## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:00:36:14 MITCHELL (O/S): We just came out of hyperspace.

01:00:38:00 MITCHELL (CONT'D): I'm guessing you don't want to miss the landing.

01:00:40:09 DANIEL: What? What time is it?

01:00:42:01 EMERSON (V/O OVER RADIO): This is the Captain. All hands take stations for  
atmospheric entry.

01:00:47:06 DANIEL: Why didn't you tell me?

01:00:51:20 VALA: Okay. He's a little excited.

01:00:58:10 FLIGHT (V/O OVER RADIO): Odyssey, this is Flight. You are clear for landing.

01:01:02:15 EMERSON: Understood, Flight. We have the beacon.

01:01:07:25 CARTER (O/S): Hey, you're just in time.

01:01:09:05 DANIEL: Are you kidding? I wouldn't miss this for the world. The number of times  
I've tried to get here?

01:01:14:10 VALA: Only two of those times were my fault.

01:01:28:13 DANIEL: It is beautiful.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:01:30:08 WEIR (V/O OVER RADIO): Odyssey, this is Weir. I wanted to be the first to say  
welcome to Atlantis.

01:01:34:29 EMERSON (INTO RADIO): Thank you, Doctor. We're getting a good look at your  
fair city even as we approach.

01:01:38:19 WEIR (V/O OVER RADIO): Feel free to take a moment, but Stargate Command  
wants you to get started on your mission as soon as you've off-loaded  
our supplies. Weir out.

01:01:49:25 CARTER: What's wrong?

01:01:51:00 DANIEL: Oh, nothing, I... I guess I just wish my first trip to Atlantis wasn't under  
such desperate circumstances.

01:01:58:13 MITCHELL (O/S): It's just another mission, Jackson.

01:01:59:22 VALA (O/S): One upon which the...

01:02:00:22 VALA (CONT'D): fate of the entire galaxy hangs in the balance.

01:02:03:15 MITCHELL: And he goes on those all the time.

01:02:05:10 CARTER (O/S): Vala's not wrong.

01:02:06:16 CARTER (CONT'D): If we don't succeed, and the Ori manage to get more ships  
through that supergate...

01:02:09:10 MITCHELL (O/S): Well, like...

01:02:10:12 MITCHELL (CONT'D): the lady said, let's all just take a moment.

01:02:18:22 MITCHELL (CONT'D): Okay, moment's over. Let's go save the galaxy.

**END OF TEASER**

**ACT ONE**

- 01:03:57:14           CARTER: The Ori supergate has been inactive since they sent their first wave, but it's been reported that Priors are promising reinforcements for their armies, which are on their way and should be here soon. Now, we can only assume that means more ships, and these four ships are already more than we can handle. We have to act now.
- 01:04:11:28           MCKAY: Well, why don't you try dialing out? I mean, if it's powered by a black hole, you should be able to keep the thing up and running almost indefinitely.
- 01:04:17:18           SHEPPARD: I'm sure they thought of that before they came all this way, Rodney.
- 01:04:19:28           CARTER (O/S): It was what we were attempting to do when the Ori fleet first came through.
- 01:04:24:13           CARTER (CONT'D): Now, the Asgard have since tried again, but for some reason, they can't dial out.
- 01:04:27:21           WEIR: But you might be able to dial in?
- 01:04:29:11           CARTER: Well, that's the problem. It was designed to dial in from another galaxy.
- 01:04:33:25           SHEPPARD: Like one of the stargates in the Pegasus?
- 01:04:36:01           MCKAY (O/S): No, no, no. The diameter of a stargate...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:04:38:09 MCKAY (CONT'D): is not arbitrary. There is a specific correlation between energy required to create a stable wormhole—

01:04:42:04 CARTER (O/S): And the size...

01:04:43:04 CARTER (CONT'D): of the gate. I know that.

01:04:44:24 MCKAY: And it's exponentially proportional to size, which means, the energy required to create a connection with a supergate...

01:04:50:10 MCKAY (CONT'D O/S): would far exceed that of an ordinary gate.

01:04:52:14 MCKAY (CONT'D): It'd be like putting together a Saint Bernard and a Chihuahua.

01:04:55:23 VALA (O/S): And the problem...

01:04:56:23 VALA (CONT'D): with that would be...

01:04:58:15 MCKAY: Well, obviously it's a question of, uh...

01:05:04:10 MCKAY (CONT'D): Oh, I see. You're, um, mocking me, aren't you?

01:05:08:01 VALA: What? Um, no.

01:05:10:07 VALA (CONT'D O/S): I'm not from Earth. I honestly...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:05:11:22 VALA (CONT'D): didn't get the reference.

01:05:13:11 MCKAY: Oh. Oh, well, they're both dogs--

01:05:15:27 CARTER: McKay.

01:05:17:04 WEIR (O/S): Colonel Carter...

01:05:18:06 WEIR (CONT'D): please continue.

01:05:19:21 SHEPPARD: If he speaks again, I'll shoot him.

01:05:22:16 DANIEL (O/S): But to answer your question, we are...

01:05:24:08 DANIEL (CONT'D): introducing another stargate into the equation. Teal'c should  
have it in position right now.

01:05:28:06 CARTER: If we can make a connection between that gate and one from the  
Pegasus galaxy--

01:05:31:21 MCKAY: You're going to try and make it jump. Don't shoot me. You know I can't  
help myself.

01:05:35:20 SHEPPARD: Jump? Can you do that?

01:05:36:22 MITCHELL (O/S): One of Colonel Carter's more brilliant...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:05:38:21 MITCHELL (CONT'D): planet-saving ideas from a few years back. Stargate Command inadvertently dialed the gate address of a planet that was on a collision course with a black hole. P3W 451...

01:05:47:17 MITCHELL (CONT'D O/S): if memory serves.

01:05:49:06 CARTER (O/S): The only way to disconnect before Cheyenne mountain got...

