**STARGATE SG-1- "Prototype" – Episode #0911**

TIMECODE            DIALOGUE

START TIMECODE 01:00:00:00 AT FIRST FRAME OF PICTURE

**TEASER**

01:00:03:00            CARTER(O/S): Sir.

01:00:03:10            LANDRY: Colonel.

01:00:04:10            CARTER: I need you to read this.

01:00:05:13            LANDRY: Good morning to you too, Colonel.

01:00:06:28            CARTER: Sorry, Sir. How are you?

01:00:09:02            LANDRY: What is it?

01:00:10:05            CARTER: It's a report from the Tok'ra. They've discovered a gravitational  
disturbance with their long-range sensors.

01:00:15:06            LANDRY: Another Ori incursion?

01:00:16:14            CARTER: Well, it could simply be a yet-undiscovered black hole, but the Tok'ra  
won't have a ship in range for some time. I've located a planet with a  
stargate close to the disturbance. If you'll permit me to take a--

**STARGATE SG-1- "Prototype" – Episode #0911**

01:00:24:12           LANDRY (INTERRUPTING): Go. SG-5 should be available.

01:00:27:04           CARTER: Thank you, Sir.

01:00:32:11           (ALARMS SOUNDING)

01:00:35:29           HARRIMAN (O/S): Unscheduled off-world activation.

01:00:37:22           LANDRY: Walter?

01:00:39:06           HARRIMAN: I'm receiving an iris code, Sir.

01:00:40:22           HARRIMAN (CONT'D): It's Colonel Carter.

01:00:42:05           LANDRY: That was fast. Open the iris.

01:00:44:11           HARRIMAN: Yes, Sir.

01:00:50:20           LANDRY: Colonel. Tell me you've got good news.

01:00:53:22           CARTER: Actually, Sir, I think there was a little glitch. We were on the wrong  
planet, Sir.

01:00:59:10           LANDRY: Was the intel wrong?

01:01:01:10           ALTMAN: Uh, no, Sir. When we arrived, there was no sign of the MALP.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:01:04:17 CARTER: I checked our telemetry based on known star positions.

01:01:07:13 ALTMAN: We weren't on P3X-584...

01:01:10:08 ALTMAN (CONT'D O/S): Sir.

01:01:11:09 CARTER (O/S): Somehow...

01:01:11:19 CARTER (CONT'D): We got sent to a different planet.

01:01:13:20 LANDRY: Walter?

01:01:15:02 HARRIMAN: I'm reviewing gate diagnostics, Sir.

01:01:18:08 LANDRY: How could this happen?

01:01:19:20 CARTER: If it is a gate malfunction, it's a pretty big one, unlike any we've seen  
before.

01:01:23:20 LANDRY: Chief, inform all off-world...

01:01:25:15 LANDRY (CONT'D O/S): Teams to use the alpha site until further notice.

01:01:28:11 HARRIMAN: Yes, Sir.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:01:29:18           LANDRY: If there's something wrong with this gate, I want to know what it is  
                              before anyone else walks through it.

01:01:33:14           CARTER: Yes, Sir.

01:01:34:15           LANDRY (O/S): Find the problem.

01:01:34:28           LANDRY (CONT'D): Until we do, all gate activity is shut down.

**END OF TEASER**

**STARGATE SG-1- "Prototype" – Episode #0911****ACT ONE**

01:02:16:00 CARTER (V/O): Run the cross-comparison program.

01:02:17:21 DANIEL: Hey. How's it going?

01:02:19:24 CARTER: Well, as far as our computer is concerned...

01:02:22:01 CARTER (CONT'D O/S): The dialing sequence to P3X-584 ran perfectly normal.

01:02:24:25 DANIEL: Except for the fact you ended up 12,000 light years off-course.

01:02:30:07 HARRIMAN: Oh, here's something.

01:02:36:23 CARTER (O/S): Huh. Maybe it wasn't our fault.

01:02:39:16 DANIEL: I thought it was always our fault.

01:02:41:19 CARTER: We just ran a program that compares the energy signatures of the last 30 outbound trips to look for anomalies.

01:02:46:29 HARRIMAN (O/S): It's kind of like a...

01:02:48:17 HARRIMAN (CONT'D): Bump.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:02:49:21 DANIEL: A bump?

01:02:53:15 CARTER (O/S): Actually, more like a series of bumps...

01:02:54:27 CARTER (CONT'D): Exactly 8.5...

01:02:56:15 CARTER (CONT'D O/S): Seconds apart.

01:02:57:10 DANIEL (O/S): Oh!

01:02:58:14 DANIEL (CONT'D): Well, that explains everything.

01:03:00:02 CARTER: Actually, it might.

01:03:04:08 LANDRY: Defense mechanism?

01:03:06:07 CARTER (O/S): Yes, Sir. I think each of these spikes represents...

01:03:09:19 CARTER (CONT'D): A request by the off-world gate for an authorization code.

01:03:12:02 TEAL'C (O/S): If the correct authorization code is not...

01:03:14:03 TEAL'C (CONT'D): Entered in time, you are prevented from reaching the  
planet.

01:03:16:13 LANDRY: That doesn't explain how you and SG-5 ended up halfway across  
the galaxy.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:03:21:21 CARTER (O/S): Well, I have a theory about that too.

01:03:23:24 CARTER (CONT'D): Instead of using an iris like we do, the off-world gate stores incoming data in its buffer system.

01:03:28:29 CARTER (CONT'D O/S): Then, if the correct code isn't received...

01:03:30:19 CARTER (CONT'D): It dials a random address and empties the buffer into the new wormhole.

01:03:34:16 MITCHELL: Interstellar call forwarding. That's pretty...

01:03:36:23 MITCHELL (CONT'D O/S): Cool.

01:03:37:23 DANIEL (O/S): How did the MALP get through to 584?

01:03:39:01 DANIEL (CONT'D): I mean, initial telemetry confirmed it was on...

01:03:40:28 DANIEL (CONT'D O/S): The right planet.

01:03:42:02 CARTER: My guess is the 584 security system filters incoming matter based on certain protocol-- organic versus inanimate, for instance.

