TIMECODE DIALOGUE

START TIMECODE 01:00:00:00 AT FIRST FRAME OF PICTURE

TEASER

01:00:06:15 COLONEL CHEKOV: We've been over this, Mr. Ambassador.

01:00:08:26 CHINESE AMBASSADOR: Your submarine, yes, yes.

01:00:11:00 COLONEL CHEKOV: The missile sub Rostov was less than 75 kilometers from
the impact of the meteor.

01:00:15:27 CHINESE AMBASSADOR: Why do you insist on maintaining this story?

01:00:18:19 COLONEL CHEKOV: The shock wave caused severe damage, and she sank to
the bottom.

01:00:20:21 CHINESE AMBASSADOR: And in the spirit of international cooperation, a Deep
Submergence Rescue Vehicle was sent from Pearl Harbor.

01:00:25:23 COLONEL CHEKOV: Yes. Unfortunately, the Rostov's reactor went critical before
she arrived on the scene.

01:00:30:22 CHINESE AMBASSADOR: I have heard your government repeat this story time
and time again, yet, according to our naval intelligence service...

01:00:37:28 CHINESE AMBASSADOR (CONT'D): on the day in question, the submarine in question was in fact still taking on supplies in the harbor at Vladivostok.

01:00:47:04 COLONEL CHEKOV: What can I say, Ambassador? Your intelligence is wrong and not for the first time, I might add.

01:00:53:05 CHINESE AMBASSADOR (O/S): The Americans are hiding something and have been for years now.

01:00:56:19 CHINESE AMBASSADOR (CONT'D): That Russia seems to have no objection is all the more confusing.

01:01:00:10 COLONEL CHEKOV: In the spirit of cooperation--

01:01:02:00 CHINESE AMBASSADOR: Please. What you call a new spirit of cooperation between your two countries, Colonel, makes the People's Republic of China uncomfortable.

01:01:12:11 ENGLISH AMBASSADOR: Gentlemen, we couldn't help but overhear.

01:01:15:15 COLONEL CHEKOV: As I was trying to explain--

01:01:17:15 ENGLISH AMBASSADOR: My dear Colonel, if we can agree on anything, it's that your lost submarine is merely the latest in a long list of extremely unlikely events...

01:01:24:11 ENGLISH AMBASSADOR (CONT'D O/S): the Americans have attempted to foist
 upon us as the truth.

01:01:29:00 FRENCH AMBASSADOR: Yes. The Americans are up to something.

01:01:31:07 ENGLISH AMBASSADOR: They did summon us here for some reason.

01:01:34:00 CHINESE AMBASSADOR: To hear more stories of falling meteors and exploding
 hot air balloons.

01:01:40:25 COLONEL CHEKOV: Mr. Ambassador, I am sure we can provide you with the
 necessary evidence--

01:01:44:08 HAMMOND (O/S): That won't be necessary, Colonel.

01:01:50:11 RUSSIAN AIDE: (SPEAKING RUSSIAN)

01:01:53:19 COLONEL CHEKOV: (SPEAKING RUSSIAN)

01:01:57:20 RUSSIAN AIDE: (SPEAKING RUSSIAN)

01:02:03:10 ENGLISH AMBASSADOR: General?

01:02:06:20 MAJOR DAVIS: Gentlemen, please be seated.

01:02:29:10 MAJOR DAVIS: Thank you.

01:02:30:21 MAJOR DAVIS (CONT'D O/S): First and foremost, gentlemen, welcome to the
Pentagon. Please forgive any security measures you've had to undergo
in order to get here.

01:02:37:11 MAJOR DAVIS (O/S CONT'D): In America, we try never to underestimate the
competence nor curiosity of our media.

01:02:42:04 MAJOR DAVIS (CONT'D): We've asked you here to inform you of a top-secret
operation that the United States Air Force...

01:02:46:02 MAJOR DAVIS (CONT'D O/S): has been operating out of Cheyenne Mountain in
Colorado.

01:02:48:28 MAJOR DAVIS: It's called the Stargate program.

END OF TEASER

ACT ONE

01:04:35:19 MAJOR DAVIS: Gentlemen, the Stargate.

01:04:38:01 MAJOR DAVIS (CONT'D): The device itself was discovered in Egypt in 1928
where it had laid buried for several thousand years. In 1945, a team of
scientists...

01:04:44:25 MAJOR DAVIS (CONT'D): hoping to find a military application for the device
successfully established a stable wormhole by a process of random
dialing.

01:04:51:09 MAJOR DAVIS (CONT'D): It was for all intents and purposes a lucky accident,
which they were unable to repeat.

01:04:56:20 MAJOR DAVIS (CONT'D): The gate remained inactive until eight years ago, when
this man, Dr. Daniel Jackson, joined the program.

01:05:04:11 MAJOR DAVIS (CONT'D O/S): Dr. Jackson successfully deciphered the symbols
on the gate, allowing us to begin routine exploration of alien worlds.

01:05:10:10 MAJOR DAVIS (CONT'D): Since that time, Mr. Ambassadors, we have visited
literally hundreds of planets. Thousands more remain to be explored.

01:05:19:24 ENGLISH AMBASSADOR: What?

01:05:23:00 FRENCH AMBASSADOR: This is absurd.

01:05:24:17 HAMMOND: I know it's a lot to process, gentlemen. The first time I saw the gate activated, I could hardly believe my eyes.

01:05:31:12 COLONEL CHEKOV: It is true.

01:05:33:02 ENGLISH AMBASSADOR: You know about this?

01:05:34:29 COLONEL CHEKOV: The Russian government has been aware of the Stargate program for quite some time.

