TIMECODE            DIALOGUE

START TIMECODE 01:00:00:01 AT FIRST FRAME OF PICTURE

**TEASER**

01:00:00:21            NARRATION: Previously on Stargate SG-1...

01:00:03:27            CARTER (O/S): The X-302 will be the first human-built spacecraft...

01:00:06:23            CARTER (CONT'D): capable of interstellar travel.

01:00:08:12            HAMMOND (O/S): Colonel, Chekov feels...

01:00:09:18            HAMMOND (CONT'D): a Russian officer should be assigned to join SG-1.

01:00:12:21            O'NEILL: Over my rotting corpse, sir.

01:00:14:18            JONAS: I want to join you.

01:00:15:23            CARTER: I just don't see it happening.

01:00:17:04            CARTER (O/S): We detected an energy buildup...

01:00:18:05            CARTER (CONT'D): within the gate.

01:00:46:17 O'NEILL (O/S): Mission command...

01:00:48:01 O'NEILL (CONT'D): we missed the window.

01:00:49:14 CARTER: We thought we'd compensated for the energy fluctuations emitted by  
the Naquadria, but apparently not.

01:00:54:06 HAMMOND: Bottom line is, we're on our own.

01:00:56:05 ANUBIS: Prepare to meet your doom.

01:00:58:06 O'NEILL: Oh, please.

01:01:03:27 ANNOUNCER: And now, the conclusion...

01:01:05:20 McKAY: Has a real flare for the dramatic, doesn't he? Very theatrical.

01:01:10:12 CARTER: Yeah. Pretty much all the Goa'uld are like that.

01:01:13:14 McKAY: But why wait? Why does the guy show up a day and a half after this all  
starts to do his whole "prepare to meet your doom" thing?

01:01:21:01 CARTER: I don't know. Maybe he wanted to make sure it was going to work.

01:01:24:08 McKAY: Yeah, that would be embarrassing, wouldn't it? "Nothing can stop the  
destruction that I bring upon you." Then the gate shuts down. Oops.  
Sorry. Never mind.

01:02:07:21 CARTER: You were saying...

01:02:08:02 McKAY: We send a massive E.M. pulse back through the wormhole, knock out  
whatever it is that's making this happen on the other end.

01:02:14:03 HAMMOND: Will that work?

01:02:15:16 CARTER: No, sir. I already thought of it, and the reason I didn't mention it is  
because it is far too problematic.

01:02:20:23 McKAY: More so than the gate exploding?

01:02:21:29 CARTER: The iris would have to be opened.

01:02:23:15 McKAY: Well, the gate room is shielded, isn't it?

01:02:24:28 HAMMOND: Major, are you saying this absolutely won't work?

01:02:27:15 CARTER: What I'm saying, sir, is that we have absolutely no idea how much E.M.  
would be required to knock this thing out.

01:02:32:25 McKAY: So let's all just go home.

01:02:36:13 HAMMOND: How long will it take to set up?

01:02:38:02           McKAY: Four hours, tops.

01:02:39:18           HAMMOND: That's how long you have to come up with a better idea.

**END OF TEASER**

**ACT ONE**

01:04:18:02 BRATAC: I have tried to connect to this world twice now. It is the only one to  
which I cannot make contact.

01:04:24:25 TEAL'C: Then we must hope that is the location of the weapon.

01:04:30:08 RYAC: I'm coming with you. If the Goa'uld truly can be defeated, then I wish to be  
a part of it. You said I could not judge this war, for I've yet to fight a  
battle. You've trained me. Now, let me fight.

01:04:48:07 RYAC (CONT'D): You said you did not doubt me.

01:04:50:22 TEAL'C: I do not.

01:04:52:01 RYAC: Then I will join you.

01:05:00:19 BRATAC: Be quick.

01:05:06:20 TEAL'C: Very well.

01:05:11:12 CARTER: Sirs, I calculated that opening the iris will increase the flow of energy to  
the gate...

01:05:16:13 CARTER (CONT'D): by at least 10 times. Now, if this doesn't work, we'll be cutting  
as much as half the remaining time before the gate detonates.

