TIMECODE            DIALOGUE

START TIMECODE 01:00:00:00 AT FIRST FRAME OF PICTURE

**RECAP**

01:00:00:20            TEAL'C: Previously on Stargate SG-1...

01:00:02:26            ZARIN: These two liquids mixed together form a most virulent poison.

01:00:06:04            DANIEL: Am I supposed to hold my breath?

01:00:07:22            ZARIN: The poison is only deadly to symbiotes.

01:00:09:07            COLSON: There's enough material in that vial to kill every Tok'ra on this base  
twice over.

01:00:13:07            TEAL'C (V/O): Anubis once probed Thor's mind, and in doing so, they...

01:00:15:25            TEAL'C (CONT'D): would've gained access to Asgard beaming technology.

01:00:18:02            BRIAN: Did you really think that they were going to let you tell a secret like this?

01:00:21:10            COLSON: Brian! What are you talking about?

01:00:22:07            BRIAN: They call themselves "The Trust".

**STARGATE SG-1 "ENDGAME" Episode #810**

01:00:24:18 CARTER: They've been funding various secret endeavors, all aimed at controlling alien technology for their own purposes.

01:00:29:22 HOSKINS (V/O OVER PHONE): The symbols, Dr. Jackson. We know it's the language of the Ancients. We need them translated into Goa'uld.

01:00:35:23 HOSKINS: So either you give us what we want...or I will kill her.

**END OF RECAP**

**STARGATE SG-1 "ENDGAME" Episode #810****TEASER**

01:01:00:26 SGT. MACKENZIE: What's going on?

01:01:02:25 TECHNICIAN: Not much.

01:01:09:02 SGT. MACKENZIE: I hate the graveyard shift. Nothing exciting ever happens on  
it.

01:01:14:14 TECHNICIAN: Hey...just 'cause it's 3:00 a.m. here doesn't mean it's not daylight  
on other planets...There could be a team coming in hot any second now.

01:01:29:03 SGT. MACKENZIE: Yeah. That's true....So, coffee?

01:01:39:12 TECHNICIAN: Yeah.

01:01:44:23 SGT. MACKENZIE: Let me ask you something. It's late at night, and there's not  
that many people around. Do you ever get the urge just to dial up the  
gate and check out another planet? Just for a few minutes?

01:01:53:09 TECHNICIAN: That'd be a "no."

01:01:55:07 SGT. MACKENZIE: Me...me...me neither.

01:01:59:13 TECHNICIAN: What the hell?

01:02:21:19 SGT. MACKENZIE: The gate's gone.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:02:25:10           TECHNICIAN: I...I can see that.

01:02:29:14           SGT. MACKENZIE: Are we going to get in trouble for this?

**END OF TEASER**

**STARGATE SG-1 "ENDGAME" Episode #810****ACT ONE**

01:04:00:26 DANIEL: What about your instruments? Were you detecting any signs of gate activity?

01:04:04:08 TECHNICIAN: No, sir.

01:04:05:09 DANIEL: Did anyone approach the gate at any time?

01:04:06:26 TECHNICIAN: No.

01:04:07:16 SGT. MACKENZIE: No.

01:04:08:19 DANIEL: So no unusual activity of any kind?

01:04:14:15 DANIEL: Okay.

01:04:16:05 SGT. MACKENZIE: Sir, are we going to be facing any kind of disciplinary action for this?

01:04:20:25 DANIEL: No, Sergeant, I think it's safe to say there was nothing you could have done.

01:04:24:14 SGT. MACKENZIE: Thank God! I mean, there wasn't. One minute, we were getting coffee, and the next minute, the gate's gone--

01:04:29:28 DANIEL (O/S INTERRUPTING): Wait a minute. Wait a minute.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:04:31:13 DANIEL (CONT'D): You were getting coffee?

01:04:35:04 SGT. MACKENZIE: Um...It's...

01:04:38:10 DANIEL: I'm joking. I'm joking.

01:04:40:01 DANIEL (CONT'D O/S): It's just a joke. I'm sorry. Okay, that's all.

01:04:42:06 DANIEL (CONT'D): Thank you, guys, I appreciate it. Okay.

01:04:54:13 DANIEL: Boy, I'd hate to be the guy that has to explain this to the President.

01:05:01:29 CARTER: Sir...I've got the video surveillance footage. The gate disappeared at 0307. There were two airmen in the gate room and two technicians in the control room, but none of them saw or heard anything out of the ordinary prior to the flash.

01:05:30:00 DANIEL: Is it just me, or does that look like an Asgard beam?

01:05:32:05 CARTER: It does, which makes no sense. Why would they take our gate?

01:05:35:17 O'NEILL: Yeah. Usually they ask nicely before they ignore us and do whatever they damn well please.

01:05:41:21 DANIEL: What about the Prometheus? Didn't the Asgard install beam...

01:05:44:21 DANIEL (CONT'D O/S): technology, as well as a hyperdrive?

**STARGATE SG-1 "ENDGAME" Episode #810**

01:05:45:25           CARTER: Yeah. It's in the hangar. We're still making adjustments to the new engines. There is another possibility. We know that Anubis possessed Asgard beam technology. We also know that Baal took over much of his fleet.

