TIMECODE DIALOGUE

START TIMECODE 00.00.00 AT FIRST FRAME OF PICTURE

00.14.17 TECHNICIAN (OS)- Chevron one encoded.

00.15.29 O'NEILL (OS)- Barber.

O'NEILL (CONT)- When you get there, give this to Daniel will ya?

00.20.24 BARBER- Sir?

00.21.26 O'NEILL- We had bet. I lost.

00.27.20 CARTER- What did ya bet one?

00.28.09 TECHNICIAN (OS)- Chevron two encoded.

00.31.24 O'NEILL- Sports related. Just give it to him, he'll know.

00.36.24 BARBER- Yessir.

00.39.11 TECHNICIAN (OS)- Chevron three encoded.

00.40.20 CARTER- What sport?

00.41.17 O'NEILL- Hmm?

00.42.15 CARTER- What sport did you bet on?

00.44.08 O'NEILL- Curling.

00.45.09 CARTER- Daniel bet on curling.

00.46.28 O'NEILL- Oh yes, his team won the big bonspiel.

00.51.09 CARTER- Okay, you don't want to tell me what the bet is, that's fine.

00.53.27 O'NEILL- Good. Have fun.

00.58.19 TECHNICIAN (OS)- Chevron four encoded. (beat) Chevron five encoded.

01.11.04 CARTER (OS)- So sir...

CARTER (CONT)- are you sure you'd rather take the weekend off than come with me
to see this place?

01.15.03 O'NEILL- Ah, you know, I get that way when I work my ass off. In fact I would have
thought you might want some time yourself by now.

01.21.26 CARTER (OS)- Oh, I do, but Daniel says of all the...
CARTER (CONT)- That was the bet? Whether or not I'd go? Don't you have anything
better to do?

01.34.13 TECHNICIAN (OS)- Chevron seven locked.

01.37.10 O'NEILL- Barber!

01.44.08 CARTER- Oh, my God.

02.57.12 DANIEL- Jack! You have got to see this place!

02.59.09 O'NEILL- Daniel, there's been an incident.

03.01.26 DANIEL- Yeah, I know I got your message, but this is really important. There is this
Light in it's the most amazing thing.

03.06.00 O'NEILL- Barber's dead.

03.09.09 DANIEL- What?

03.11.15 O'NEILL- C'mon.

03.20.06 HAMMOND- Did Lieutenant Barber show any signs of depression while on the mission?

03.23.28 DANIEL- The opposite. He was...fine.

03.28.17 O'NEILL- How long had he been back?

03.30.12 CARTER- Well, he hadn't even been Earthside for forty eight hours.

03.32.20 O'NEILL- What was he doing?

03.33.20 TEAL'C (OS)- Awaiting the results...

TEAL'C (CONT)- of a translation which I was assisting Daniel Jackson in.

03.36.21 DANIEL- If you're asking me if he was suicidal, he wasn't.

DANIEL (OS CONT)- He was fine.

DANIEL (CONT)- He was better than fine. Didn't anybody like talk to him, or notice anything...what?

03.45.20 TEAL'C- Nothing.

03.46.10 CARTER (OS)- We were all...

CARTER (CONT)- taken by surprise.

03.48.03 DANIEL (OS)- Well, so am I.

DANIEL (CONT)- I don't even know what to say.

03.53.28 HAMMOND (OS)- We'll continue to investigate what...

HAMMOND (CONT)- may have compelled to do what he did, but it's been my
experience that these questions often go unanswered.

04.01.10 O'NEILL- Yessir.

04.02.08 HAMMOND (OS)- Doctor Jackson, perhaps you could tell us...

HAMMOND (CONT)- more about this Goa'uld palace you were studying. (beat)
Doctor Jackson?

04.13.22 DANIEL- Yes, ah sorry um...

04.16.00 TEAL'C- Were there any signs of recent Goa'uld activity?

04.18.21 DANIEL- No, I'm pretty sure that no one had been there for hundreds of years, but
ah...

DANIEL (OS CONT)- there was this room ah, where there was this pedestal...

DANIEL (CONT)- which projected this light matrix hologram on to the ceiling. And it
was ah, absolutely stunning.