01:03:48:27 DANIEL: Wow, that seems like an awful lot of trouble to keep people out.

01:03:51:09 CARTER (O/S): Which makes me curious...

**STARGATE SG-1- "Prototype" – Episode #0911**

01:03:52:09 CARTER (CONT'D): As to what's being hidden there.

01:03:53:29 MITCHELL: You always want what you can't have.

01:03:55:16 CARTER: I've calculated it will take the Prometheus two weeks to reach 584 at maximum speed.

01:04:00:26 TEAL'C (O/S): If the Ori are constructing...

01:04:01:29 TEAL'C (CONT'D): A supergate there, we may not have that much time. I will contact the High Council and...

01:04:06:1 TEAL'C (CONT'D O/S): Have a Jaffa ship scout the area.

01:04:08:08 LANDRY: Can you figure out a way to crack this authorization code?

01:04:11:09 CARTER: We'll certainly try, Sir.

01:04:12:25 LANDRY: Teal'c, no offense, but I'd feel better if we investigated this...

01:04:16:25 LANDRY (CONT'D O/S): Ourselves.

01:04:17:26 LANDRY (CONT'D): Dismissed.

01:04:21:24 (ALARMS SOUNDING)

**STARGATE SG-1- "Prototype" – Episode #0911**

01:04:29:22 HARRIMAN: MALP is en route.

01:04:31:19 CARTER: We've placed a bacterial culture inside the MALP's cargo compartment. Hopefully, the organic material will force the 584 gate to hold the MALP and ask for an authorization code.

01:04:42:23 HARRIMAN: I'm receiving the gate's authorization request.

01:04:45:01 CARTER: Now we just hope this program works.

01:04:47:10 LANDRY: Mm.

01:04:51:18 LANDRY (CONT'D): What does that mean?

01:04:53:01 CARTER: I think it was good.

01:04:54:21 HARRIMAN: The MALP is coming online.

01:04:57:11 CARTER: Rotate the camera to the left.

01:05:04:13 CARTER: It's the first MALP. It worked.

01:05:07:13 LANDRY: Good.

01:05:20:17 MITCHELL: All right, let's see what all the fuss is about.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:05:23:03 CARTER: Well, we'll have to wait till nightfall to get a visual confirmation of the black hole. In the meantime, Major, you can set up the gravity sensors. I'll make sure we can dial home.

01:05:37:15 MITCHELL: SGC, this is SG1 leader. We have arrived safely.

01:05:40:06 LANDRY (V/O OVER RADIO): Thank you, Colonel. We'll dial...

01:05:41:17 LANDRY (V/O CONT'D): Again in 15 minutes. Prometheus is standing by.

01:05:44:21 MITCHELL: Hopefully that won't be necessary, Sir. Mitchell out.

01:05:49:28 MITCHELL: I'd rather not wait around two weeks for a ride.

01:05:53:13 DANIEL: We're going to have a look around.

01:06:03:02 CARTER: I think I found the problem.

01:06:05:05 MITCHELL: You seen anything like it before?

01:06:06:13 CARTER (O/S): Nope...

01:06:07:13 CARTER (CONT'D): And I don't want to remove it until I know exactly how it's connected to the system. The good news is it won't affect any outbound dialing.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:06:14:00           ALTMAN (V/O OVER RADIO): Colonel Carter...

01:06:14:08           ALTMAN (V/O CONT'D): We've got the gravity sensors up and running.

01:06:17:09           CARTER: Good. I'll be right there.

01:06:18:15           DANIEL (V/O OVER RADIO): Hey, guys, it's Daniel.

01:06:19:23           DANIEL (V/O CONT'D): You might want to come and check...

01:06:21:02           DANIEL (V/O CONT'D): This out first.

01:06:22:12           MITCHELL: I got it. You check out the black hole.

01:06:28:23           MITCHELL: Wow, it's amazing what people leave laying around. Where do  
                                those go?

01:06:34:02           DANIEL: Only one way to find out.

01:06:37:16           (RINGS ACTIVATING)

01:07:00:02           MITCHELL: I don't think anyone's been home for a while.

01:07:05:28           DANIEL: Looks like some kind of science lab.

01:07:12:09           TEAL'C: This looks familiar.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:09:06:24 CARTER: Do you think he's an Ancient?

01:09:08:07 DR. LAM (O/S): I'm running a more detailed analysis.

01:09:09:18 DR. LAM (CONT'D): There were some other strange anomalies--but in the  
meantime, why don't we ask him?

01:09:22:04 DR. LAM: Hello.

01:09:25:09 DR. LAM (CONT'D O/S): I'm Dr. Carolyn Lam.

01:09:28:10 DR. LAM (CONT'D): Do you understand me?

01:09:31:05 KHALEK: Yes.

01:09:32:10 DR. LAM: Good. Try to relax.

01:09:34:16 DR. LAM (CONT'D O/S): There's nothing to be afraid of. You're safe. You're on  
a planet called Earth.

01:09:41:11 CARTER: I'm Lieutenant Colonel Samantha Carter of the United States Air  
Force.

01:09:45:24 MITCHELL (O/S): Cameron Mitchell.

01:09:47:10 MITCHELL (CONT'D): Ditto on the other stuff.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:09:49:00 CARTER: Can you tell us your name?

01:09:52:15 KHALEK: It's...Khalek.

01:09:54:03 CARTER (O/S): Khalek.

01:09:55:08 CARTER (CONT'D): We found you on another planet, in stasis, in what looked  
like some sort of science lab.

01:10:04:19 KHALEK: Earth?

01:10:05:29 MITCHELL (O/S): Yeah, that's right.

01:10:11:08 KHALEK: I want to go home.

01:10:12:24 CARTER: Home? Where is home?

01:10:16:18 KHALEK: He took me. I was a prisoner...

01:10:20:21 KHALEK (CONT'D O/S): So long.

01:10:24:29 KHALEK (CONT'D): He did experiments on me.

01:10:28:04 MITCHELL: "He" who?

01:10:30:04 KHALEK: I never knew his name.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:10:33:15           KHALEK (CONT'D O/S): Please...

