PROLOGUE

00.09.24 TEAL’C (VO)- Previously on “Stargate SG1”...

00.13.24 STRAIGHT-HAIRED WOMAN- I promise you his death will ultimately...
STRAIGHT-HAIRED WOMAN (OS CONT)- prove to be a noble sacrifice.

00.20.28 DANIEL- Sarah.

00.22.01 OSIRIS- It’s good to see you.

00.25.17 DR. FRASIER (OS)- I found traces of a foreign chemical on Teal’c’s uniform, and I’ve
completed my analysis. I...
DR. FRASIER (CONT)- believe that Lieutenant Tyler, or the idea of Lieutenant Tyler, is
nothing more than a chemical implant.

00.35.09 BITCHY WOMAN- Apparently the one he serves has no name.

00.39.00 MAN IN ALUMINUM SUIT (DISTORTED)- Oh, he has a name. The likes of you are
simply forbidden to...
(OS CONT)- know it.

END OF PROLOGUE

TEASER

- 01.09.16 ZIPACNA'S JAFFA- Your guest has arrived.
- 01.18.21 ZIPACNA (DISTORTED)- You're to be congratulated. My sources have informed me
that you have managed to amass an impressive army in a relatively short
amount of time.
- 01.31.26 OSIRIS (DISTORTED)- I merely took advantage of favorable conditions.
- 01.37.28 ZIPACNA (DISTORTED)- The old order has fallen. The System Lords are in disarray.
Opportunities exist, but only for those who are bold enough to seize them.
- 01.48.18 OSIRIS (DISTORTED)- What are you proposing? An alliance?
- 01.53.04 ZIPACNA (DISTORTED)- No. But I am offering you a position of power...
ZIPACNA (DISTORTED) (OS CONT)- in exchange for your support.
- 01.59.27 OSIRIS (DISTORTED)- Osiris serves no one. You least of all.
- 02.07.13 ZIPACNA (DISTORTED)- You once served Isis.
- 02.09.25 OSIRIS (DISTORTED)- She was my queen. She served me.

02.14.16 ZIPACNA (DISTORTED)- Interesting. Interesting that you now choose...

ZIPACNA (DISTORTED) (OS CONT)- a female host.

ZIPACNA (DISTORTED) (CONT)- A most attractive one, at that.

02.24.16 OSIRIS (DISTORTED)- You waste my time.

02.26.12 ZIPACNA (DISTORTED)- You misunderstand. I am not asking that you serve me. I must admit that I am merely an emissary for a much more powerful Goa'uld, one whom you once knew well.

02.42.04 OSIRIS (DISTORTED)- Of whom do you speak?

02.47.09 ZIPACNA (DISTORTED)- Anubis.

END OF TEASER

ACT ONE

04.01.02 TECHNICIAN (VO FILTERED)- Unscheduled off-world activation.

04.10.14 TECHNICIAN- Receiving IDC transmission, sir. It's the Tok'ra.

04.11.26 EPISODE TITLE: SUMMIT

04.15.00 HAMMOND- Open the iris.

04.14.27 O'NEILL- Ah, here we go.

04.30.01 HAMMOND- Renal.

04.30.27 RENAL (DISTORTED)- General Hammond.

04.32.19 HAMMOND- This is SG-1.

04.34.09 RENAL (DISTORTED)- I am familiar with all of your exploits.

RENAL (OS CONT) (DISTORTED)- Your father Jacob sends his regards.

04.39.25 CARTER- How is he?

04.40.26 RENAL (DISTORTED)- On a mission at the moment, which is the reason I am here.

RENAL (DISTORTED) (OS CONT)- There is a serious situation developing...

RENAL (DISTORTED) (CONT)- regarding the System Lords.

04.48.05 HAMMOND- Briefing room.

04.55.24 O'NEILL- It's always "suicide mission" this, "safer planet" that. No one just stops by to
say...

O'NEILL (OS CONT)- hi anymore.

- 05.06.27 RENAL (DISTORTED) (OS)- The deaths of Cronos and Apophis created a power vacuum that the remaining System Lords have been trying to exploit.
- RENAL (DISTORTED) (CONT)- Over the past several months, they've suffered heavy losses and expended an enormous amount of resources fighting amongst themselves.
- 05.20.00 O'NEILL- Let the good times roll.
- 05.21.24 RENAL (DISTORTED)- Unfortunately, the good times may be coming to an end.
- They've declared a truce, and now it looks as if they're going to have a meeting to discuss the establishment of a new order.
- 05.32.09 HAMMOND- So you want to stop them?
- 05.33.24 RENAL (DISTORTED)- Quite the opposite, actually. We want them to meet. It will give us the rare opportunity to strike against all of them at once.
- 05.42.08 CARTER- You're talking about taking out the entire Goa'uld leadership?
- 05.45.15 RENAL (DISTORTED)- We are.
- 05.47.00 O'NEILL- Welcome to the dark side.