05.34.31 TEAL’C- Upon a second viewing I have discovered a figure moving in the background.
 It does not appear to be one of our personnel.

05.49.08 O’NEILL- Ah, he never mentioned anyone else.

05.56.04 DANIEL- What is wrong with this thing? (beat) This thing isn’t working.

06.04.10 O’NEILL- Did you check the batteries?

06.10.00 DANIEL- I need to go back to the planet and figure out what’s going on.

06.12.00 O’NEILL- Hammond suggested we do that tomorrow.

06.13.24 DANIEL (OS)- Well, this...
 DANIEL (CONT)- thing isn’t working, and tomorrow isn’t good enough.

06.16.22 O’NEILL- Yes it is.

06.20.18 DANIEL- I’m going to talk with Hammond.

06.22.12 O’NEILL- Hey!

06.29.24 HAMMOND (OS)- Have you slept at all since you returned?

06.31.27 DANIEL- I fail to see what that has to do with anything.

06.33.24 HAMMOND- SG-1 has been hard at it for weeks.
HAMMOND (OS)- I'm not sending you anywhere...
HAMMOND (CONT)- until you've all at least had a night's sleep.

06.39.20 DANIEL- I'm fine.

06.39.23 HAMMOND (OS)- You're physically and mentally...
HAMMOND (CONT)- exhausted, doctor--

06.42.00 DANIEL (OS)- Well I admit I have been...
DANIEL (CONT)- pushing myself a bit. But, this device could hold the key to...
DANIEL (OS CONT)- everything about that entire place.
DANIEL (CONT)- And I can't make any more progress...
DANIEL (OS CONT)- on it here.

06.51.07 HAMMOND- You're scheduled to leave tomorrow morning. One more day...
HAMMOND (OS) isn't going to make a difference.

06.54.03 DANIEL- I'm telling you it is.

06.57.08 O'NEILL- Thank you for your time, sir--

06.58.21 DANIEL (OS)- You know it is...
DANIEL (CONT)- beyond my comprehension how anybody like yourself who has so
much power can miss the point entirely.

07.04.17 DANIEL- Hey, hey, knock it off.

07.05.22 HAMMOND- It's all right, Colonel. (beat) This letter is to Lieutenant Barber's family,...
HAMMOND (OS CONT)- explaining that he died in the service of country. I spent the
last two hours on it.
HAMMOND (CONT)- I can't tell them anything about how he died, or anything about
the work he did. Only that he is gone. (beat) Do you get the point?

07.24.05 O'NEILL (OS)- Yessir,...
O'NEILL (CONT)- he does.

07.27.13 HAMMOND- Get him out of here. (beat) What's the delay?

07.51.11 CARTER- Daniel hasn't reported in this morning, sir.

07.53.14 HAMMOND- What?

07.54.07 CARTER- Well, I just called him. I think he picked up, but now I just get a busy signal.

07.57.21 HAMMOND- Yesterday he was demanding to leave immediately.

08.00.08 O'NEILL- Maybe I should give him a wake up call, sir.

08.02.00 HAMMOND- Sounds to me like he could use one.

08.23.26 O'NEILL- Daniel? (beat) Daniel. (beat) What are you doing out here?

09.41.07 DANIEL- None of it means anything.

09.46.26 O'NEILL- Um. (beat) Daniel, why don't you come inside here.

09.54.04 DANIEL- I tried. It just goes away.

10.04.27 O'NEILL- Okay. Well, we'll ah, get it back.

10.10.15 DANIEL- You can't get it back.

10.14.18 O'NEILL- Whatever's wrong, we'll fix it.

10.21.01 DANIEL- You don't even know what I'm talking about.

10.24.19 O'NEILL- No, no I don't. (beat) But, come inside.

10.42.15 DANIEL- Jack?

10.47.02 O'NEILL- Yeah.

11.10.07 FRAISER- The PET scan reveals that his neurological activity is slowing.

11.13.03 O'NEILL- So?

11.31.20 FRAISER (OS)- Neurotransmitters relay messages within the body. Too many...

FRAISER (CONT)- or too few of these chemical transmissions can result in anxiety, depression, or a number emotional or physical disorders.