01:10:35:24           KHALEK (CONT'D): I just want to go home.

01:10:38:15           MITCHELL (O/S): Can you tell us...

01:10:38:23           MITCHELL (CONT'D): What this guy looks like?

01:10:40:08           (GROANS)

01:10:41:14           CARTER: Do you have the stargate address for the planet you call home?

01:10:43:19           CARTER (CONT'D O/S): The symbols to dial?

01:10:45:05           KHALEK: Yes...

01:10:46:08           DR. LAM: Okay.

01:10:47:19           DR. LAM (CONT'D O/S): When you're feeling better...

01:10:49:15           DR. LAM (CONT'D): We'll see what we can do.

01:10:58:15           MITCHELL: So, not an Ancient.

01:10:59:24           CARTER: Too bad. Poor guy. This is exactly what Nirrti did--kidnapped people  
and then experimented...

**STARGATE SG-1- "Prototype" – Episode #0911**

01:11:05:01 CARTER (CONT'D): On them.

01:11:06:06 MITCHELL: Yeah, but Khalek there said "he."

01:11:07:26 CARTER: Well, I'm sure Nirrti wasn't the only Goa'uld with an interest in evolved human hosts.

01:11:11:23 MITCHELL: That lab looked more Ancient than Goa'uld.

01:11:14:15 CARTER: You think it was an Ancient...

01:11:16:23 CARTER (CONT'D): Experimenting on him?

01:11:19:08 MITCHELL: I don't know. but I'm sure Jackson will get to...

01:11:22:11 MITCHELL (CONT'D): The bottom of it.

01:11:23:11 CARTER: In the meantime, we'll get the address to Khalek's homeworld and send a MALP. Hopefully, it'll still be somewhere he wants to go back to.

01:11:42:15 DANIEL: Hey...

01:11:42:25 DANIEL (CONT'D O/S): What's up?

01:11:44:09 ALTMAN: Well, looks like that black hole is just a regular old black hole.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:11:47:11           ALTMAN (CONT'D): No giant Ori supergates.

01:11:49:06           DANIEL: That's good.

01:11:50:10           ALTMAN: Teal'c said you could use some help in here.

01:11:53:03           DANIEL: There's something wrong with the power supply. It's driving me nuts.

01:11:56:02           ALTMAN: Well, we'll look into it.

01:11:58:15           TEAL'C: Colonel Mitchell says the man we found in stasis is not an Ancient.

01:12:01:20           TEAL'C (CONT'D): He was being held prisoner and experimented upon. They  
                                do not believe...

01:12:05:09           TEAL'C (CONT'D O/S): That he knew his captor.

01:12:06:18           TEAL'C (CONT'D): Have you found anything, Daniel Jackson?

01:12:08:25           DANIEL: Oh, just pages and pages of logs, notes about the exper...

01:12:16:00           TEAL'C: What is it?

01:12:17:04           DANIEL: Oh, this is bad.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:12:20:10 (SIRENS SOUNDING)

01:12:22:20 DANIEL: Where is he?

01:12:23:26 LANDRY: Isolation Room One.

01:12:25:18 DANIEL: Under guard?

01:12:26:18 LANDRY: Why? What did you find?

01:12:27:18 DANIEL: I should have known when I saw the Ancient writing. He used to use  
it as code on his ships.

01:12:30:24 LANDRY: Dr. Jackson.

01:12:31:24 TEAL'C (O/S): The lab does not...

01:12:32:05 TEAL'C (CONT'D): Belong to an Ancient.

01:12:33:13 DANIEL: It belonged to Anubis.

01:12:34:13 LANDRY: But he's long gone now.

01:12:36:00 DANIEL (O/S): Yes, but the man...

01:12:36:12 DANIEL (CONT'D): He left behind is not a victim of experiments. He's a genetic  
hybrid. He was grown in that lab.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:12:40:15           LANDRY: I'm sorry?

01:12:41:28           DANIEL (O/S): Whatever he told you, he's lying.

01:12:43:14           DANIEL (CONT'D): The Goa'uld pass on genetic memory. Now, he may not  
                          have a snake in his head, but the man we defrosted and brought  
                          back here has Goa'uld DNA intermingled with his own. He may as well  
                          be the son of Anubis.

**END OF ACT ONE**

**STARGATE SG-1- "Prototype" – Episode #0911****ACT TWO**

01:13:14:20 DANIEL: The log entry said Anubis managed to replicate his pre-ascension DNA using the genetic manipulation device, then he combined it with human DNA and was able to rapidly grow our friend there.

01:13:25:00 DR. LAM (O/S): The analysis I did suggests that Khalek...

01:13:27:11 DR. LAM (CONT'D): Is significantly more evolved than we are, much more in line with the human form of the Ancients prior to ascension.

01:13:32:29 MITCHELL: So he could have all kinds of super-funky powers.

01:13:35:18 CARTER: The subjects Nirrti manipulated demonstrated telekinetic and psychic abilities.

01:13:39:14 MITCHELL: Like the Priors.

01:13:40:26 DANIEL: The goal of the experiment seems to have been to create an advanced human.

01:13:43:24 LANDRY: With a little Anubis blended in.

01:13:47:00 CARTER (O/S): You said he used his pre-ascended DNA.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:13:48:26           CARTER (CONT'D): Do you think he was doing these experiments before he ascended?

01:13:51:02           DANIEL: No, see, that timeline doesn't track with the log. Plus it says he had to reproduce his DNA...

01:13:55:01           DANIEL (CONT'D O/S): Which means he was doing all this after he ascended...

01:13:57:09           DANIEL (CONT'D): And was sent back by the Ancients...well, halfway.

01:14:00:15           CARTER (O/S): But this doesn't make any sense.

01:14:01:18           CARTER (CONT'D): Even a highly evolved human host wouldn't be as advanced as he was. Why bother?

01:14:06:08           MITCHELL (O/S): Maybe he didn't like being stuck in limbo.

01:14:08:07           MITCHELL (CONT'D): Maybe even a small step back to mortality was worth it...

