DIALOGUE

START TIMECODE 00.00.00 AT FIRST FRAME OF PICTURE

**PROLOGUE**

00.09.10 NARRATOR (VO)-Previously on *Stargate SG-1*...

00.12.05 MAN- Whom do you serve?

00.13.21 OSIRIS- Anubis.

00.14.18 MAN- He is dead!

00.15.28 OSIRIS- That is what you assumed after you attempted to murder him.

00.21.26 CARTER (OS)- We think his right hand was exposed to the equivalent of over eight to  
nine grays of neutron radiation resulting from direct contact.  
CARTER (CONT)- It's a lethal dose, sir.

00.31.19 DANIEL- I'm gonna miss you guys.

00.33.26 O'NEILL- Yeah, me too.

**TEASER**

- 01.05.17           JAFFA #1- The ship is Asgard. We are being hailed.
- 01.11.03           THOR (FILTERED THROUGH MONITOR)- I am Thor, Supreme Commander of the  
                          Asgard fleet. Your presence here is a violation of the protected planets treaty...  
THOR (OS CONT FILTERED THROUGH MONITOR)- and you must withdraw  
                          immediately.
- 01.20.19           OSIRIS- I don't think so.
- 01.23.18           THOR (FILTERED THROUGH MONITOR)- If you do not comply, I will be forced to  
                          open fire.
- 01.26.27           OSIRIS- Yes, I suppose you will.
- 01.29.17           THOR (FILTERED THROUGH MONITOR)- You will be destroyed.
- 01.31.22           OSIRIS- I am the great god, Osiris, and gods cannot be destroyed. You should know  
                          that.
- 01.38.17           THOR (FILTERED THROUGH MONITOR)- Very well.

01.40.11           JAFFA #1 (OS)- Enemy ship is...  
                          JAFFA #1 (CONT)- powering weapons. The shields are holding.

01.57.05           JAFFA #2- The ship remains undamaged.

01.59.15           OSIRIS- Our days of bowing to the Asgard are finally over.

**END TEASER**

**ACT ONE**

03.58.26           HAMMOND- Major.

04.00.24           CARTER- Sir.

04.04.12           HAMMOND- I just wanted to inform you that Colonel O'Neill has requested that SG-1  
                          remain on active duty while we try to find a replacement for Dr. Jackson.

04.13.02           CARTER- So what are we supposed to do, keep working like nothing happened?

04.16.18           HAMMOND- I understand how you feel.

04.19.26           CARTER- With all due respect, sir, I don't even understand how I feel. We didn't even  
                          have a memorial service.

- 04.27.16           HAMMOND- We're not even really sure that he's dead.
- 04.29.11           CARTER- And that's the problem. What are we supposed to do, sir? Wait and, and  
                          hope that he comes back, or, or just move on?
- 04.45.18           HAMMOND- When I was in Vietnam, I saw my best friend shot down. I know he  
                          survived. I saw his chute open, radioed his position. But I never found out what  
                          happened to him. His body was...
- HAMMOND (OS CONT)- never...
- HAMMOND (CONT)- recovered. The Vietnamese never admitted they took him  
                          prisoner. For years I kept thinking that someday he's just going to walk through  
                          the door.
- 05.15.03           CARTER- So what did you do?
- 05.18.07           HAMMOND- I learned to live with it.
- 05.21.27           TECHNICIAN (OS FILTERED THROUGH SPEAKER)- Unauthorized offworld  
                          activation.
- 15.26.06           HAMMOND- What the hell's going on?
- 05.27.16           CARTER- Main power's down. Phones are down.

05.34.04           TECHNICIAN (OS FILTERED THROUGH SPEAKER)- General Hammond to the gate room. Repeat, General Hammond to the gate room.

05.37.25           HAMMOND- Let's get up there.  
HAMMOND (OS CONT)- Stand down.

06.02.18           CARTER- Freyr.

06.03.23           FREYR- Major Carter, General Hammond. I apologize for our absence of late, but our war with the replicators has reached a critical stage.

06.11.18           CARTER- Well, we might be able to help you with that.

06.13.19           FREYR- Yes, we received your message. If as you say this android was responsible for creating the first generation of replicators, it may well prove invaluable. However, that is not the only reason I have come. There has been an incident with the Goa'uld.