- 05.49.15 RENAL (DISTORTED)- This has always been part of our longterm plan. We just weren't quite prepared for the opportunity to present itself so quickly.
- 06.00.00 DANIEL- And where exactly is this meeting taking place?
- 06.03.00 RENAL (DISTORTED) (OS)- A space station in the Hassara System.
RENAL (DISTORTED) (CONT)- It is considered neutral territory. Security will be tight.
No weapons will be permitted on board. And access will be by cargo ship only.
- 06.14.08 O'NEILL- Defenses?
- 06.15.07 RENAL (DISTORTED)- Impenetrable.
- 06.16.22 TEAL'C- Could we possibly gain entrance on one of the cargo ships?
- 06.19.14 RENAL (DISTORTED)- They'll be scanned on their approach to the station.
- 06.24.27 O'NEILL- Okay. Let's hear it.
- 06.28.09 RENAL (DISTORTED)- Every System Lord in attendance will be permitted to bring one human slave.
- 06.34.01 CARTER- And you want one of us to do it?

06.36.04 RENAL (DISTORTED)- Specifically, we need someone who speaks fluent Goa'uld.
 (beat) Someone who is not Jaffa. (beat) If you agree to participate, we ask
 that you come to our base on Revanna tomorrow. Jacob will be there. He will
 tell you all that you need to know. (beat) It is up to you, Doctor Jackson.

07.20.28 TEAL'C- Daniel Jackson.

07.22.25 DANIEL- Yeah.

07.26.05 TEAL'C- Have you considered the Tok'ra proposal?

07.29.16 DANIEL- Yep.

07.31.07 TEAL'C- If successful, it would deal the Goa'uld a mortal blow.

07.34.19 DANIEL- Yeah. I realize what's at stake.

07.37.19 TEAL'C (OS)- Daniel Jackson, you have stated many...

TEAL'C (CONT)- times that in circumstances such as this, you would avoid action if
 given a better option.

07.46.20 DANIEL- Right. You think there's a better way of overthrowing the Goa'uld?

07.53.22 TEAL’C- I currently have no plan that would accomplish as much as the one put forth
 by the Tok’ra.

08.01.03 DANIEL- That’s why I’m gonna do it.

08.15.14 MAJOR MANSFIELD- Ten hut!

08.16.15 O’NEILL- At ease. Major.

08.18.15 MAJOR MANSFIELD (OS)- Colonel.

08.19.28 O’NEILL- I see you drew the short straw.

08.25.23 CARTER (OS)- Lieutenant Elliot,...

CARTER (CONT)- finally got your first assignment.

08.28.01 ELLIOT- Yes, ma’am. Be nice to see a little action for a change.

08.32.17 O’NEILL- This is your basic off-world orientation, Lieutenant. There is no action.

08.37.08 ELLIOT- Maybe not, sir. But I am looking forward to meeting the Tok’ra.

08.41.05 O’NEILL- You’ll get over it.

- 09.07.15 JACOB- Welcome to Revanna.
- 09.11.09 CARTER- Hey, Dad.
- 09.13.04 JACOB- It's good to see you, Sam. Jack, how are you?
- 09.15.23 O'NEILL- Kind of curious.
- 09.19.05 JACOB- Some of you know Aldwin. He'll be conducting the orientation for your new officers.
- 09.23.17 ALDWIN- We'll begin with a tour of the facilities. After that, I have prepared a lecture on the development of Tok'ra insurgency techniques since the collapse of the second Goa'uld dynasty.
- 09.32.26 O'NEILL- I take it all back, Lieutenant. This could be hot.
- 09.39.06 JACOB- Come.
- 09.49.04 DANIEL- So how are you gonna get me in?
- 09.52.16 JACOB- Yu will be among the System Lords attending the meeting.
- 09.55.26 CARTER- I thought you said he was going in as a slave.

- 09.58.07 JACOB- The System Lord Yu.
- 10.01.18 CARTER- Little joke there.
- 10.04.00 O'NEILL- Funny.
- 10.05.20 DANIEL- Yu knows my face. He'll recognize me.
- 10.09.00 RENAL (DISTORTED)- He will not.
- 10.10.21 JACOB- Renal and her team have been working on a modified version of the chemical
SG-1 obtained from the Reol.
- 10.16.04 RENAL (DISTORTED) (OS)- If you can get close enough to inject him, we'll be able
to...
RENAL (DISTORTED) (CONT)- convince him that you are in fact his most trusted
Lo'taur.
- 10.22.26 O'NEILL- His most trusted what?
- 10.25.03 TEAL'C- Lo'taur is the highest rank among the human slaves of the System Lords.