01:14:10:26           MITCHELL (CONT'D O/S): To him on some level.

01:14:12:10           TEAL'C (O/S): Perhaps he was attempting to create...

01:14:13:19           TEAL'C (CONT'D): An even more powerful servant than the Kull warriors.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:14:16:00 DANIEL (O/S): No matter...

01:14:16:09 DANIEL (CONT'D): What Anubis' ultimate goal was, Khalek is extremely dangerous.

01:14:20:07 LANDRY: Options?

01:14:21:25 MITCHELL (O/S): Put him back...

01:14:22:12 MITCHELL (CONT'D): In his pod.

01:14:23:19 CARTER: I doubt we'd be able to get the one from 584 back here.

01:14:25:23 TEAL'C: If we leave him there, others could circumvent the security and find him...

01:14:29:06 TEAL'C (CONT'D O/S): As we did.

01:14:30:06 CARTER (O/S): We could post guards.

01:14:30:27 MITCHELL: What about the Antarctica pod?

01:14:32:27 DANIEL: Look, I think we need to consider whether we want to preserve him at all.

01:14:35:27 LANDRY: Hmm.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:14:43:04            DANIEL: Look, the fact is, we don't know how successful Anubis was. Khalek is advanced, yes, but we don't know how far along he actually is.

01:14:48:21            DANIEL (CONT'D O/S): Now, if he is aware of his own state of evolutionary advancement...

01:14:51:11            DANIEL (CONT'D): And I'll bet you anything he is, it's possible the only thing keeping him from ascending right now is that he hasn't figured out how.

01:14:57:16            LANDRY: What would that take?

01:14:58:16            DANIEL (O/S): I don't know...

01:14:59:16            DANIEL (CONT'D): But if he can do it, if he knows how or figures out how, at the very least, we're going to have another Anubis on our hands, and at that point...

01:15:06:29            DANIEL (CONT'D O/S): It's going to be too late to stop him.

01:15:09:03            CARTER: Well, he couldn't progress his state of being...

01:15:11:05            CARTER (CONT'D O/S): While he was in stasis.

01:15:12:14            DANIEL: Look, you know I would never suggest this lightly...but he is what he is, and given the danger he poses, I think we have to ask ourselves,

**STARGATE SG-1- "Prototype" – Episode #0911**

what is the point in keeping him alive at all?

01:15:30:10           LANDRY: I hear you, Dr. Jackson.

01:15:32:13           LANDRY (CONT'D O/S): For the moment, we're taking every security...

01:15:35:06           LANDRY (O/S CONT'D): Precaution we can. I'll contact Washington...

01:15:37:29           LANDRY (CONT'D): Discuss how we're going to...

01:15:40:15           LANDRY (CONT'D O/S): Proceed. In the meantime, I suggest...

01:15:43:01           LANDRY (O/S CONT'D): All of you learn as much as you can, including...

01:15:45:20           LANDRY (CONT'D): What Khalek does and doesn't know.

01:15:58:01           DANIEL: Khalek, can you hear me?

01:16:02:24           KHALEK: Yes.

01:16:05:14           DANIEL (O/S): My name is Dr. Daniel Jackson.

01:16:12:05           KHALEK: Why have you restrained me like this?

01:16:16:11           KHALEK (CONT'D): Why is everyone suddenly acting like they fear me?

01:16:19:05           DANIEL: Look, you can drop the act.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:16:23:22 KHALEK: I don't understand. Have you contacted my homeworld?

01:16:27:22 DANIEL: We found you on your homeworld.

01:16:31:23 DANIEL (CONT'D O/S): I understand...

01:16:33:22 DANIEL (CONT'D): Ancient. Those research notes Anubis left...

01:16:39:06 DANIEL (CONT'D O/S): We know that you were grown in that lab...

01:16:44:28 DANIEL (CONT'D): That you possess Anubis' DNA, and his genetic memories.

01:16:58:14 KHALEK: My memories do include you, Dr. Jackson.

01:17:02:12 KHALEK (CONT'D O/S): A confrontation you once had with my father.

01:17:06:19 KHALEK (CONT'D): I sense it is some time since I was last awake. What has  
become of him?

01:17:14:05 DANIEL: I'm not here to answer your questions.

01:17:16:22 KHALEK: The others...

01:17:18:08 KHALEK (CONT'D): They wish to study me, don't they? Why else would I still  
be here, given the danger you know I pose?

**STARGATE SG-1- "Prototype" – Episode #0911**

01:17:26:12 KHALEK (CONT'D): They want to learn what I am, how I came to be...

01:17:32:05 KHALEK (CONT'D): But you...have you ever taken a life, Dr. Jackson?

01:17:42:24 KHALEK (CONT'D): I believe you have. Killed a man.

01:17:51:20 KHALEK (CONT'D): My memories are so sharp and clear. It's as if they  
happened only moments ago.

01:17:57:12 KHALEK (CONT'D): The countless lives my father extinguished...of those that  
came before him and did the same...

01:18:03:19 KHALEK (CONT'D): Such pleasure it gave them...but I have not experienced it  
myself yet. Does it really feel that good?

01:18:17:04 KHALEK (CONT'D): Millions of slaves bowing before me...a galaxy of  
desperate, pitiful life forms at my feet...

01:18:25:02 KHALEK (CONT'D): That's clearly intoxicating. I can almost taste it as if it was  
me there and not those whose memories I possess...

01:18:33:10 KHALEK (CONT'D): But nothing...nothing do I anticipate more than the  
sweetness I know I will feel when I kill for the first time.

01:18:42:22 KHALEK (CONT'D): I can hardly wait to watch as fear stops a man's heart.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:20:09:08 WOOLSEY: We understand how dangerous you seem to think he is. There's very little corroborating evidence at this point.

01:20:13:16 WOOLSEY (CONT'D O/S): That's why more study is required.

01:20:17:28 LANDRY: Is this a joke? Because if you look closely, I'm not laughing.

01:20:22:12 WOOLSEY: You and your people went before the senate appropriations committee and demanded that the budget for this facility not be cut in half. Why?