01:05:39:01 ENGLISH AMBASSADOR: Are you quite serious? Did your President not recently call Great Britain America's closest ally?

01:05:46:02 HAMMOND: One of our own people illegally sold the Russians information which allowed them to temporarily operate their own program.

01:05:53:23 FRENCH AMBASSADOR: You had one of these Stargates?

01:05:56:23 COLONEL CHEKOV: For a short time.

01:05:58:19 ENGLISH AMBASSADOR: How many of these bloody things are there?

01:06:02:24 COLONEL CHEKOV (O/S): There was another...

01:06:04:14 COLONEL CHEKOV (CONT'D): Stargate. It was recovered from the bottom of the
ocean two years ago.

01:06:07:23 CHINESE AMBASSADOR: I don't understand.

01:06:10:15 MAJOR DAVIS: SG-1 was trapped aboard an Asgard vessel. They beamed
aboard our Stargate as their means of escape.

01:06:50:10 MAJOR DAVIS: So the gate the Russians recovered from the Pacific was the gate
first discovered in Egypt. We replaced that gate with the gate we
discovered in Antarctica five years ago.

01:06:58:09 HAMMOND: That Stargate has since been destroyed.

01:07:00:27 MAJOR DAVIS: The original gate is back in Cheyenne mountain under lease from
the Russian Government.

01:07:10:07 CHINESE AMBASSADOR: The explosion of your nuclear submarine was the
cover story for these events?

01:07:14:07 HAMMOND (O/S): Actually, the Rostov explosion...

01:07:16:19 HAMMOND (CONT'D): was to cover up the explosion of a crashed Goa'uld ship.

01:07:20:14 MAJOR DAVIS (O/S): Whereas the Stargate was aboard...

01:07:22:08 MAJOR DAVIS (CONT'D): an Asgard...

01:07:24:13 MAJOR DAVIS (CONT'D): ship. The Asgard...

01:07:28:05 MAJOR DAVIS (CONT'D): Obviously, this is very confusing at first glance.

01:07:31:09 ENGLISH AMBASSADOR: Oh, no, no, no. What could be more clear? There
were two different sorts of alien ships. I follow completely.

01:07:38:07 ENGLISH AMBASSADOR (CONT'D O/S): You know, this is all much more...

01:07:39:28 ENGLISH AMBASSADOR (CONT'D): believable than the accidental loss of a
Russian submarine...

01:07:43:09 ENGLISH AMBASSADOR (CONT'D O/S): although I am a bit dubious that not
one...

01:07:46:13 ENGLISH AMBASSADOR (CONT'D): but two reported meteors in the last...

01:07:48:27 ENGLISH AMBASSADOR (CONT'D O/S): few years were in fact alien ships.

01:07:52:07 MAJOR DAVIS: Actually, there were three.

01:07:58:08 SENATOR KINSEY: Gentlemen. I'm sorry I'm late, but I had a meeting on the Hill.
It couldn't be postponed.

01:08:04:00 HAMMOND: Senator.

01:08:05:15 SENATOR KINSEY: General. What've I missed?

01:08:08:15 FRENCH AMBASSADOR (O/S): Your officers have been telling us several...

01:08:10:25 FRENCH AMBASSADOR (CONT'D): several tall tales, as you might say.

01:08:16:15 SENATOR KINSEY: You're telling me you've been at this God knows how long
and they don't even believe you?

01:08:23:12 SENATOR KINSEY (CONT'D): If that doesn't take the cake.

01:08:25:12 SENATOR KINSEY (CONT'D O/S): Well, I don't know what they've told you, but
it's true.

01:08:29:13 SENATOR KINSEY (CONT'D): The Stargate exists and they go through the damn
thing on a daily basis.

01:08:33:26 ENGLISH AMBASSADOR: Does everyone in your government know about this?

01:08:37:11 HAMMOND: As Chairman of the Appropriations Committee, Senator Kinsey was
given a full briefing.

01:08:42:15 SENATOR KINSEY: The truth is I demanded to know where all the money was
going, and believe you me, we're talking about a lot of money.

01:08:49:13 SENATOR KINSEY (CONT'D O/S): I'm sure that what you're finding hard to
believe is why we would...

01:08:53:21 SENATOR KINSEY (CONT'D): come forward with any of this.

01:08:57:05 SENATOR KINSEY (CONT'D): Granted, the Chinese government has threatened to go public with information that contradicts one of our cover stories...

01:09:03:03 SENATOR KINSEY (CONT'D O/S): but that isn't the only reason.

01:09:06:03 SENATOR KINSEY (CONT'D): The fact is due in no small part to the actions of
the Stargate program's flagship team...

01:09:15:17 SENATOR KINSEY (CONT'D O/S): SG-1...

01:09:21:23 SENATOR KINSEY (CONT'D): our planet is facing imminent danger.

END OF ACT ONE

ACT TWO

01:10:01:14 ENGLISH AMBASSADOR: So assuming this is not some sort of elaborate hoax,
and there are no television cameras ready to pop out at any moment,
these aliens who threaten...

01:10:13:11 ENGLISH AMBASSADOR (CONT'D): to destroy Earth even as we speak--

01:10:15:22 HAMMOND: The Goa'uld.

01:10:16:22 ENGLISH AMBASSADOR: Mm-hmm. They built the Stargate?

01:10:20:10 MAJOR DAVIS: No, sir. The gate system...

01:10:21:23 MAJOR DAVIS: was built by a much older race of aliens that have long since disappeared, and while the Goa'uld regularly use the gates, they subjugate these transplanted human races with powerful ships that are capable of interstellar travel.