11.23.03 O'NEILL- Does this have anything to do with Barber's thing?

11.25.18 FRAISER (OS)- With the remaining members of SG-5 all reporting...

FRAISER (CONT)- identical symptoms, yes. It seems almost certain. Now the only good news is that it doesn't appear to be the result of a contagion.

11.35.03 O'NEILL- If it's not a disease, what?

11.37.20 FRAISER- I don't know. Such a drastic shift in levels is generally drug induced, but their systems are void of any foreign substances.

FRAISER (OS CONT)- Not to mention that preliminary M.A.L.P. readings of P4X-347...

FRAISER (CONT)- have ruled out all of the usual suspects. Air, radiation--

- 11.51.06 O'NEILL- So if we retrace SU-5's tracks, we may be able to come up with something.
- 11.55.00 HAMMOND- I'm afraid, Colonel, that until we get a grasp on--
- 11.57.06 O'NEILL (OS)- General,...
- O'NEILL (CONT)- we saw the shadow on the video. (beat) Now something, or
someone is affecting these guys.
- 12.03.16 FRAISER (OS)- More than affecting them, sir.
- FRAISER (CONT)- If their brain function continues to fail, they could be facing a worse
case scenario.
- 12.09.11 O'NEILL- So we go in Mopp 2, bring back samples of the usual suspects.
- 12.14.01 HAMMOND- You've made your case, Colonel. Watch your step.
- 12.17.15 O'NEILL- Thank you, sir. (beat) I can see why Daniel was so hot on this place.
- 12.38.20 TEAL'C- Indeed.
- 12.42.03 O'NEILL- What've you got?
- 12.43.00 CARTER- The air's clean. Just like the Malp indicated. Whatever affected Daniel and
SG-5, they didn't breathe it in.

12.58.02 O'NEILL- Okay. Watch your step.

13.47.18 CARTER- It's just a kid. Obviously scared to death of us.

14.20.06 TEAL'C- I believe this is the room of light of which Daniel Jackson has spoken.

14.24.05 O'NEILL- Really? (beat)
O'NEILL (OS CONT)- Carter.
O'NEILL (CONT)- What are we looking at here?

14.35.00 CARTER- Ah... (beat) Doesn't seem to be giving off any detectable radiation other
than visible light. I think it's just... (long beat) decorative.

14.49.04 O'NEILL- Safe?

14.50.25 TEAL'C- It is most difficult to believe that something so beautiful could be dangerous
O'Neill.

14.59.15 O'NEILL- No. (long beat) We'll come back to it. Let's go. (beat)
O'NEILL (OS CONT)- Hey! Let's go.

15.38.09 CARTER- Right. Sorry sir. (long beat) Sir, I'd like to perform a full spectrum analysis
on that light.

16.03.18 O'NEILL- Later.

16.04.23 CARTER- Well, I think there might be a relationship between the light and what's happening to Daniel.

16.08.26 O'NEILL- I thought you said it wasn't dangerous?

16.17.15 CARTER- I'm sure it isn't, it's just that I...

17.21.17 O'NEILL- Hi. (beat) I'm Jack. (beat) And you are? (beat) Nice digs. Kind of reminds me of my first apartment. How're the people upstairs?

17.36.23 LORAN- Loran.

17.38.15 O'NEILL- I'm sorry. I don't know what Loran means.

17.41.15 LORAN- That's me.

17.43.01 O'NEILL- Hi Loran.

17.44.01 LORAN- Jack.

17.45.28 O'NEILL- Yeah. (beat) Anyone else live here with you?

17.51.22 LORAN- Mother and father.

17.53.28 O'NEILL- Can you take me to them. I'd like to talk to them.

17.58.01 LORAN- No. They're not here.

18.03.06 O'NEILL- Not in this place?

O'NEILL (OS CONT)- So you're...

O'NEILL (CONT)- here alone?

18.10.17 LORAN- Yes.

18.12.21 O'NEILL- Well, Loran. Some of my people came here a few days ago.

18.18.02 LORAN- I was hiding.

18.18.26 O'NEILL (OS)- Yeah well, you hide very...

O'NEILL (CONT)- well, because they didn't even know you were here. (beat)

O'NEILL (OS CONT)- But the thing is, when they came home...