01:05:22:17 O'NEILL: No better idea yet?

01:05:26:16 CARTER: No.

01:05:28:11 HAMMOND: Major, I know you and Dr. McKay don't see eye to eye.

01:05:31:11 CARTER (INTERRUPTING): Sir, this has nothing to do--

01:05:33:13 HAMMOND (INTERRUPTING): I believe if this plan has any chance of working,  
it's with your cooperation.

01:05:36:15 CARTER: Yes, sir.

01:06:01:19 RYAC: I know what I'm doing.

01:06:04:06 SHAQ'REL (O/S): We are approaching the planet.

01:06:18:29 SHAQ'REL: It is heavily guarded.

01:06:20:05 TEAL'C: That is a good sign we have the correct location of the weapon.

01:06:22:25 SHAQ'REL: There are rings on the surface.

01:06:25:11 BRATAC: We must hope to catch any Jaffa on the ground by surprise.

01:06:29:27 MCKAY: Right here.

01:07:18:26           TEAL'C: One day, you will be a great warrior. This day, the danger is too great.

01:07:23:21           RYAC: I am prepared to die.

01:07:29:26           TEAL'C: I am not prepared for you to die.

01:07:34:05           (CHARGE EXPLODING)

01:07:35:21           SHAQ'REL: Two gliders in pursuit.

01:07:38:18           TEAL'C: How is that possible? Are we not cloaked?

01:07:41:04           BRATAC: Anubis must now have means of detecting cloaked ships.

01:07:45:14           SHAQ'REL: I am decloaking and diverting power to shields.

01:07:54:04           (CHARGE EXPLODING)

01:07:55:26           SHAQ'REL: Entering range of surface rings.

01:07:57:22           BRATAC: Teal'c...

01:07:59:05           RYAC: Is it not equally dangerous on this ship as it will be on the planet?

01:08:02:24           SHAQ'REL: Go. I will do my best to return for you.

01:08:09:07           TEAL'C: Come.

01:08:11:12           TEAL'C (CONT'D): Stay close to me. The forces on the ground may have been alerted to our presence.

01:08:18:12           SHAQ'REL: Chel Nok!

01:08:28:17           JAFFA (O/S): Identify yourselves.

01:09:03:20           BRATAC: We must move!

01:09:07:10           McKAY: That's it.

01:09:08:25           CARTER: We're ready, sir.

01:09:23:05           HAMMOND: Close the blast doors.

01:09:37:01           HAMMOND: Open the iris.

01:09:49:16           CARTER (O/S): Energy transfer is increasing.

01:09:52:04           CARTER (CONT'D): Seven times greater...Eight...10...

01:09:56:16           McKAY: Go. Yeah, go.

01:09:59:07           HAMMOND: Do it.

01:09:59:23           TECHNICIAN: Activating electromagnetic pulse.

01:10:13:01 CARTER: Energy transfer is still increasing. Look, if this was going to work...

01:10:28:13 HAMMOND: Close the iris.

01:10:38:29 TECHNICIAN: We're off-line.

01:10:41:03 MCKAY: She's not going to be happy when she wakes up, is she?

01:10:43:18 HAMMOND: Medical team to the control room.

01:10:46:00 MCKAY: She is going to wake up, isn't she?

**END OF ACT ONE**

**ACT TWO**

01:11:32:00 BRATAC: The path is well traveled. We must stay under cover. Many gliders patrol the skies.

01:11:37:28 TEAL'C: This wound is not small. You must be in great pain.

01:11:41:18 RYAC: Nothing I cannot bear.

01:11:44:00 TEAL'C: You could easily be dead.

01:11:49:20 RYAC: I do not understand. There was at least eight of them.

01:11:52:24 BRATAC: 10.

01:11:54:20 RYAC: How did neither of you get hit?

01:11:56:11 TEAL'C: It is always more difficult to hit a moving target.

01:11:59:09 BRATAC: It is also helpful to be lucky.

01:12:01:28 (GLIDER PASSING OVERHEAD)

01:12:05:10 TEAL'C: There is little time to waste.

01:12:29:02 McKAY: Hi.

01:12:30:21 CARTER: Oh, man, I was just starting to feel better.