01:10:32:08 CHINESE AMBASSADOR: Such as the one that crashed in the Pacific Ocean?

01:10:34:19 HAMMOND (O/S): And the Goa'uld have dozens...

01:10:36:19 HAMMOND (CONT'D): if not hundreds, of these vessels.

01:10:42:00 MAJOR DAVIS (O/S): This is a single Ha'tak-class vessel. Each Goa'uld system lord operates entire fleets of these.

01:11:03:24 MAJOR DAVIS (O/S CONT'D): Typically, a Goa'uld flagship is several times this size.

01:11:07:00 MAJOR DAVIS (CONT'D): They also have midrange bombers called Alkesh and small fighters known as Death Gliders.

01:11:24:27 O'NEILL: Pull up, Teal'c. Teal'c, pull up!

01:11:30:14 HAMMOND: The Goa'uld are more advanced than us in every way, and there can be no doubt that they have hostile intentions.

01:11:36:14 ENGLISH AMBASSADOR: Can we negotiate with them?

01:11:39:05 MAJOR DAVIS (O/S): The Goa'uld are a predatory species, sir.

01:11:41:20 MAJOR DAVIS (CONT'D): They will enslave a planet, or in the face of resistance, simply wipe out its inhabitants. They don't negotiate.

01:11:48:02 MAJOR DAVIS (CONT'D O/S): Now, we have witnessed Goa'uld attacks on several worlds. Their standard procedure is to begin with a long-range assault launched from orbit...

01:11:54:12 MAJOR DAVIS (CONT'D): designed to take out planetary defenses and instill fear in the population.

01:12:08:08 SVAROG (O/S): I am Svarog.

01:12:11:28 SVAROG (O/S CONT'D): From this day forth, you will serve me.

01:12:16:25 MAJOR DAVIS: Once they've completed their orbital assault, they'll then be free
to move in for tactical strikes against any remaining ground positions.

01:12:34:24 MAJOR DAVIS (CONT'D): After that, they'll put their troops on the ground. Each
mothership is capable of carrying hundreds, if not thousands, of warriors.

01:12:57:00 O'NEILL: They appear to be amassing a few troops.

01:13:03:25 SENATOR KINSEY: It was high time you were all briefed on what we're up
against.

01:13:08:16 FRENCH AMBASSADOR: If what you are saying is true, then the United States
Government has unilaterally taken actions which have placed the whole
world...

01:13:17:15 FRENCH AMBASSADOR (CONT'D O/S): in jeopardy.

01:13:18:15 SENATOR KINSEY: Believe me, Mr. Ambassador, I know how you feel. When
this was first brought to my attention, I insisted that the gate was too
dangerous to remain in operation.

01:13:27:26 SENATOR KINSEY (CONT'D): Unfortunately, I was overruled.

01:13:31:03 HAMMOND: With due respect, Senator, the President took your
recommendation...

01:13:35:14 HAMMOND (CONT'D O/S): and it nearly resulted in disaster.

01:13:38:04 HAMMOND (CONT'D): It was only because of the efforts of SG-1, who violated your order to shut down the gate, that we managed to survive.

01:13:44:19 SENATOR KINSEY: Oh, and they've done a great job since under your tenure, haven't they, General?

01:13:48:28 SENATOR KINSEY (CONT'D O/S): You managed to defeat the Goa'uld known as...

01:13:52:05 SENATOR KINSEY (CONT'D): Apophis, only to see him replaced by another, more dangerous one.

01:14:00:06 SENATOR KINSEY (CONT'D): Isn't that a fair assessment?

01:14:17:21 ANUBIS (O/S): You are the one they call Thor. I am Anubis.

01:14:23:09 THOR: As I have told your Lieutenant, I will reveal nothing to you.

01:14:28:23 ANUBIS: This device... will be implanted into your brain. It will form a link between your mind and the ship's computer. Your knowledge will simply be downloaded into our memory banks.

01:14:46:06 ANUBIS (CONT'D): You will no doubt resist... and you will no doubt fail.

01:14:51:25 THOR: The Goa'uld possess no such technology.

01:15:04:25 ANUBIS: I think you'll find many things have changed since my return.

01:15:09:17 MAJOR DAVIS: Admittedly, Anubis appears to have technology that is far
 superior to that of any other Goa'uld...

01:15:15:05 MAJOR DAVIS (CONT'D O/S): but we could not have possibly foreseen his return
 to...

01:15:18:05 MAJOR DAVIS (CONT'D): power among the other Goa'uld system lords.

01:15:20:04 SENATOR KINSEY (O/S): The point is...

01:15:21:22 SENATOR KINSEY (CONT'D): he's already tried to destroy the Earth on two
 occasions.

01:15:31:19 ENGLISH AMBASSADOR: I'm sure you were getting to that.

01:15:34:20 MAJOR DAVIS: Yes, sir. About a year ago, we discovered an asteroid on a
 collision course with Earth.

01:15:39:27 FRENCH AMBASSADOR: When you say asteroid, I assume you mean
 spaceship?

01:15:44:08 MAJOR DAVIS: No, sir, not this time.

01:15:48:00 MAJOR DAVIS (CONT'D): We were fortunate to detect it at all. If it had have struck the planet, there would have been no need for a cover story. It would have wiped out all life as we know it.

01:15:56:16 HAMMOND (O/S): We discovered that the asteroid

01:15:58:16 HAMMOND (CONT'D): had been deliberately set on a collision course with Earth by Anubis.

01:16:04:17 HAMMOND (CONT'D): Fortunately, we managed to divert it in time.