01:05:51:02 CARTER (CONT'D): swallowed up was to set off a shaped charge right at the event horizon.

01:05:54:21 CARTER (CONT'D O/S): Now, that energy spike forced our outgoing wormhole to jump to another stargate that was relatively close by.

01:06:00:14 MITCHELL (O/S): And if we can do it again, we can tie up the Ori supergate indefinitely.

01:06:03:25 MCKAY: Even if you were able to establish an initial connection--

01:06:05:15 MITCHELL: We need a nuke. We know.

01:06:06:15 MCKAY: And a dialing crystal capable of—

01:06:07:15 MITCHELL: Already have one.

01:06:08:23 MCKAY (O/S): And if you want to keep the connection open for more than 38 minutes, you'll need to find a black hole...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:06:11:00 MITCHELL (O/S SIMULTANEOUS): Yak, yak, yak, yak, yak!

01:06:12:08 MCKAY (CONT'D): in the Pegasus Galaxy!

01:06:14:21 MITCHELL: This is not our first barbecue, Dr. McKay.

01:06:16:20 MCKAY: I am just saying, the yield calculations can be extremely tricky if not  
borderline impossible. You may need me.

01:06:25:13 VALA: Colonel Carter said as much.

01:06:27:04 CARTER: Ooh... We weren't going to tell him that.

01:06:31:20 WEIR (O/S): John, do you think you could...

01:06:32:24 WEIR (CONT'D): spare Rodney from your team?

01:06:35:17 SHEPPARD: Hell... you can keep him.

01:06:38:09 MITCHELL: Nice.

01:06:44:07 MITCHELL: I got to tell you, Sheppard... it's a nice place you got here.

01:06:49:00 SHEPPARD: Thanks. We just painted. Well, good luck, and listen, if McKay gives  
you a hard time, just...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:06:56:10 MITCHELL: Shoot him.

01:06:57:14 SHEPPARD: Also, he's mortally allergic to citrus.

01:07:00:02 MITCHELL: Really?

01:07:01:11 SHEPPARD: I keep one with me at all times. Just a comfort to know it's there.

01:07:07:14 MITCHELL: That's good intel. Thanks.

01:07:11:09 MCKAY: That's a good one. We're actually... We're quite close.

01:07:15:04 MITCHELL: Have you packed your bags?

01:07:16:06 MCKAY: Hmm? Oh, right, right.

01:07:23:14 MITCHELL (O/S): All right, be good.

01:07:24:02 DANIEL: Yeah, good luck. I wish I was going with you.

01:07:26:10 MITCHELL (O/S): No, you don't.

01:07:27:10 DANIEL: No, I don't.

01:07:27:15 MITCHELL: This place is Daniel Disneyland. Wow. Just find the weapon.

01:07:33:22 DANIEL: No pressure.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:07:36:16 WEIR: Yes, your desire to access the Atlantis database seemed quite urgent, Dr. Jackson. Shall we?

01:07:42:11 DANIEL: Uh, where's Vala?

01:07:47:06 WEIR: Oh, this way.

01:08:02:00 VALA: Well, Daniel, no wonder you've been obsessing about coming here. This place must be full of so many wonderful... souvenirs.

01:08:11:22 DANIEL: How much of the city have you been able to explore?

01:08:13:20 WEIR: Just over half now, but we have the city schematics, so we have a fairly good idea of what's where. Still, there are entire sections of the city and whole systems we don't even pretend to understand.

01:08:26:09 DANIEL: You could spend a lifetime trying.

01:08:28:16 WEIR: I hope to.

01:08:30:21 WEIR (CONT'D): I ran the search you asked for. I entered every pronunciation of Castiana and Sahal I could come up with.

01:08:35:10 DANIEL: And nothing.

01:08:36:17 WEIR: You didn't actually expect either of those names to be in there, did you?

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:09:23:19 MCKAY: Hmm, right, but first, I just wanted to thank you for being there for me recently in a time of great personal need. Well, actually, you weren't there-- I was alone in the dark-- but, um, it sure seemed like you were.

01:09:39:00 CARTER: Are you telling me one of your fantasies?

01:09:41:10 MCKAY: No, no, it was a hallucination. Look, I had a concussion, I was trapped in the back of a sinking Jumper, and my mind conjured you up as a means of survival. What you would do in my situation. It saved my life.

01:09:49:29 CARTER: Okay, well, that's... sort of nice.

01:09:53:21 MCKAY: Hmm. Yes, it was.

01:09:56:20 CARTER: Was I naked?

01:09:57:26 MCKAY: Partially.

01:09:59:06 CARTER: Check my calculations, McKay.

01:10:11:24 WEIR: We use this room sparingly now. It's a bit of a power hog, and we can access the database from workstations throughout the city when we need to... but for the first-time user... this is the place.

01:10:27:19 HOLOGRAM (CONT'D): Hello.

01:10:28:21 WEIR (O/S): It's as simple as asking questions to the holographic...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:10:30:08 WEIR (CONT'D): interface. For example--

01:10:31:26 TECHNICIAN (V/O OVER INTERCOM): Dr. Weir to Stargate Operations.

01:10:33:20 WEIR: I'm sorry. (INTO RADIO) I'll be right there. The interface can walk you through your search until I get back. Oh, I should probably warn you... If she seems a little bit patronizing, the program was designed to teach very young children the Lantian systems.

01:10:46:06 DANIEL: Thank you.

01:10:52:01 HOLOGRAM (O/S): Hello.

01:10:53:28 VALA: Hello, we're looking for a couple of planets in the Milky Way--

01:10:56:19 DANIEL: Vala.

01:10:57:19 VALA: What? What can it hurt to ask?

01:11:00:25 HOLOGRAM (O/S): You may enter your query verbally...

01:11:02:13 HOLOGRAM (CONT'D): or by entering it manually on the console before you.

01:11:05:01 DANIEL (O/S): I'll speak...