01:12:33:01 McKAY: Are you going to be okay?

01:12:34:09 CARTER: At least until the gate explodes, yeah.

01:12:36:15 McKAY: Look, I...I never meant for anyone to get hurt, much less you.

01:12:41:05 CARTER: It's okay. We had to try something.

01:12:46:00 McKAY: I always wanted to be a pianist.

01:12:47:23 CARTER: Excuse me?

01:12:50:13 McKAY: A concert pianist--you know, a guy who plays piano

01:12:52:22 McKAY (CONT'D OS): in front of lots of people.

01:12:54:10 CARTER: Right.

01:12:54:17 McKAY: What did you think I said?

01:12:56:21 CARTER (CHUCKLING): Never mind.

01:13:00:17 McKAY: I had a not-so-comfortable childhood. My parents hated each other,  
blamed me. Music was my salvation. It had this perfect order for me.

01:13:12:01 CARTER: That's nice...really.

01:13:16:16 McKAY (O/S): When I was 12, my teacher told me to quit.

01:13:18:26 McKAY (CONT'D): A fine clinical player, he said, but no sense of the art  
whatsoever.

01:13:23:18 CARTER: Why are you telling me this?

01:13:26:21 McKAY: I'm just trying to bond.

01:13:29:11 CARTER: Why?

01:13:30:23 McKAY: Hospital gowns turn me on.

01:13:36:26 McKAY: I turned to science because I thought it would be different than music, but  
it isn't. It's just the same. It's just much of an art as anything else.

01:13:45:16 CARTER: Look, it's not your fault that the E.M. pulse didn't work.

01:13:48:19 McKAY: You're an artist, Major...

01:13:50:19 McKAY (CONT'D OS): maybe the best I've ever seen.

01:13:53:14 McKAY (CONT'D): I'm just critical because I'm jealous.

01:13:56:14 CARTER: I'm touched...really. I wish I had a brilliant plan to draw for you.

01:15:47:23 RYAC: My symbiote heals me. I can go.

01:15:51:00 BRATAC (O/S): Ryac, listen to him.

01:15:52:22 BRATAC (CONT'D): This is but one of many battles to be fought.

01:15:55:27 TEAL'C (O/S): Remain here until sundown.

01:15:58:02 TEAL'C (CONT'D): We will try to return before then.

01:16:06:13 SCIENTIST: If we encase the gate in a Trinium alloy, it could reduce the effects  
of the explosion by as much as 40%.

01:16:11:10 SCIENTIST #2: There isn't time to implement that plan. If we detonate the gate  
ourselves right now, we could reduce the eventual damage by as much  
as 20%.

01:16:18:07 SCIENTIST: Well, the damage to the planet's atmosphere would still be  
irreversible. Any survivors would be stuck on a world...

01:16:23:24 SCIENTIST (CONT'D O/S): incapable of sustaining life as we know it.

01:16:25:06 SCIENTIST #2 (O/S): So far, we've been unsuccessful in our attempts to reduce  
the energy...

01:16:27:10 CARTER: What are you thinking?

01:17:28:08 CARTER: Yeah.

01:17:29:25 JONAS: Does it go up?

01:17:31:16 CARTER: Moving the gate won't shut it off. I mean, there is nowhere on Earth  
that...

01:17:44:00 JONAS: I knew you'd think of something.

01:18:02:06 TEAL'C: This shield most likely extends around the perimeter of the weapon.

01:18:06:16 BRATAC: The path...

01:18:13:25 CARTER (O/S): Just hear me out, people. All we need to do is get it far enough  
away from Earth.

01:18:19:22 CARTER (CONT'D): Now, the X-302 can still achieve that without having to enter  
hyperspace.

01:18:22:28 McKAY: See, now, that's crazy.

01:18:24:15 SCIENTIST #2: We have less than 24 hours.

01:18:26:20 CARTER: Two hours to get the gate to the surface, four to get it to Peterson and  
loaded onto a C-17, and two more to fly it to area 51.

01:18:33:04 CARTER (CONT'D OS): The 747 meets us in Nevada, which leaves us 16 hours  
to get the whole rig mounted and airborne...