01:16:12:18 O'NEILL: Carter, I can see my house.

01:16:15:08 CARTER: Engaging hyperdrive... now.

01:16:34:00 MAJOR DAVIS (O/S): I should point out once again, gentlemen...

01:16:35:24 MAJOR DAVIS (CONT'D): that it was SG-1 who saved us.

01:16:39:24 ENGLISH AMBASSADOR: Are we expecting another attack?

01:16:41:15 MAJOR DAVIS (O/S): Anubis is currently...

01:16:42:25 MAJOR DAVIS (CONT'D): consolidating his position amongst the other system lords, but it's only a matter of time before he turns his attention back to Earth.

01:16:48:00 HAMMOND: The nations represented in this room...

01:16:50:03 HAMMOND (CONT'D O/S): make up the bulk of this planet's...

01:16:52:08 HAMMOND (CONT'D): military capacity. Our chances for successful resistance
would be greatly improved if we would just work together.

01:17:00:28 COLONEL CHEKOV (O/S): This would require an unprecedented level of
military...

01:17:03:28 COLONEL CHEKOV (CONT'D): cooperation, as well as a commitment from all of
you to maintain absolute secrecy.

01:17:09:20 CHINESE AMBASSADOR: I'm afraid that may be impossible. If we are facing
invasion, then we must warn our people so that they can prepare.

01:17:19:03 MAJOR DAVIS (O/S): With all due respect, Mr. Ambassador, we feel...

01:17:21:14 MAJOR DAVIS (CONT'D): that coming forward now would only result in
widespread panic.

01:17:24:03 FRENCH AMBASSADOR: As opposed to the panic that will result when alien
troops begin marching through our streets?

01:17:29:03 CHINESE AMBASSADOR: The government of China does not believe in keeping
secrets from its people.

01:17:34:05 CHINESE AMBASSADOR (CONT'D): We may have no choice but to release this
information.

END OF ACT TWO

ACT THREE

01:18:18:28 ENGLISH AMBASSADOR: We're talking about a full-scale attack from space. I'm
 afraid people are going to notice.

01:18:24:25 HAMMOND (O/S): We're hoping it won't come to that.

01:18:27:00 HAMMOND (CONT'D): As you now know, Stargate Command has managed to
 deal...

01:18:29:20 HAMMOND (CONT'D O/S): with several threats to the security of this planet
 without divulging...

01:18:33:05 HAMMOND (CONT'D): any information to the general public.

01:18:36:10 SENATOR KINSEY: You've been lucky, and you know it.

01:18:38:05 HAMMOND: We also have damn good people. We've given as good as we've got.

01:18:42:09 MAJOR DAVIS (O/S): On one occasion, we managed to wipe out...

01:18:44:11 MAJOR DAVIS (CONT'D): an entire fleet of motherships.

01:18:46:20 ENGLISH AMBASSADOR: This SG-1, I assume?

01:18:48:28 HAMMOND: That's right.

01:18:55:03 CARTER: Engaging forcefield.

01:19:03:03 O'NEILL: Something wrong?

01:19:04:12 CARTER: No.

01:19:08:17 CARTER (CONT'D): I've just never blown up a star before.

01:19:11:14 O'NEILL: Well, they say the first one's always the hardest.

01:19:18:06 O'NEILL (CONT'D): They say that.

01:19:22:19 CARTER: Opening cargo bay doors.

01:19:29:02 CARTER (CONT'D): Releasing the clamps.

01:19:38:20 CARTER (CONT'D O/S): And the gate is away.

01:20:09:21 ENGLISH AMBASSADOR: A significant achievement, General, but it sounds as though the circumstances would be difficult to duplicate.

01:20:15:10 HAMMOND: For all their advanced technology, the Goa'uld have a fatal flaw--
arrogance.

01:20:21:11 MAJOR DAVIS (O/S): We've been able to take...

01:20:22:03 MAJOR DAVIS (CONT'D): advantage of the fact that they don't perceive us to be
a serious threat.

01:20:25:08 SENATOR KINSEY: Clearly, that's no longer the case.

01:20:29:15 MAJOR DAVIS: The point is they're not invincible.

01:20:31:20 MAJOR DAVIS (CONT'D O/S): Now, our technology may be inferior...

01:20:34:03 MAJOR DAVIS (CONT'D): but it is effective.

01:20:43:10 CARTER (O/S): Target Sierra One has been acquired.

01:20:45:14 TECHNICIAN: Missile away.

01:21:05:17 CARTER: Sierra One has been destroyed.

01:21:08:19 ENGLISH AMBASSADOR: Very impressive, but nothing on Earth could go up
against one of these motherships.

01:21:14:00 HAMMOND (O/S): Mr. Ambassador...

01:21:15:09 HAMMOND (CONT'D): our primary mission has been to obtain technology
capable of defending this planet.

01:21:20:18 MAJOR DAVIS: And we've made significant progress towards that end.

01:21:23:02 SENATOR KINSEY: We've made progress. The jury's still out on significant.

01:21:28:04 MAJOR DAVIS: During the six years that the Stargate has been in operation,
we've acquired a working knowledge of certain alien technologies...

01:21:34:05 MAJOR DAVIS (CONT'D O/S): and we tried to adapt those technologies to our
own uses. Towards that end, two years ago, we developed...

01:21:39:12 MAJOR DAVIS (CONT'D): a hybrid fighter-interceptor known as the X-301.

01:21:45:19 MAJOR DAVIS (CONT'D O/S): It was a combination of human technology and
parts from two salvaged Death Gliders.

