

STARGATE SG-1
"Sight Unseen"
EPISODE #P663
PRODUCED BY: STARGATE PRODUCTIONS VI, INC.
DIALOGUE CONTINUITY SCRIPT
RUNNING TIME: 45:55

September 25, 2002

Prepared by:
Line 21 Media Services Ltd.
#122- 1058 Mainland Street
Vancouver, B.C. V6B 2T4
Phone: (604) 662-4600

01:01:39:18 JONAS (CONT'D O/S): You don't see that?

01:01:42:00 O'NEILL: No. Wha...what?

01:01:45:00 JONAS: It just disappeared into the wall.

01:01:52:05 CARTER: What did?

01:01:53:10 JONAS: I don't know, something. It was an alien creature of some kind. You didn't
see it?

01:02:00:15 JONAS (CONT'D O/S): It was right there.

01:02:02:07 JONAS (CONT'D): It was right there, General.

01:02:08:10 HAMMOND: This is Hammond. I want a class-one security lockdown of the base
as of now. This is not a drill. Repeat, this is not a drill.

END OF TEASER

01:05:31:10 CARTER: We've all been cleared, sir. The base is clean. Jonas is probably suffering from stress. This is all still pretty new to him.

01:05:38:06 O'NEILL: You could come with.

01:05:39:26 CARTER: Sir?

01:05:41:00 O'NEILL: Fishing, Carter.

01:05:42:04 O'NEILL (CONT'D O/S): I'm going fishing.

01:05:43:20 CARTER: You know I'm planning on studying the artifact.

01:05:45:24 O'NEILL: Yes. It's always something, isn't it?

01:05:50:08 CARTER: Oh, come on, sir. We both know the only reason you asked is because you knew...

01:05:54:04 CARTER (CONT'D O/S): I had something else to do.

01:05:56:02 O'NEILL: No, really, I think you should come. Fish...fish some more...

01:06:16:24 JONAS: So this is what you do with your downtime, huh?

01:06:19:00 CARTER: Well, Colonel O'Neill asked me to go fishing with him, but to be honest, I find this more relaxing. How are you doing?

01:06:26:00 JONAS: Well, the possibility of being insane has been interfering with my ability to relax. I figured I'd take a crack at these glyphs.

01:06:34:00 CARTER (O/S): Fine with me.

01:06:35:29 CARTER (CONT'D): I mean, the truth is I still have no idea what we're dealing with. Now, I've scanned it with X-rays, ultraviolet, mild EM pulses. Nothing has had even the slightest effect on the particles it's emitting.

01:06:46:12 JONAS: Particles?

01:06:47:27 CARTER: Well, for lack of a better word. I mean, really...

01:06:50:14 CARTER (CONT'D O/S): they're just energy patterns. So far, I haven't been able to identify them...

01:06:53:11 CARTER (CONT'D): or determine their purpose.

01:06:56:18 CARTER (CONT'D): Actually, I was hoping that the writings on the device itself would tell us more.

01:07:00:06 JONAS: Let's see what it says.

01:07:03:21 JONAS: The symbols...

01:07:05:06 JONAS (CONT'D O/S): are definitely a form of the language used by the Ancients...

01:07:08:06 JONAS (CONT'D): although the Ancients have been around so long, the language has evolved, but we do have a base reference--

01:07:15:08 (JONAS GASPING)

01:07:17:20 CARTER: What?

01:07:21:20 JONAS: You're telling me that you don't see that?

01:07:25:28 CARTER: What?

01:07:29:20 JONAS: It's right there in front of you.

01:07:41:02 JONAS: Okay...there's definitely something wrong with me.

01:07:50:10 FRAISER: No evidence of brain damage from exposure to Naquadria radiation.
No indication of any viruses or toxins in your system.

01:07:59:02 FRAISER (CONT'D): CAT scan, MRIs, blood work all came back clean. He's in perfect health.

01:08:04:04 JONAS: Physically.

01:08:05:16 FRAISER: That's all I can say definitively...