01:05:57:05           DANIEL: You think Baal stole our gate?

01:05:59:10           CARTER: To be honest, right now I don't know what to think.

01:06:01:28           O'NEILL: Well, I need some answers.

01:06:04:11           CARTER (O/S): That's not going to be easy, sir.

01:06:06:02           CARTER (CONT'D): Without a gate, we have no access to offworld intel. We have no way of knowing what's going on out there.

01:06:11:20           O'NEILL: You'll think of something...In the meantime, I have a phone call to make.

01:06:24:15           DANIEL: Is Teal'c still on P4S 161?

01:06:27:12           CARTER: Yeah, his meeting with the rebel Jaffa leaders should be over by now. When he can't contact us, he'll follow protocol and head to the Alpha Site.

01:06:55:05           TEAL'C: Colonel Pierce.

01:06:56:06           COLONEL PIERCE: Teal'c.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:06:57:07           TEAL'C: What is the situation?

01:06:58:18           COLONEL PIERCE: We've been out of contact with Earth for seven hours now.  
                          We can establish a wormhole, but all we get is a "Do Not Proceed"  
                          response to our IDC.

01:07:05:14           TEAL'C: As was the case when I attempted to return from my mission.

01:07:09:20           COLONEL PIERCE: They've had lockdowns before, but the fact that they're not  
                          responding to any of our radio calls has me concerned. Right now, we  
                          have no idea what's happening at Stargate Command.

01:07:20:05           TEAL'C: I will return to P4S 161. The rebel Jaffa will provide me with a cargo ship,  
                          which I will then take to Earth.

01:07:28:06           COLONEL PIERCE: Teal'c...we're not jumping to conclusions. This may be just a  
                          malfunction, but it's also possible Earth has been compromised.

01:07:37:07           TEAL'C: Indeed.

01:07:47:02           DANIEL: Find anything?

01:07:48:20           CARTER (O/S): Yeah, as a matter of fact, I have. I've been going over...

**STARGATE SG-1 "ENDGAME" Episode #810**

01:07:51:11           CARTER (CONT'D): gate room security tapes and the sensor logs. For two days before the gate disappeared, we were getting this anomalous reading. We assumed it was residual feedback from a recent overhaul of the superconductors, but I don't think so. Look at this.

01:08:15:08           DANIEL: What was that?

01:08:16:18           CARTER (O/S): I don't know...

01:08:17:22           CARTER (CONT'D): but I checked the time code, and this corresponds with the exact moment that the sensors began recording the anomaly.

01:08:34:18           DANIEL: I think we need to talk to this guy.

01:08:37:19           CARTER (O/S): Dr. Kevin Hartkans.

01:08:39:23           CARTER (CONT'D): He's been with the program seven months.

01:08:43:01           CARTER (CONT'D O/S): Clean record, nothing out of the ordinary...except that he's gone missing.

01:08:46:14           DANIEL (O/S): He failed to report...

01:08:47:08           DANIEL (CONT'D): for duty this morning. We checked his apartment. It was cleaned out.

01:08:50:16           O'NEILL: This is starting to sound familiar.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:08:53:01 DANIEL: You think it's the Trust?

01:08:54:28 CARTER: Well, they've been busy lately. They had Teal'c under surveillance, they  
blackmailed you, and they tried to kill...

01:08:59:23 CARTER (CONT'D O/S): Alec Colson. Obviously, the operation is a lot bigger  
than we first thought.

01:09:03:19 CARTER (CONT'D): Now, as far as we know, the NID has been clean for over a  
year, but there are still dozens of ex-agents who are unaccounted for,  
and they continue to receive financing from unknown sources.

01:09:13:06 DANIEL: If they can take the gate out from under us, they could empty the vault at  
Fort Knox.

01:09:18:05 CARTER (O/S): Not necessarily.

01:09:19:15 CARTER (CONT'D): If they could take the gate any time they wanted, they would  
have, but that doesn't explain what Hartkans was doing, or the  
anomalous signal.

01:09:25:23 O'NEILL: Got a theory?

01:09:27:20 CARTER (O/S): The Prometheus has...

**STARGATE SG-1 "ENDGAME" Episode #810**

01:09:28:26 CARTER (CONT'D): Asgard beam technology, but not Asgard sensors, which means that we can't pinpoint specific targets unless they've been tagged in advance. What if whoever did this has the same problem?

01:09:39:00 DANIEL: You think the anomaly was a locator beacon.

01:09:42:00 CARTER: Yeah, which Hartkans placed directly on the gate. I mean, there's no other way they could pull this off.

01:09:47:11 O'NEILL: So my stamp collection is safe. How does that help us find the gate?

01:09:51:18 CARTER: Well, if they want to keep using the beam, they'll have to keep using the beacons. We could request NSA satellite time to see if we could detect the signal.

01:10:00:01 O'NEILL: Do it.

01:10:25:29 TEAL'C: M'zel.

01:10:27:01 M'ZEL: Teal'c.

01:10:30:16 TEAL'C: What has happened here?

01:10:32:19 M'ZEL: When I arrived, they were all dead.