01:21:50:00 MAJOR DAVIS (CONT'D): Unfortunately, the prototype failed to live up to
expectation.

01:21:57:07 TEAL'C: Beginning attack run now.

01:22:08:23 TEAL'C (CONT'D): I am no longer in control, O'Neill.

01:22:10:24 O'NEILL: Excuse me?

01:22:12:07 TEAL'C: The craft is no longer accepting input from the controls. The drive is at
full power.

01:22:18:25 O'NEILL: Flight, I'm declaring an emergency.

01:22:21:06 TEAL'C: The ejection system has malfunctioned.

01:22:23:06 O'NEILL: We are no longer in control of the vehicle. I repeat, we have lost control
and cannot eject.

01:22:29:25 MAJOR DAVIS (O/S): After the failure of the X-301,

01:22:32:17 MAJOR DAVIS (CONT'D): we began to concentrate on creating an entirely man-made craft with similar abilities. The result was the X-302.

01:22:50:19 CARTER: Navigation?

01:22:53:00 O'NEILL: Check.

01:22:54:15 CARTER: Oxygen, pressure, temperature control?

01:22:57:12 O'NEILL: All check.

01:22:58:22 CARTER: Inertial dampeners?

01:23:03:19 O'NEILL: Cool... and check.

01:23:06:29 CARTER: Engines?

01:23:08:19 O'NEILL: All check. Phasers?

01:23:12:07 CARTER: Sorry, sir. All systems operational.

01:23:15:24 CARTER (CONT'D): Mission Command, all systems go from Abados One.

01:23:32:10 CHINESE AMBASSADOR: Do you mean to tell me that the United States Air
Force is currently flying a fighter-interceptor that is capable of both aerial
combat and space flight?

01:23:42:22 MAJOR DAVIS: That's correct.

01:23:46:00 CHINESE AMBASSADOR: This is unacceptable.

01:23:48:08 HAMMOND: Mr. Ambassador, I understand how you feel.

01:23:50:10 CHINESE AMBASSADOR (O/S): With all due respect, General...

01:23:52:09 CHINESE AMBASSADOR (CONT'D): I don't think you do.

01:23:55:05 CHINESE AMBASSADOR (CONT'D): Your government has been operating this
Stargate for six years, supposedly for the benefit of all mankind...

01:24:01:10 CHINESE AMBASSADOR (CONT'D O/S): yet now we find out that you've been
taking advantage of the situation...

01:24:05:13 CHINESE AMBASSADOR (CONT'D): to create military hardware that radically
alters the balance of power on this planet.

01:24:10:23 HAMMOND: The X-302 was designed to defend against the Goa'uld. We have no
intention of using it against our neighbors.

01:24:16:22 CHINESE AMBASSADOR: And for that, we have only your word.

01:24:19:10 COLONEL CHEKOV (O/S): The United States...

01:24:20:26 COLONEL CHEKOV (CONT'D): has had such capabilities for some time, but
have not used them on other nations.

01:24:25:19 FRENCH AMBASSADOR: Are there any other new technologies...

01:24:27:26 FRENCH AMBASSADOR (CONT'D O/S): that we need to know about?

01:24:31:00 SENATOR KINSEY: Might as well tell them, General. They're going to find out
sooner or later.

01:24:39:05 HAMMOND: Ever since we encountered a Goa'uld mothership, we have been
working to find a viable countermeasure.

01:25:18:18 MAJOR DAVIS (O/S): Prometheus was designed to carry a complement of eight...

01:25:21:16 MAJOR DAVIS (CONT'D): X-302 fighters, and is one of several planned.

01:25:25:16 CHINESE AMBASSADOR: I must contact my government immediately.

01:25:28:27 HAMMOND: Mr. Ambassador... we volunteered this information in a spirit of
cooperation. We're trying to create a coalition to defend the entire world.

01:25:38:25 CHINESE AMBASSADOR: Under your leadership.

01:25:40:15 HAMMOND: We have the experience.

01:25:42:07 CHINESE AMBASSADOR: I'm sorry, General, but it may be impossible to achieve an agreement...

01:25:46:21 CHINESE AMBASSADOR (CONT'D O/S): as long as the Stargate and any resultant technologies remain solely under the control...

01:25:51:24 CHINESE AMBASSADOR (CONT'D): of the United States military.

01:25:53:21 ENGLISH AMBASSADOR: What do you suggest?

01:25:56:15 FRENCH AMBASSADOR (O/S): We could move the gate...

01:25:58:17 FRENCH AMBASSADOR (CONT'D): to a neutral location and create a permanent staff drawn from all five nations.

01:26:03:21 HAMMOND: I'm afraid we can't agree to that.

01:26:05:19 CHINESE AMBASSADOR: Well, that choice may finally not be up to you. Once the rest of the world learns of the Stargate, they may well demand it.

01:26:12:27 COLONEL CHEKOV: We support the United States.

01:26:15:16 CHINESE AMBASSADOR: And what are you getting in exchange for this support?

01:26:18:04

SENATOR KINSEY (O/S): Gentlemen, please.

01:26:19:29 SENATOR KINSEY (CONT'D): Perhaps I can offer a compromise. Please?

01:26:32:28 SENATOR KINSEY (CONT'D): I sympathize with the Ambassador's position. A
 device as powerful as the Stargate in the hands of a military
 organization...

01:26:44:26 SENATOR KINSEY (CONT'D): it's a recipe for abuse, despite everyone's best
 intentions.

01:26:53:15 CHINESE AMBASSADOR: What are you suggesting?