01:08:07:23 FRAISER (CONT'D O/S): but you haven't shown any signs...

01:08:51:13 HAMMOND (CONT'D): Until someone presents hard evidence, we have to assume it's a coincidence.

01:08:54:29 JONAS: I haven't even started translating the writing.

01:08:58:07 HAMMOND: You'll have to do that from video reference. The device is being shipped to Area 51.

01:09:11:25 JONAS: I can't believe they're going to ship it out of here for further study. We barely got a crack at figuring out what it is.

01:09:19:00 TEAL'C: Perhaps the scientists at our Nevada facility will be able to determine the device's true purpose.

01:09:22:25 JONAS: Oh, meanwhile, I'm stuck here cooling my heels.

01:09:26:15 TEAL'C: You are welcome to join me as I kelnoreem.

01:09:29:25 JONAS: No offense, Teal'c, but it doesn't quite have the same effect on me.

01:09:35:15 JONAS: No other plans?

01:09:37:00 TEAL'C: Colonel O'Neill requested that I accompany him on a fishing excursion.

01:09:41:00 JONAS: Oh...I guess I'm the only one he didn't invite.

01:09:44:07 TEAL'C: You are not permitted to leave the base.

01:09:46:00 JONAS: Still...

01:09:47:20 TEAL'C: Be extremely happy that he did not ask.

01:09:51:10 JONAS: Why, you don't like fishing?

01:09:54:01 TEAL'C: No.

01:09:55:20 JONAS: Hmm. Well, seeing as how I've read every book in the base library twice,
I guess I'll get back to work on my...

01:10:01:29 (WINGS FLAPPING)

01:10:13:15 JONAS: You saw that?

01:10:16:13 TEAL'C: Indeed.

01:10:58:00 VERNON: Hey, there. You just caught me fixing a carburetor. I didn't even hear
you pull in.

01:11:04:00 O'NEILL: No, it's not a problem.

01:11:05:10 VERNON: Yeah, you sure? Because it's a full-service station. You know, the price
includes yours truly.

01:11:10:05 O'NEILL: I've got it, thanks.

ACT TWO

01:13:44:10 CARTER: Anything?

01:13:45:25 JONAS: Mm...it says something about an experiment, but I'm hung up on a few of these glyphs here.

01:13:53:09 JONAS (CONT'D): They were studying beings of the something something. According to this, it should be "inner layer," the beings of the inner layer, but that doesn't make much sense.

01:14:05:00 CARTER: Not really.

01:14:09:12 JONAS: Well, maybe other level?

01:14:11:29 CARTER: What about another dimension?

01:14:14:04 JONAS: That could work.

01:14:16:06 CARTER: I mean, it would make sense if the creatures are inhabiting another dimension close to ours.

01:14:19:26 JONAS: Yeah, absolutely. Yeah. Thanks.

01:14:24:00 CARTER: Is that it?

01:14:25:20 JONAS: Sorry. I'm working as fast as I can, believe me.

01:14:29:02 CARTER: I know. General Hammond wants a full report as soon as possible.

01:14:39:28 CARTER: Look, I'm the one who's sorry. We should never have doubted you
about what you saw in the first place.

01:14:45:26 JONAS: It's perfectly understandable, I mean, with the whole Naquadria-poisoning
thing. Besides, I am still kind of the new guy.

01:14:52:22 CARTER: You're part of the team now and you deserve our respect.

01:14:55:25 CARTER (CONT'D O/S): You've earned it.

01:14:57:25 CARTER (CONT'D): Jonas, you're doing a great job.

01:15:02:09 JONAS: Thanks.

01:15:05:14 CARTER: Now figure out what else this thing says.

01:15:07:14 JONAS: Right.

01:15:16:00 HAMMOND: Colonel O'Neill is going to remain in Colorado Springs and co-
ordinate the quarantine. The National Guard is standing by.

01:15:22:05 HAMMOND (CONT'D O/S): The President is prepared to declare a state of
emergency.