O'NEILL (CONT)- they all got very sick. We'd like to figure out why. (beat) Do you

know? Okay. Well, we're going to have to look around a little more. (beat)

Maybe you should come along.

- 18.46.11 CARTER (OS)- Colonel! General Hammond has activated the gate and is on the radio.
- 18.49.23 O'NEILL- Alright, go ahead. I'll be there. Come on.
- 19.19.16 HAMMOND- This is Hammond. Come in Colonel.
- 19.21.23 LORAN- Where is he?
- 19.24.06 O'NEILL- He's just sending his voice over the radio. This thing here. We read you, General.
- 19.33.29 HAMMOND- I see you've made a friend, Colonel.
- 19.36.01 O'NEILL- Yessir. Loran. General Hammond.
- 19.40.24 LORAN- He can see me?
- 19.41.15 HAMMOND- Yes, I can, son.
- 19.44.00 LORAN- Hi.
- 19.45.23 O'NEILL- We haven't found anything yet, sir, but we've only been at it a few minutes.

20.53.12 O'NEILL- Okay.

21.36.28 TEAL'C- Approximately how long ago was this image recorded?

21.39.04 LORAN- That's our home. Before we came here.

21.43.18 TEAL'C- So your parents brought you here from another world.

21.45.20 LORAN- Yeah. They were explorers. Kinda like you I guess. Until they camera here,
then... (beat) What was it we were looking for?

21.55.00 TEAL'C- If you cannot give us an explanation to our friend's illness, we must continue
to search for clues as to what may have caused it.

22.00.08 LORAN- Well, none of your friends were in here. Hey, ah, I wanted to show you
something. (beat) This was a present from my father on my birthday.
LORAN (OS CONT)- No.
LORAN (CONT)- It's not real.

22.31.01 TEAL'C- Children of the Tauri also seem to enjoy colorful weapons that have no
function.

22.35.00 LORAN- It's fun.

22.41.26 TEAL'C- I see. (beat)
TEAL'C (OS CONT)- On my home world of Chulak...
TEAL'C (CONT)- we do not celebrate the anniversary of one's birth.

22.47.18 LORAN- No presents?

22.48.27 TEAL'C- It is a day, like any other.

22.51.09 LORAN- Well, how do you know how old you are?

22.53.16 TEAL'C- I am one hundred and one years of age.

22.58.10 LORAN- You don't look that old.

23.00.03 TEAL'C- So I've been told.

23.02.16 LORAN- When do you turn a hundred and two?

23.04.08 TEAL'C- In forty seven days.

23.10.13 LORAN (OS)- Keep it.
LORAN (CONT)- It's a birthday present.

23.13.28 TEAL'C- I cannot.

- 23.16.14 LORAN- Well, in forty seven days you'll be gone. Right? So keep it.
- 24.01.00 FRAISER- Colonel, are you alright?
- 24.04.09 O'NEILL- What kind of dumb as question is that? My friend is laying here on his death
bed. (beat) I'm fine.
- 24.17.13 FRAISER- We're working on the problem, sir.
- 24.18.26 O'NEILL- I don't want excuses.
- 24.22.10 FRAISER- Colonel, O'Neill, if you don't calm down right now I will have you
removed...
FRAISER (OS CONT)- from my infirmary, is that clear?
- 24.26.11 O'NEILL- I'm fine.
- 24.28.16 FRAISER- Sir, I'd like to re-check your dopamine levels.
- 24.39.08 O'NEILL- It's happening to me, isn't it?
- 24.41.00 FRAISER- Let me find out. Please. (long beat) Whatever's causing this actually
accelerates neural activity in the brain and causes a dopamine like affect in the
body.