06.31.14           O'NEILL- An incident?

06.33.12           FREYR- Commander Thor has been killed.

06.38.25           CARTER- Killed? How?

- 06.40.15           FREYR- The Goa’uld attacked a planet under our protection, and Commander Thor  
                          was dispatched with the...
- FREYR (OS CONT)- only ship available. We expected the Goa’uld to retreat once we  
                          made our presence felt, but they did not.
- FREYR (CONT)- The Asgard ship was destroyed in the ensuing battle.
- 
- 06.53.22           TEAL’C (OS)- Is not Asgard military technology...
- TEAL’C (CONT)- far superior to that of the Goa’uld?
- 
- 06.57.26           FREYR (OS)- Their new shields are...
- FREYR (CONT)- more advanced than we first believed, and it appears they have they  
                          have upgraded their weapons, as well. We can no longer be confident of victory  
                          when dealing with superior numbers.
- 
- 07.08.06           O’NEILL- So, in other words, the protected planets are no longer protected.
- 
- 07.12.14           CARTER- Including Earth.

- 07.13.21           FREYR (OS)- Our ability to enforce...
- FREYR (CONT)- the treaty in this galaxy will depend greatly on the outcome of our battle with the replicators. However, in the meantime, we do have another problem.
- FREYR (OS CONT)- An Asgard scientist has been left stranded...
- FREYR (CONT)- in the research facility beneath the surface of the planet in question. We would like you to mount a rescue mission.
- 
- 07.33.19           HAMMOND- Why us?
- 
- 07.36.08           FREYR- We have no ships available. And we understand...
- FREYR (OS CONT)- you have a Goa'uld cargo ship at your disposal.
- 
- 07.42.01           CARTER- Well, it isn't exactly in perfect working order. We managed to repair it with the help of the Tok'ra, but—
- 
- 07.47.27           O'NEILL- We'll do it. It's what we do, isn't it?
- 
- 07.55.18           FREYR (OS)- The research being conducted on this planet...
- FREYR (CONT)- is vital to the future of the Asgard. We would be forever in your debt.
- 
- 08.11.04           CARTER (OS)- Colonel...
- CARTER (CONT)- we need to talk.

08.13.03 O'NEILL- I don't want to hear it, Carter.

08.15.07 CARTER- You can't just pretend this didn't happen.

08.16.14 O'NEILL- I'm not pretending anything. This is the job. We lose people all the time.

08.21.14 CARTER- We're talking about Daniel.

08.23.11 O'NEILL- What do you want me to do? He's gone. We've got work to do.

O'NEILL (CONT)- (COUGHING)

09.23.26 TEAL'C- Are you not alright, Major Carter?

09.26.02 CARTER- I'm fine.

09.28.28 TEAL'C- You continue to mourn the loss of Daniel Jackson.

09.32.07 CARTER- Yeah, I do. Tell me I'm not the only one.

09.38.09 TEAL'C- I will perform the proper rituals when the opportunity presents itself. Until that  
time, this mission must take priority.

09.45.07 CARTER- Please, Teal'c, don't give me that way-of-the-warrior crap. I get enough of  
that from Colonel O'Neill.

09.49.26           TEAL’C- Daniel Jackson has ascended to a higher plane of existence. Many Jaffa  
                          have dedicated their lives to achieving such a goal.

09.56.24           CARTER- So I’m supposed to celebrate?

10.01.08           TEAL’C- It is a great accomplishment.

10.06.25           CARTER- We were a team, Teal’c. No one can even begin to understand what we  
                          went through together...

CARTER (OS CONT)- what we mean to each other. So maybe Daniel has achieved  
                          something of great...

CARTER (CONT)- cosmic significance, I don’t know. And to be honest with you, right  
                          now I don’t really care. I’d rather have him back.

10.32.21           TEAL’C- As would I. We are approaching the Adara system.

TEAL’C (OS CONT)- Two motherships orbit the second planet.

10.48.27           CARTER (OS)- We won’t be able to activate the cloak until we come out of  
                          hyperspace.

CARTER (CONT)- There’ll be a brief interval where they might detect us.

10.54.21           O’NEILL- How brief?

10.55.07 CARTER (OS)- Just a few seconds.  
CARTER (CONT)- The odds of them spotting us are pretty slim.

10.58.22 O'NEILL- How slim?

10.59.27 CARTER- Hardly worth mentioning, sir.

11.01.07 O'NEILL- And yet, you did mention it.

11.03.29 CARTER (OS)- Yeah...  
CARTER (CONT)- I'm beginning to wish I hadn't.

11.17.00 O'NEILL- Well, at least they're not shooting at us. That's good.

11.20.16 TEAL'C- We are approaching the upper atmosphere.

11.29.28 CARTER- It's pretty thick.

11.31.06 TEAL'C- There is considerable turbulence.

11.37.20 O'NEILL- You know, we should really consider putting another chair back here. When  
you think about it, it'd be much safer, wouldn't it?