01:15:28:25 HAMMOND (CONT'D): Hopefully, these things, whatever they are, haven't gotten too far.

01:15:32:12 CARTER: Sir, we're not sure we're going to be able to contain them.

01:15:35:16 HAMMOND: You had the transfer of the device halted?

01:15:37:12 CARTER: Yes, sir, and we've learned more.

01:15:39:23 JONAS: I think I've translated enough of the writings to figure out its purpose.

01:15:44:22 CARTER: It's broadcasting...

01:15:46:07 CARTER (CONT'D O/S): a wave of energy particles. Now, while we're not exactly sure what these particles are made of...

01:15:50:21 CARTER (CONT'D): we think they're somehow triggering an ability to see these creatures. Hopefully, only those exposed to these particles...

01:15:57:00 CARTER (CONT'D O/S): will develop this second sight.

01:15:58:29 JONAS: Yeah, none of the ciphers that we have fit perfectly, but near as I can understand, the device is meant to allow us to observe beings that exist in a dimension parallel to ours.

01:16:10:14 CARTER: We think the energy particles the device is emitting create a kind of bleed-through effect, giving anyone who's been exposed to them the ability to see into this parallel dimension.

01:16:18:21 HAMMOND (O/S): So we can't contain them...

01:16:20:16 HAMMOND (CONT'D): because they aren't actually here?

01:16:22:00 CARTER (O/S): In a matter of speaking.

01:16:23:08 CARTER (CONT'D): They do exist, just not in any way that allows us to actually interact with them.

01:16:28:04 JONAS: And if I'm right, they didn't follow us through the gate.

01:16:30:27 HAMMOND: Where did they come from?

01:16:32:13 CARTER: The ones we're seeing are from Earth. I mean, theoretically, these creatures could exist anywhere. We've just been previously unaware of them.

01:16:39:23 HAMMOND: What is your threat assessment, Major?

01:16:42:04 CARTER: Well, I can't say for sure, sir, but with regards to the creatures, none. If they only exist in their dimension, they can't really do anything to us.

01:16:50:11 FRAISER: As far as I can tell, there's no physiological interaction beyond our ability to see them.

01:16:54:25 HAMMOND: However, while the personnel at this facility might be able to deal...

01:16:57:29 HAMMOND (CONT'D O/S): with seeing interdimensional beings--

01:16:59:19 CARTER: If the effect of this spreads to the general public, we could have a massive disaster on our hands.

01:17:03:07 CARTER (CONT'D O/S): People just aren't used to seeing unusual things...

01:17:05:21 CARTER (CONT'D): the way we are, and we can't control when and where a sighting might occur.

01:17:09:12 FRAISER: I mean, imagine on a small scale a surgeon doing delicate surgery and he's distracted.

01:17:14:04 CARTER: Or an air-traffic controller.

01:17:16:10 FRAISER: Even something as simple as driving a car. I mean, people might eventually be able to deal with it, but not before it turns the world upside down.

01:17:23:05 JONAS: Not to mention the potential exposure of the Stargate program in trying to explain the situation.

01:18:19:20 HAMMOND: Major, if this effect continues to spread...

01:18:24:03 CARTER: Attempting to remove crystal core.

01:18:37:17 CARTER: My scans are no longer detecting any particle emissions coming from
the device.

01:18:43:04 JONAS: Anyone see anything?

01:19:05:15 TEAL'C: Major Carter.

01:19:06:27 CARTER: Any sightings?

01:19:08:09 JONAS: Not me.

01:19:10:01 TEAL'C: My kelnoreem was undisturbed.

01:19:11:24 CARTER: Well, I think we may have just solved the problem.

01:19:14:03 JONAS: Teal'c thinks that we should take the device back.

01:19:17:10 CARTER: Take it back?

01:19:18:21 CARTER (CONT'D O/S): We've barely...

01:19:20:08 CARTER (CONT'D): scratched the surface of what it can do.

01:19:21:28 JONAS: That's what I was saying. I mean, now that it's shut off, it's perfectly safe to study.