01:26:55:23 SENATOR KINSEY: We have a civilian agency know as the NID.

01:26:59:24 SENATOR KINSEY (CONT'D O/S): Now, its mandate has been to keep an eye
 on...

01:27:03:10 SENATOR KINSEY (CONT'D): top-secret projects like the Stargate Program...

01:27:06:17 SENATOR KINSEY (CONT'D O/S): and has done so from the beginning.

01:27:09:16 SENATOR KINSEY (CONT'D): I propose that we give this organization direct
 control of the gate...

01:27:16:11 SENATOR KINSEY (CONT'D O/S): effective immediately.

END OF ACT THREE

ACT FOUR

01:27:54:00 HAMMOND: You can't be serious.

01:27:56:05 SENATOR KINSEY: I'm completely serious, General. The NID is the only organization besides the Air Force that has the knowledge, experience, and skill to run the Stargate.

01:28:06:29 MAJOR DAVIS: They tried to kill you, Senator.

01:28:08:15 SENATOR KINSEY (O/S): Come now, Major.

01:28:09:25 SENATOR KINSEY (CONT'D): Those were rogue agents working for outside interests. Under the NID...

01:28:15:14 SENATOR KINSEY (CONT'D O/S): I'm sure that we can determine a suitable level of participation...

01:28:18:24 SENATOR KINSEY (CONT'D): for all the great nations represented here at this table.

01:28:23:15 HAMMOND: Senator, could we speak in private?

01:28:25:19 CHINESE AMBASSADOR: I find your reluctance to relinquish military control of the gate disturbing, General.

01:28:31:13 HAMMOND: You'd do a lot better to trust the United States Air Force than the NID, Mr. Ambassador.

01:28:36:09 SENATOR KINSEY (O/S): The General has an understandable...

01:28:38:12 SENATOR KINSEY (CONT'D): personal prejudice against the organization.

01:28:41:03 HAMMOND: Personal prejudice? Senator, their record speaks for itself.

01:28:44:23 O'NEILL: I've never met anyone who liked doing what they do more than you, and you were good at it, great.

01:28:52:19 O'NEILL (CONT'D): You'll never convince me you just got fed up. I'll never buy that.

01:28:57:20 HAMMOND: You don't understand.

01:28:59:09 O'NEILL: And I won't unless you explain it to me.

01:29:05:16 HAMMOND: Two weeks ago I was contacted by a representative of the NID. He suggested I should become more aggressive in my policies.

01:29:13:19 O'NEILL: They have no jurisdiction over you.

01:29:15:28 HAMMOND (O/S): They wanted me to help them gain access to off-world...

01:29:17:28 HAMMOND (CONT'D): technology, which they're unable to do since we shut
down their little side operation.

01:29:22:28 O'NEILL: You told them to go to hell.

01:29:24:22 HAMMOND (O/S): Of course, then he told me...

01:29:27:22 HAMMOND (CONT'D): if I didn't cooperate, there would be consequences.

01:29:30:09 HAMMOND (CONT'D O/S): The next day, two men in plain clothes...

01:29:33:24 HAMMOND (CONT'D): driving a black unmarked car picked up my
granddaughters at school.

01:29:39:07 O'NEILL: I don't believe it.

01:29:40:24 HAMMOND (O/S): They took them for a little ride...

01:29:42:24 HAMMOND (CONT'D): and then brought them home. The girls were fine, but I got the message.

01:29:49:07 HAMMOND: We're talking about a borderline criminal organization whose true mandate has always been to acquire alien technology at any cost.

01:29:57:06 FRENCH AMBASSADOR (O/S): If the threat posed...

01:29:59:04 FRENCH AMBASSADORE (CONT'D): by this Anubis is as serious as you say,
acquiring alien technology should be our first priority.

01:30:06:10 MAJOR DAVIS (O/S): Tell that to the people of Madrona, sir.

01:30:08:08 MAJOR DAVIS (CONT'D): The NID stole a weather-control device from that planet, causing a complete destabilization of their atmosphere.

01:30:12:24 MAJOR DAVIS (CONT'D O/S): They would've died if SG-1 hadn't have...

01:30:14:18 MAJOR DAVIS (CONT'D): tracked down the culprits and retrieved the device.

01:30:25:16 O'NEILL: Stand to, gentlemen.

01:30:29:15 O'NEILL (CONT'D): Keep those hands visible.

01:30:33:27 NDI AGENT: Who the hell are you?

01:30:36:06 O'NEILL: No one's damned business. Step away from the crate.

01:31:11:11 O'NEILL (CONT'D): Stop!

01:31:26:00 O'NEILL (CONT'D): Don't do it!

01:31:33:28 DANIEL: Ah!

01:31:35:08 O'NEILL: What?

01:31:39:25 DANIEL: I missed the address.

01:31:51:13 CARTER: At least we have this.

01:31:54:28 MAJOR DAVIS: Even after we managed to shut down their operation here on Earth, they continued to steal from an off-world base, but they stole from the wrong aliens.

01:32:08:08 WOMAN: What are they doing?

01:32:10:08 O'NEILL: Taking back what's rightfully theirs, I guess.

01:32:12:27 O'NEILL (CONT'D O/S): Listen up, all of you. You've got two choices here.

01:32:16:23 O'NEILL (CONT'D): As soon as they stop taking stuff, they're going to start taking people. Now, you can go with the Asgard... or you can follow me.

01:32:24:19 O'NEILL (CONT'D O/S): Your choice. I'll be...

01:32:26:09 O'NEILL (CONT'D): holding the door open so you can't go anywhere else.