01:20:29:22 WOOLSEY (CONT'D O/S): Because of a formidable...

01:20:31:09 WOOLSEY (CONT'D): New enemy that now threatens our galaxy.

01:20:33:12 LANDRY: What would we do without you?

01:20:36:23 WOOLSEY: All we have heard is that the Ori must be taken more seriously than the Goa'uld...

01:20:41:14 WOOLSEY (CONT'D O/S): That the Priors who represent them are extremely powerful and dangerous in their own right, and yet, in the months since this threat emerged...

01:20:48:22 WOOLSEY (CONT'D): Not one proposed countermeasure, not one shred of technology...

**STARGATE SG-1- "Prototype" – Episode #0911**

01:20:53:14 WOOLSEY (CONT'D O/S): Not even so much as a theory or strategy to fight these missionaries has resulted...

01:20:57:29 WOOLSEY (CONT'D): From ongoing stargate operations...until now.

01:21:01:11 WOOLSEY (CONT'D O/S): And you want to freeze him.

01:21:04:09 LANDRY: Go. Go. You're on a roll.

01:21:07:27 WOOLSEY: Based on the report, the only thing that we do know about this Khalek is that physiologically, he may be very much like the Priors of the Ori...

01:21:14:09 WOOLSEY (CONT'D O/S): An advanced form of human far along in evolutionary development.

01:21:18:29 WOOLSEY (CONT'D): First and foremost, studying him may be the key to learning a way...

01:21:23:28 WOOLSEY (CONT'D O/S): To fight the Priors.

01:21:25:25 LANDRY: Actually, that had not escaped me.

01:21:28:03 WOOLSEY: Not to mention the fact that he may be the missing link between ourselves and ascension.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:21:31:11 WOOLSEY (CONT'D O/S): Certainly that merits more research. The members  
of the committee feel...

01:21:35:14 WOOLSEY (CONT'D): Very strongly about this.

01:21:38:03 DANIEL (O/S): Then neither they nor you understand...

01:21:40:06 DANIEL (CONT'D): The risks.

01:21:42:10 WOOLSEY: Oh, we do. The issue is...

01:21:46:29 WOOLSEY (CONT'D O/S): If this command doesn't have the ability...

01:21:50:16 WOOLSEY (CONT'D): And security in place...to take full advantage of an  
opportunity like this...

01:21:53:26 WOOLSEY (CONT'D O/S): Then we believe we need to re-evaluate...

01:21:56:01 WOOLSEY (CONT'D): Its leadership, and ultimately, its operation.

**END OF ACT TWO**

**ACT THREE**

01:22:24:13 MITCHELL: If Woolsey and the bean-counters are going to force us to keep Khalek conscious, maybe we'd better figure out what he's capable of, and fast.

01:22:29:13 DANIEL: It was like he was goading me into killing him, like he wanted us to do it.

01:22:32:25 MITCHELL: If he knows he's on the path to ascension, maybe he thinks that's the final step.

01:22:35:26 DANIEL: Well, if that's the case, we may have no other choice but to freeze him again.

01:22:38:00 MITCHELL: With strict instructions never to defrost.

01:22:40:20 TEAL'C (O/S): Indeed.

01:22:41:26 TEAL'C (CONT'D): Unfortunately, we must now convince others that this is the prudent course of action.

01:22:45:06 DANIEL (O/S): Major Altman seems to think...

01:22:47:01 DANIEL (CONT'D): He has something that will help us.

**STARGATE SG-1– "Prototype" – Episode #0911**

01:22:48:16             ALTMAN (O/S): Yeah, this unit, it seems to be self-contained.

01:22:50:20             ALTMAN (CONT'D): Well, it's what analyzes a subject's current physiological  
  status and feeds back into the DNA manipulator.

01:22:56:07             ALTMAN (CONT'D O/S): We should be able to bring it back with us...

01:22:57:27             ALTMAN (CONT'D): And rig it to give us a better idea of how advanced Khalek  
  really is.

01:23:01:10             MITCHELL: That'd be good. Nice work.

01:23:05:15             DANIEL: I'm going to keep working on the translation.

01:23:14:03             DR. LAM: He's out cold, Colonel. I gave him enough sedative to keep him out  
  for hours.

01:23:17:13             MITCHELL: Can't be too sure.

01:23:19:08             ALTMAN (O/S): That...

01:23:20:28             ALTMAN (CONT'D): Should be good.

01:23:27:14             CARTER: We're pretty sure these red patches indicate areas of the brain  
  where...

01:23:31:0               CARTER (CONT'D O/S): Synaptic activity is maximized.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:23:33:12 CARTER (CONT'D): A normal human brain, you or I, say, should show roughly five to 10 percent coverage.

01:23:38:09 MITCHELL: Me being five, you being 10.

01:23:40:00 ALTMAN: So, what's that at now? 60%?

01:23:42:14 CARTER (O/S): 68 exactly.

01:23:44:15 CARTER (CONT'D): Daniel says the research theorized that 80, possibly...

01:23:48:00 CARTER (CONT'D O/S): 90% activity was required for conscious...

01:23:49:28 CARTER (O/S CONT'D): Willful ascension.

01:23:51:03 MITCHELL (O/S): So he's not there yet.

01:23:52:07 CARTER (O/S): Well, no, but--

01:23:53:15 DR. LAM (O/S): Wait a minute.

01:23:53:25 DR. LAM (CONT'D): What's that?

01:23:55:29 DR. LAM (CONT'D O/S): That wasn't there...

01:23:57:20 DR. LAM (CONT'D): A minute ago.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:23:58:15 CARTER (O/S): No.

01:23:59:23 CARTER (CONT'D): The percentage just jumped to 71.

01:24:02:19 MITCHELL: Are you saying this guy is evolving right before our eyes?

01:24:06:00 DR. LAM: His heart rate's increasing.

01:24:07:16 ALTMAN: I wonder if that has something to do with the brain scan device.

01:24:10:05 DR. LAM: I'm going to administer some more sedative.

01:24:11:11 ALTMAN: No, just a sec. Let me...

01:24:12:10 ALTMAN (CONT'D O/S): Just make sure...