01:19:25:00 TEAL'C: To what end?

01:19:26:05 CARTER (O/S): The effect that device had was groundbreaking, Teal'c.

01:19:29:14 CARTER (CONT'D): Once we figure out exactly how to use it--

01:19:32:01 JONAS: Eventually.

01:19:33:07 CARTER: These interdimensional creatures are well worth studying.

01:19:36:07 JONAS: The Ancients certainly thought so.

01:19:38:06 CARTER: They're obviously aware of matter in our dimension on some level, or they wouldn't come to rest on objects we perceive as solid.

01:19:43:25 JONAS: Plus they have the ability to pass through solid matter at will.

01:19:46:13 CARTER: Also, the ones we've encountered seem to lack a behavior that demonstrates a higher intelligence, but that doesn't mean that we can't--

01:19:52:08 (WOMAN SCREAMING)

01:20:03:19 HAMMOND: Sergeant?

01:20:05:19 TECHNICIAN: Mission time is 24 minutes, three seconds. MALP A/V link to P9X-391, it's up and running.

01:20:11:07 HAMMOND: SG-1, this is Hammond. What's your status?

01:20:16:25 CARTER (FILTERED): Sir, we're in the ruins. We're about to enter the antechamber where we found the device. Are you picking up anything coming through the wormhole?

01:20:23:20 TECHNICIAN: Negative. No unidentified energy patterns are being detected from your position.

01:20:27:20 HAMMOND: Does that mean we're free and clear?

01:20:29:19 CARTER (FILTERED): Even if we were able to shut the device down, it's possible there was residual particle radiation that my instruments just couldn't detect. Hopefully, this will take care of that.

01:20:40:10 JONAS (FILTERED): It's back where we found it. There doesn't seem to be anything else here that would explain what happened with the device.

01:20:46:05 CARTER (FILTERED): Once the gate is shut down, it should cut off any energy patterns being broadcast back to Earth.

01:20:51:05 HAMMOND: Affirmative. We'll re-establish contact in one hour. Hammond out.
Shut it down.

01:21:47:21 CARTER: How can that be?

01:21:49:07 JONAS: We know that one of the functions of the device was to attract the creatures.

01:21:52:02 JONAS (CONT'D O/S): Now, when we shut that down, or at least thought we shut it down...

01:21:55:09 JONAS (CONT'D): they seemed to go away.

01:21:57:04 CARTER: I get it. What if the particles being emitted were only what was attracting the creatures?

01:22:01:26 JONAS: Sure, like food.

01:22:04:07 JONAS (CONT'D O/S): Now, shutting down that part of the device just made the creatures leave the area.

01:22:09:23 JONAS (CONT'D): Whatever's giving us the ability to see these things is something completely different.

01:22:14:06 HAMMOND: Something unrelated to the device?

01:22:17:13 CARTER: No, sir, that seems unlikely, but it could be something we've missed.

01:22:22:24 JONAS: Okay...I was the first one to see the creatures, right?

01:22:28:18 JONAS (CONT'D): I was also the first one to touch the device. Teal'c was next.

01:22:34:28 CARTER: Touching the device could have imparted some kind of charge that
would alter our bodies' electrical field enough to cause the
interdimensional bleed-through effect.

01:22:41:21 HAMMOND: But that doesn't explain the people who had no direct contact with
the device.

01:22:45:15 CARTER: Unless the charge can be passed on from person to person.

01:22:49:23 JONAS: Like a contagion.

01:22:53:02 HAMMOND: I'm ordering the immediate containment of Colorado Springs and the
surrounding area.

01:22:57:28 CARTER: We'll also need to isolate anyone who could have come in physical
contact with any SGC personnel.

01:23:29:10 VERNON: Son of a...

END OF ACT TWO

01:25:39:05 CARTER: What?

01:25:40:19 JONAS: Well, do you think that the configuration has anything to do with the nature of the charge the device emits?

01:25:46:22 CARTER: So we reorder the crystals, we change what the device does.

