uld did not get any of these
 weapons?

41.46.25 O'NEILL- We can only hope.

41.49.11 HAMMOND- What about these new shields?

- 41.51.09 TEAL'C (OS)- The Goa'uld...
TEAL'C (CONT)- do not share technology.
- 41.53.22 CARTER- Well, whoever Tanith is now...
CARTER (OS CONT)- working for...
CARTER (CONT)- these new shields give him a decided advantage.
- 41.59.11 HAMMOND- Teal'c, any guesses who it might be?
- 42.02.00 TEAL'C- None, General Hammond.
- 42.04.13 HAMMOND (OS)- I suppose we have to rest...
HAMMOND (CONT)- assured that whoever it is, they're still afraid of confronting the
 Asgard or they would've attacked Earth themselves.
- 42.11.26 DANIEL- For now.
- 42.13.01 TECHNICIAN (OS FILTERED THROUGH INTERCOM)- Incoming communication.
TECHNICIAN (CONT)- We're getting a direct transmission from a Tollan long-range
 communication device.
- 42.35.26 NARIM (OS FILTERED THROUGH DEVICE)- ...managed to get some people
 out...stargate was destroyed.

42.39.03 CARTER- Narim.

42.40.05 NARIM (OS FILTERED THROUGH DEVICE)- ...all defenses failing. Our ships
attempting to escape are being shot down...I just wanted you to know that...

42.48.16 TECHNICIAN- I'm sorry, sir. That's it. The transmission just died.

FADE TO BLACK. BEGIN END CREDITS.