01:32:41:20 (ALARM SOUNDING)

01:32:55:05 SENATOR KINSEY (O/S): Granted, the NID has employed...

01:32:57:05 SENATOR KINSEY (CONT'D): some questionable methods in the past, but we're
all agreed the status quo won't do...

01:33:02:25 SENATOR KINSEY (CONT'D O/S): and I would hesitate to point fingers, General
Hammond.

01:33:07:02 SENATOR KINSEY (CONT'D): That you and Jack O'Neill are still in charge of the Stargate program--

01:33:13:13 HAMMOND: If you're questioning our record--

01:33:15:01 SENATOR KINSEY: I'm questioning your competence...

01:33:18:05 SENATOR KINSEY (CONT'D): But if you want to look at your records in the company of these fine gentlemen, that's just fine.

01:33:25:21 SENATOR KINSEY (CONT'D O/S): Each of these reports details an incident in which the operation of the Stargate program...

01:33:32:10 SENATOR KINSEY (CONT'D): has brought this planet to the brink of destruction.

01:33:36:21 SENATOR KINSEY (CONT'D O/S): For example, four years ago, despite indications of extreme...

01:33:43:22 SENATOR KINSEY (CONT'D): danger, you opened a wormhole to a planet that
was in the process of being destroyed by a black hole.

01:33:50:05 MAJOR DAVIS: That was unforeseeable.

01:33:51:28 SENATOR KINSEY (O/S): Gravitational and time distortions...

01:33:53:28 SENATOR KINSEY (CONT'D): had been translated back through the gate, which
you had been unable to disengage...

01:33:58:13 SENATOR KINSEY (CONT'D O/S): and the Earth came...

01:34:00:07 SENATOR KINSEY (CONT'D): within a hair's breadth of being torn apart.

01:34:04:02 HAMMOND (O/S): We did manage to...

01:34:05:23 HAMMOND (CONT'D): shut down the gate by directing an explosive device through the wormhole, and I believe it was Jack O'Neill who risked his life to pull it off.

01:34:21:09 CARTER: Teal'c, pull him up.

01:34:56:15 SENATOR KINSEY (O/S): What else do we have here? Ah, yes.

01:35:00:11 SENATOR KINSEY (CONT'D): Isn't it true that while under your command, the
Stargate facility has been completely overrun by alien life forms?

01:35:21:23 CARTER: Get out of there!

01:35:29:22 (ALARM SOUNDING)

01:35:47:15 CARTER: Sir, we've set the self-destruct. You have less than five minutes to tell us to override. Do you copy?

01:35:52:09 O'NEILL: Roger that!

01:36:11:00 ALIEN: Now.

01:36:17:00 O'NEILL (O/S): Close that iris.

01:36:19:00 CARTER: I can't, sir. It's overridden. I'm shutting down the gate.

01:36:40:08 HAMMOND: The situation was successfully contained.

01:36:43:03 SENATOR KINSEY: The situation should never have arisen, not if you had been
doing your job...

01:36:51:01 SENATOR KINSEY (CONT'D): and these incidents are just the tip of the iceberg.

01:36:59:03 SENATOR KINSEY (CONT'D O/S): Face it, General...

01:37:00:11 SENATOR KINSEY (CONT'D): under your command, the Stargate program has
lurched from...

01:37:04:04 SENATOR KINSEY (CONT'D O/S): from one crisis to the next, never...

01:37:07:02 SENATOR KINSEY (CONT'D): averting disaster by anything more than the skin
of its teeth.

01:37:11:15 SENATOR KINSEY (CONT'D O/S): We can't afford to let...

01:37:13:22

SENATOR KINSEY (CONT'D): to let you roll the dice any longer.

END OF ACT FOUR

ACT FIVE

01:37:49:00 HAMMOND: Would you excuse us, please?

01:37:51:00 MAJOR DAVIS: I made a few phone calls, sir. It turns out Senator Kinsey is moving from appropriations to intelligence oversight.

01:37:56:00 HAMMOND: Which would put him in a position of direct power over the NID.

01:37:59:06 MAJOR DAVIS: He's manipulated this whole situation to gain control of the Stargate.

01:38:05:12 HAMMOND: I may have my own ace up my sleeve.

01:38:09:29 COLONEL CHEKOV (O/S): I understand your feelings, Mr. Ambassador...

01:38:12:12 COLONEL CHEKOV (CONT'D): believe me. For two years now, we've been junior partners in the Stargate program, following the lead of the Americans.

01:38:18:14 CHINESE AMBASSADOR: The Chinese government will not accept a secondary position so graciously.

01:38:22:09 COLONEL CHEKOV: There are advantages. The program costs them over \$7 billion a year to operate.

01:38:28:21 CHINESE AMBASSADOR: Well, they reap the benefits.

01:38:30:17 COLONEL CHEKOV: The X-303? Research and development of the hyperdrive alone has cost them over two billion, and it still doesn't function properly.

01:38:38:23 COLONEL CHEKOV (CONT'D): They will spend a lot more money and risk the lives of their people perfecting the design, then we'll get the blueprints and build our own ship in a fraction of the time for half the cost.

01:38:50:16 SENATOR KINSEY (O/S): Once again, I apologize, gentlemen.

01:38:54:03 SENATOR KINSEY (CONT'D): It seems a politician's work is never done.

01:38:57:22 COLONEL CHEKOV: You could have the same deal.

01:39:00:20 COLONEL CHEKOV: (SPEAKING RUSSIAN)

01:39:13:21 SENATOR KINSEY: Now... where were we?