01:11:06:01 DANIEL (CONT'D): if that's all right.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:11:07:19 HOLOGRAM (O/S): Of course, but note...

01:11:09:08 HOLOGRAM (CONT'D): for future sessions, manual input is required for most system interaction.

01:11:14:07 DANIEL: I think I had her in grade five.

01:11:30:00 EMERSON: Maintain orbit at minimum safe distance and keep sublight engines on standby.

01:11:38:05 MITCHELL: Is that thing cool or what?

01:11:39:21 MCKAY: Hmm.

01:11:41:10 MITCHELL: The black hole.

01:11:43:01 MCKAY: What you're looking at is called the accretion disk. It's matter trapped in the gravity well. You can't actually see the black hole itself.

01:11:51:25 MITCHELL: Which is cool.

01:12:01:21 CARTER: We're in optimal range for releasing the gate. We can commit to the next phase.

01:12:06:04 EMERSON (INTO RADIO): This is Emerson to Flight Operations. Release the gate.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:12:34:09 MCKAY (O/S): Well, it's going to be a few minutes before the...

01:12:36:13 MCKAY (CONT'D): gate's in position and ready to dial out, and I missed lunch, so... I'm going to fix myself a sandwich. Anyone want anything?

01:12:42:08 MCKAY (CONT'D O/S): Anyone?

01:12:45:08 MCKAY (CONT'D): No? No? Fine.

01:12:57:17 DANIEL (O/S): Okay, that's Earth, and that is...

01:13:00:10 DANIEL (CONT'D): Taonas.

01:13:01:16 HOLOGRAM (O/S): Praclarush Taonas was one of the...

01:13:03:02 HOLOGRAM (CONT'D): earliest Lantian cities. It was abandoned when the inhabitants learned...

01:13:05:29 HOLOGRAM (CONT'D O/S): their sun was nearing the end of its life.

01:13:07:28 DANIEL: Yes, thank you, I know. I've been there. Okay, show me the order in which the earliest Ancient cities were founded.

01:13:13:29 VALA (O/S): How is that useful? Join up all the dots and draw a pretty picture?

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:13:16:28 DANIEL (O/S): I'm just getting my bearings. You're going to have to get used to the fact this is probably going to take a while.

01:13:20:09 VALA (O/S): The way you approach things...

01:13:21:09 VALA (CONT'D): it could take the rest of our lives.

01:13:23:00 DANIEL: I'm sorry, but we're not going to find the location of this thing by looking under "W" for "weapon."

01:13:26:23 VALA: "P" for "planet," then?

01:13:27:26 VALA (CONT'D OS/): I'm just saying, ask the question.

01:13:29:21 DANIEL: Dr. Weir already tried it. It'd be a complete waste of time.

01:13:32:00 VALA: It would take all of 11 seconds.

01:13:34:21 DANIEL: Hello, we're looking for the names of two planets known on Earth in ancient times in the dialect of Old English as Castiana and Sahal.  
Satisfied?

01:13:42:27 HOLOGRAM: Taoth Vaclarush and Valos Cor.

01:13:52:19 VALA: Now I'm satisfied.

STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:13:59:06 VALA (CONT'D): You see, Daniel? It doesn't hurt to ask.

**END OF ACT ONE**

**ACT TWO**

01:14:33:13 CARTER: Gate telemetry checks out. Stabilizing thrusters are online and power is well into the green. We're good to go.

01:14:40:00 MITCHELL: Where's McKay?

01:14:41:10 MCKAY: I'm here. One of your crew wouldn't let me finish my sandwich in the corridor.

01:14:46:16 MITCHELL: Oh, the nerve of that crewman, huh? We're about to try a connection.

01:14:51:08 MCKAY: Go ahead. That's the easy part.

01:14:54:15 CARTER: Thank you. I've already sent the remote dial command. It's just going to take a while because of time dilation.

01:15:04:11 CARTER (CONT'D): Wormhole is established.

01:15:06:22 MCKAY: Of course it is.

01:15:11:25 MITCHELL (INTO RADIO): Teal'c, I have a collect call from the Pegasus Galaxy. Will you accept the charges?

01:15:18:24 TEAL'C (V/O OVER RADIO): I will indeed, Colonel Mitchell.

01:15:20:17 MITCHELL (INTO RADIO): Hey, how are things back home in the Milky Way?

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:16:12:00 CARTER: We're on a clock, McKay. We have to take the risk.

01:16:15:01 MCKAY: You know, I find your recklessness so se--

01:16:21:28 CARTER (INTO RADIO): Teal'c, it's Sam. We're about to launch the first warhead  
to the preprogrammed coordinates. Are you at a safe distance from both  
gates?

01:16:29:20 TEAL'C (V/O OVER RADIO): I am.

01:16:31:17 EMERSON (INTO INTERCOM): Attention, all hands. Stand by. Launching...

01:16:34:18 EMERSON (INTO INTERCOM CONT'D O/S): first warhead.

01:16:36:25 CARTER (O/S): Beaming device in...

01:16:37:25 CARTER (CONT'D): three, two, one... mark.

01:16:44:00 (BEAMING DEVICE BLAST)

01:16:53:05 MITCHELL (INTO RADIO): Teal'c, what's the good news?

01:16:57:29 MCKAY: The delay is annoying.

01:16:59:13 MITCHELL: Black hole, time dilation, can't be helped.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:17:02:19           TEAL'C (V/O OVER RADIO): The news is not good, Colonel Mitchell. The first attempt was unsuccessful.

01:17:07:25           CARTER: Okay. Let's try again.

01:17:15:13           VALA (V/O): Daniel.

01:17:16:22           DANIEL (V/O): Mm.

01:17:17:28           VALA (V/O): We got what we came for.

01:17:19:26           DANIEL: I know.

01:17:20:26           VALA: Shouldn't we be out there telling someone?

01:17:23:00           DANIEL: Not yet.