11.55.02 TEAL'C- We have arrived at the coordinates given to us by Freyr.

12.06.09 O'NEILL- Nice view.

12.07.07 CARTER (OS)- This can't be right.

CARTER (CONT)- The atmosphere is over eighty percent carbon dioxide, and the surface temperature is four hundred and twenty degrees Fahrenheit.

12.15.13 O'NEILL- Ooh...hot.

12.19.21 CARTER- Yeah.

12.24.14 TEAL'C- How are we to locate the Asgard facility?

12.30.20 CARTER- Well, that was easy.

12.44.01 HEIMDALL- Ah, humans. Interesting. Greetings. I am Heimdall. I assume you were...

HEIMDALL (OS CONT)- sent by the Asgard High Council.

12.57.14 O'NEILL- Not exactly. Uh, Colonel Jack O'Neill...

O'NEILL (OS CONT)- Major...

O'NEILL (CONT)- Carter, and Teal'c.

13.08.01 HEIMDALL (OS)- I have heard much of your exploits on behalf of the Asgard.

HEIMDALL (CONT)- Dr. Jackson is not with you?

- 13.16.07 O'NEILL- Uh, no.
- 13.18.28 HEIMDALL- In any case, it is a great pleasure to meet you.
- 13.21.11 CARTER- Where are we, exactly?
- 13.24.06 HEIMDALL- Several hundred meters beneath the surface of the planet.
- 13.27.06 CARTER (OS)- Of course we'd have to be. The surface is uninhabitable.
- 13.32.26 TEAL'C- The Goa'uld are unaware of your presence here?
- 13.35.00 HEIMDALL (OS)- I have been monitoring their communications.  
HEIMDALL (CONT)- They know the laboratory is somewhere on this planet, but as yet  
they have been unable to pinpoint its location.
- 13.42.19 O'NEILL- Well, why don't we get out of here before they find out?
- 13.45.24 HEIMDALL- I'm afraid we cannot leave.
- 13.47.25 CARTER- Why not?
- 13.48.27 HEIMDALL- First we must rescue Thor.

13.51.20 CARTER- I thought Thor was dead.

13.53.23 HEIMDALL (OS)- He is not.

HEIMDALL (CONT)- However, his life is in grave danger. He is a prisoner of the  
Goa'uld.

## END OF ACT ONE

## ACT TWO

14.25.17 OSIRIS- Commander Thor, I apologize for the accommodations...

OSIRIS (OS CONT)- but we weren't expecting company.

14.32.13 THOR- You have committed an act of war against the Asgard. The response will be  
swift...

THOR (OS CONT)- and decisive.

14.38.15 OSIRIS- As swift and decisive as your attempt to defend this planet?

14.44.01 HEIMDALL- After Thor's ship was destroyed, the Goa'uld detected an escape pod.

They managed to retrieve it before it could disappear...

HEIMDALL (OS CONT)- into the atmosphere.

14.50.29 CARTER- Well, how do you know Thor is still alive?

- 14.52.26 HEIMDALL- I am able to scan the interior of the Goa'uld mothership.
- 15.00.22 O'NEILL- Wow.
- 15.01.16 HEIMDALL- I have located Thor's biosignature here.
- 15.07.06 O'NEILL- Why don't you just beam him out?
- 15.09.07 HEIMDALL (OS)- Although my sensors can...  
HEIMDALL (CONT)- penetrate the Goa'uld shields, my transportation device cannot.
- 15.13.15 CARTER- Can you detect Goa'uld life-signs, as well?
- 15.15.23 HEIMDALL- I can.
- 15.20.14 TEAL'C- Thor is not alone.
- 15.22.04 HEIMDALL (OS)- The red dot...  
HEIMDALL (CONT)- indicates the presence of a symbiote.
- 15.24.16 CARTER- So it's either a Goa'uld or a Jaffa.

- 15.26.21 HEIMDALL (OS)- In all probability...  
HEIMDALL (CONT)- Thor is being tortured for information pertaining to Asgard technology.
- 15.31.09 CARTER- With that kind of knowledge, the Goa'uld could easily come through our Stargate whenever they wanted. There wouldn't be anything we could do about it.
- 15.39.20 THOR- I underestimated your strength. That mistake will not be made again.
- 15.44.28 OSIRIS- Perhaps not. But next time we'll have an even greater advantage. We'll have learned all your secrets.
- 15.57.27 THOR- I will never surrender my knowledge to you.
- 16.00.23 OSIRIS (OS)- Not to me, no.  
OSIRIS (CONT)- Anubis himself has taken an interest in this...  
OSIRIS (OS CONT)- matter.  
OSIRIS (CONT)- He's on his way here as we speak.
- 16.26.16 TEAL'C- The Goa'uld is leaving.
- 16.30.24 O'NEILL- Can you communicate with him?