- 10.28.21 JACOB- They're like personal attendants. It's considered to be a position of great honor.
- JACOB (OS CONT)- I spent the last couple of months establishing myself as a...
- JACOB (CONT)- minor Goa'uld in Yu's service. I'll be able to get Daniel on board his mother ship and deal with the loose ends.
- 10.43.12 CARTER- What if Nirrti shows up?
- 10.44.24 JACOB- Not much chance of that. She's still a renegade and persona non grata among the System Lords. None of the other remaining System Lords have seen Daniel's face.
- 10.53.14 DANIEL- Assuming I make it onto the space station, what happens next?
- 10.57.03 RENAL (DISTORTED)- You wait until all the System Lords have arrived, and then you use this.
- RENAL (DISTORTED) (OS CONT)- These two liquids mixed together form a most virulent poison. Press the button to open the path between the two containers. The liquid will immediately be vaporized. Within seconds, pressure...
- RENAL (DISTORTED) (CONT)- will break the seal on the container, and the gas will be released.
- 11.21.00 DANIEL- Am I supposed to hold my breath?

- 11.23.00 RENAL (DISTORTED)- The poison is only deadly to symbiotes.
- 11.25.19 CARTER- Isn't that a little dangerous?
- 11.27.05 JACOB- More than you know. There's enough material in that vial to kill every Tok'ra on this base twice over.
- 11.32.23 RENAL (DISTORTED) (OS)- That's why this formula is our most closely guarded secret.
- 11.35.22 DANIEL- And it doesn't kill the host?
- 11.37.18 RENAL (DISTORTED)- Not the chemical itself. But as you know, the dying symbiote releases its own toxin, which is just as deadly.
- 11.46.27 JACOB (OS)- Daniel...
JACOB (CONT)- The human host of a System Lord has been through the Sarcophagus countless times. We know the toll that takes. They're hundreds, sometimes thousands of years old.
JACOB (OS CONT)- Never mind the psychological damage they suffer physically.
JACOB (CONT)- Without the Goa'uld to sustain them, they die anyway.
- 12.06.05 DANIEL- So we're doing them a favor.

12.08.05 JACOB- In many ways, yes.

12.12.23 O'NEILL- How many targets?

12.14.05 JACOB- There'll be seven System Lords at the meeting. That's all the major players.

JACOB (OS CONT)- If we pull this off,...

JACOB (CONT)- the Goa'uld may never recover.

12.24.18 O'NEILL- What can we do?

12.26.00 JACOB- Wait here. I'll communicate when the mission's been accomplished.

12.34.14 O'NEILL (OS)- Jacob! Jacob, wait up.

O'NEILL (CONT)- Why do I get the feeling there's something you're not telling us?

12.44.13 JACOB- Oh, Jack –

12.45.00 O'NEILL- Come on! You're the one that's always saying that every time we knock off one of these System Lords, a worse one shows up. Why should this be any different?

12.53.05 JACOB- It is true that others might eventually rise up, but by taking them all out at once, we'll create a power vacuum that'll lead to a massive galaxy-wide war as the remaining Goa'uld jockey for position. That will last long enough for us to make a final, decisive move.

13.06.12 O'NEILL- Which is...?

13.08.04 JACOB- A widespread attack on the entire Goa'uld population using the symbiote poison. We're gonna wipe 'em , Jack. All of 'em.

END OF ACT ONE

ACT TWO

13.29.08 OSIRIS (DISTORTED)- Why have I been enlisted for this task?

13.32.12 ZIPACNA (DISTORTED) (OS)- Politics have always been...
ZIPACNA (DISTORTED) (CONT)- one of your greatest skills.

13.36.00 OSIRIS (DISTORTED)- And am I to go alone?

- 13.38.00 ZIPACNA (DISTORTED)- I have my own mission on which I must embark.
ZIPACNA (DISTORTED) (OS CONT)- Apparently...
ZIPACNA (DISTORTED) (CONT)- the Tok'ra have developed a formidable new
weapon.
- 13.50.14 OSIRIS (DISTORTED)- How do you know?
- 13.52.08 ZIPACNA (DISTORTED)- I captured a Tok'ra spy in my midst.
- 13.55.06 OSIRIS (DISTORTED)- I doubt very much a Tok'ra would reveal this information, no
matter how much you tortured him.
- 14.03.09 ZIPACNA (DISTORTED)- You are correct. But Anubis has methods that would
impress you.
- 14.10.23 OSIRIS (DISTORTED)- What are you going to do?
- 14.14.13 ZIPACNA (DISTORTED)- I am going to take this weapon from the Tok'ra... and
destroy them.
- 14.42.24 DANIEL- So why do the System Lords need human attendants?