01:17:24:16           VALA: Okay, well, she told us the name...

01:17:26:04           VALA (COTN'D O/S): of the planets. They were right up there glowing in the ceiling. Taoth Vaclarush and Valos Cor. She even gave us the addresses...

01:17:32:28           VALA (COTN'D): which means we could be out there somewhere overlooking Atlantis, toasting with exotic beverages.

01:17:38:16           DANIEL: There's something else going on.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:17:40:11 VALA: What?

01:17:42:10 DANIEL: Well... it shouldn't have worked. I mean, I didn't expect it to when I asked Elizabeth to try, but I thought there'd at least be some remnant, some vague similarity between the words Castiana and Sahal and their Ancient language counterparts.

01:17:59:28 VALA: She wouldn't lie.

01:18:01:15 DANIEL (O/S): I don't know... but explain this to me-- how can this database translate...

01:18:06:27 DANIEL (CONT'D): in real time, a language spoken 8,000 years after the Ancients abandoned Atlantis?

01:18:16:06 VALA: That's a tough one.

01:18:23:01 DANIEL: Is there an archival visual record of the Lantian citizens who fled to Earth?

01:18:27:01 HOLOGRAM: There is.

01:18:28:19 DANIEL: Display them for me. One at a time.

01:18:39:22 MCKAY: No, no, no, no, those yield calculations are perfectly fine.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:18:42:10 CARTER: They are?

01:18:43:23 MCKAY: If your goal is to blow up the stargate.

01:18:45:03 CARTER: Anything less and it won't add enough energy to the matter stream to make a jump to the stargate.

01:18:49:08 MCKAY: And anything more and the stargate will be destroyed. You want to run high voltage, but you've only got an extension cord. It's impossible, and I told you so--

01:18:55:08 MITCHELL: No, you said it was borderline impossible.

01:18:57:25 MCKAY: Yes, well, we've crossed the border, but hey, you know, don't let me stop you. Go calibrate your warhead. Beam your bomb.

01:19:02:28 MITCHELL: You know, Sam, this is not the Rodney McKay I've heard stories about.

01:19:05:08 MCKAY: What stories? What have you heard?

01:19:06:15 MITCHELL: Well, for starters, that you didn't know the meaning of the word "impossible."

01:19:09:13 MCKAY: Well, I certainly know the meaning--

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:19:10:03            MITCHELL: And that under threat of impending death, you could work absolute miracles.

01:19:12:22            MCKAY: I suppose Sheppard told you that?

01:19:13:17            MITCHELL: Yes, he did.

01:19:14:07            MCKAY: Yes, well, it's all true, but I'm not under the threat of impending death, and I don't have--

01:19:20:07            MITCHELL (O/S): Not yet.

01:19:22:08            MITCHELL (CONT'D): Keep it up...

01:19:25:09            MCKAY: Well... I'll see what I can come up with, then.

01:19:34:16            CARTER: You know, Cam, he's not wrong. As much as it pains me to say it, the data from our first attempt supports his argument.

01:19:40:15            MITCHELL: Well, like my grandma used to say, if at first you don't succeed...

01:19:43:13            CARTER: Try a larger thermonuclear reaction?

01:19:45:20            MITCHELL: Her words exactly.

01:19:58:12            VALA: Well, exciting as it is to view the Atlantis family album...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:20:01:16 DANIEL: I'm looking for someone in particular.

01:20:05:21 VALA (O/S): I don't know of any 10,000-year-old...

01:20:07:23 VALA (CONT'D): Ancients.

01:20:13:15 VALA (CONT'D O/S): I take that back.

01:20:14:12 VALA (CONT'D): We know him.

01:20:20:07 HOLOGRAM: Moros was the last High Councilor of Atlantis.

01:20:22:20 VALA (O/S): Moros?

01:20:23:28 VALA (CONT'D): Well, apart from the funny hat, he's the spitting image of Merlin,  
isn't he?

01:20:26:27 DANIEL: In Arthur's time, it was "Myrdin." You see how a word can change over  
the centuries.

01:20:30:12 VALA: I know where you're going. You think that Merlin, or Myrdin, or whatever  
his name was, came back to Atlantis at some stage and hid these names  
here as clues for us to find.

01:20:41:06 DANIEL: No.

01:20:41:26 VALA: No.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:20:42:10 HOLOGRAM (O/S): The first human...

01:20:43:21 HOLOGRAM (CONT'D): to set foot within the city after it was abandoned was Dr.  
Elizabeth Weir...

01:20:47:11 HOLOGRAM (CONT'D O/S): leader of the current Atlantis expedition.

01:20:49:13 VALA: Are you sure of that?

01:20:51:05 HOLOGRAM (O/S): Evidence of his presence...

01:20:52:07 HOLOGRAM (CONT'D): would have been recorded.

01:20:56:01 VALA: Well, darling, I guess that's it. We'll have to leave here with exactly that  
which we came for.

01:21:02:03 DANIEL: No, I already knew Merlin was in the archive. I was looking for someone  
else.

01:21:05:03 VALA: Who?

01:21:06:13 DANIEL (O/S): You chose your words very carefully when you said, "The first  
human to set foot in the city."

01:21:10:04 DANIEL (CONT'D): What about ascended being?

STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:21:18:15            DANIEL (CONT'D): You're not really a hologram, are you?

01:21:25:20            HOLOGRAM: You have your answer, Daniel Jackson. I suggest you act on it.

**END OF ACT TWO**

**ACT THREE**

01:21:53:24 MCKAY: I have it. It might require a little improvisation, but I think between the two  
of us--

01:21:57:10 CARTER: What have you got?

01:21:58:29 MCKAY: Our energy output problem isn't one of degree, it is one of duration. We  
need to calibrate an explosion with a low enough yield that the gate can  
survive, but maintain sufficiently high energy for there to be a cumulative  
effect on the matter stream. You see, when I first realized--

01:22:11:12 CARTER: We use two bombs.