- 16.34.00 HEIMDALL- Yes, I can.
- 16.47.02 O'NEILL (FILTERED THROUGH HOLOGRAM, WHISPERING)- Thor. Thor, buddy...  
Hey, how you doing?
- 16.59.07 THOR- O'Neill, I am surprised to see you.
- 17.02.02 O'NEILL (FILTERED THROUGH HOLOGRAM, WHISPERING)- Yeah, we're down on  
the planet with, um...
- 17.04.22 THOR- Heimdall.
- 17.06.02 O'NEILL (FILTERED THROUGH HOLOGRAM, WHISPERING)- Yeah, him. Working  
on a way of getting you out of here.
- 17.09.22 THOR (OS)- That would be unwise. You must...  
THOR (CONT)- take Heimdall and his research materials and leave immediately.
- 17.16.03 O'NEILL (FILTERED THROUGH HOLOGRAM)- What, are you nuts? We're not  
gonna...  
O'NEILL (OS CONT, FILTERED THROUGH HOLOGRAM)- leave you behind.
- 17.19.12 THOR (OS)- More Goa'uld are coming.  
THOR (CONT)- I have been informed that Anubis will be conducting my interrogation.

17.25.16 O'NEILL (FILTERED THROUGH HOLOGRAM, WHISPERING)- All the more reason to get you out.

17.27.27 THOR (OS)- I will resist their attempts to probe my mind.

THOR (CONT)- I will die before I give them any information. But the very survival of the Asgard depends on Heimdall's discoveries.

17.42.28 CARTER- Sir, you've got...

CARTER (OS CONT, FILTERED THROUGH SHIP)- company. We're gonna have to pull you out.

17.47.07 O'NEILL (FILTERED THROUGH HOLOGRAM, WHISPERING)- Alright, listen. I gotta go, but I'll be back.

17.58.00 CARTER (OS)- How's he doing?

17.59.08 O'NEILL- Well, he's fine for now, except for the fact that he wants us to leave him behind.

18.03.22 TEAL'C- For what reason?

18.05.17 O'NEILL- I wouldn't mind knowing that myself.

- 18.09.13 HEIMDALL- Thor is no doubt concerned that if we delay, the materials in this laboratory...
- HEIMDALL (OS CONT)- will fall into the hands...
- HEIMDALL (CONT)- of the Goa'uld.
- 18.16.15 CARTER- What exactly are you studying here?
- 18.18.16 HEIMDALL- I'm conducting research into the genetic history of the Asgard.
- 18.21.27 O'NEILL- Yeah, now see, that doesn't sound like something worth dying for.
- 18.25.12 HEIMDALL (OS)- That is because you...
- HEIMDALL (CONT)- do not understand the gravity of the situation.
- 18.29.02 O'NEILL- Feel free to enlighten us.
- 18.31.02 HEIMDALL (OS)- As a race...
- HEIMDALL (CONT)- the Asgard reproduce exclusively through a process of enhanced cellular mitosis.
- 18.37.02 CARTER- Are you serious? You have no other means of propagation?
- 18.40.06 HEIMDALL- No.

- 18.44.24 O'NEILL- Carter?
- 18.45.21 CARTER- They're clones, sir, all of them.
- 18.48.21 O'NEILL- Ah. Well, that answers a few questions.
- 18.54.26 HEIMDALL- In fact, for nearly a thousand years, we have been physically incapable of achieving cell division through meiosis.
- 19.02.20 O'NEILL- Hm?
- 19.03.21 CARTER- Sexual reproduction.
- 19.06.06 O'NEILL- Ah. A thousand years?
- 19.10.29 HEIMDALL- It is not something we usually discuss with other races.
- 19.16.13 O'NEILL- This I understand.
- 19.17.25 HEIMDALL (OS)- Through cloning, we have achieved a measure of immortality.  
HEIMDALL (CONT)- As each Asgard's body fails, his consciousness is transferred into a newer, younger version of himself. Unfortunately, the lack of genetic diversity has become a problem.

- 19.32.09 CARTER (OS)- It's like making...  
CARTER (CONT)- a copy of a copy of a copy. Eventually, there's deterioration.
- 19.37.13 HEIMDALL (OS)- We created a process of controlled mutation, which has helped us...  
HEIMDALL (CONT)- to avoid complete genetic breakdown, but we are at the limits of  
our technical capabilities. The truth is, the Asgard are a dying race.
- 19.59.23 OSIRIS- Have you located the Asgard facility?
- 20.02.04 JAFFA #1- Not yet, my lord.
- 20.03.05 OSIRIS- We waste time. Lord Yu is mounting an offensive. Our ships are needed  
elsewhere.
- 20.09.08 JAFFA #1- The planet's atmosphere generates much electromagnetic interference.
- 20.13.02 OSIRIS- Then send a squadron of gliders. At low altitude their sensors will be more  
effective.
- 20.19.03 JAFFA #1- The atmosphere is too thick. It will be extremely dangerous for the pilots.
- 20.25.04 OSIRIS- And how dangerous will it be when Anubis arrives and you have nothing to  
offer but excuses?