01:10:37:15 TEAL'C: All?

**STARGATE SG-1 "ENDGAME" Episode #810**

01:10:41:00 M'ZEL: I will show you.

01:11:09:00 SERGEANT: We took out a couple of guards, and we have the area secured.  
Satellite intel puts the signal somewhere inside this complex.

01:11:14:18 CARTER: All right, you three are with us. Keep your men on the perimeter. No  
one in, no one out.

01:11:17:28 SERGEANT: Understood.

01:11:19:09 SERGEANT (CONT'D INTO RADIO): Teams two and three, retain on perimeter.

01:11:48:20 DANIEL: Sam!

01:11:55:07 CARTER: Daniel, these are VX rockets.

01:11:57:20 DANIEL: Yeah? What's this?

01:11:59:08 CARTER: Methylphosphonothioic acid.

01:12:00:20 DANIEL: Which is?

01:12:01:20 CARTER: Nerve gas.

01:12:02:20 DANIEL: Okay, putting that back.

01:12:05:08 CARTER: There's enough here to kill several hundred thousand people.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:12:08:10 DANIEL: What would the ex-NID be doing stockpiling this stuff?

01:12:10:01 CARTER: I've no idea.

01:12:12:15 SERGEANT: Drop it!

01:12:28:19 DANIEL: Ah! We got a problem here.

01:12:30:09 DANIEL (CONT'D O/S): What do we do?

01:12:32:15 CARTER: It's too late.

01:12:38:22 DANIEL: Nothing's happening.

01:12:41:27 CARTER: This doesn't make sense. The effects are almost instantaneous. We  
should all be dead.

01:13:02:20 M'ZEL: You see?

**END OF ACT ONE**

**ACT TWO**

01:13:46:27 CARTER: We managed to identify the liquid we found in the warehouse. It's  
                    symbiote...

01:13:51:12 CARTER (CONT'D O/S): poison...specifically, the new formula we were working  
                    on in conjunction with the Tok'ra. It's more stable than the original and  
                    easier to produce but just as ...

01:14:01:04 CARTER (CONT'D): deadly to the Goa'uld.

01:14:02:11 DANIEL: And the Jaffa.

01:14:03:17 CARTER: Exactly, which is why we agreed not to use it except in defensive...

01:14:06:27 CARTER (CONT'D O/S): situations. Sir, the people behind this have the gate, and  
                    they have rockets capable of delivering the poison in aerosol form over  
                    large areas.

01:14:16:11 CARTER (CONT'D): I think the Trust intends to launch a full-scale chemical attack  
                    against the Goa'uld, without any regard for the millions of Jaffa lives that  
                    could be lost in the process.

01:14:25:03 O'NEILL: So they didn't get the memo.

01:14:29:14 DANIEL: The guy from the warehouse isn't talking, but he was carrying this.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:14:38:13 DANIEL (CONT'D O/S): It's an Area 51...

01:14:39:02 DANIEL (CONT'D): identification badge.

01:14:50:22 DR. BRICKSDALE: Colonel Carter, Dr. Jackson, sorry to keep you waiting.

01:14:53:06 CARTER: Dr. Bricksdale, I believe you've been briefed on our situation.

01:14:56:10 DR. BRICKSDALE: Yes, I have.

01:14:57:09 CARTER: Well, as a result of our investigation, we have reason to believe that  
your security has been compromised.

01:15:01:08 DR. BRICKSDALE: With all due respect, Colonel, we're not the ones who lost the  
Stargate.

01:15:04:21 DANIEL: But alien technology has gone missing from Area 51 before.

01:15:08:09 DR. BRICKSDALE: Yes, however, our security measures have been significantly  
increased since then. No one's allowed to bring anything in or out, no  
computers, no cellphones, not even their street clothes...

01:15:17:06 DR. BRICKSDALE (CONT'D O/S): as you've seen. All personnel are subject to a  
thorough...

01:15:20:10 DR. BRICKSDALE (CONT'D): search and scan every time they leave.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:15:22:01 CARTER: Look, whoever took the Stargate has access to Asgard beam technology. Last year, when Osiris came to Earth, she used that same technology, which she activated remotely with a wrist device. After she was captured, that wrist device was brought here, and you worked on it.

01:15:37:10 DR. BRICKSDALE: And it's been here ever since.

01:15:40:28 DANIEL (O/S): Well, if you don't mind...

01:15:41:19 DANIEL (CONT'D): we'd like to see it.

01:15:50:24 COLONEL PIERCE: Dr. Harris checked out some of the dead Jaffa on P4S 161. You were right. It was the Tok'ra symbiote poison.

01:15:57:10 TEAL'C: I would not have believed it had I not seen it with my own eyes.

01:16:00:10 COLONEL PIERCE: I knew the Tok'ra had lost patience with the alliance, but I never thought they'd do anything like this.

01:16:05:09 M'ZEL: Teal'c! I have received word from our Jaffa brothers. Three more Goa'uld planets have been attacked. Millions are dead.

01:16:38:03 DR. BRICKSDALE: You see? Right where we left it.

01:16:40:17 CARTER: Sorry if I'm a little skeptical, but we've been down this road before.