01:22:13:11 MCKAY (O/S): Yes, I was coming to that part.

01:22:14:16 CARTER (O/S): We set the second device to detonate within a few seconds...

01:22:17:06 CARTER (CONT'D): of the first. I'm sure you've—

01:22:18:10 MCKAY (O/S): Made the calculations.

01:22:19:10 MCKAY (CONT'D): Yes, they're right here.

01:22:23:04 CARTER: Nice job, McKay.

01:22:24:18 MCKAY: Yes, well, it usually helps to threaten me.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:23:13:28 WEIR: Is it headed this way?

01:23:15:13 ZELENKA: Toward the Odyssey.

01:23:18:00 WEIR: We should alert them. Open a channel.

01:23:19:06 ZELENKA: We can't. The black hole is blocking their subspace communications.

01:23:22:10 WEIR: And Odyssey's sensors will also be affected?

01:23:23:24 ZELENKA (O/S): Most likely, along with several other systems.

01:23:26:04 WEIR (O/S): There's a possibility they won't see the Wraith approaching them  
until it's too late.

01:23:29:07 ZELENKA: That is my concern, yes.

01:23:34:20 WEIR: Dial Earth.

01:23:35:23 WEIR (CONT'D O/S): It's quite possible the Wraith were drawn to the nuclear  
blast.

01:23:52:23 WEIR (CONT'D INTO RADIO): Stargate Command, this is Weir.

01:23:54:08 HARRIMAN (INTO RADIO): Doctor, we weren't expecting to hear from you until  
1930 hours tomorrow.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:23:58:06 WEIR (V/O OVER RADIO): We've detected a Wraith ship on our long-range sensors headed towards Odyssey, but they're in close proximity to a black hole, which has hampered communications.

01:24:06:22 HARRIMAN (INTO RADIO): How can we help?

01:24:08:01 WEIR (INTO RADIO): If you can get our message to Teal'c, he should be able to alert Odyssey through the connected stargates.

01:24:13:05 HARRIMAN (V/O OVER RADIO): We'll have to send a team with a subspace transmitter closer to Teal'c's position.

01:24:17:06 WEIR (INTO RADIO): Do what you have to do, Sergeant, but they need to be warned.

01:24:20:15 HARRIMAN (INTO RADIO): Yes, ma'am.

01:24:22:04 WEIR (V/O OVER RADIO): I'm forwarding you our message now.

01:24:24:00 WEIR (CONT'D INTO RADIO): There's still time to get it to them, but you're going to have to hurry. Weir out.

01:24:32:02 WEIR (CONT'D): I'm going to check in on Dr. Jackson and let him know what's happening here.

01:24:35:00 ZELENKA: All right.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:24:39:25            DANIEL: I know you're still here. There's no point in hiding.

01:24:42:13            VALA: I don't think she's coming back, Daniel, especially if you shout at her.

01:24:45:05            DANIEL: Oh, yes, she is. She's come this far. She's going to finish what she  
                                         started. You're not fooling anybody anymore!

01:24:51:06            WEIR: Dr. Jackson.

01:24:53:00            DANIEL: Oh, hi.

01:24:54:14            WEIR: Hi. Who are you talking to?

01:24:57:28            DANIEL: Well, I don't know what she's calling herself these days, but at one point  
                                         in history, her name was Morgan Le Fay.

01:25:03:24            WEIR: Morgan Le Fay was here?

01:25:06:15            DANIEL: Posing as a hologram, yes.

01:25:08:10            WEIR: Hmm. May I?

01:25:11:06            DANIEL: Oh. Yes.

01:25:23:09            MORGAN (O/S): Hello.

01:25:24:19            VALA: That's her.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:25:25:29 MORGAN: You may enter your query verbally, or by--

01:25:28:15 DANIEL: You know, drop the schoolteacher act.

01:25:30:13 WEIR: This is a computer-generated image of a Lantian woman who lived 10,000 years ago. I'm pretty familiar with the program. It hasn't changed.  
Question-- whose image is your avatar based on and what's the purpose of your program?

01:25:43:07 MORGAN: I was created by Ganos Lal, in her image, for the purpose of assisting younger minds.

01:25:49:15 WEIR: And what makes you think otherwise?

01:25:50:29 VALA: For starters, she told us exactly what we needed to know.

01:25:53:24 WEIR: She did?

01:25:55:04 DANIEL (O/S): Mm-hm. Does this interface have the capability...

01:25:56:26 DANIEL (CONT'D): of playing back events from earlier in the session?

01:25:58:24 WEIR: Yes.

01:25:59:20 DANIEL (O/S): Can you play back...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:26:00:15 DANEIL (CONT'D): the last sentence she said to me before she disappeared?

01:26:11:13 MORGAN: You have your answer, Daniel Jackson. I suggest you act on it.

01:26:16:26 VALA: See? See? Her demeanor completely changed. She looked directly at Daniel. It was really creepy.

01:26:22:17 WEIR: Well, I did warn you that she could be patronizing.

01:26:26:23 DANIEL: You said this device uses a lot of power. Is there any way of determining exactly how much power we've used?

01:26:31:27 WEIR (INTO RADIO): Yes. Control Room, this is Weir. I need you to access the power usage logs for the holo room.

01:26:37:12 TECHNICIAN (V/O OVER RADIO): Yes, ma'am.

01:26:45:29 TECHNICIAN (CONT'D V/O OVER RADIO): None.

01:26:48:13 WEIR (INTO RADIO)None? Are you sure?

01:26:51:03 TECHNICIAN (INTO RADIO): Well, the lights are on. Other than that...

01:26:53:24 VALA: Hey.

01:26:57:24 VALA (CONT'D): Got you.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:27:00:12 WEIR: I think I owe you an apology, Dr. Jackson.

01:27:05:20 MORGAN: There's no need, Dr. Weir. I'm the one who should apologize.