01:24:13:20 ALTMAN (CONT'D): That there's no interference with the lines here.

01:24:16:21 (BLAST)

01:24:17:00 ALTMAN (CONT'D): Aah!

01:24:21:02 (LASER FIRE)

01:24:21:24 (LASER FIRE)

**STARGATE SG-1- "Prototype" – Episode #0911**

01:24:24:10 (LASER FIRE)

01:24:25:21 (GUNFIRE)

01:24:30:02 (THUD)

01:24:45:11 MITCHELL: I shot him twice...at point blank range.

01:24:49:04 DR. LAM: And he appears to be healing...very quickly.

01:24:52:27 MITCHELL (O/S): I should've emptied the clip.

01:24:55:01 MITCHELL (CONT'D): I don't get it, Sir. How can Woolsey not know that  
keeping this guy around...

01:25:03:02 MITCHELL (CONT'D O/S): Is a bad idea?

01:25:04:02 LANDRY: He's an ass.

01:25:05:01 MITCHELL (O/S): So, what, he's risking a catastrophe...

01:25:07:14 MITCHELL (CONT'D): Just to embarrass us?

01:25:09:07 CARTER: Woolsey's a pretty straight shooter. I think he really believes this is  
going to be of benefit.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:25:14:24 CARTER (CONT'D): We're the ones who have spent the last eight years  
justifying enormous risk...

01:25:18:07 CARTER (CONT'D O/S): For the advancements we've made.

01:25:19:22 DR. LAM (O/S): The fact is, we are recording some incredible data.

01:25:22:16 DR. LAM (CONT'D): Khalek's healing ability, his advanced brain function...

01:25:25:03 DR. LAM (CONT'D): That scanner was still operating when he was using his  
telekinetic ability, and we've been able to isolate the areas of the  
brain that he was maximizing at the time.

01:25:31:24 MITCHELL (O/S): See, I think the point is, is that...

01:25:33:26 MITCHELL (CONT'D): He has telekinetic abilities and he's continuing to evolve  
while we sit around yammering about it.

01:25:40:02 CARTER: All the while, he's getting closer and closer to ascending.

01:25:59:20 WOOLSEY: You should know there are now 50,000 volts running through that  
floor, Sir...

01:26:03:23 WOOLSEY (CONT'D O/S): And a Tok'ra shield generator barring the door. It's  
one-way, so we can still...

**STARGATE SG-1- "Prototype" – Episode #0911**

01:26:09:15 WOOLSEY (CONT'D): Fire bullets in there if we have to.

01:26:11:19 WOOLSEY (CONT'D O/S): Finally, Dr. Lam believes your abilities can be controlled...

01:26:14:14 WOOLSEY (O/S CONT'D): With a dopamine inhibitor. A shunt has been inserted into the base of your skull, and a massive dose...

01:26:20:06 WOOLSEY (O/S CONT'D): Will be automatically injected should you try anything else.

01:26:25:12 KHALEK: Thanks for the warning, Richard...or do you prefer "Dick"?

01:26:32:25 KHALEK (CONT'D O/S): No, you didn't tell me your name.

01:26:35:00 KHALEK (CONT'D): Shame about Major Altman.

01:26:37:19 WOOLSEY: He's going to be fine.

01:26:39:20 KHALEK: We'll see.

01:26:41:21 WOOLSEY: Any further outbursts will not be tolerated.

01:26:45:10 KHALEK: Whatever you say, Dick.

01:26:53:05 (ZAPPING SOUND)

**STARGATE SG-1- "Prototype" – Episode #0911**

01:26:59:00 CARTER: Hey. I heard you guys could use some help.

01:27:01:28 DANIEL: Yeah, we heard what happened. How's Major Altman?

01:27:03:26 CARTER: Oh, he's going to be okay.

01:27:04:23 CARTER (CONT'D): The ascendometer says Khalek's...

01:27:06:16 CARTER (CONT'D O/S): About 80% there.

01:27:08:09 TEAL'C: "Ascendometer"?

01:27:09:11 CARTER: Mitchell.

01:27:11:23 CARTER (CONT'D): Wish I'd thought of it. After Khalek was shot and started to  
heal, it shot up another five percent or so.

01:27:17:19 DANIEL: Yeah. We're helping him.

01:27:18:27 DANIEL (CONT'D): The healing process helped him to learn another aspect of  
his advancement. I'll bet anything he wanted to get shot.

01:27:23:27 CARTER: You think?

01:27:25:03 DANIEL: Well, according to the research, the way it works is the subject gets a  
treatment in this machine...

**STARGATE SG-1- "Prototype" – Episode #0911**

01:27:30:11 DANIEL (CONT'D): And certain...physiological changes are made in the brain, then it takes some time--weeks, months--to adjust.

01:27:36:15 DANIEL (CONT'D): The individual needs to get used to the changes, learn how they work. It's a gradual process.

01:27:39:26 DANIEL (CONT'D): That's what the scans are showing us. Khalek is learning to use the advancements the latest treatment gave him.

01:27:44:23 DANIEL (CONT'D): Now, eventually, with enough physical evolution and mental control, he will reach a critical stage, where he will learn to shed his physical body...

01:27:50:10 DANIEL (CONT'D O/S): And exist as energy.

01:27:51:19 CARTER: I always felt there was a spiritual component to ascension, that you had to be a good person at heart...

01:27:56:25 CARTER (CONT'D O/S): To do it.

01:27:58:05 DANIEL: Certainly, when there's an Ancient helping you.

01:27:59:10 DANIEL (CONT'D O/S): Obviously, when the process happens...

01:28:01:02 DANIEL (CONT'D): Naturally, there are no rules.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:28:02:18 CARTER: If you can call this "naturally."

01:28:04:12 DANIEL: Still, the Ori prove you don't have to be moral to ascend.

01:28:07:12 DANIEL (CONT'D O/S): Who knows--maybe it's part of the grand cosmic balance.

01:28:09:29 DANIEL (CONT'D): Good and evil have to coexist on all levels.