01:16:47:05 (COMPUTER SCANNER BEEPS)

**STARGATE SG-1 "ENDGAME" Episode #810**

01:16:49:14 CARTER: It's real.

01:16:51:19 DR. BRICKSDALE (O/S): Like I said. We figured if Osiris's ship was still up there...

01:16:55:17 DR. BRICKSDALE: we could use the wrist device to get onboard. Unfortunately, it's not only keyed to presence of Naquadah in the blood of the user, but also specific Goa'uld DNA. We tried to create an adapter using samples of both elements, but we didn't get anywhere.

01:17:08:12 DANIEL: So the ship is probably still in orbit, but cloaked.

01:17:12:20 CARTER: In which case, we have no way to find it.

01:17:17:15 M'ZEL: The Tok'ra will be made to pay for this treachery!

01:17:21:06 COLONEL PIERCE: Let's just calm down a second. We need to figure out what's going on.

01:17:25:06 M'ZEL: What more do you need to know? The Jaffa are being murdered, poisoned like vermin.

01:17:30:25 COLONEL PIERCE: The Tok'ra have had this chemical weapon for a long time. Why would they suddenly decide to use it now?

01:17:36:14 TEAL'C: Perhaps the failure of the alliance convinced them that there is no other way.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:17:40:08 COLONEL PIERCE: There's something else going on. It's not a coincidence that this happened immediately after we lost contact with Earth.

01:17:52:01 TEAL'C: That does seem unlikely. We must speak to the Tok'ra directly.

01:17:56:29 COLONEL PIERCE: That's not so easy. Ever since they left the Alpha site, we haven't had much intelligence on their movements. We have no idea where their new base is.

01:18:04:12 TEAL'C: We still know the locations of some of their operatives. I believe our best chance for contact...

01:18:08:20 TEAL'C (CONT'D O/S): is P3S 114.

01:18:10:05 TEAL'C (CONT'D): The Tok'ra operative named Zarin is undercover, commanding one of Baal's garrisons on that world.

01:18:13:21 M'ZEL: I will come with you.

01:18:14:27 COLONEL PIERCE: Whoa, hold on a minute here. You're talking about walking into Goa'uld occupied territory, and there's no Jaffa fifth column there to help you out. Without sympathetic warriors in Zarin's ranks, how do you plan to avoid being captured?

01:18:27:24 TEAL'C: We do not.

01:18:28:29 COLONEL PIERCE: What?

**STARGATE SG-1 "ENDGAME" Episode #810**

01:18:30:19 M'ZEL (O/S): Only by being captured...

01:18:32:07 M'ZEL (CONT'D): will we be brought before the commander.

01:18:34:17 COLONEL PIERCE: That's how you're going to make contact?

01:18:35:17 TEAL'C (O/S): We must speak to the Tok'ra.

01:18:37:11 TEAL'C (CONT'D): There is no other way.

01:18:39:01 COLONEL PIERCE (O/S): It's too risky.

01:18:40:02 COLONEL PIERCE (CONT'D): You walk in there unannounced, and Zarin could  
have you sacrificed just to maintain her cover.

01:18:43:29 TEAL'C: That is a great possibility.

01:18:49:19 COLONEL PIERCE: You realize the second you walk through that gate, you're on  
your own.

01:18:55:21 TEAL'C: Understood.

01:19:28:20 HOSKINS: So, what's the big emergency?

01:19:29:24 DR. BRICKSDALE: I can't do this anymore.

01:19:31:00 HOSKINS (O/S): You've already...

**STARGATE SG-1 "ENDGAME" Episode #810**

01:19:31:18 HOSKINS (CONT'D): taken the money, Doctor.

01:19:32:24 HOSKINS (CONT'D O/S): It's a little late for cold feet.

01:19:34:01 DR. BRICKSDALE: You don't understand. They came to see me. They asked me  
about the wrist device.

01:19:37:15 HOSKINS (O/S): Who?

01:19:38:21 DR. BRICKSDALE: Two people from Stargate Command.

01:19:40:03 HOSKINS: And you arranged a meeting with me?

01:19:42:21 DR. BRICKSDALE: What?

01:19:46:17 HOSKINS: You were followed.

01:20:16:26 BLACK OP #1: Hold your fire! We need him alive!

01:21:13:20 JENNINGS (INTO RADIO): Brooks.

01:21:14:24 BROOKS (V/O FILTERED THROUGH RADIO): Go ahead.

01:21:15:23 JENNINGS (INTO RADIO): We've got a...

01:21:16:03 JENNINGS (CONT'D O/S INTO RADIO): small problem here. Take a locator  
beacon and get down to Hoskins' last position.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:21:20:10            BROOKS (V/O FILTERED THROUGH RADIO): What happened?

01:21:21:11            JENNINGS (INTO RADIO): We've got an uninvited guest.

**END OF ACT TWO**

**STARGATE SG-1 "ENDGAME" Episode #810****ACT THREE**

01:21:55:28           ZARIN: Speak.

01:21:57:04           JAFFA: My Lord Zarin, two enemy Jaffa have been captured...