01:27:17:27 MITCHELL (V/O): Teal'c, it's Mitchell.

01:27:19:02 MITCHELL (V/O CONT'D OVER RADIO): We're going again. Looks like this is  
one of those days when one nuke is not enough, so we're going to fire off  
two in rapid succession.

01:27:26:12 TEAL'C (INTO RADIO): Understood, Colonel Mitchell.

01:27:28:00 CARTER (INTO RADIO): Maintain a good, safe distance, Teal'c. There's a  
possibility we could vaporize the gates on both ends if we get this wrong.

01:27:34:12 MCKAY: It's like five percent. Maybe seven. He'll be fine.

01:27:37:17 CARTER: That's a comfort, Rodney. Thank you. (INTO RADIO) Coordinates are  
set. Beaming the warheads in... five, four, three, two, one... mark.

01:28:05:07 TEAL'C (INTO RADIO): The second attempt was also unsuccessful. However,  
energy did pass between the stargate and the supergate.

01:28:12:00 MITCHELL: Close but not enough?

01:28:15:25 TEAL'C (V/O OVER RADIO): Indeed.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:28:17:00 MCKAY (O/S): We still have two more bombs. I say we increase the yield...

01:28:19:04 MCKAY (CONT'D): to maximum and try it again.

01:28:20:13 CARTER: You were the one who said a maximum yield blast would vaporize both  
gates.

01:28:23:25 MCKAY: We've only got one more shot at this. What difference does it make?

01:28:26:09 MITCHELL: The man has a point, Sam.

01:28:28:19 EMERSON: Each attempt is forcing the gate closer to the event horizon of the  
black hole. To keep safe beaming distance, I'm going to have to bring the  
Odyssey in even closer.

01:28:38:04 CARTER: And the closer you get to the black hole, the more systems are affected  
by its effects.

01:28:41:14 EMERSON: Sublight engines and beaming technology are fine, but  
communications and sensors are all out of whack already.

01:28:48:07 MITCHELL: We're flying blind?

01:28:50:05 EMERSON: Not quite, but close.

01:28:53:00 (ALARM SOUNDING)

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:28:58:11           TEAL'C (INTO RADIO): Odyssey, this is Teal'c. My sensors indicate that an Ori vessel is approaching these coordinates. At their current speed, they will arrive within minutes.

01:29:07:17           EMERSON: Is that enough time to try again?

01:29:08:24           MCKAY (O/S): Not a chance. It takes time...

01:29:10:01           MCKAY (CONT'D): to set and calibrate warheads and detonators. He needs to get out of there.

01:29:14:05           MITCHELL: Can't do that.

01:29:15:11           MCKAY: Why not? He's a sitting duck.

01:29:16:24           CARTER: What Colonel Mitchell is saying is we can't allow the Ori to discover the secondary gate. If they do, we'll never get another shot at this.

**END OF ACT THREE**

**ACT FOUR**

01:29:47:16 WEIR: You're an ascended Ancient.

01:29:48:25 MORGAN: I am.

01:29:50:00 DANIEL: Specifically Morgan Le Fay.

01:29:51:07 DANIEL (CONT'D O/S): I thought I recognized her from descriptions in the archive  
on Vagon Brei.

01:29:55:15 VALA: That's...that's great. So enough of the tiny tidbits of information-- not that  
we're ungrateful-- but if you know what it is we're looking for, and as an  
ascended being, I have to assume you do...

01:30:10:26 MORGAN: As Dr. Jackson knows, it is against our highest law to interfere.

01:30:15:11 VALA: But interfering a little bit is fine, is it?

01:30:17:04 WEIR: It might be a good idea to be a bit less confrontational.

01:30:21:04 VALA: But she's here chatting with us. That's interference, isn't it?

01:30:24:11 DANIEL: If you really are Morgan Le Fay, how do I know your intention is to help  
us? According to legend, you were Merlin's greatest rival. Merlin is both  
Moros and Myrdin.

01:30:35:16 MORGAN: For a time in your history, yes, I was his rival, but we're talking about many thousands of years, Dr. Jackson. As you know, things change. When we first abandoned Atlantis all those millennia ago, the Earth was so harsh, its people so primitive by comparison, there was no hope of living among them as Lantians or rebuilding our society, so instead, we spread out to many lands, some of us planting a few small seeds of civilization among the first tribes of man, others making their way to the stargate at your southern pole, still others choosing to live the remainder of our lives...

01:31:12:16 MORGAN (CONT'D O/S): in seclusion and meditation. Merlin and I both chose the latter path.

01:31:16:28 DANIEL: And so you ascended.

01:31:19:18 MORGAN: It was only some thousands of years later, upon seeing the threat the Ori could one day become, that Merlin retook his human form in order to create the weapon that you seek.

01:31:28:22 MORGAN (CONT'D O/S): He did everything within his power to keep his work secret, but we feared his intentions.

01:31:34:12 MORGAN (CONT'D): I was sent to observe, and, if necessary, to stop him.

01:31:38:03 VALA (O/S): Wait right there.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:31:39:17 VALA (CONT'D): Just a minute. If he was human again, then you were interfering.  
You broke your own law.

01:31:45:11 MORGAN (O/S): Merlin retained all of the knowledge he had gained when he  
ascended, as well as many powers...

01:31:50:21 MORGAN (CONT'D): knowledge and powers he used to create a weapon capable  
of wiping ascended beings from existence.

01:31:55:12 VALA: So you're saying he cheated.

01:31:58:08 MORGAN: In a manner of speaking.

01:32:01:18 MORGAN (CONT'D O/S): For that brief time in your history, he was...

01:32:03:26 MORGAN (CONT'D): the most powerful being on your planet. He created a small  
enclave of noblemen, with whom he entrusted his secret.

01:32:10:09 WEIR: Arthur and Camelot.

01:32:11:25 MORGAN: Yes.

01:32:13:05 DANIEL (O/S): So you're telling us that after doing everything...