01:28:11:27 CARTER: Well, for now, Khalek is still mortal. I don't think he really wants to die before he's figured it all out.

01:28:17:20 DANIEL: He's probably been hiding the full extent of his powers from us. For all we know, he's mocking us, because he knows we can't really hurt him.

01:28:23:12 CARTER: What else have you learned?

01:28:25:19 DANIEL: Not much. I don't think this database is going to be much help anymore. We've been through it twice now.

01:28:30:07 CARTER: Well, the reason I came is because I have an idea.

01:28:33:04 CARTER (CONT'D): Based on the data we've collected from the scans of Khalek's brain...

**STARGATE SG-1- "Prototype" – Episode #0911**

01:28:36:09            CARTER (CONT'D): I'm thinking that we can run a simulation on the DNA machine to see where it's really going.

01:28:40:29            CARTER (CONT'D O/S): To the best of our knowledge, this has never been done before, right?

01:28:44:18            CARTER (CONT'D): Artificially advance a human being to ascension using technology rather than the help of another ascended being?

01:28:49:25            DANIEL (O/S): The log is incomplete. Anubis seems to have been stopped...

01:28:52:12            DANIEL (CONT'D): Before he could finish his experiments.

01:28:54:14            CARTER: Let's see if it's really going where we think it is. I mean, at the very least, maybe get a time frame.

**END OF ACT THREE**

**STARGATE SG-1- "Prototype" – Episode #0911****ACT FOUR**

01:29:22:04 WOOLSEY: General.

01:29:25:09 LANDRY: I'm reconsidering the arrangement with the international committee that's keeping you here.

01:29:29:22 WOOLSEY: Then I suggest you start going through your budget, because without their support--

01:29:33:18 LANDRY (INTERRUPTING O/S): How can you still...

01:29:34:24 LANDRY (CONT'D): Be convinced that this is the right course of action?

01:29:37:00 WOOLSEY (O/S): The scans indicate...

01:29:38:09 WOOLSEY (CONT'D): His advancement has plateaued at roughly 80% of potential brain activity.

01:29:42:15 DR. LAM: That might have something to do with the dopamine inhibitor.

01:29:44:17 LANDRY (O/S): How long are we going to keep this up?

01:29:46:25 WOOLSEY: Until we find a way to counteract someone with his abilities in the field.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:29:50:25           LANDRY: According to your own account, the man was able to read your mind.

01:29:54:11           LANDRY (CONT'D): Doesn't that concern you?

01:29:56:10           WOOLSEY: Gravely. The fact that there are dozens of Priors with abilities like his roaming the galaxy right now also concerns me...

01:30:03:19           WOOLSEY (CONT'D O/S): And the committee representing the free nations of this planet, General.

01:30:07:05           WOOLSEY (CONT'D): For the moment, in my opinion, this situation is under control.

01:30:17:20           LANDRY: I certainly hope that the point at which you change your mind isn't too late.

01:30:45:00           WOOLSEY: You wanted to see me?

01:30:46:05           LANDRY: I'm pulling the plug. You can notify the committee that the SGC no longer requires their support.

01:30:52:29           WOOLSEY: General, Khalek's condition is stable. You've taken ample security precautions.

01:30:58:25           WOOLSEY (CONT'D): Every minute we have to study him, record data...

**STARGATE SG-1- "Prototype" – Episode #0911**

01:31:02:14 WOOLSEY (CONT'D): The closer we get to a means of fighting the Priors, not to mention the possibility of solving the mysteries of our own existence.

01:31:08:21 LANDRY: The issues we face can be overwhelming at times. I can see how someone might lose their perspective.

01:31:13:02 WOOLSEY: I haven't lost perspective, General. I recognize the importance of this research. That's why I'm not going to let you stand in the way.

01:31:20:13 LANDRY: Ultimately, the decision is mine.

01:31:26:03 LANDRY (CONT'D): I'm having Khalek transferred back to his stasis pod on 584 immediately...

01:31:31:16 LANDRY (CONT'D): Regardless of the consequences to this command. Thank you.

01:31:44:20 LANDRY: Putz.

01:31:48:25 CARTER: Just about done.

01:31:58:15 CARTER (CONT'D): Each of these sections...

01:31:59:06 CARTER (CONT'D): Represents a treatment in the machine and the resulting

**STARGATE SG-1- "Prototype" – Episode #0911**

advancements.

01:32:02:14 CARTER (CONT'D): You said Khalek has had five treatments?

01:32:04:10 DANIEL: Yeah, according to the log.

01:32:06:03 CARTER: Well, then...

01:32:06:13 CARTER (CONT'D): This is where he should be now on the chart.

01:32:08:24 DANIEL: Does that mean what I think it means?

01:32:11:04 CARTER: We need to report this to Landry.

01:32:14:06 DANIEL: Yeah. There's one more thing I think you should do first.

01:32:23:04 MITCHELL (O/S): Just to give you a heads-up, we're going to keep you  
attached all the way home.

01:32:28:00 MITCHELL (CONT'D): If you try anything, you're going to be a drooling idiot in  
a couple of seconds.

01:32:30:15 MITCHELL (CONT'D): Corporal?

01:32:45:23 (SIRENS SOUNDING)

**STARGATE SG-1-** "Prototype" – Episode #0911

01:32:50:20 LANDRY: Continue.

01:32:51:26 MITCHELL: Go ahead.

01:33:04:03 LANDRY: They were just preparing to send Khalek through to place him back  
in stasis.

01:33:06:25 DANIEL: Bad idea.

01:33:07:27 DANIEL (CONT'D): 584's the last place we should be taking him right now. In  
fact, it was probably what he was hoping for.

01:33:15:29 LANDRY: This is General Landry.

01:33:16:27 LANDRY (CONT'D V/O OVER RADIO): Belay the order. Re-secure the  
prisoner.

01:33:23:05 MITCHELL: Back in the seat.

01:33:28:24 LANDRY: Now, explain why I just did that.

01:33:30:28 CARTER: The reason his advancement has plateaued is not because...

01:33:34:05 CARTER (CONT'D O/S): Of the dopamine inhibitor.