01:39:18:00 HAMMOND: Gentlemen, I realize we're in no position to make demands here.
We're trying to reach a consensus,

01:39:23:02 HAMMOND (CONT'D O/S): but before you go back to your leaders and make your recommendations, I want you to consider something.

01:39:29:16 HAMMOND (CONT'D): Whoever is running the Stargate will be acting as representatives of this planet throughout the galaxy. They will be our ambassadors...

01:39:37:14 HAMMOND (CONT'D O/S): meeting other races, establishing ties with other worlds. It is true...

01:39:44:05 HAMMOND (CONT'D): that in the six years we've been running the Stargate,
we've made enemies...

01:39:49:15 HAMMOND (CONT'D O/S): but we've also made friends. I believe we've acquitted ourselves with honor. On that score, I stand by the record.

01:40:16:13 ASGARD #1: This is the Asgard planet Othala in the galaxy of Ida.

01:40:21:13 O'NEILL: Why did I come here?

01:40:25:12 ASGARD #2: The Ancients moved on...

01:40:26:25 ASGARD #2 (CONT'D O/S): from our region of space long ago,

01:40:29:12 ASGARD #2 (CONT'D): but your subconscious mind used their knowledge to find
us here...

01:40:32:28 ASGARD #2 (CONT'D O/S): where you could get help.

01:40:35:11 ASGARD #1: Very impressive.

01:40:37:03 O'NEILL: Well, you know.

01:40:40:09 ASGARD #1: We did not think your brains had advanced

01:40:42:07 ASGARD #1 (CONT'D O/S): even that far.

01:40:44:25 O'NEILL: How is it you know so much about our brains?

01:40:50:01 ASGARD #1: We have studied your race closely.

01:40:55:01 O'NEILL: Ah.

01:41:01:00 O'NEILL (CONT'D): What did you learn?

01:41:02:15 ASGARD #2: That your species has great...

01:41:04:28 ASGARD #2 (CONT'D O/S): potential.

01:41:08:18 O'NEILL: Great potential... that's good.

01:41:33:13 CHINESE AMBASSADOR: You make an interesting case, General.

01:41:35:12 CHINESE AMBASSADOR (CONT'D O/S): However...

01:41:36:29 CHINESE AMBASSADOR (CONT'D): I am afraid I must take this matter back to
my government and recommend full disclosure to our people.

01:41:42:10 FRENCH AMBASSADOR (O/S): I must do the same...

01:41:44:22 FRENCH AMBASSADOR (CONT'D): though, I will admit, Senator Kinsey's
 proposal is interesting.

01:41:49:09 SENATOR KINSEY: Thank you, Mr. Ambassador.

01:42:09:00 ENGLISH AMBASSADOR: Hello?

01:42:10:10 THOR: Hello. I am Thor, Supreme Commander of the Asgard fleet.

01:42:16:24 HAMMOND: Thank you for coming, Thor.

01:42:18:12 THOR (O/S): It is my pleasure, General Hammond.

01:42:20:28 THOR (CONT'D): The Asgard are in your debt.

01:42:22:29 ENGLISH AMBASSADOR: Your debt?

01:42:25:05 THOR: SG-1, under the command of General Hammond, has saved my people
 and yours, on many occasions.

01:42:32:06 THOR (CONT'D O/S): We are not only allies against the Goa'uld...

01:42:35:13 THOR (CONT'D): we are true friends.

01:42:38:28 SENATOR KINSEY: Commander Thor, my name is--

01:42:41:17 THOR: Senator Kinsey. O'Neill suggested I send you to a distant planet for your actions here, but I am reasonably certain his statement was in jest.

01:42:52:02 SENATOR KINSEY: I'm sure it was, Commander.

01:42:54:10 THOR (O/S): Supreme Commander. It is the opinion of the Asgard high council...

01:43:00:13 THOR (CONT'D): that Stargate Command should be left in the very capable hands of General Hammond and his team...

01:43:06:14 THOR (CONT'D O/S): and while our continued friendship with Earth is not contingent on that...

01:43:11:08 THOR (CONT'D): it is preferred.

01:43:17:23 ENGLISH AMBASSADOR: You came all this way just to tell us that?

01:43:21:18 THOR: And to install Asgard-designed shields and weapons on Prometheus.

01:43:26:27 THOR (CONT'D O/S): A small token of thanks for SG-1's recent efforts in securing...

01:43:31:29 THOR (CONT'D): our galaxy and yours from certain destruction.

01:43:35:13 ENGLISH AMBASSADOR: I see.

01:43:36:23 THOR (O/S): I hope I have been successful in convincing you.

01:43:40:13 THOR (CONT'D): Good day, General Hammond.

01:43:42:18 HAMMOND: Always a pleasure, Thor. Please drop in anytime.

01:43:51:00 ENGLISH AMBASSADOR (O/S): Well... that settles it, then.

01:43:55:03 ENGLISH AMBASSADOR (CONT'D): You have our support, General.

01:43:57:13 HAMMOND: Thank you, Ambassador.

01:43:59:06 FRENCH AMBASSADOR: Ours as well.

01:44:02:00 COLONEL CHEKOV (O/S): And the continued...

01:44:03:18 COLONEL CHEKOV (CONT'D): support of Russia.

01:44:05:06 MAJOR DAVIS: It's much appreciated, sir.

01:44:10:18 CHINESE AMBASSADOR: While I still have my reservations, I believe my
 government will agree that for the time being, the Stargate is in the right
 hands.

01:44:23:20 HAMMOND: Senator?

01:44:28:20 SENATOR KINSEY: I'll say this, General...

01:44:33:20 SENATOR KINSEY: Well played.