01:25:49:17 JONAS: Why else would they be arranged this way?

01:25:52:15 CARTER: Well, there are a number of configurations to choose from. How do we know which one will elicit the right effect?

01:26:03:28 JONAS: This could take a while.

01:26:23:15 GUARDSMAN: There's no one here, sir.

01:26:25:00 O'NEILL: All right. Leave someone here in case he comes back.

01:26:27:25 GUARDSMAN: Yes, sir.

01:26:42:19 O'NEILL: Vernon?

01:26:49:01 (SCREAMING)

01:27:09:00 DRIVER: There was a huge bug on my car. No, I swear.

01:27:12:23 DRIVER (CONT'D): Did anyone see that? Huge bug...

01:27:30:05 O'NEILL (CALLING): Vernon?

01:27:34:20 HAMMOND: You're certain you've reprogrammed the device properly?

01:27:38:19 CARTER: To be honest, sir, we're not sure...

01:27:40:20 CARTER (CONT'D): but this is one of the last few configurations to try.

01:28:01:27 CARTER: We're hoping this means it's now programmed to emit a charge that will
essentially reverse the effect on us.

01:28:09:13 JONAS: Okay...here goes.

01:28:15:14 CARTER: Feel anything?

01:28:18:15 JONAS: Not really.

01:28:20:00 HAMMOND: Do you see anything?

01:28:25:03 JONAS: No. Do you?

01:28:29:06 CARTER: No.

01:28:35:05 JONAS: Yeah, when you want to see one...

01:28:39:16 HAMMOND: There.

01:28:41:01 JONAS: Where?

01:28:43:03 CARTER: Right there on the device.

01:28:46:20 JONAS: If there's a creature right there...

01:28:48:21 JONAS (CONT'D O/S): then I'm not seeing it.

01:28:54:06 CARTER: Jonas.

01:29:04:12 CARTER: I think it worked, sir. I'm not seeing it anymore.

01:29:16:11 HAMMOND: Well done, Major.

01:29:50:19 FRAISER: Well, sir, from what I can gather, the antidote seems to be working.

There have been no new sightings and everyone previously affected is no longer seeing creatures.

01:29:58:28 HAMMOND: Good. All we need to do now is spread the cure to Colonel O'Neill and the containment team so they can spread it throughout the exposed area.

01:30:05:15 FRAISER (O/S): I recommend using a placebo pill...

01:30:07:08 FRAISER (CONT'D): to sell it to the public, and provided the containment holds, we should eventually be able to undo the damage.

01:30:12:13 (TELEPHONE RINGING)

01:30:14:08 HAMMOND (INTO PHONE): Hammond.

01:30:15:18 O'NEILL (INTO PHONE): Sir, I have reason to believe an individual I came in contact with has breached the quarantine.

01:30:20:05 HAMMOND (INTO PHONE): Is there anything we can do?

01:30:21:20 O'NEILL (FILTERED): Well, get Carter and Jonas on this.

01:30:23:08 O'NEILL (INTO PHONE): The man's name is Vernon Sharpe. He's a non-com, served in the motor pool in the Gulf. See what they come up with.

01:30:30:18 HAMMOND (INTO PHONE): Right away.

01:30:33:08 HAMMOND: We have an exposed man on the run.

01:30:57:11 DRIVER #2: How far you headed?

01:30:58:26 VERNON: As far as you can take me.

01:31:00:16 DRIVER #2: Well, I'm picking up a cousin over in Hawthorne County. How's that?

01:31:03:14 VERNON: That's fine.

01:31:04:20 DRIVER #2: Hop in.

01:31:07:11 RADIO ANNOUNCER: Now, the latest update on the situation in Colorado. As you may have already heard, the National Guard continues to maintain its quarantine on the city of Colorado Springs after a dangerous chemical spill may have had an adverse effect on some residents of the area. No traffic will be allowed in and out until further notice.

01:31:21:10 DRIVER #2: You hear about that? People are saying they're seeing monsters.

01:31:24:10 VERNON: Yeah, I know. Crazy.