01:32:15:20 DANIEL (CONT'D): in your power to oppose Merlin, all of a sudden, you agree  
with him?

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:32:21:10 DANIEL (CONT'D O/S): Because if you don't...

01:32:22:10 DANIEL (CONT'D): then you're deliberately misleading us.

01:32:27:19 MITCHELL (INTO RADIO): Teal'c, has the Ori ship detected your presence?

01:32:32:06 TEAL'C (INTO RADIO): I cannot be certain.

01:32:36:10 CARTER: We have to risk it.

01:32:37:23 CARTER (V/O OVER RADIO): Teal'c, I need you to get the ship into position  
alongside the gate. From there, you should be able to extend the cloak  
around the active stargate.

01:32:57:13 MCKAY: You realize the Ori ship could be there to rendezvous with a new fleet of  
ships--

01:32:59:28 MITCHELL (O/S): Dr. McKay...

01:33:01:07 MITCHELL (CONT'D): why don't you go calibrate your bombs. That way, you're  
ready when the time arrives.

01:33:11:01 CARTER (INTO RADIO): Teal'c, the cloaking field may be attenuated because  
you've expanded it. Shut down all non-mission-critical systems and  
maintain radio silence.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:33:25:22 MITCHELL: Hopefully they're there just to check things out, and they'll be gone soon.

01:33:33:21 MORGAN: I have no reason to deceive you.

01:33:35:28 VALA (O/S): No...

01:33:37:10 VALA (CONT'D): of course not. So, what were you doing when you were pretending to be a hologram?

01:33:43:00 MORGAN (O/S): The learning program I created...

01:33:45:16 MORGAN (CONT'D): many years before I left Atlantis presented itself as a means of helping you.

01:33:49:17 WEIR (O/S): If you'd fallen for it...

01:33:51:05 WEIR (CONT'D): you'd have your answers and be on your way, thinking you came up with it yourself.

01:33:55:05 MORGAN: That was my intention.

01:34:01:12 DANIEL: I believe you.

01:34:02:20 DANIEL (CONT'D O/S): I do. I mean, I understand the fine line...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:34:06:03 DANIEL (CONT'D): you have to walk, and I realize the risk you're taking just showing yourself...

01:34:12:15 DANIEL (CONT'D O/S): but I'm sorry, I want more...

01:34:15:10 DANIEL (CONT'D): and you can pass that on to your friends as well-- yeah, I know you're listening-- because I am getting sick of hidden clues and cryptic messages. And Merlin was right that the Ori are a threat, but not only to us "lowers," not only to the billions of human lives throughout this galaxy, but to your own existence, because when this war is over and every soul that's left alive is praying to the Ori, feeding their need to be worshipped... you know who they're going to come for next.

01:34:47:05 DANIEL (CONT'D O/S): I won't pretend to know what that war will look like, or on what...

01:34:49:08 DANIEL (CONT'D): battlefield it will take place, but then... I won't be alive to see it.

01:34:56:16 MORGAN: If we interfere, we are no better than the Ori.

01:34:59:11 DANIEL (O/S): I understand that is at the very core of what you are...

01:35:02:04 DANIEL (CONT'D): of what you believe, but I'm talking about survival here. If you really are trying to help, then help yourself.

STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:35:30:04            SG-11 COMM OFFICER (V/O): This is SG-11 Comm Officer, relaying an urgent message via subspace relay from the Gamma site. Message reads, "From Atlantis. Have detected Wraith ship approaching Odyssey's coordinates in Pegasus. Cannot relay warning directly because of interference. Advise Odyssey commander of danger upon receipt of this message. Original message received at SGC, 1545 Zulu. Good luck."

**END OF ACT FOUR**

**ACT FIVE**

01:36:15:19 MCKAY: Our last two bombs are ready to go.

01:36:17:03 MITCHELL: That's great. Pick a spot and relax.

01:36:18:24 EMERSON: Colonel, sublight engines are under a huge strain maintaining  
position this long.

01:36:30:22 MORGAN (O/S): You speak from the heart, Dr. Jackson.

01:36:34:11 MORGAN (CONT'D): That is what I remember most from your brief time among  
us.

01:36:37:18 MORGAN (CONT'D O/S): No, you wouldn't recall.

01:36:39:16 MORGAN (CONT'D): Those memories were stripped from you when you were  
sent back.

01:36:42:18 DANIEL (O/S): That's what you're afraid of, isn't it?

01:36:45:04 DANIEL (CONT'D): Of doing the right thing and being punished for it.

01:36:49:19 MORGAN: I've already gone too far.

01:36:51:21 DANIEL (O/S): But you can't be the only one...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:36:53:02 DANIEL (CONT'D): to realize the Ori have changed things.

01:36:55:25 DANIEL (CONT'D O/S): There must be others among you...

01:36:57:11 DANIEL (CONT'D): that see that the time to join this fight is now.

01:37:13:25 TEAL'C (INTO RADIO): Odyssey, this is Teal'c.

01:37:17:18 MITCHELL (INTO RADIO): Teal'c, what's the word?

01:37:19:11 TEAL'C (V/O OVER RADIO): A Wraith vessel is approaching your position.

01:37:23:28 MCKAY: Oh, Wraith. That's not good.

01:37:26:14 MITCHELL (INTO RADIO): I'm sorry... How the hell do you know that?

01:37:33:04 TEAL'C (V/O OVER RADIO): Atlantis has detected their approach.

01:37:35:21 TEAL'C (CONT'D INTO RADIO): I am relaying their message via Stargate  
Command.

01:37:45:17 CARTER: There's no sign of a Wraith ship on the sensors.

01:37:47:06 EMERSON (O/S): We can't trust sensors this close...

01:37:48:26 EMERSON (CONT'D): to the black hole. Shields to maximum.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:37:51:18 BRIDGE OFFICER: Shields are only operating at 20% efficiency.