01:18:38:17 CARTER (CONT'D): and none of this is going to happen if we're all just standing  
around here. I think that this is going to save the planet, and we are  
going to do it.

01:18:46:00 HAMMOND: Move, people.

01:18:50:03 HAMMOND: Well done, Major.

01:18:52:04 CARTER: It wasn't all my idea, sir, and I dare say it's not done yet.

01:18:56:04 HAMMOND: Right.

01:18:56:26 CARTER: Sir...

01:18:57:13 CARTER: You do realize that if this works, we won't have a Stargate anymore.

01:19:01:19 HAMMOND: It did occur to me.

01:19:18:00 (BEEPING)

01:19:28:19 ENEMY (O/S): Drop your weapons!

**END OF ACT TWO**

**ACT THREE**

01:20:14:21 SILER: Yeah, this is Sergeant Siler. We're ready. Activate the crane.

01:20:28:16 CHEKOV: I have been instructed by my superiors to offer you the following  
compromise. In exchange for your continued cooperation and full  
disclosure of the X-302 technology...

01:20:39:09 CHEKOV (CONT'D O/S): we are willing to facilitate the use of our Stargate.

01:20:43:00 HAMMOND: Facilitate?

01:20:44:13 CHEKOV: A financial arrangement to be negotiated.

01:20:49:21 HAMMOND: You want us to rent it?

01:20:51:09 CHEKOV: A simplistic way of putting it.

01:20:52:25 HAMMOND: The X-302's hyperspace technology doesn't work.

01:20:55:28 CHEKOV: It will someday. Obviously, the reason I am here in the first place is  
because my government is unwilling to incur the expense and risk of  
running a Stargate program such as this.

01:21:06:21 CHEKOV (CONT'D): We are simply trying--

01:21:08:13           HAMMOND (INTERRUPTING): Here's the part you obviously don't understand.  
                          Even if, and I stress if, we're able to successfully dispose of this gate,  
                          there's nothing to stop Anubis from starting all this over again...

01:21:19:27           HAMMOND (CONT'D O/S): with a second gate. No one's going to be running a  
                          Stargate program, Colonel.

01:21:23:16           HAMMOND (CONT'D): The second gate has to stay buried.

01:21:37:25           ENEMY LEADER (O/S): What did you hope to accomplish here?

01:21:39:26           ENEMY LEADER (CONT'D): Do you really think you could destroy something  
                          created by a god as powerful as Anubis?

01:21:43:24           TEAL'C: He did not create the weapon, and he is not a god.

01:21:50:11           ENEMY LEADER: Your god may have been weak, sholva. Mine is not.

01:21:52:29           TEAL'C: If you know of me, then you know of our cause. The Jaffa rebellion grows  
                          strong.

01:21:59:06           TCOS: All Goa'uld are false...

01:22:01:16           TEAL'C (CONT'D): gods, and their only real power...

01:22:03:26           TCOS: come from the Jaffa whom they oppress.

01:22:07:26 ENEMY LEADER (O/S): The next time you open your mouth to speak...

01:22:10:26 ENEMY LEADER (CONT'D): it will be to answer my questions.

01:22:17:18 ENEMY LEADER (CONT'D): You did not kill all the Jaffa at the rings. We know  
there are three of you. Where's the boy?

01:22:28:11 ENEMY LEADER: Evidence of how desperate your pathetic little rebellion is... You  
bring a boy to fight the war of men?

01:22:39:00 ENEMY LEADER (CONT'D O/S): Or is it something else?

01:22:44:09 ENEMY LEADER (CONT'D): Maybe he is someone to whom you wish to prove  
yourself?

01:22:50:11 ENEMY LEADER: Bring me the old man.

01:22:55:07 ENEMY LEADER (CONT'D O/S): Cover the boy, as he will not escape.

01:22:57:19 ENEMY LEADER (CONT'D): Unlike you, he's of little value to Anubis. However...

01:23:02:22 ENEMY LEADER (CONT'D O/S): on your behalf, I'll be happy to demonstrate to  
him how a real warrior fights...

01:23:09:00 ENEMY LEADER (CONT'D): to the death.