01:33:41:10 DANIEL (V/O): He's gone as far as he can. Now, he may have learned to use

**STARGATE SG-1- "Prototype" – Episode #0911**

01:33:44:07 DANIEL (CONT'D): The physical advancements he now has, but he'll never be able to ascend in his current state.

01:33:46:25 DANIEL (CONT'D V/O): He needs more treatments in that machine to make it happen.

01:33:52:24 MITCHELL: Get clear!

01:33:56:13 (MACHINE POWERS UP)

01:34:01:14 DANIEL (V/O): The one place we can't send him to is the lab on that planet, and I'll bet he's been waiting for us to try.

01:34:06:03 MITCHELL: This is Mitchell. Tell General Landry the prisoner is secure.

01:34:10:27 (BEEP)

01:34:15:08 (YELLING)

01:34:16:10 (RAPID GUNFIRE)

01:34:17:19 (RAPID GUNFIRE CONTINUES)

01:34:24:00 (MACHINE POWERS DOWN)

01:34:47:23 KHALEK: It seems things are no longer in control...Dick.

**END OF ACT FOUR**

**STARGATE SG-1- "Prototype" – Episode #0911****ACT FIVE**

01:35:12:29 (ALARMS SOUNDING)

01:35:13:29 DANIEL: You okay?

01:35:14:12 MITCHELL: Yeah, I'm fine. Just help me up.

01:35:16:05 DR. LAM: No, you're not. You have a concussion. You need to stay put.

01:35:18:22 MITCHELL: Look, my head can wait. We just finished securing him.

01:35:22:14 MITCHELL (CONT'D O/S): He went nuts and killed the two SFs.

01:35:23:25 CARTER: You think he could have heard us?

01:35:26:02 DANIEL: He'll go for the gateroom.

01:35:29:05 DANIEL (CONT'D): Gateroom.

01:35:34:27 SF #1 (O/S): Go, go!

01:35:43:01 (BLAST DOOR CLOSES)

01:35:52:12 HARRIMAN: Levels 12 through 28 are now secure. Full emergency contingent  
is in position and on...

**STARGATE SG-1- "Prototype" – Episode #0911**

01:35:56:27 HARRIMAN (CONT'D O/S): High alert.

01:36:01:14 LANDRY: There.

01:36:06:23 HARRIMAN: Target is on Level 21. Hallway "B", heading north.

01:36:10:29 SF #2 (O/S): Over here!

01:36:12:24 (RAPID GUNFIRE)

01:36:24:14 (MEN YELLING)

01:36:36:19 (ELECTRICAL EXPLOSION)

01:36:49:03 HARRIMAN: Security system's down. We've gone...

01:36:51:08 HARRIMAN (CONT'D O/S): To auxiliary power.

01:36:52:20 LANDRY: Yeah.

01:37:38:07 (RAPID GUNFIRE)

01:37:39:11 (TEAL'C GROANS)

01:37:48:13 TEAL'C: He went that way.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:37:50:03 CARTER: Medical team to Level 24. Hallway "D".

01:37:57:22 MITCHELL: Meet me at the gate. Call this in.

01:37:59:20 DANIEL: Target is headed down Emergency Exit Tube Three.

01:38:22:03 (GUNFIRE, MEN SCREAMING)

01:38:41:23 LANDRY: Get those doors open.

01:38:42:17 HARRIMAN (O/S): I'm trying, Sir. The controls are not working. They're sealed  
shut.

01:39:04:00 (GATE DIALING, ALARM WAILING)

01:39:13:05 LANDRY (O/S): Halt...

01:39:13:15 LANDRY: The dialing program!

01:39:14:14 HARRIMAN: I can't, Sir!

01:39:40:09 KHALEK: You should have killed me when you had the chance.

01:39:54:09 (STARGATE ACTIVATES)

01:39:56:00 CARTER: He's locked us out of the system.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:39:58:27 HARRIMAN: Iris control is still down too.

01:40:06:23 HARRIMAN (O/S): Incoming wormhole.

01:40:08:24 CARTER: Cutting auxiliary power to the blast doors.

01:40:12:03 CARTER (V/O OVER RADIO): Cameron, the electronic locks are down.

01:40:14:29 CARTER (V/O CONT'D): You should be able to pry the doors open.

01:40:16:22 MITCHELL: Yeah, that's easy for you to say.

01:40:24:10 MITCHELL: What took you so long?

01:40:37:04 HARRIMAN: Iris will not close.

01:40:50:09 (GUNFIRE)

01:41:05:26 MITCHELL: Nice shot.

01:41:12:16 (GUNFIRE)

01:41:26:04 (GUNFIRE CONTINUES)

01:41:37:25 CARTER: I rigged the call forwarding device on 584 to dial back here.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:41:41:01           LANDRY: And you didn't tell me?

01:41:42:01           CARTER (O/S): We were going to, Sir...

01:41:43:02           CARTER (CONT'D): But we didn't get a chance.

01:41:44:17           CARTER (CONT'D): It's a good thing, too, or he would have heard us.

01:41:46:29           LANDRY: Medical teams to Level 28.

01:41:49:09           LANDRY (CONT'D): Base is secured.

01:42:11:17           WOOLSEY (O/S): Dr. Jackson.

01:42:13:08           WOOLSEY (CONT'D): I just wanted you to know...the men who died...I'm  
going to see to it personally that their families are well taken care of.

01:42:21:06           DANIEL: Look, for what it's worth...I understand how you felt, and why you  
took the position you did.

01:42:30:17           WOOLSEY: It almost sounds like you might find it in yourself to forgive me.

01:42:37:08           DANIEL: No.

01:42:41:08           DANIEL (CONT'D): That doesn't mean we don't all want what you're looking  
for, and the answers are still out there.

**STARGATE SG-1- "Prototype" – Episode #0911**

01:42:47:14 WOOLSEY: But you were right about the risks.

01:42:58:28 DANIEL: Believe me, I wish I'd been wrong.

01:43:11:11 WOOLSEY: Me too.

**END OF ACT FIVE**

**FADE TO BLACK**

**END OF EPISODE**