- 14.46.28 JACOB- Well, the Jaffa serve a strictly military function. Besides, if the host of a System Lord is never injured beyond a symbiote's capacity to heal,...
- JACOB (OS CONT)- it would be pretty useful to have a human close at hand.
- 14.58.24 DANIEL- Well, let's hope it doesn't come to that.
- 15.02.06 JACOB- Are you clear on all the backgrounds of the System Lords?
- 15.04.18 DANIEL- Oh yeah. I'm fine.
- 15.06.22 JACOB- Good. We'll be a Yu's home world in a little over an hour. (beat) Are you alright, Daniel?
- 15.14.15 DANIEL- Oh yeah. I'm fine.
- 15.17.11 JACOB- Listen, if you're not one hundred percent committed to this mission, I need to know.
- 15.22.20 DANIEL- I just think some of your details are a little, uh, sketchy.
- 15.26.04 JACOB- Like what?
- 15.28.13 DANIEL- Well, you're gonna use poison to wipe out the Goa'uld, right?

15.30.24 JACOB- Eventually.

15.32.07 DANIEL- What about the Jaffa?

15.34.06 JACOB- Well, that’s still a bit of a wrinkle. Unless we can find a way to reverse their biological dependency on immature symbiotes, they’ll all die as well.

15.43.13 DANIEL- A bit of a wrinkle.

15.45.12 JACOB- Danny, the Goa’uld have been spreading like a plague across the galaxy for thousands of years.

JACOB (OS CONT)- Now, for the first time, they’re showing zero population growth.

We’re not sure why. But we intend to take advantage of the situation.

JACOB (CONT)- We may never get a chance like this again. Are we good to go?

16.04.27 DANIEL- Yeah.

16.14.14 ALDWIN- As you know, when the Tok’ra arrive on a new planet, it is customary to move underground as quickly as possible.

16.19.08 ELLIOT- And you actually grow these tunnels from crystals?

16.22.08 ALDWIN- That is correct. Individual crystals are programmed with the specific layout of a given passageway, allowing us to structure the tunnel system as we see fit.

- 16.32.05 MAJOR MANSFIELD- What about ventilation shafts?
- 16.34.06 ALDWIN (OS)- There are none. If we tunnel through suitable rock,...
ALDWIN (CONT)- such as calcium carbonate, as we've done here, oxygen is
produced as a byproduct. This gives us enough time to enter the tunnels and
set up our life support systems.
- 16.45.08 MAJOR MANSFIELD- Colonel.
- 16.46.18 ELLIOT- Sir.
- 16.47.24 O'NEILL- Gentlemen. How goes the orientation?
- 16.52.19 ELLIOT- It's very interesting, sir. Just as you predicted.
- 16.57.02 ALDWIN- Are you interested in Tok'ra engineering?
- 17.00.06 O'NEILL- Oh, interested doesn't quite describe how I truly feel.
- 17.05.08 ALDWIN- Well, you're welcome to join us.
- 17.10.13 O'NEILL- Thank you, Aldwin. But I have to go help Teal'c... wait for Daniel.
O'NEILL (OS CONT)- Excuse me.

- 17.31.01 JACOB (OS)- I can get you into Yu's...
JACOB (CONT)- quarters. Your job is to get close enough to use this.
JACOB (OS CONT)- All you have to do is prick him once. The effect will be
immediate.
JACOB (CONT)- He'll believe you to be his loyal slave, Jarren.
- 17.46.07 DANIEL- Jarren?
- 17.47.26 JACOB- Just don't jab yourself with it.
- 17.51.16 DANIEL- Why?
- 17.52.16 JACOB- Actually, I don't know, exactly. That in itself should scare you.
- 18.05.04 RENAL (DISTORTED)- As you know, Major, we kept the body in stasis for several
months as we tried to find a way to repair the damage. But in the end, we were
unsuccessful. All that is left of Martouf now lives on in Lantash.
- 18.19.11 CARTER- What's its condition?
- 18.22.04 RENAL (DISTORTED)- The symbiote is still recuperating, but the search is already on
to find a new host.
- 18.29.01 CARTER- I want to see the research.