01:23:15:27 O'NEILL: Is there anything else I should know?

01:23:18:10 CARTER: Well, there's some concern that the 302s may not have the fuel capacity to exit the atmosphere carrying the weight of the Stargate.

01:23:24:15 O'NEILL: How is that possible?

01:23:26:12 CARTER: The engines were designed for a craft with an alien inertial dampening system that effectively reduced its overall mass.

01:23:32:14 O'NEILL: Yes, and?

01:23:34:02 CARTER: Well, you'll be carrying a very heavy load.

01:23:36:13 O'NEILL: How heavy?

01:23:37:29 CARTER: The gate weighs 64,000 pounds, sir.

01:23:41:00 O'NEILL: That's heavy.

01:23:42:16 CARTER: And you'll need to reach an altitude exceeding 180 kilometers.

01:23:45:26 O'NEILL (OVERLAPPING): At minimum escape velocity before I release the gate, or it'll fall back to Earth. I know, I know.

01:23:51:17 CARTER: Well, based on the X-302's rocket fuel capacity, even a full burn won't do it, which means the other engines are going to have to get you part way up hauling something that weighs six times greater than they were designed to carry.

01:24:01:28 O'NEILL: Yeah. Carter--

01:24:02:27 CARTER (INTERRUPTING): The whole rig isn't exactly aerodynamic, either.

01:24:05:14 O'NEILL (OVERLAPPING): Carter...I'm not sure I want to know any of this.

01:24:09:18 CARTER: They're working on lightening the 302, but that's why you're going  
alone. Believe it or not, every pound counts.

01:24:15:23 O'NEILL: I shouldn't have had that cake.

01:24:19:03 CARTER: I wish I could go with you, sir.

01:24:21:02 O'NEILL: Yes, I'm sure you do, and I find that quite bizarre. Anything else?

01:24:28:16 CARTER: Well, sir, if this works, Jonas really deserves...

01:24:30:26 O'NEILL (INTERRUPTING): What? Deserves what?

01:24:34:05 CARTER: I don't know. Something. He's the one who gave me the idea to do this.

01:24:38:24 CARTER (CONT'D OS): Sir, he gave up everything...

01:24:40:10 CARTER (CONT'D): to bring us the Naquadria.

01:24:42:06 O'NEILL: The hyperspace generator doesn't work.

01:24:44:29 CARTER: That's not his fault.

01:24:48:24 CARTER: Good luck, sir.

01:24:53:09 O'NEILL: Hey, what could go wrong, huh?

01:25:24:00 JAFFA: The prisoners will not speak.

01:25:25:25 JAFFA COMMANDER: Take them to the rings and have them transported up to  
the Hatak.

01:25:35:10 (GLIDER PASSING OVERHEAD)

01:25:58:15 O'NEILL: What exactly did you remove?

01:26:01:10 MURPHY: Weapons, some of the life support...Don't worry. There's still more than  
a day's worth.

01:26:05:26 O'NEILL: Well, if I need more than an hour, we're all in trouble.

01:26:08:15 MURPHY: Right. We also took out radar, some of the crash safety mechanisms,  
landing gear...

01:26:13:20 O'NEILL: Excuse me?

01:26:14:21 MURPHY: We had to in order to properly accommodate the clamping system, so  
once you re-enter the atmosphere, you're going to have to eject. That is,  
after you target the 302 to splash down off the coast of Florida.

01:26:24:20 O'NEILL: Just when were you going to tell me this part?

01:26:26:20 MURPHY: Just now. We weren't entirely sure any of this was going to happen  
until five minutes ago. You're not going to believe this.

01:26:37:05 O'NEILL: Holy crap.

01:26:45:05 MURPHY: They're waiting for you.

01:26:52:22 MURPHY (O/S): Good luck.

01:27:26:26 CARTER: They're airborne, sir.

01:27:28:20 PILOT (O/S FILTERED): Mission Command, we're approaching separation  
altitude.

01:27:53:21 PILOT (O/S FILTERED): Colonel...

01:27:54:06 PILOT (O/S CONT'D FILTERED): confirming altitude at 10,000 meters.