01:37:53:16 MCKAY: It's the black hole. We need to get further away.

01:37:56:24 EMERSON: Move us out.

01:38:07:20 MITCHELL: There's something out there, all right. We just can't see it.

01:38:10:08 EMERSON (O/S): Damage report.

01:38:10:28 BRIDGE OFFICER (O/S): Hyperdrive is down.

01:38:13:15 EMERSON: Can we return fire?

01:38:14:26 BRIDGE OFFICER: Trying, sir, but the Wraith ship is farther out from the black  
hole than we are.

01:38:18:07 EMERSON: Emergency thrust...

01:38:19:07 EMERSON (CONT'D): sublight engines. Let's put some distance between us and  
this thing.

01:38:23:05 CARTER: No. You know what? We need to do the opposite.

01:38:24:27 MCKAY: What?

01:38:25:12 MITCHELL: What?

01:38:25:29 CARTER: Against a gravity well this strong, they've literally got the higher ground, but if we can get them to follow us closer to the black hole--

01:38:31:21 MCKAY: Then their systems will be affected the same way as ours, including their jamming technology.

01:38:34:20 CARTER: Which means we should be able to beam the warheads directly aboard their ship.

01:38:37:05 EMERSON (O/S): In that close...

01:38:38:11 EMERSON (CONT'D): we won't have the engine power to maneuver.

01:38:39:08 MITCHELL (O/S): So we slingshot...

01:38:40:18 MITCHELL (CONT'D): and use the gravity well to accelerate back out.

01:38:43:23 EMERSON: Take us in. Full power.

01:38:54:08 DANIEL (O/S): I know what we're asking you to do. You're afraid the others...

01:38:59:21 DANIEL (CONT'D): will step in and stop you from helping us, but maybe... maybe they just need someone to cross that imaginary line instead of just walking it.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:39:08:04 DANIEL (CONT'D O/S): There must be others among you just waiting to follow your example.

01:39:13:17 MORGAN: Not enough.

01:39:15:15 WEIR: But you have been allowed to go this far.

01:39:18:15 MORGAN: Trust that you have your answers.

01:39:22:13 VALA: At least tell us which one of the planets to go to.

01:39:26:14 DANIEL: Please.

01:39:33:00 MORGAN: Merlin's weapon is not--

01:39:43:09 WEIR: What happened?

01:39:44:12 DANIEL: Just what she knew would happen. They stopped her. We won't see her again.

01:39:52:27 VALA: Are they going to punish her?

01:39:56:00 DANIEL: I don't know.

01:39:59:04 VALA: I think I understand why you came back, Daniel. I wouldn't have liked their company either.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:40:15:17 BRIDGE OFFICER: Shields are barely holding.

01:40:17:20 EMERSON (O/S): See it?

01:40:18:22 MITCHELL: Not yet, sir.

01:40:19:12 EMERSON (O/S): Maintain course.

01:40:20:02 CARTER (O/S INTO RADIO): Teal'c, it's Sam. We're about to try something...

01:40:22:13 CARTER (CONT'D INTO RADIO): that will probably vaporize the stargate at both  
ends.

01:40:26:13 CARTER (CONT'D V/O OVER RADIO): You've got exactly 20 seconds to get your  
hyperdrive online and get out of there.

01:41:17:00 MITCHELL: There it is.

01:41:18:10 MCKAY: Wraith ship's in position.

01:41:21:07 CARTER (INTO RADIO): Beaming warheads in... three, two, one... mark.

01:41:56:26 CARTER (INTO RADIO): The Wraith ship has been destroyed.

01:41:59:25 EMERSON (O/S): Reduce sublight engines to one-third. Let's get hyperdrive back  
online.

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:42:03:26 CARTER (O/S): There's something else.

01:42:05:14 CARTER (CONT'D): I don't know how it survived the detonation, but...

01:42:07:24 CARTER: The stargate... it's still intact.

01:42:09:20 CARTER: And it's still active.

01:42:11:00 TEAL'C (V/O OVER RADIO): Odyssey, this is Teal'c.

01:42:13:16 MITCHELL (INTO RADIO): Teal'c, I thought we told you to get the hell out of  
there.

01:42:17:23 TEAL'C (INTO RADIO): If I had done so, I would be unable to inform you that the  
jump was successful. The supergate is now active.

01:42:24:24 MCKAY: Huh.

01:42:26:16 MITCHELL (INTO RADIO): Are you serious?

01:42:27:28 TEAL'C (V/O OVER RADIO): There is more, Colonel Mitchell.

01:42:29:23 TEAL'C (CONT'D INTO RADIO): I was able to keep the stargate concealed until  
the last moment, and lure the Ori vessel into the unstable vortex of the  
supergate when the jump occurred.

01:42:38:17 CARTER (INTO RADIO): You mean, we just blew up an Ori ship...

## STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:42:40:23 MCKAY: By destroying a Wraith ship?

01:42:46:03 TEAL'C (INTO RADIO): Indeed we did. Today we have achieved a great victory.

01:43:00:10 VALA: She did what she believed was right, Daniel. How badly can she be punished for that?

01:43:06:16 DANIEL: I don't know.

01:43:08:25 VALA: Maybe she'll just get a slap on the wrist, or be forced to write "I will not interfere in the affairs of humans..."

01:43:18:04 VALA (CONT'D O/S): again" 10,000 times.

01:43:21:09 DANIEL: Yeah, I doubt that.

01:43:25:22 VALA: She said you had your answer.

01:43:27:19 VALA (CONT'D O/S): We found out the two addresses we came here for.

01:43:31:04 VALA (CONT'D): Can you at least... smile about that?

01:43:38:00 DANIEL: I suppose... but we did find out something else, too.

01:43:41:29 VALA (O/S): What?

STARGATE SG-1 - "The Pegasus Project" - Episode #1003

01:43:44:20            DANIEL: They're not going to help us. We're in this alone.