- 25.06.25 O'NEILL- Kind of like drugs.
- 25.07.27 FRAISER (OS)- Only as long as you're on the planet. Shortly...
FRAISER (CONT)- after your return, neural activity begins to decrease and depression results. The blood work confirms it.
- 25.14.24 HAMMOND- Does the boy carry any immunity we could use to our advantage?
- 25.17.22 FRAISER- No. His blood work came back the same. I don't think he'd be able to leave the planet without experiencing the same narcotic withdrawal symptoms.
- 25.23.15 HAMMOND- But Colonel O'Neill was only on that planet a little over an hour.
- 25.26.05 FRAISER- Yes sir. This addiction appears to be almost instantaneous.
- 25.30.09 O'NEILL-You're telling me I'm addicted to that place.
- 25.32.20 FRAISER (OS)- The intensity of your mood swing into depression seems to be proportional...
FRAISER (CONT)- to the time you've spent on the planet. All we can do is hope that your exposure wasn't long enough for your symptoms to get as bad as they did with Daniel and the others.
- 25.42.25 O'NEILL- Great. All those years of “just saying no”.

25.46.18 HAMMOND (OS)- Jack, I tried to recall...

 HAMMOND (CONT)- Major Carter or Teal'c. They haven't responded. And I can't risk
 sending another team.

26.00.01 O'NEILL- What's that?

26.00.26 FRAISER (OS)- His EEG is sporadic.

 FRAISER (CONT)- This is what happened to the members of SG-5 before they died.
 Sir, your gonna have to take him back to the planet.

 FRAISER (OS CONT)- Once you get there...

 FRAISER (CONT)- I'll need you to send me his vital signs every-- (beat) He's coding.
 No time to resuscitate.

 FRAISER (OS CONT)- Go!

26.40.25 O'NEILL- Daniel. Daniel. Good, good. Daniel, Daniel. Come on. Carter! Teal'c!
 (beat) Where are my friends?

27.04.06 LORAN- With the light.

27.04.27 O'NEILL- Get them for me.

27.06.10 LORAN- They won't come.

27.07.28 O'NEILL- Well try!

27.25.17 LORAN- I'm not allowed to go in there.

27.27.05 O'NEILL- For God's sake. Carter? Carter? Wake up!

27.33.11 CARTER- You're back, sir. When?

27.35.06 O'NEILL- Teal'c. Teal'c, come on. Yeah. Come on. Out of here. Right now.

27.55.06 TEAL'C- Daniel Jackson.

27.57.03 O'NEILL- Yeah. I had to bring him back. It was the only thing that was going to keep
him alive.

28.03.04 CARTER- Sir, how long were you gone?

28.06.01 O'NEILL- A few hours. Hammond tried to contact you.

28.11.12 TEAL'C- He did not.

28.12.12 LORAN (OS)- He did. (beat)
LORAN (CONT)- I heard his voice.

28.18.00 CARTER- Where were we?

28.19.13 LORAN- In there.

28.24.02 CARTER- I can't explain it, sir.

28.25.17 O'NEILL (OS)- Well, Fraiser thinks...

O'NEILL (CONT)- we're all addicted to something here that alters our brain chemistry.

And dollars to donuts it's that damn light.

28.32.23 CARTER- Oh, I don't see how that's possible.

28.37.18 O'NEILL (OS)- Hey.

O'NEILL (CONT)- You knew, didn't you?

28.41.11 LORAN- No.

28.41.20 O'NEILL (OS)- That's why you're not...

O'NEILL (CONT)- allowed in there.

28.45.23 LORAN- My father said I was too young.

28.48.19 O'NEILL- Ah huh.

28.49.19 CARTER (OS)- Sir, if it's the light itself,...

CARTER (CONT)- how did Daniel recover just by arriving on the planet?

28.54.18 O'NEILL (OS)- I don't know, Major,...

O'NEILL (CONT)- but I want you to find out. Otherwise, we're stuck her indefinitely.

And that's not acceptable. (long beat) Oh, screw it. We're shutting that thing off.

29.10.01 LORAN- No.

29.11.14 O'NEILL- You stay here.

29.19.00 CARTER- What are looking for, sir?

29.22.00 O'NEILL- The off switch.

29.32.17 O'NEILL- All right, if we can't shut the thing off, we'll...

29.42.06 TEAL'C- O'Neill.

29.44.04 O'NEILL- Oh man... (beat) damn that thing's dangerous.

29.52.06 CARTER (OS)- My guess is the control mechanism is somewhere inside...

CARTER (CONT)- this pedestal. If we focus our attention on that we should be all right.