01:27:56:20 O'NEILL: Yeah, Roger that.

01:27:59:01 MURPHY (O/S FILTERED): This is Mission Command. You have a go for separation, Starflight.

01:28:02:18 O'NEILL: Proceeding with separation.

01:28:20:17 O'NEILL: Separation complete.

01:28:23:06 PILOT (O/S FILTERED): Good luck, sir.

01:28:26:02 O'NEILL: Stop saying that.

01:28:27:27 CARTER: Altitude reaching 30 kilometers.

01:28:31:08 O'NEILL (O/S FILTERED): Velocity at Mach six. Engaging aerospike engines.

01:28:45:12 O'NEILL: Uh, it's getting a little bumpy, Command.

01:28:50:03 MURPHY (O/S FILTERED): Roger that, Starflight. You're still too shallow to fire the rocket booster.

01:28:55:00 O'NEILL: All right, I may have been understating things. It feels like this thing's falling apart.

01:29:04:15 CARTER: Altitude is 42 kilometers. He needs to reach 50 before he can fire the main rocket engine.

01:29:12:27 (WARNING ALARM SOUNDING)

01:29:14:26 O'NEILL: Command, I've got a master caution alarm.

01:29:19:02 MURPHY (O/S FILTERED): Roger that, Starflight.

01:29:21:02 O'NEILL: I'm losing power.

01:29:22:02 MURPHY (O/S FILTERED): Starflight, your altitude is only 48 kilometers.

01:29:24:01 O'NEILL (O/S FILTERED): Full port engine failure, starboard at 6-0%.

01:29:29:12 O'NEILL: Preparing to ignite rocket booster.

01:29:33:08 MURPHY (O/S FILTERED): You're still too low, Starflight.

01:29:36:01 O'NEILL (O/S FILTERED): I'm losing velocity, Command. I'm going to start  
losing altitude.

01:29:41:19 O'NEILL (CONT'D): Command, please advise.

01:29:47:01 MURPHY: Okay, Starflight, go with main engine burn.

01:29:50:11 O'NEILL: Roger.

01:29:58:15 CARTER: Velocity is 25,000 kilometers per hour. 28...He's got to reach 40 and  
sustain it for at least 15 seconds now.

01:30:09:27 O'NEILL: Main engine burn at 1-0-0%. Velocity approaching 40,000 kilometers per hour. Altitude, 1-2-0 kilometers.

01:30:21:07 CARTER: Five, six, seven...

01:30:24:15 O'NEILL (O/S FILTERED): Preparing to release the gate, Command.

01:30:26:22 MURPHY (O/S FILTERED): Not yet, Starflight.

01:30:28:13 O'NEILL (O/S FILTERED): I'm burning out here.

01:30:37:24 O'NEILL: All right, that's it. I'm out of gas.

01:30:42:08 MURPHY (O/S FILTERED): Starflight, your altitude is 130 kilometers.

01:30:46:28 CARTER: He's not going to make it. Velocity...

01:30:49:01 CARTER (CONT'D): is slowing rapidly. He had to fire the rocket booster too early.

01:30:51:19 HAMMOND: It didn't work?

01:30:53:04 CARTER: He's going to fall back to Earth, sir.

01:30:59:17 O'NEILL: Okay...got any ideas?

**END OF ACT THREE**

**ACT FOUR**

01:31:35:10 O'NEILL: Anyone want to wish me luck?

01:31:38:13 MURPHY (O/S FILTERED): We're working on it.

01:31:43:09 CARTER: Based on altitude, angle of ascent, and current velocity, he's going to  
hit the coast of Europe in 35 minutes.

01:31:49:05 McKAY: If he puts the 302 in a nosedive, he could cut his descent...

01:31:51:24 McKAY (CONT'D OS): time in half.

01:31:53:00 JONAS: Why would we do that?

01:31:54:07 McKAY: So he could drop the gate into the Atlantic.

01:31:55:14 McKAY (CONT'D OS): I'm figuring there's time for it to sink maybe two, 3,000 feet.

01:31:59:05 HAMMOND: Will that do any good?

01:32:00:03 McKAY: It's enough to reduce the effects of the devastation.