- 20.32.15           JAFFA #1- I will dispatch the squadron myself.
- 20.35.06           OSIRIS- Very wise.
- 20.39.10           CARTER- If Anubis is going to interrogate Thor, he'll have to ring aboard the ship.  
                          Once they lower the shields to let him in, we can beam Thor out.
- 20.46.14           TEAL'C (OS)- The shields will not be lowered, Major Carter.  
                          TEAL'C (CONT)- They will merely adjust the frequency to accept a ring transmission.
- 20.52.16           CARTER- Well, then we can use the rings on the cargo ship to beam up at the same  
                          time.
- 20.55.16           TEAL'C (OS)- Once Anubis is onboard...  
                          TEAL'C (CONT)- the frequency will be readjusted, and we will be trapped.
- 21.00.19           O'NEILL- So we take out the shields from the inside. There.
- 21.05.16           HEIMDALL (OS)- The shield...  
                          HEIMDALL (CONT)- generator room is located here.  
                          HEIMDALL (OS CONT)- You can use explosives to disable the system and I will  
                                  transport...  
                          HEIMDALL (CONT)- everyone out, including Thor.

21.13.14           TEAL’C- Once the rings have been activated, the Goa’uld will be aware of our presence.

21.16.16           CARTER (OS)- Okay, and one of us stays here and uses...  
CARTER (CONT)- the Asgard scanner to direct the others away from any guards or patrols.

21.22.15           HEIMDALL (OS)- First, I must...  
HEIMDALL (CONT)- complete my preparations for departure.

21.25.12           O’NEILL- Okay, Carter, you stay here. Teal’c and I’ll go up.

21.28.13           HEIMDALL (OS)- I must remind you, O’Neill, that time...  
HEIMDALL (CONT)- is of the essence. This laboratory will not remain undetected indefinitely.

21.34.21           O’NEILL- Right.

21.51.28           JAFFA #2 (OS)- Lord Anubis has arrived.

**END OF ACT TWO**

**ACT THREE**

22.14.00 CARTER- Sir, we found a ring room that's clear. Stand by.

22.17.02 O'NEILL- Roger that.

22.24.05 HEIMDALL (OS)- Ring transporter room has been activated.

22.26.13 CARTER- Now, sir. Monitoring your progress, sir.

23.07.12 JAFFA #2- There's been an unauthorized transport onto the ship.

23.09.27 OSIRIS- Intruders?

23.11.09 JAFFA #2 (OS)- The signal appears to have come from the planet. I am...  
JAFFA #2 (CONT)- unable to determine the specific coordinates.

23.17.11 OSIRIS- Organize a security detail. Maximum containment. I want them found.

23.35.17 CARTER (OS)- Proceed to the...  
CARTER (CONT)- end of the corridor and take a right.  
CARTER (OS CONT FILTERED THROUGH RADIO)- Hold up, sir, there's a large  
party headed your way.

24.06.24 O'NEILL- Which way? Should we double back, what?

24.11.28 CARTER- No, sir, there's a corridor up ahead on your left. You should be able to duck in there. They're almost there. Uh-oh.

CARTER (OS CONT)- Sir...

CARTER (CONT)- we've got a problem.

CARTER (OS CONT FILTERED THROUGH RADIO)- There are several Jaffa patrols bearing down on your position.

25.22.21 O'NEILL- Where? What direction?

25.24.02 CARTER (OS FILTERED THROUGH RADIO)- There coming at you from all directions, sir. Stand by.

CARTER (CONT)- There's no way out.