- 30.07.15 HAMMOND- I'm glad to see you're alive and well, Doctor Jackson. We thought we'd
 lost you.
- 30.11.24 DANIEL- To be honest, I don't really remember much after yelling at you, sorry about
 that by the way.
- 30.16.07 HAMMOND- It's all right. Is there anything you need?
- 30.19.21 DANIEL- Glasses.
DANIEL (CONT)- Supplies. It looks like we're not going anywhere for a while. And
 that little remote computer thing I couldn't make work before.
- 30.29.00 HAMMOND- I'll send it through immediately. Where's Colonel O'Neill?
- 30.38.09 DANIEL- Guys, I figured out how to...
- 30.53.13 CARTER- How did you do that?
- 30.54.25 DANIEL- Remote control.
- 30.58.08 O'NEILL- I thought that thing was broken.
- 30.59.17 DANIEL- Yeah, you were right, it was the batteries.

- 31.03.13 O'NEILL- I was?
- 31.04.07 DANIEL- At least I think it draws power from something in the room itself so that's why
I couldn't get it to work back on earth.
- 31.08.19 O'NEILL- How long were we standing here?
- 31.11.00 DANIEL (OS)- I'm not sure. General Hammond sent some supplies and...
DANIEL (CONT)- Loran and I figured out how to translate the writing on this thing.
- 31.17.23 O'NEILL- That long?
- 31.18.14 DANIEL (OS)- Yeah, well... perception of time is one of the...
DANIEL (CONT)- first things to go when you're... high.
DANIEL (OS CONT)- From what I've been able to translate so far, with Loran's help.
DANIEL (CONT)- The Goa'uld used to use this place as some sort of opium den.
DANIEL (OS CONT)- The only difference is, their symbiotes must've kept...
DANIEL (CONT)_ their host's mind chemically balanced once they left.
- 31.35.20 TEAL'C- Then most likely I will be able to leave this planet
- 31.39.17 O'NEILL- Oh, how nice for you.

- 31.40.26 CARTER- Wait a minute, if if you just turned it off how come I'm not getting depressed?
- 31.45.02 TEAL'C- Perhaps it will take some time feel its effects.
- 31.49.25 O'NEILL- Let's take advantage of that time! (beat) Loran.
- 31.59.03 LORAN (OS)- Jack.
- 32.02.00 O'NEILL (OS)- Alright. (beat)
O'NEILL (CONT)- Where did your parents actually go?
- 32.08.11 LORAN- Far away from here.
- 32.10.08 O'NEILL- How far, which direction? (beat) The kid's hiding something. Teal'c, Carter with me. (long beat) What?
- 32.51.00 CARTER- I guess the reality that we may never go home is starting to set in.
- 32.55.23 O'NEILL- Hammond will keep us supplied with everything we need till we can figure this out. Nice beach.
- 33.03.23 CARTER- It'd be a good excuse for you, wouldn't it?

33.06.26 O'NEILL- Huh?

33.07.18 CARTER- To do nothing for a while.

33.10.05 O'NEILL- What?

33.11.04 CARTER- Forget it.

33.13.04 O'NEILL- That would be “forget it, sir”.

33.14.20 CARTER- Oh, please. If you think I'm keeping that up if we're stuck here forever.

33.17.15 O'NEILL- Listen, Major--

33.18.09 CARTER- No way.

33.19.26 O'NEILL- That's “no way Colonel”.

33.21.21 CARTER- What? I'm supposed to accept that that's the way it's gonna be?

33.24.25 O'NEILL- That's the way it is.

33.25.23 CARTER- What difference does it make? It's not up to you.

33.27.18 O'NEILL- Carter! You're in withdrawal.

33.29.16 CARTER- Oh, I'm in withdrawal.

33.30.24 O'NEILL- Yes. So am I.

33.36.23 TEAL'C (OS)- O'Neill! Major Carter! (beat) I believe I have located the parents of
Loran.

34.06.27 LORAN- That's, that's my mother and father.
LORAN (OS CONT)- There. That's me.

34.15.23 DANIEL- You're a lot younger there.

34.17.26 LORAN- It's old.

34.19.09 DANIEL- Yeah, about that--

34.20.15 LORAN- Hey, can I take an image of you?

34.22.12 DANIEL- Sure.

34.34.00 LORAN- That's great. (beat) You know, I'm sorry that you can't leave.

34.41.17 DANIEL- Are you? (beat) I mean, it makes sense that you'd want some company.
I'm thinking that maybe that's the reason you didn't tell us how dangerous the
light was.