01:32:02:00 HAMMOND: By how much?

01:32:03:03 CARTER: Not much, sir.

01:33:21:02 CARTER: He's right. The window formed. It was just unstable.

01:33:24:23 MURPHY: Colonel, we don't have the slightest idea what would happen if we  
tried to open a hyperspace window within the atmosphere.

01:33:30:11 O'NEILL: Yeah, well, given the situation...

01:33:36:24 MURPHY (O/S FILTERED): We're taking it under advisement. Please stand by,  
Starflight.

01:33:40:04 HAMMOND: Major, I can make a call.

01:33:42:13 CARTER: Do it, sir.

01:33:44:06 McKAY: You really are a certifiable lunatic. I know what I said about you being an  
artist and all, but I haven't slept in three days.

01:33:48:07 McKAY (CONT'D OS): I mean, this is deranged. You're talking about...

01:33:49:23 McKAY (CONT'D): creating an interdimensional field around an already highly  
charged Stargate with an unstable and completely unpredictable burst of  
energy.

01:33:55:04 CARTER: I realize when you--

01:33:56:07 McKAY (INTERRUPTING): What I am suggesting has real, tangible benefits.

01:33:58:23 CARTER: Maybe it saves a few lives. If this works, we save...

01:34:01:05 CARTER (CONT'D): the entire planet.

01:34:02:13 McKAY: What chance do we have of that?

01:34:03:22 JONAS: Well, maybe we can reduce the risk a little.

01:34:05:23 CARTER & McKAY: How?

01:34:07:27 JONAS: Well, the instability of the Naquadria is--

01:34:10:24 CARTER (O/S INTERRUPTING): Is relative...

01:34:11:26 CARTER (CONT'D): to the size of the burst you're trying to extract.

01:34:13:27 McKAY: We don't actually have to send the gate across the galaxy, do we?

01:34:16:13 CARTER: Even a second in hyperspace potentially gets us millions of miles.

01:34:19:20 McKAY: Make the call.

01:34:23:03 HAMMOND: This is General Hammond. I need to speak with the President  
immediately.

01:34:30:21 O'NEILL: Altitude--7-6 kilometers and still falling.

01:34:37:05 MURPHY: Okay, we have orders, Starflight. We're going to try it your way.

01:34:40:19 O'NEILL: Thank you. Run me through it.

01:34:43:09 CARTER (O/S FILTERED): Sir, we're going to have to override the safety protocol that will cause the 302 to avoid an unstable wormhole.

01:34:48:24 CARTER (CONT'D): We think that we can greatly increase the chance of this working by only activating the generator for one second.

01:34:54:14 CARTER (CONT'D OS): Unfortunately, it wasn't programmed to work for such a short time.

01:34:57:27 McKAY: Hang on.

01:34:59:01 (TYPING)

01:35:00:02 CARTER: Right. Of course. Thank you.

01:35:03:06 CARTER (CONT'D): Sir, we're going to write a new subroutine. It'll be ready to upload in a few minutes.

01:35:07:05 O'NEILL: All right, well, meantime, I'll just keep falling.

01:35:42:22 O'NEILL: Carter...

01:35:44:22 CARTER: We're done. Uploading the new program, sir. All you'll have to do now  
is activate the generator.

01:35:49:20 O'NEILL: Roger that.

01:35:51:10 CARTER (O/S FILTERED): You won't have much time.

01:35:53:04 O'NEILL: I know.

01:35:54:19 CARTER (O/S FILTERED): Sir, if this works...

01:35:55:26 O'NEILL: I know.

01:35:56:17 CARTER: Sir?

01:35:58:00 O'NEILL (O/S FILTERED): What?

01:35:59:26 CARTER: Good luck.

01:36:07:00 O'NEILL: Activating hyperspace generator...

01:36:09:02 O'NEILL (CONT'D O/S): now.

01:36:25:23 PILOT #2 (O/S FILTERED): This is Observer One. Visual confirmation. The X-  
302 has entered the hyperspace window.

01:36:35:03 CARTER: Colonel? Colonel, do you read?