END OF ACT THREE

ACT FOUR

01:31:58:00 CARTER: According to his bank records, Vernon Sharpe drained all the money from his accounts several hours ago.

01:32:03:00 JONAS: You can get this kind of information on someone this easily?

01:32:06:05 CARTER: Well, we only use the privilege in certain circumstances.

01:32:09:01 JONAS: So he could be anywhere by now.

01:32:10:21 CARTER: We've frozen his credit cards, but since he's using cash, it'll be harder to trace his movements.

01:32:15:14 JONAS: So he's just going to vanish? That makes no sense.

01:32:19:13 CARTER: What do you mean?

01:32:21:06 JONAS: Well, he's ex-military. It can't simply be fear...

01:32:23:25 JONAS (CONT'D O/S): of these creatures he's seeing. What's he running for?

01:32:27:15 CARTER: He doesn't buy the cover story.

01:32:31:00 JONAS: The only way we're going to figure out where he's going is by learning more about him. Can we find out if he has any friends or family in the area?

01:32:44:11 MRS. SHARPE: What's he gone and done now?

01:32:46:20 CARTER: Oh, he hasn't done anything, Mrs. Sharpe. We're actually just very
worried about Vernon.

01:32:51:19 MRS. SHARPE: Cookie?

01:32:53:19 CARTER: Oh...thank you.

01:32:56:10 MRS. SHARPE (O/S): I know how you feel, dear. I've been worried about Vernon
since he was a boy.

01:33:01:19 MRS. SHARPE (CONT'D): I was the one who raised him after his mother ran off...

01:33:04:16 MRS. SHARPE (CONT'D O/S): you know.

01:33:06:10 CARTER: I'm sure you did a fine job.

01:33:08:06 MRS. SHARPE: She was a real floozy, that one.

01:33:11:02 MRS. SHARPE (CONT'D O/S): My Roger never had much taste in women.

01:33:15:15 JONAS: Mrs. Sharpe, we're afraid that your grandson may suspect that the
government is after him for the wrong reasons.

01:33:22:23 MRS. SHARPE: Why are you after him?

01:33:27:25 CARTER: Vernon may have been accidentally exposed to a chemical that could
be causing him to see things that aren't really there.

01:33:35:15 MRS. SHARPE: Like when he was in the war.

01:33:39:10 JONAS: What do you mean?

01:33:40:25 MRS. SHARPE: The military, they did all kinds...

01:33:42:12 MRS. SHARPE (CONT'D): of things to those boys while they were over there...

01:33:45:09 MRS. SHARPE (CONT'D O/S): experiments with chemical weapons and such.

01:33:49:02 MRS. SHARPE (CONT'D): Messed with their heads good. My Vernon's never
been the same.

01:33:54:02 CARTER: We don't really know anything about that.

01:33:56:25 MRS. SHARPE: I'm sure you don't, honey.

01:34:02:20 JONAS: It's very, very important that we find your grandson. He could be putting
other people's lives...

01:34:07:15 JONAS (CONT'D O/S): in danger, Ma'am.

01:34:10:00 MRS. SHARPE: Vernon wouldn't hurt a fly.

01:34:11:20 JONAS: Unintentionally, of course.

01:34:13:29 CARTER: The truth is, Vernon's exposure to this chemical wasn't an accident.

01:34:19:24 CARTER (CONT'D): In fact, it wasn't even a chemical.

01:34:22:18 CARTER (CONT'D): It was a highly contagious experimental germ developed by
the military.

01:34:26:25 MRS. SHARPE: Really?

01:34:28:02 CARTER: But the thing is it was created to try and undo what happened to your
grandson while he was in the Gulf.

01:34:33:28 MRS. SHARPE: Oh, I find that hard to believe.

01:34:36:27 CARTER: I swear. I wouldn't lie to you.

01:34:38:27 CARTER (CONT'D O/S): Unfortunately...

01:34:41:22 CARTER (CONT'D): there were some unexpected side effects to this antidote.