25.37.03 HEIMDALL- Perhaps a diversionary tactic would be in order.

25.46.19 O'NEILL- Carter? Damnit.

26.08.11 CARTER (OS)- Hey, guys! What's happening?

CARTER (CONT)- (SIGHING)

26.31.27 O'NEILL- Nice.

26.34.16 CARTER- Heimdall says the way ahead is clear.

- 26.36.11 O'NEILL- Let's move out.
- 26.59.13 ANUBIS (OS)- You are the one they call Thor. I am Anubis.
- 27.04.29 THOR- As I have told your lieutenant, I will reveal nothing to you.
- 27.10.18 ANUBIS (OS)- This device will be implanted into your brain. It will form a link between your mind and the ship's computer. Your knowledge will simply be downloaded into our memory banks. You will no doubt resist, and you will no doubt fail.
- 27.33.19 THOR- The Goa'uld possess no such technology.
- 27.46.19 ANUBIS- I think you will find many things have changed since my return.
- 28.07.24 JAFFA #1- The intruders have breeched our security perimeter.
- 28.09.27 OSIRIS- How?
- 28.10.28 JAFFA #1- One of our patrols was ambushed.
- 28.15.25 OSIRIS- Seal the lower decks and divert coolant from the hyperdrive into the ventilation system.
- 28.22.05 JAFFA #1- The gas is toxic.

- 28.23.16 OSIRIS- Only with prolonged exposure.
- 28.26.15 JAFFA #1- Shall I evacuate the engine room?
- 28.28.00 OSIRIS- The intruders may be monitoring our communications. We cannot afford to give them a warning.
- 28.32.28 JAFFA #1 (OS)- But the engines will overheat and the entire compartment will be flooded with radiation.  
JAFFA #1 (CONT)- Many Jaffa will die.
- 28.39.29 OSIRIS- And they will be greatly honored in the afterlife.
- 29.03.06 O'NEILL- Carter?
- 29.04.22 CARTER (FILTERED THROUGH HOLOGRAM)- This is it, sir.  
CARTER (OS CONT FILTERED THROUGH HOLOGRAM)- The shield generator room is just on the other side...  
CARTER (CONT FILTERED THROUGH HOLOGRAM)- of that door. There's six Jaffa inside.
- 29.11.05 O'NEILL- Only six?
- 29.17.12 CARTER (FILTERED THROUGH HOLOGRAM)- Colonel! Teal'c!

29.20.22.           JAFFA (OS)- (CHOKING AND GROANING)

29.26.21           CARTER (OS FILTERED THROUGH HOLOGRAM)- Colonel!

**END OF ACT THREE**

**ACT FOUR**

29.36.10           CARTER- Are you sure they're not injured?

29.38.14           HEIMDALL- Their signals remain strong. They appear to have been taken to some  
                          kind of holding cell.

29.43.29           CARTER- Well, we've got to get them out of there.

29.45.17           HEIMDALL- How?

29.48.21           CARTER- I'm not sure yet.

29.49.26           HEIMDALL- In the meantime, we must do all we can to keep the research materials in  
                          this laboratory from falling into Goa'uld hands.

29.57.09           CARTER- What exactly are we talking about here, some DNA samples?

30.01.24 HEIMDALL- Not exactly.

30.27.06 CARTER- What is it?

30.28.10 HEIMDALL (OS)- That is one of my ancestors.

HEIMDALL (CONT)- Thirty thousand years ago, a ship was launched from the Asgard home world, its crew placed in suspended animation.

HEIMDALL (OS CONT)- There was a failure in the navigational system and the ship was lost. Through the millennia...

HEIMDALL (CONT)- it drifted across the empty expanse between our galaxies, until it arrived here. We discovered it six months ago.

30.47.24 CARTER- And this is one of its original crew?

30.50.09 HEIMDALL (OS)- The only one that was perfectly preserved. He is from a time before our program of genetic...

HEIMDALL (CONT)- manipulation became irreversible.

30.58.05 CARTER- So that's why he's so important. You're hoping his physiology can give you clues to stave off your own genetic degradation.

31.06.29 HEIMDALL- We kept the laboratory in this galaxy to avoid the threat of the replicators.  
Now we can no longer afford to wait. It is only a matter of time before the  
Goa'uld pinpoint our location. I will require your assistance to adapt the stasis  
pod to the cargo ship's power supply.

31.34.22 CARTER- Alright. But when we're done, I want you to beam me back to the lab. I'm  
not ready to give up on Colonel O'Neill and Teal'c just yet.

31.53.08 O'NEILL- I can't believe they took my watch.

31.58.10 TEAL'C- Major Carter will soon have no choice but to leave with Heimdall.

32.02.22 O'NEILL- If she's smart, she's already gone.

32.05.24 TEAL'C- In which case, our chances of escape are negligible.

32.08.26 O'NEILL- Oh, I don't know. All we gotta do is bust outta here, take out every Jaffa  
between here and the peltac, commandeer the ship, and fly on home.