01:36:43:17 PILOT #2 (O/S FILTERED): This is Observer One. There is no sign of a chute.

01:36:49:15 PILOT #2 (CONT'D): There is however, a light show going on up here.

01:36:53:29 TECHNICIAN: It worked!

01:36:56:01 TECHNICIAN (CONT'D O/S): Deep Space is estimating that the gate detonated  
over three million miles from Earth.

01:37:03:00 PILOT #3 (O/S FILTERED): This is Observer Two. I have visual on a chute.  
Moving in for confirmation. Mission Command, the cockpit module is  
intact. We are pinpointing splashdown position.

01:37:16:10 TECHNICIAN: Patching in satellite relay.

01:37:21:00 MURPHY (O/S FILTERED): Observer Two, pararescue team is on the way.

01:37:24:22 PILOT #3 (O/S FILTERED): Roger that. Colonel O'Neill is conscious and waving.

01:37:27:28 (APPLAUDING)

01:37:40:11 TEAL'C: The gate has shut down.

01:37:42:11 BRATAC: Let us hope it is not too late.

01:37:43:27 TEAL'C: Look...

01:37:57:27 BRATAC: Teal'c...

01:38:04:19 TEAL'C: Ryac! Ryac!

**END OF ACT FOUR**

01:41:36:20 O'NEILL: Don't I know that. Listen, are you sure you don't want to stick around for a while? Kind of hang out?

01:41:43:26 TEAL'C: Ryac has chosen to help Bratac spread the word of our cause.

01:41:52:08 O'NEILL: Well, it's good to see you again.

01:42:08:25 JONAS (O/S): Colonel...

01:42:10:15 JONAS (CONT'D): Colonel, have you got a moment?

01:42:12:15 O'NEILL: Carter told me everything you did to help out. We all appreciate it.  
Thanks a lot. See you later.

01:42:19:01 JONAS: Colonel...Dr. Jackson is gone.

01:42:21:24 O'NEILL: Yeah, I noticed that.

01:42:24:16 JONAS: Not a day goes by when I don't think about what happened. I stood by and watched while he saved my people from disaster.

01:42:31:12 JONAS (CONT'D O/S): It should have been me who jumped through the glass, disarmed the device...

01:42:34:20 JONAS (CONT'D): and he's gone because I didn't. You have to live with that. So do I.

01:42:38:27 O'NEILL: You want me to make you feel better? It wasn't your fault. I don't blame you.

01:42:44:12 JONAS (O/S): If I could go back and change what happened, I would do that...

01:42:46:16 JONAS (CONT'D): but I can't. All I can do is try and change what happens from now on.

01:42:51:07 JONAS (CONT'D O/S): I don't want you to exonerate me.

01:42:53:22 JONAS (CONT'D): I just want to be given the opportunity to prove that I can make a difference.

01:43:20:11 (KNOCKING)

01:43:22:28 O'NEILL: You wanted to see me, sir?

01:43:25:12 HAMMOND: I know this is not what you want to hear...

01:43:27:16 HAMMOND (CONT'D): but part of the deal to get the Russian Stargate involved agreeing to let one of their officers join SG-1.

01:43:35:05 O'NEILL: This is the thanks I get for saving the world again?

01:43:38:17 HAMMOND: I'm sorry, Jack. You're going to have to live with this.

01:43:41:23 O'NEILL: Sir, can't we just throw them a bone, give them their own unit? They'd  
be happy with that, wouldn't they?

01:43:47:20 HAMMOND: What about SG-1?

01:43:53:00 O'NEILL: Actually, General, I've already chosen our new team member.

01:44:01:21 HAMMOND: Good luck, Colonel.

01:44:03:09 O'NEILL: Thank you, sir.

01:44:08:22 JONAS: How do I look?

01:44:10:03 CARTER: Uh, you might want to lose the helmet.

01:44:16:26 O'NEILL: Good guess on the green.

01:44:18:12 JONAS: Thanks.

01:44:19:09 HAMMOND: SG-1, you have a go.

01:44:21:15 O'NEILL: Thank you, sir.

**END OF ACT FIVE**

**FADE TO BLACK**

**BEGIN END CREDITS**