01:34:43:21 MRS. SHARPE: Those doctors will be the death of us all. See all those pills I'm
supposed to take? I never take any of them.

01:34:52:24 CARTER: We really want to make this right, Mrs. Sharpe, and it's not just your
grandson's life that's at stake.

01:34:58:15 CARTER (CONT'D): There could be a lot of other people in danger.

01:35:01:07 CARTER (CONT'D): I promise nothing bad will happen to Vernon.

01:35:06:27 MRS. SHARPE: Well, you seem like a nice enough couple.

01:35:10:07 JONAS: Oh, we're not...

01:35:12:05 CARTER: Please...we really want to help.

01:35:20:27 MRS. SHARPE: Well, Lord knows Vernon needs help.

01:35:25:06 MRS. SHARPE (CONT'D O/S): He's not right in the head, that boy.

01:35:29:15 CARTER: We'll do our best.

01:35:31:00 JONAS: Do you have any idea where he might be?

01:35:32:21 MRS. SHARPE: Well, if he's off anywhere, it's to see that Chuck fellow.

01:35:36:21 CARTER: Chuck?

01:35:40:07 MRS. SHARPE: He's trouble. Always has been, always will. I told Vernon straight away, "That Chuck will lead you to no good."

01:35:49:20 JONAS: Does Chuck have a last name?

01:35:53:09 MRS. SHARPE: I'm sure he does.

01:35:58:02 MRS. SHARPE (CONT'D): I just don't know it.

01:36:03:04 CARTER: Do you know where he lives?

01:36:20:25 VERNON: Thanks for the lift, huh.

01:36:22:10 DRIVER #2: Good luck, Vernon.

01:36:40:25 VERNON: Hi. I need a one-way ticket to Las Vegas.

END OF ACT FOUR

ACT FIVE

01:37:14:20 CARTER: Just what we need, a conspiracy theorist.

01:37:16:20 JONAS: One who happens to be right about there being a conspiracy.

01:37:20:12 TEAL'C: There has been another sighting.

01:37:22:00 CARTER (O/S): Where?

01:37:23:03 TEAL'C: A place called Hawthorne county.

01:37:24:18 CARTER: Any word on Vernon?

01:37:26:00 TEAL'C (O/S): The affected person in question says he picked up a hitchhiker...

01:37:28:22 TEAL'C (CONT'D): matching the description of Vernon Sharpe.

01:37:31:11 CARTER: Thanks.

01:37:37:15 O'NEILL (O/S FILTERED): O'Neill.

01:37:39:00 CARTER (INTO PHONE): It's me, sir. We have reason to believe that Vernon may
be at Piedmont Hawthorne airfield on his way to Las Vegas.

01:37:44:21 O'NEILL (INTO PHONE): All right, have Hammond ground all flights out.
Containment team is en route. ETA's about 40 minutes.

01:37:50:24 CARTER (INTO PHONE): Have you been cleared, sir?

01:37:52:00 O'NEILL (O/S FILTERED): Yeah, they got somebody down...

01:37:53:02 O'NEILL (CONT'D INTO PHONE): from the SGC to shake our hands.

01:37:55:18 CARTER (INTO PHONE): Sir, you should know that Vernon could be extremely
paranoid. Given his military background, I'd use extreme caution in
apprehending him.

01:38:02:04 O'NEILL (INTO PHONE): I'll keep that in mind. Good job, Carter.

01:38:06:25 CARTER (O/S FILTERED): Thank you, sir.

01:38:37:06 PASSENGER (EXASPERATED): Come on.

01:39:01:17 PASSENGER #2 (INTO PHONE): They canceled my flight. Can you believe it?
What did they think of the script? What? The second-act twist is totally
clear.

01:39:12:05 PASSENGER #2 (FEARFULLY): Oh...

01:39:14:25 (WOMAN SCREAMING)

01:39:23:28 FLIGHT ATTENDANT: I'm sorry, ladies and gentlemen...