01:22:01:02           JAFFA (CONT'D O/S): near the gate. One of them...

01:22:03:08           JAFFA (CONT'D): is the shol'va, Teal'c.

01:22:07:29           ZARIN: Are you certain?

01:22:12:03           JAFFA: I am. Lord Baal will be most pleased, will he not?

01:22:18:01           ZARIN: Yes...of course.

01:22:21:17           ZARIN (CONT'D O/S): You have done well.

01:22:24:13           ZARIN (CONT'D): Now, bring them to me.

01:22:27:02           JAFFA: Yes, my Lord.

01:22:41:02           DANIEL: I'm going to ask you again. Where's Colonel Carter?

01:22:45:01           DR. BRICKSDALE: I don't know!

01:23:07:20           DANIEL: You're going to need to start cooperating.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:23:10:07 DR. BRICKSDALE: I can't.

01:23:10:27 DANIEL (O/S): A decorated officer...

01:23:11:20 DANIEL (CONT'D): in the United States Air Force and a member of one of our  
government's ...

01:23:14:13 DANIEL (CONT'D O/S): most top-secret organizations is missing, and you're  
implicated.

01:23:18:03 DANIEL (CONT'D): I don't think you're going to just walk away from this.

01:23:22:27 DR. BRICKSDALE: They'll kill me.

01:23:24:12 DANIEL: We can protect you...and we can also choose to ignore your \$2 million  
Cayman Island account...You didn't think we'd find out about that, huh?

01:23:47:10 DR. BRICKSDALE: So if I help you, I can keep the money?

01:23:49:00 DANIEL: We could come to an arrangement.

01:24:14:10 JAFFA: The prisoners, my Lord.

01:24:16:00 ZARIN: Leave us.

01:24:18:25 JAFFA: My Lord?

**STARGATE SG-1 "ENDGAME" Episode #810**

01:24:22:02 ZARIN: I intend to question them myself. Leave us now.

01:24:37:06 ZARIN: Are you mad? What are you doing here?

01:24:39:06 TEAL'C: We must speak with you.

01:24:41:07 ZARIN (O/S): Speak with me?

01:24:42:15 ZARIN (CONT'D): Do you not realize that by coming here, you have placed all our  
lives in danger?

01:24:46:17 TEAL'C: Are you not in control of this garrison?

01:24:48:15 ZARIN: I am, and as such, it is my responsibility to see to it that you are tortured  
for information...

01:24:55:21 ZARIN (CONT'D O/S): until such time...

01:24:57:12 ZARIN (CONT'D): that Baal arrives to witness your execution.

01:25:12:12 DANIEL: So what's it going to be?

01:25:17:01 DR. BRICKSDALE: You said Colonel Carter was missing?

01:25:18:26 DANIEL: Mm-hmm.

01:25:23:09 DR. BRICKSDALE: Well, she's probably on the ship.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:25:25:01 DANIEL: Osiris's ship? So you did manage to get onboard.

01:25:33:02 DR. BRICKSDALE: About a year ago, some men came to see me. They knew everything about my work, the Stargate, Osiris. They knew there was a possibility that a cloaked ship had been left in orbit, and they wanted it badly. I told them that the key was the wrist device, but I couldn't get it out of there, at least not through the front door.

01:25:53:11 DANIEL: What do you mean?

01:25:55:29 DR. BRICKSDALE: One day I was in the lab working on the adapter, and the next thing I know, I found myself on the ship. I had remotely activated the transport beam.

01:26:06:05 DANIEL: Which you failed to report.

01:26:11:12 DR. BRICKSDALE: It was killing me that I wasn't able to tell anybody I'd figured it out. I had to keep telling them it wasn't working.

01:26:18:10 DR. BRICKSDALE (CONT'D O/S): Anyway, after that, I went back and forth half a dozen times...

01:26:22:25 DR. BRICKSDALE (CONT'D): but at the end of the day, the wrist device was always back where it belonged.

01:26:26:21 DANIEL: And you beamed the others up using locator beacons.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:26:29:21 DR. BRICKSDALE: Well, the beam was the only thing that worked without the  
command codes...and that's where you came in.

01:26:37:16 DANIEL: The translation.

01:26:41:17 DR. BRICKSDALE (O/S): Osiris worked for Anubis...

01:26:43:03 DR. BRICKSDALE (CONT'D): and Anubis had all his command codes translated  
into...

01:26:45:29 DR. BRICKSDALE (CONT'D O/S): Ancient.

01:26:45:29 DANIEL (OVERLAPPING): Ancient.

01:26:48:11 DR. BRICKSDALE (O/S): Once they had full control of the ship, thanks to you,  
they had no need for me. They kept a permanent presence up there...

01:26:54:03 DR. BRICKSDALE (CONT'D): 24-7, worked in shifts. I went back to Area 51 and  
sabotaged the adapter. The project was shelved, and no one was the  
wiser.

01:27:06:15 DANIEL: Can you get the wrist device to work again?

01:27:08:11 DR. BRICKSDALE: Absolutely.

01:27:22:05 BROOKS: Launch window in three minutes. Ready for upgrade.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:27:25:00 HOSKINS: Get down to the engine room. Check the power relays.