32.20.07 TEAL'C- I stand corrected.

32.23.16 THOR (OS FILTERED THROUGH SHIP'S COMPUTER)- O'Neill.

32.26.14 O'NEILL- Thor, is that you? Where are you?

- 32.31.24 THOR (VO FILTERED THROUGH SHIP'S COMPUTER)- I am still in my cell.  
However, my mind has been linked with the ship's computer, and I am using...  
THOR (OS CONT FILTERED THROUGH SHIP'S COMPUTER)- the internal  
communication system to synthesize my voice.
- 32.44.14 O'NEILL- Okay.
- 32.45.20 THOR (OS FILTERED THROUGH SHIP'S COMPUTER)- The Goa'uld are attempting  
to download the information stored in my pre-frontal cortex. It is only a matter of  
time before they break through my mental defenses.
- 32.55.12 O'NEILL- Yeah, well, you know, love to help you, but we've got our own problems  
here.
- 32.59.19 THOR (OS FILTERED THROUGH SHIP'S COMPUTER)- I am aware of your situation.  
I believe I may be able to rewrite some minor subroutines in the security  
protocol.
- 33.07.24 TEAL'C- To what end?
- 33.15.22 O'NEILL- Sweet.
- 33.17.26 THOR (OS FILTERED THROUGH SHIP'S COMPUTER)- I am growing weak. Further  
communication will be impossible.

- 33.22.29 O'NEILL- Hang tight. We'll get you out.
- 33.41.07 CARTER (OS FILTERED THROUGH HOLOGRAM)- Colonel.
- 33.44.07 O'NEILL- Still with us, huh?
- 33.45.14 CARTER (OS FILTERED THROUGH HOLOGRAM)- Yes, sir.  
CARTER (CONT FILTERED THROUGH HOLOGRAM)- Heimdall's got the ship prepped and ready to go. He can remote access his transportation device and beam us straight there, but we still need you to get those shields offline.
- 33.54.10 O'NEILL- Yeah, well, they took our C-4, so we won't be blowing any stuff up.
- 33.58.17 CARTER (FILTERED THROUGH HOLOGRAM)- We have to find a control relay and pull the crystals. It'll only take them a few seconds to switch to back-ups, but that should be all we need.
- 34.04.28 O'NEILL- Right. Which way?
- 34.07.11 CARTER (FILTERED THROUGH HOLOGRAM)- I'm gonna have to step off the holo-pad and check the ship's schematics. Try to stay out of sight. I'll be back as soon as I can.
- 34.19.28 OSIRIS- Report.

- 34.21.27           JAFFA #3 (FILTERED THROUGH MONITOR)- The battle with Lord Yu does not go well. We request reinforcements.
- 34.25.25           OSIRIS (OS)- That...  
OSIRIS (CONT)- stubborn old man simply refuses to die. Dispatch the other ships.
- 34.42.08           JAFFA #1- Lord Osiris. One of our gliders has detected an energy signature located beneath the planet's surface.
- 34.48.08           OSIRIS- Do we have specific coordinates?
- 34.50.29           JAFFA #1- We do. But there is no way in.
- 34.54.12           OSIRIS- Then we'll just have to make our own way, won't we?
- 35.00.03           HEIMDALL (OS)- Major Carter, what's your situation?
- 35.02.01           CARTER- Colonel O'Neill and Teal'c are out of their cell. We're working on another way to get...  
CARTER (OS CONT)- the shields offline.
- 35.07.28           HEIMDALL (OS)- What was that?
- 35.10.02           CARTER- I think the Goa'uld have made my position!

- 35.12.04 HEIMDALL (OS)- You should leave immediately.
- 35.14.09 CARTER- Just a few more minutes!
- 35.21.21 O'NEILL- Come on, Carter.
- 35.25.12 CARTER (FILTERED THROUGH HOLOGRAM)- I've got it, sir. Go straight down this  
corridor and up two levels. I'll meet you there.
- 35.30.06 O'NEILL- Okay.  
O'NEILL (CONT WHISPERING) Carter.
- 35.59.24 CARTER (FILTERED THROUGH HOLOGRAM)- There should be an access panel  
somewhere along here.
- 36.04.07 O'NEILL (OS, WHISPERING)- Okay...  
O'NEILL (CONT, WHISPERING)- next time I'm the hologram.
- 36.20.27 CARTER (FILTERED THROUGH HOLOGRAM)- Okay, now we just have to pick the  
right crystal.
- 36.22.27 O'NEILL (WHISPERING)- Which one? Carter?

36.28.17 CARTER (FILTERED THROUGH HOLOGRAM, WHISPERING)- I thought I heard something. There's someone in here. (GROANING IN PAIN)

**END OF ACT FOUR**

**ACT FIVE**

37.06.08 GROUP OF JAFFA- (GROANING IN PAIN, ONE AFTER THE OTHER, AS THEY GET HIT)

37.26.19 OSIRIS- Major Carter.

37.28.13 CARTER- Osiris.

37.29.14 OSIRIS (OS)- We have...

OSIRIS (CONT)- Colonel O'Neill and the shol'va, so that just leaves Dr. Jackson.  
Where is he?