- 18.30.21 RENAL (DISTORTED)- I'm sorry, Major, but all information pertaining to zatarc technology –
- 18.34.10 CARTER- -- can only be released on the authority of the Council. I know. They've been stonewalling me for months.
- 18.39.22 RENAL (DISTORTED)- I assure you, Martouf was in no pain.
- 18.42.15 CARTER- That's not the problem.
- 18.44.04 RENAL (DISTORTED)- What then?
- 18.45.28 CARTER- If the symbiote was still alive when Martouf was taken out of stasis, wasn't there a chance that it could have healed his injuries?
- 18.52.03 RENAL (DISTORTED)- The possibility was remote.
- 18.53.11 CARTER- How remote?
- 18.54.14 RENAL (DISTORTED) (OS)- The host body was too weak.
RENAL (DISTORTED) (CONT)- In all likelihood, the symbiote would have died trying to repair the damage.
- 18.58.27 CARTER- You don't know that for sure.

- 19.00.02 RENAL (DISTORTED)- Well, we had to make a choice.
- 19.01.01 CARTER (OS)- And naturally...
CARTER (CONT)- you chose the symbiote.
- 19.02.25 RENAL (DISTORTED) (OS)- Your bias...
RENAL (DISTORTED) (CONT)- toward the host is only natural.
RENAL (DISTORTED) (OS CONT)- Surely is...
RENAL (DISTORTED) (CONT)- is better that one should live rather than that they both
should die.
- 19.08.25 CARTER- Isn't this really about your zatarc research?
- 19.13.02 RENAL (DISTORTED)- I don't understand.
- 19.14.13 CARTER- If Martouf had lived, you wouldn't have had the chance to examine his brain
tissue. You wouldn't have learned anything.
- 19.19.20 RENAL (DISTORTED)- Would you really have preferred if his sacrifice had been for
nothing?
- 19.22.21 CARTER- I would have preferred another way.
- 19.28.01 RENAL (DISTORTED)- You knew Martouf well?

19.29.20 CARTER- Yes.

19.30.22 RENAL (DISTORTED) (OS)- Well then,...

RENAL (DISTORTED) (CONT)- knowing him as you did, what choice do you think he
would have made? (beat) Martouf is not entirely gone, Major. His thoughts
and his memories live on in Lantash.

20.09.18 JACOB- Jarren.

20.11.06 JARREN- My lord does not wish to be disturbed at this time.

20.20.04 DANIEL- You know, I don't look at thing like this guy.

20.22.00 JACOB- Well, luckily, for this work you don't have to. You'll be fine. Just remember to
pour from the right.

21.00.14 YU (DISTORTED)- Kel shak Jarren? (beat) Aric kree Onak!

21.12.28 DANIEL- Nis trah Jarren. (beat) I am your loyal servant, Jarren.

21.24.27 YU (DISTORTED)- Rise. (beat) I will have my tea.

21.47.22 O'NEILL- What's going on?

21.48.14 RENAL (DISTORTED)- We received a transmission. Our sensors on the surface have detected a fleet of mother ships bound for Revanna. You must leave immediately.

22.00.21 ALDWIN (DISTORTED)- An incoming wormhole is blocking our escape through the stargate.

22.04.26 CARTER- The Goa'uld can only sustain a wormhole for 38 minutes.

22.08.10 RENAL (DISTORTED)- The ships will be here before that.

22.11.14 ALDWIN (DISTORTED)- There is no other escape.

END OF ACT TWO

ACT THREE

22.34.27 VOICE (VO FILTERED)- Identify yourselves.

22.41.22 DANIEL- I represent the Jade Emperor, the exalted Lord Yu Hang Shang-ti.

22.46.00 VOICE (VO FILTERED)- Two lifesigns scanned. No weapons detected. Lowering shields.

22.52.03 YU (DISTORTED)- Our fellow System Lords are not to be trusted. Neither are their slaves.

22.58.28 DANIEL- Understood, my Lord.

23.31.25 CARTER- Don't you have any ships available for evacuation?

23.23.22 RENAL (DISTORTED)- A few unarmed cargo ships, but they are currently with operatives on other missions.

23.27.00 ALDWIN (DISTORTED)- We have begun making new tunnels.

23.28.23 O'NEILL- What good is that gonna do?

23.30.18 ALDWIN (DISTORTED)- Spread out the risk of getting hit by an air attack.

ALDWIN (DISTORTED) (OS CONT)- You could lend us a hand moving...

ALDWIN (DISTORTED) (CONT)- life support equipment and supplies to the new tunnels.