01:39:25:18 FLIGHT ATTENDANT (CONT'D O/S): we've just been told the flight has been canceled. Please return to the terminal, where more information will be provided to you.

01:39:53:18 O'NEILL: Vernon.

01:39:56:18 GUARD: There he is. Let's move.

01:40:10:20 O'NEILL: You guys, cover the exits. I'll take it from here.

01:40:28:15 O'NEILL (CALLING): Vernon?

01:40:32:20 O'NEILL (CALLING): You can't get away.

01:40:52:08 O'NEILL (CALLING LOUDER): Hey, Vernon...it's Jack O'Neill. Colonel O'Neill? The Air Force?

01:41:13:00 O'NEILL (CALLING): Look...I know this is a massive cliché, but the place is surrounded.

01:41:21:23 VERNON (O/S MUFFLED): Yeah, you're telling me. Those monsters are everywhere.

01:41:31:10 O'NEILL: All right, I know you're seeing things. It's got to be a little confusing.

01:41:41:10 VERNON: You're going to kill me for what I know, aren't you?

01:41:43:15 O'NEILL: Nobody's going to kill you.

01:41:48:22 VERNON: It's the Gulf all over again, only this time, it's innocent civilians, too.

01:41:52:18 VERNON (CONT'D O/S): You're doing scientific research on us against our will.
You know, you'll never get away with it.

01:41:58:03 VERNON (CONT'D): The truth will get out.

01:42:02:01 O'NEILL: You know, you're right. Our cover story is bogus.

01:42:07:08 VERNON: It is?

01:42:09:04 O'NEILL: Yep...but the truth isn't what you think. Those creatures you're
seeing...they're aliens.

01:42:20:12 VERNON (DISBELIEVING): Come on.

01:42:22:15 O'NEILL: Hey, you wanted the truth, that's it.

01:42:26:13 O'NEILL (CONT'D O/S): I work for a top-secret branch of the military that deals
with extraterrestrials.

01:42:31:00 O'NEILL (CONT'D): That's what you were seeing.

01:42:33:05 VERNON: You're serious.

01:42:35:24 O'NEILL: Yes, very serious...but the thing is...those things...they're no threat to us.
In fact, if you couldn't see them, you wouldn't even know they were there.

01:42:52:28 VERNON: No, but I am seeing them. In fact, I'm seeing one right now.

01:42:57:25 O'NEILL: Well, we can make it so you don't.

01:43:01:12 VERNON: Then what?

01:43:06:05 O'NEILL: Look, Vernon, this can't get out, not yet. The world is not ready to know.

01:43:13:15 VERNON: So you just want me to keep it quiet?

01:43:16:14 O'NEILL: Well, think about it. Who's going to believe you?

01:43:19:29 O'NEILL (CONT'D O/S): I mean, government experiments are one thing...

01:43:24:05 O'NEILL (CONT'D): but we're talking aliens here.

01:43:25:29 VERNON: Yeah, but other people have seen them.

01:43:28:00 O'NEILL: Not for long. Besides, they're all buying our cover story.

01:43:38:02 O'NEILL (CONT'D O/S): Vernon, your country needs you.

01:43:43:06 O'NEILL (CONT'D): I'm asking you, one soldier to another, play ball on this.

01:43:50:00 VERNON: Okay. I'm not taking any pills or needles or anything.

01:43:54:28 O'NEILL: You won't have to.

01:44:02:05 O'NEILL (INTO RADIO): We're all clear.

01:44:08:20 O'NEILL: We good?

01:44:10:00 VERNON: Yes, sir.

01:44:21:24 VERNON: So what planet are they from?

01:44:23:19 O'NEILL: Who?

01:44:24:20 VERNON: The aliens.

01:44:26:15 O'NEILL: Oh. A place called Melmac.

01:44:31:26 VERNON: Isn't that where Alf is from?

01:44:34:06 O'NEILL: Who?

01:44:35:09 VERNON: Alf, you know, on TV, the puppet.

01:44:38:27 O'NEILL: Never saw it.

01:44:40:25 VERNON: No kidding?