01:27:27:03 BROOKS: Yes, sir.

01:27:30:12 JENNINGS: Sir.

01:27:35:01 HOSKINS: Colonel Carter. Welcome aboard.

01:27:37:16 CARTER: Where are we?

01:27:39:21 HOSKINS: We're in a polar orbit around the moon. Cloaked, of course.

01:27:44:20 CARTER: This is the ship Osiris left behind.

01:27:46:11 HOSKINS (O/S): We really have to...

01:27:47:15 HOSKINS (CONT'D): thank you. If you hadn't caught her, we never would've had  
this opportunity.

01:27:50:27 CARTER: You know they're going to come after you.

01:27:52:20 JENNINGS: Prometheus is undergoing a refit.

01:27:55:16 CARTER: They still have sub-light engines.

01:27:57:13 CARTER (CONT'D O/S): Once they realize you're in a ship...

**STARGATE SG-1 "ENDGAME" Episode #810**

01:27:59:06 CARTER (CONT'D): they'll launch, and even with a cloak, you're giving off an energy signature.

01:28:03:04 HOSKINS: We're operating at minimal power. Maybe after a year...

01:28:06:19 HOSKINS (CONT'D O/S): of intensive scans, they might be able to find us, but this won't take that long.

01:28:12:00 CARTER (O/S): You're going to launch...

01:28:12:18 CARTER (CONT'D): a chemical attack against the Goa'uld.

01:28:14:25 JENNINGS (O/S): We already have.

01:28:16:04 JENNINGS (CONT'D): We're starting with Baal's territory, since he's the most immediate threat right now.

01:28:20:28 CARTER: You realize you're killing millions of innocent Jaffa.

01:28:25:05 HOSKINS (O/S): Spare me, Colonel. The Jaffa are a race of warriors...

01:28:28:22 HOSKINS (CONT'D): bred specifically to serve the Goa'uld and enslave humans throughout the galaxy.

01:28:32:17 CARTER: They're indoctrinated from childhood to believe that the Goa'uld are their gods. They don't have a choice.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:28:37:05 JENNINGS: So they're just following orders, right? Where've I heard that argument before?

01:28:41:12 CARTER: What about the rebel Jaffa? They're growing in numbers every day.

01:28:46:10 JENNINGS (O/S): We consider them...

01:28:48:05 JENNINGS (CONT'D): acceptable losses.

01:28:50:29 HOSKINS (O/S): It's very simple, Colonel. Earth faces an imminent threat...

01:28:55:12 HOSKINS (CONT'D): and we have a weapon that can eliminate that threat. We intend to use it.

01:29:02:26 JENNINGS: We're ready.

01:29:07:01 HOSKINS: What's the next target?

01:29:10:21 JENNINGS: P3S 114.

01:29:12:25 HOSKINS: Dial it.

01:29:16:14 JENNINGS: Yes, sir.

01:29:24:22 ZARIN: You force me to choose between abandoning my mission and allowing you to die.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:29:31:05 M'ZEL: I would worry more about my own life if I were you, Tok'ra.

01:29:35:09 TEAL'C: M'zel! I feel as you do, brother...but this is not the way.

01:29:56:15 ZARIN: Why are you here?

01:29:57:21 M'ZEL: We know about the attacks.

01:29:59:14 ZARIN: What attacks?

01:30:01:17 TEAL'C: The Tok'ra have been using symbiote poison...

01:30:03:21 TEAL'C (CONT'D O/S): against the Goa'uld. The Jaffa of three worlds...

01:30:05:19 TEAL'C (CONT'D): have been annihilated thus far.

01:30:07:19 ZARIN: Impossible.

01:30:09:14 M'ZEL: We have seen it with our own eyes...

01:30:11:12 M'ZEL (CONT'D O/S): an entire Jaffa...

01:30:12:23 M'ZEL (CONT'D): army lying dead on the ground, with no wounds, no signs of  
battle. How do you explain this?

01:30:18:27 ZARIN: I cannot, but I can assure you that the Tok'ra are not responsible.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:30:24:15           ZARIN (CONT'D O/S): If these attacks had been planned...

01:30:27:04           ZARIN (CONT'D): I would have been informed.

01:30:38:17           JENNINGS: Initiating launch sequence.

01:30:40:26           CARTER: You can't do this. It's murder.

01:30:43:14           HOSKINS: That's where you're wrong, Colonel...It's war.

01:30:46:09           JENNINGS: Launching in three, two, one.

01:31:09:23           ZARIN: What was that?

01:31:15:04           JAFFA: My Lord, we are under attack.

01:31:17:01           ZARIN: How?

01:31:18:14           JAFFA: A weapon was fired through the gate. It exploded over the city--

01:31:22:28           JAFFA (CONT'D): Lord Zarin...Lord Zarin!

01:31:35:13           TEAL'C: Brothers, we must leave immediately.

01:31:38:08           JAFFA: Kree ta'lak! You are not going anywhere, Shol'va.

01:31:44:03           TEAL'C: You do not understand.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:31:52:28           TEAL'C: M'zel...There may still be time.