23.39.11 O'NEILL- Major, lend 'em a hand.

23.41.02 MAJOR MANSFIELD- Yes, sir.

23.58.21 CARTER- What are you doing?

- 23.59.18 RENAL (DISTORTED)- I'm cutting power to the base.
RENAL (DISTORTED) (OS CONT)- The energy signature would give away our position.
RENAL (DISTORTED) (CONT)- Now they'll have to resort to random bombardment.
- 24.07.12 O'NEILL- That's encouraging.
- 24.08.22 RENAL (DISTORTED) (OS)- Colonel, the Tok'ra have...
RENAL (DISTORTED) (CONT)- never had the military resources of the Goa'uld. We use disguise and subterfuge...
RENAL (DISTORTED) (OS CONT)- to achieve our goals. Our bases are designed to be hidden.
RENAL (DISTORTED) (CONT)- We are just not equipped to repulse such a large enemy force.
- 24.21.23 CARTER- Well, they're not gonna just go away.
- 24.24.13 RENAL (DISTORTED)- I can assure you, Major, if this base is compromised, we will fight until the last of us has fallen.
- 24.34.06 O'NEILL- With what? Zats?
- 24.38.17 RENAL (DISTORTED)- What else is there?

24.40.01 O'NEILL- Well, you've got that poison. And if it's half as good as you say it is, it could wipe out any potential ground assault.

24.47.11 RENAL (DISTORTED)- And risk killing every Tok'ra on this base as well?

24.49.15 O'NEILL (OS)- Hey...

O'NEILL (CONT)- We're all gonna die if we sit around and wait for the attack.

24.55.21 RENAL (DISTORTED)- Believe me, if it came down to it, we would sacrifice ourselves and use the poison on our enemy, if we had some. Unfortunately, the only quantity in existence is in Selmak's possession. (beat) It would take weeks to synthesize more.

25.47.28 SLAVE 1- Lord Yu Huang Shang-Ti.

26.03.01 YU (DISTORTED)- Note them, Jarren. My future allies.

26.13.13 DANIEL (OS)- Bastet. Kali the Destroyer.

DANIEL (CONT)- They made a treaty with Sobek, then moved against him during the celebratory feast. Sobek let his guard down.

DANIEL (OS CONT)- Rumor has it his head still decorates Bastet's palace in Bubastis.

- 26.27.16 YU (DISTORTED) (OS)- You have a good memory.
YU (DISTORTED) (CONT)- They are still worthy of my allegiance. (beat) Do not accept gifts from Baal.
- 26.38.14 DANIEL- They have a habit of exploding,...
DANIEL (OS CONT)- especially when he feels he has been slighted.
DANIEL (CONT)- He wiped out the inhabitants of two star systems, 60 million lives, rather than...
DANIEL (OS CONT)- losing the Sokar in a territorial dispute.
- 26.49.17 YU (DISTORTED)- Poor loser. (beat) Do not consort with Morrigan's servant.
- 26.59.21 DANIEL- He will attempt to draw out strategic information in seemingly...
DANIEL (OS CONT)- idle conversation. I know your last...
DANIEL (CONT)- servant unwittingly gave away the location of one of your secret bases in Valon. To his credit, he was killed in the surprise attack. It is what has given me the honor to serve you, my Lord.
- 27.21.00 YU (DISTORTED)- Olokun is still seething over a recent loss to my forces, and may try to kill you out of spite. Do not make me look foolish by allowing yourself to be murdered.
- 27.34.00 DANIEL- Yes, my Lord.

- 27.41.06 BAAL (DISTORTED) (OS)- Yu?
BAAL (DISTORTED) (CONT)- I am pleased you were able to join us, given recent events. I understand your fleet suffered some heavy losses.
- 27.54.14 YU (DISTORTED)- I am not the only one. Didn't I hear your new flagship was destroyed?
- 28.00.25 BAAL (DISTORTED)- I lost two thousand Jaffa.
- 28.03.28 YU (DISTORTED)- Such is war.
- 28.05.08 BAAL (DISTORTED) (OS)- No.
BAAL (DISTORTED) (CONT)- This is different. This enemy attacks like a coward. Apparently, Bastet and Kali have suffered similar setbacks.
BAAL (DISTORTED) (OS CONT)- They're becoming more frequent...
BAAL (DISTORTED) (CONT)- while the identity of our antagonist continues to elude us.
- 28.22.22 YU (DISTORTED)- I'm certain you have your suspicions.
- 28.25.01 BAAL (DISTORTED)- We are all suffering at the hands of this unknown adversary. By shrouding himself, he sows discord amongst us.
- 28.58.27 O'NEILL (INTO RADIO)- Mansfield, this is O'Neill. Report.