37.41.07 CARTER- Forget it. (GASPING IN PAIN)

37.51.11 TEAL'C- Perhaps we should take them all.

37.56.00 O'NEILL- Here's a thought.

38.05.10           JAFFA #1- Shields are down. Controls are offline.

38.09.29           ANUBIS- Repair them.

38.17.10           OSIRIS- Once more. Where is Dr. Jackson?

38.24.23           CARTER- He's dead.

38.28.15           OSIRIS- You're lying.

38.30.18           CARTER- Go to hell.

38.47.18           O'NEILL- Get us out of here.

38.50.07           HEIMDALL- Well done, O'Neill.

38.52.06           O'NEILL- Thanks. Thor, buddy...

38.58.05           THOR- O'Neill, you cannot take me with you.

39.02.23           O'NEILL- Why not?

39.04.06           THOR- The link between myself and the Goa'uld ship has not been severed. They will  
                          be able to track our position. You must leave me behind.

- 39.14.22 O'NEILL- Alright, that doesn't work for me. That's not an option. Okay?
- 39.19.00 JAFFA #1- Lord Anubis, the Asgard prisoner is gone.
- 39.22.09 ANUBIS- He will not get far.
- 39.31.17 CARTER (OS)- We've cleared the atmosphere.  
CARTER (CONT)- Bring up the hyperdrive.
- 39.38.07 TEAL'C- Hyperdrive is offline. Cloak is failing. Cloak is down. We have lost our  
shields. We cannot sustain another hit.
- 39.52.14 CARTER- Sir, we're...  
CARTER (OS CONT)- receiving a transmission.
- 39.55.10 ANUBIS (OS FILTERED THROUGH TRANSMITTER)- Your ship is defenseless. You  
cannot escape. Surrender now.
- 40.05.17 O'NEILL- Any ideas?
- 40.07.07 HEIMDALL (OS)- We cannot risk capture.  
HEIMDALL (CONT)- We must destroy the ship ourselves.
- 40.12.01 O'NEILL- Any good ideas?

- 40.24.16 CARTER- We've got company. Three Asgard ships.  
CARTER (OS CONT)- Sir, I'm picking up a transmission...  
CARTER (CONT)- to the Goa'uld ship.
- 40.32.05 FREYR (OS FILTERED THROUGH TRANSMITTER)- This is Freyr of the Asgard.  
The vessels you face are far superior to the one you attacked. Challenge us at  
your own peril.
- 40.52.28 CARTER- Mothership's retreating. It's over.
- 41.04.18 O'NEILL- That's it?
- 41.19.21 CARTER (OS)- Their examination...  
CARTER (CONT)- of the android must've yielded some positive results, because it  
looks like the Asgard have finally gained the upper hand against the replicators.
- 41.26.17 O'NEILL- What about Thor?
- 41.28.24 CARTER- They managed to remove the device from his brain, but it may have been  
too late. Apparently, he's lapsed into a coma.  
CARTER (OS CONT)- If they knew more about how the device works, they...  
CARTER (CONT)- might be able to help him. They're studying it now towards that  
end. Unfortunately, it's unlike anything they've ever encountered before.

41.45.26           TEAL’C (OS)- It is apparent that Anubis has gained...  
TEAL’C (CONT)- access to technology previously unknown to the Goa’uld.

41.50.19           HAMMOND- Which would explain his rapid rise to power.

41.53.05           CARTER- Yes, sir.

41.55.15           HAMMOND- Alright, you’re dismissed.

42.10.07           O’NEILL- We’re not that much of a nuisance just yet.

42.12.24           TEAL’C- Of that I’m...  
TEAL’C (OS CONT)- not so sure.

42.17.24           CARTER- Hey.

42.18.17           O’NEILL (OS)- Hey.

42.19.29           CARTER- Heading home?

42.20.27           O’NEILL- Actually, Teal’c and I were thinking of stopping off for a bite to eat.  
Interested?

42.25.07           CARTER (OS)- Sounds good.

45.26.19 O'NEILL- General?

42.27.14 HAMMOND (OS)- You three go ahead.

HAMMOND (CONT)- I've still got some work to do.

42.35.03 CARTER- What was that?

42.38.28 TEAL'C- Perhaps a malfunction in the ventilation system.

42.42.25 O'NEILL- Yeah, that's probably it.

42.46.16 CARTER- Bye, sir. Have a good night.

**FADE TO BLACK. BEGIN END CREDITS.**