01:32:05:15           M'ZEL: I die...free.

01:32:15:20           TEAL'C: Indeed.

**END OF ACT THREE**

**ACT FOUR**

01:33:01:09 COMM. OFFICER: Sensor grid R-14 shows no anomalies, sir.

01:33:04:23 COLONEL PENDERGAST: Very well, proceed to the next grid.

01:33:06:18 COMM. OFFICER: Yes, sir.

01:33:07:08 COLONEL PENDERGAST: She's out there somewhere.

01:33:22:20 DANIEL: Make it work.

01:33:26:07 JENNINGS: Our next target is...P5R 357.

01:33:30:20 HOSKINS: Let's do it.

01:33:31:29 CARTER (O/S): I wouldn't bother.

01:33:34:22 CARTER (CONT'D): Baal abandoned that planet six months ago when the  
Naquadah mines went dry.

01:33:39:27 JENNINGS: She's lying.

01:33:42:05 CARTER: Go ahead, waste another rocket. That's one less planet you'll be able to  
destroy.

01:33:49:14 HOSKINS: She does have more up-to-date intelligence.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:33:55:17 CARTER: She's bluffing.

01:33:56:20 HOSKINS: You could make this a lot less painful if you help us select...

01:34:00:03 HOSKINS (CONT'D O/S): optimum targets.

01:34:02:20 CARTER: What are you talking about?

01:34:03:29 HOSKINS: You know as much about the current tactical and strategic positions of  
the different System Lords as anyone on Earth.

01:34:09:02 CARTER: I don't know as much as you think.

01:34:10:19 HOSKINS (O/S): You know enough to...

01:34:11:17 HOSKINS (CONT'D): help us get maximum effect with minimum collateral  
damage. You're the one who wants to save innocent lives.

01:34:20:15 CARTER: Nice try.

01:34:23:19 JENNINGS: So...

01:34:24:09 JENNINGS (CONT'D O/S): are we going for P5R 357 or not?

01:34:33:22 HOSKINS: Go to the next one on the list.

01:34:54:18 O'NEILL: All right. Tell me again why I should agree to this.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:34:57:17 DANIEL: Because it's the only way we have to get on the ship, and if they've changed the command codes, I'm the one who has the best chance to decipher the Ancient symbols.

01:35:03:11 O'NEILL: And if there are 10 armed goons when you get there, you're the one that's going to...get--

01:35:10:07 DANIEL: Better ideas?

01:35:14:00 O'NEILL (O/S): Look, Daniel...

01:35:15:00 O'NEILL (CONT'D): just because I don't have a better idea is no reason to do anything.

01:35:21:26 DANIEL (O/S): Look, once I shut down the cloak...

01:35:23:28 DANIEL (CONT'D): Prometheus will be able to pinpoint the ship's location. Then all I have to do is disable the hyperdrive and wait for the cavalry. They'll never see it coming.

01:35:29:21 O'NEILL: Which is one of the advantages of a totally insane idea.

01:35:34:10 DANIEL: Yeah, where did I learn that from? Okay.

01:35:59:05 DANIEL: See you soon.

01:36:26:29 DANIEL: Come on....Fine.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:36:54:18 COMM. OFFICER: Sir, we have something. Definitely a ship. Bearings 157 by  
229. 500,000 kilometers.

01:37:00:02 COLONEL PENDERGAST: Battle stations. Plot an intercept course.

01:37:03:05 COMM. OFFICER: Yes, sir.

01:37:04:07 COLONEL PENDERGAST: General O'Neill, this is Prometheus.

01:37:05:15 O'NEILL: Go ahead.

01:37:07:04 COLONEL PENDERGAST (V/O FILTERED THROUGH RADIO): Looks like Dr.  
Jackson pulled it off, sir.

01:37:08:10 COLONEL PENDERGAST (CONT'D): We have them on our screens, and we're  
moving in.

01:37:10:18 O'NEILL: Understood.

01:37:23:20 BROOKS: We've got a problem. I just monitored a 60% drop in our power  
consumption.

01:37:28:10 HOSKINS: The cloak. Stay with her.

01:38:03:08 HOSKINS: Get up to the bridge. Get that cloak back online.

01:38:05:18 BROOKS: Yes, sir.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:38:13:28           COMM. OFFICER: We're in weapons range, sir.

01:38:16:00           COLONEL PENDERGAST: Have they noticed us yet?

01:38:17:29           COMM. OFFICER: I don't think so. They seem to be operating at minimal power.  
                          No evasive...

01:38:21:00           COMM. OFFICER (CONT'D O/S): maneuvers.

01:38:22:02           COLONEL PENDERGAST: What about the hyperdrive?

01:38:23:07           COMM. OFFICER: Still no signal from Dr. Jackson.

01:38:27:00           COLONEL PENDERGAST: General O'Neill, we have a problem.

01:38:28:08           COLONEL PENDERGAST (CONT'D V/O FILTERED THROUGH RADIO): The  
                          ship's cloak is down, sir, but Dr. Jackson has yet to confirm whether he  
                          has disabled the hyperdrive or not.

01:38:34:27           O'NEILL: Just give him a little more time.