29.05.22 MAJOR MANSFIELD (INTO RADIO)- A section of the structure collapsed. We have some injured Tok'ra here.

29.13.23 ELLIOT- Sir, we got another one!

29.15.21 O'NEILL (INTO RADIO)- Get 'em out of there.

29.17.14 MAJOR MANSFIELD (INTO RADIO)- Roger that. (TO MEN) Let's go! We gotta move! Elliot, let's go.

29.23.00 ELLIOT- He's still alive, sir.

29.37.24 O'NEILL (INTO RADIO)- Major, what's your situation? (beat) Mansfield, report!

END OF ACT THREE

ACT FOUR

29.50.17 ZIPACNA'S JAFFA- The Alkesh continue to bomb the area around the gate. No Tok'ra have surfaced and attempted escape.

29.56.06 ZIPACNA (DISTORTED)- Escape? There is no escape. They hide in their tunnels like rats. Continue the bombardment. Prepare your ground troops for infiltration.

- 30.12.09 O'NEILL- Elliot?
- 30.13.10 ELLIOT- Direct hit, sir.
- 30.15.00 O'NEILL- Where's the rest of your team?
- 30.15.24 ELLIOT- They're dead.
- 30.16.26 CARTER- Sir, we need to get him to the infirmary.
- 30.20.04 ALDWIN (DISTORTED)- The infirmary's been destroyed.
- 30.22.10 RENAL (DISTORTED)- We can take him to the lab. Follow me.
- 30.43.00 RENAL (DISTORTED)- I'm transferring the formula for the poison to this crystal.
RENAL (DISTORTED) (OS CONT)- And I'm erasing the memory of the computer.
RENAL (DISTORTED) (CONT)- We'll die before we give up our secrets.
- 30.55.15 O'NEILL- You know, we really should come up with a new strategy. One that does not include us dying.
- 31.02.09 TEAL'C (OS)- We must...
TEAL'C (CONT)- determine what is happening on the surface, O'Neill.

31.04.21 ALDWIN (DISTORTED) (OS)- With the power down, we're cut off from the surface sensors.

ALDWIN (DISTORTED) (CONT)- You'll have to use the secondary ring room.

31.09.16 RENAL (DISTORTED)- Show them.

31.30.21 DANIEL (INTO RADIO)- Jacob?

DANIEL (VO ON RADIO FILTERED CONT)- Jacob, are you there? It's Daniel.

31.39.19 JACOB (INTO RADIO)- Daniel, how's it going?

31.41.17 DANIEL (INTO RADIO)- Oh, swell. It's kind of like Goa'uld Mardi Gras here.

31.44.22 JACOB (VO ON RADIO FILTERED)- A ship just docked, so by my count, you've got all seven.

JACOB (CONT INTO RADIO)- It's time to release the poison.

31.49.14 DANIEL (INTO RADIO)- Yeah, we may want to hold off for a while. Apparently they're expecting someone else.

31.53.00 JACOB (INTO RADIO)- Who?

31.54.00 DANIEL (VO ON RADIO FILTERED)- I don't know. It seems there's some mysterious
new...

DANIEL (CONT INTO RADIO)- adversary who's been causing some pretty serious
headaches.

31.58.24 JACOB (INTO RADIO)- That's strange. It's not like a Goa'uld to play it so coy.

32.03.02 DANIEL (INTO RADIO)- I'll see what I can find out. I'll contact you later.

32.13.09 CARTER- We have to get him out of here. This man needs medical attention.

32.18.28 RENAL (DISTORTED)- We've done all we can right now.

32.20.22 CARTER- What about the symbiote?

32.21.24 RENAL (DISTORTED)- It's out of the question.

32.23.03 CARTER- It could save Major Mansfield's life.

32.35.11 RENAL (DISTORTED)- The symbiote's life is being sustained by the chamber. It's in
no condition to help your friend.

32.33.19 CARTER- We can't just let him die.

- 32.35.08 RENAL (DISTORTED) (OS)- If we implant the symbiote,...
- RENAL (DISTORTED) (CONT)- we kill them both.
- 33.27.05 O'NEILL- They appear to be amassing a few troops.
- 33.30.24 TEAL'C- Once the air bombardment exposes the tunnels, they will infiltrate and search them.
- 33.35.19 O'NEILL (INTO RADIO)- Carter, come in. (beat) Carter, respond. (TO OTHERS)
- Let's get back.
- 34.00.11 YU (DISTORTED)- This has gone on long enough. We must determine who is responsible for these attacks.
- 34.06.24 BAAL (DISTORTED)- The coward refuses to show himself. He only strikes with his ships, never with ground troops.
- 34.13.17 YU (DISTORTED)- Have none of you seen the faces of the enemy Jaffa?
- 34.20.00 KALI (DISTORTED)- I have.
- KALI (DISTORTED) (OS CONT)- When my outpost at Cerador...
- KALI (DISTORTED) (CONT)- came under assault, my First Prime managed to disable and board one of the enemy ships.