01:38:36:18           COLONEL PENDERGAST: Right now, sir, they are sitting ducks. If they spot us,  
                          they can run, and we won't be able to catch them.

01:38:41:12           COLONEL PENDERGAST (CONT'D V/O FILTERED THROUGH RADIO): We  
                          can't afford to let them get away, General. I recommend we open fire  
                          immediately.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:38:49:14

COLONEL PENDERGAST (CONT'D): General, please advise.

**END OF ACT FOUR**

## ACT FIVE

01:39:37:07 JENNINGS: Where the hell did he come from?

01:39:39:25 HOSKINS: He had the wrist device.

01:39:41:05 JENNINGS: Any chance there's more of them on board?

01:39:43:18 HOSKINS: It only lets one person up at a time.

01:39:46:07 BROOKS (V/O FILTERED THROUGH RADIO): Hoskins, this is Brooks.

01:39:47:10 HOSKINS: Go ahead.

01:39:48:10 BROOKS: The cloak's been disabled. I don't know if I can...

01:39:50:29 BROOKS (CONT'D V/O FILTERED THROUGH RADIO): get it back online.

01:39:52:19 HOSKINS (INTO RADIO): This position is compromised.

01:39:54:23 HOSKINS (CONT'D O/S INTO RADIO): We need to get out of here now.

01:39:56:13 BROOKS (V/O FILTERED THROUGH RADIO): Yes, sir.

01:39:57:27 JENNINGS: What about them?

01:39:59:12 HOSKINS: We can't take them with us.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:40:00:14 DANIEL: I don't mind going for a little ride.

01:40:02:02 CARTER: Me neither.

01:40:06:25 HOSKINS: Sorry about this, Dr. Jackson.

01:40:13:11 JENNINGS: Incoming.

01:40:22:17 TEAL'C (VO FILTERED THROUGH RADIO) This is Teal'c of SG-1. Please  
respond. This is Teal'c of SG-1. Repeat, this is Teal'c. Does anyone  
read? Repeat, this is Teal'c.

01:40:37:20 DANIEL (INTO RADIO): Teal'c, this is Daniel! We need...

01:40:39:00 DANIEL (CONT'D O/S INTO RADIO): your help! Come on through!

01:40:58:28 CARTER: Somebody want to untie me?

01:41:01:05 BROOKS (V/O FILTERED THROUGH RADIO): Cargo hold, what's happening  
down there? Cargo hold, respond. Jennings, Hoskins, where the hell are  
you?

01:41:34:20 DANIEL: What's happening?

01:41:44:05 CARTER: She's bringing the hyperdrive online. Get to the gate.

01:41:56:21 COMM. OFFICER: They're trying to run, sir.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:41:58:20 COLONEL PENDERGAST: Dammit. General O'Neill...

01:42:01:04 COLONEL PENDERGAST (CONT'D V/O FILTERED THROUGH RADIO): they  
are powering up their hyperdrive. We are out of options.

01:42:04:08 O'NEILL: Can you disable the ship without destroying it?

01:42:06:07 COLONEL PENDERGAST: I cannot give you any guarantees.

01:42:15:28 COMM. OFFICER: Sir, we're picking up a signal coming from...

01:42:17:29 COMM. OFFICER (CONT'D O/S): inside the ship.

01:42:18:28 COLONEL PENDERGAST: What is it?

01:42:19:21 COMM. OFFICER: Locator beacon, sir. Same frequency.

01:42:21:19 COLONEL PENDERGAST: Lock on the signal. Activate transport beam.

01:42:24:18 COMM. OFFICER: Beam activated.

01:42:35:09 COMM. OFFICER: The ship's gone, sir.

01:42:36:20 COLONEL PENDERGAST: Cargo bay, report.

01:42:37:29 VOICE (OVER RADIO): This is cargo bay. We have the gate, sir, as well as  
Teal'c, Colonel Carter, and Dr. Jackson.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:42:43:03 COLONEL PENDERGAST: Teal'c? Acknowledged. General O'Neill.

01:42:48:04 COLONEL PENDERGAST (CONT'D V/O FILTERED THROUGH RADIO): It looks like you were right. We have the gate and SG-1 aboard. They are alive.

01:42:55:24 O'NEILL: That's good news. Bring them home.

01:43:00:26 COLONEL PENDERGAST: Yes, sir.

01:43:21:16 CARTER: The good news is the gate is fully operational again. We can resume offworld missions immediately.

01:43:27:05 DANIEL: And the bad news is the Trust now has a fully functional Goa'uld alkesh.

01:43:30:29 CARTER: We've installed jamming devices around the gate to prevent any locator beams from operating in the future.

01:43:35:26 TEAL'C: What of the Tok'ra poison?

01:43:37:25 CARTER: Well, they left most of it behind, but they still have enough to wipe out at least half a dozen Goa'uld worlds.

01:43:44:14 DANIEL (O/S): In retrospect, maybe you should've destroyed the ship...

01:43:45:28 DANIEL (CONT'D): when you had the chance.

**STARGATE SG-1 "ENDGAME" Episode #810**

01:43:48:28 O'NEILL: Yeah. Tough choice.