34.31.07 YU (DISTORTED)- Did you take any prisoners?

34.32.22 KALI (DISTORTED)- They fought to the death. Most had been in the service of
Cronos and Sokar. But one bore the mark of Olokun.

34.45.00 YU (DISTORTED)- How do you explain this?

34.51.00 OLOKUN (DISTORTED)- One of my mother ships was surrounded by the enemy.
Instead of dying with honor, the cowards surrendered and were taken. (beat)
They may well have switched their allegiance.

35.03.28 BAAL (DISTORTED)- And you expect us to believe this?

35.07.06 OLOKUN (DISTORTED)- I too have suffered at the hands of this unseen foe. How
dare you accuse me.

35.22.12 SLAVE 1 (OS)- My Lords...

SLAVE 1 (CONT)- The final guest has arrived.

35.45.27 OSIRIS (DISTORTED)- I hope I'm not missing all the fun.

END OF ACT FOUR

ACT FIVE

- 36.05.22 BAAL (DISTORTED)- Welcome, Osiris.
- 36.07.27 OSIRIS (DISTORTED)- I thank you for honoring my request.
- 36.11.12 OLOKUN (DISTORTED)- Normally your petition for a seat at this conference would
not have been considered. Of course, the current situation is far from normal.
- 36.27.28 YU (DISTORTED)- Jarren.
- 36.49.28 OSIRIS (DISTORTED)- I think you'll find I have much to offer. Shall we proceed?
- 37.20.26 O'NEILL- What's that?
- 37.22.21 ALDWIN (DISTORTED)- A warning. The Jaffa have breeched the tunnels.
- 37.25.16 TEAL'C- O'Neill!
- 37.52.28 TEAL'C- He's dead.
- 39.36.22 CARTER- Lieutenant? (beat) Oh my God. (beat) Lantash.
- 39.50.17 ELLIOT/LANTASH (DISTORTED)- I had no choice.
- 39.54.09 CARTER- Elliot?

39.56.04 ELLIOT/LANTASH (DISTORTED)- I'm afraid his injuries are severe. He has serious internal damage. (beat) It's going to take all my strength just to keep him alive. He will have to speak for both of us.

40.24.05 ELLIOT- Major.

40.25.09 CARTER- Elliot. It's gonna be okay.

40.28.05 ELLIOT- If you say so.

40.30.01 CARTER- Believe me, I know. The symbiote's trying to heal you, okay?

40.37.05 ELLIOT- Okay.

40.39.13 CARTER- Okay.

41.04.00 O'NEILL- Carter?

41.05.06 CARTER- The ceiling in the lab collapsed, sir. Renal and Major Mansfield are dead.

41.08.15 TEAL'C- As is Aldwin.

41.10.04 CARTER- Elliot's in rough shape. There's a Tok'ra symbiote inside him.

- 41.13.09 O'NEILL- What?
- 41.14.28 ELLIOT- Feels very weird, sir.
- 41.16.21 CARTER- Lantash. He's keeping him alive.
- 41.24.17 O'NEILL- Let's take our chances on the surface.
- 41.45.12 DANIEL (INTO RADIO)- Jacob?
- 41.47.19 JACOB (INTO RADIO)- What's the delay? They should all be there by now.
- 41.50.03 DANIEL (INTO RADIO)- Yeah, we got a full house. But there's a complication.
- 41.53.13 JACOB (VO OVER RADIO FILTERED)- Daniel...
- 41.56.07 DANIEL (INTO RADIO)- Sarah's here.
- 41.57.25 JACOB (INTO RADIO)- Sarah? You mean Osiris? Did she recognize you?
- 42.04.00 DANIEL (INTO RADIO)- I don't know. I think so, but she didn't tip her hand, and I
don't know why.

42.11.24 OSIRIS (DISTORTED)- Daniel Jackson. (beat) You're rather a long way from home,
aren't you?

42.45.03 TEAL'C- The tunnel is blocked.

42.47.01 CARTER- Does Lantash know if there's another way to the secondary ring room?

42.51.07 ELLIOT- There isn't.

42.54.00 TEAL'C- Then indeed, we are trapped.