34.54.22 LORAN- No.

34.55.10 DANIEL (OS)- It's okay...
DANIEL (CONT)- I'm not mad.

34.56.20 LORAN- That's not why.

35.10.11 DANIEL- What's wrong?

35.13.13 O'NEILL- We're starting to go through that withdrawal thing again.

35.17.17 DANIEL- I felt fine the whole time you were gone.

35.20.24 CARTER (OS)- Actually, sir, I'm starting to feel...
CARTER (CONT)- myself again.

35.27.00 O'NEILL- Me too. What's going on?

35.29.20 CARTER (OS)- Well something other than that light...
CARTER (CONT)- must be affecting us.

- 35.33.00 TEAL'C- And we must remain in close proximity.
- 35.35.06 DANIEL (OS)- so not only are we stuck here, we're...
DANIEL (CONT)- we're stuck here.
- 36.01.24 O'NEILL- Well, it's sure not as much fun to look at with the light off.
- 36.08.05 TEAL'C- I feel no compulsion to remain here.
- 36.10.18 CARTER- Sir, I think you may be onto something.
- 36.14.09 O'NEILL- How's that?
- 36.15.04 CARTER- The light isn't what's affecting our minds, it's just something designed to
 take advantage of the altered state of our brain chemistry.
- 36.21.11 DANIEL- So...entertainment?
- 36.24.06 CARTER (OS)- Well, probably more than that...
CARTER (CONT)- I mean the the colors and light interaction with our optic nerve
 probably triggers the chemical responses...but it's not the direct cause of the
 imbalance.
- 36.32.27 O'NEILL- What is the cause then?

- 36.34.00 CARTER (OS)- There must be a hidden device emitting...
CARTER (CONT)- some form of energy or radiation that we cant' detect with our
instruments.
- 36.44.27 O'NEILL- Alright, Loran. Why doesn't this room seem to affect you?
- 36.51.10 LORAN- I'm too young.
- 36.52.21 O'NEILL- How do you know that?
- 36.54.04 LORAN- My father told me.
- 36.56.08 CARTER (OS)- It is possible that this place can only...
CARTER (CONT)- affect an adult physiology.
- 36.59.18 O'NEILL- Fraiser said he's just as addicted as we are.
- 37.01.27 LORAN (OS)- She's right...
LORAN (CONT)- the light didn't have any effect on me.
- 37.04.21 O'NEILL- Then what did it do to your parents? (beat) We need to know what this
thing does.
- 37.13.09 LORAN- When they get back, they'll explain.

37.15.09 O'NEILL- They're not coming back, you know that.

37.17.00 LORAN- They are!

37.17.21 O'NEILL- Somebody buried those bodies, now how do you shut that thing off? (beat)
Figure that thing out.

37.55.00 CARTER- Yessir.

38.14.13 O'NEILL- Hey. (beat) I'm sorry. (beat) Nice picture. (beat) Your parents?

38.44.23 LORAN- I killed them.

38.48.13 O'NEILL- You did? I find that... (beat) What happened?

39.04.11 LORAN- When we found this place, all that they would do was stare at that light.
LORAN (OS CONT)- All day.
LORAN (CONT)- The light didn't affect me. My father said it was because I was too
young. But they wouldn't let me in the light room, anyway.
LORAN (OS CONT)- I told them to stop every day.
LORAN (CONT)- But they'd just tell me to bring them things.

39.32.10 O'NEILL- Okay, so you did that, and?

39.40.06 LORAN- One day I stopped.
LORAN (OS CONT)- It was days before their hunger was stronger than the light.
LORAN (CONT)- And then they came out looking for me. Looking for food. And I
snuck into the light room. And I turned it off. Not just the light. Everything. I
didn't know that it would hurt them. I just wanted to go home.

40.13.16 O'NEILL- Hey. It's not your fault.

40.16.09 LORAN- They died because of me. They were screaming, they ran outside, they
didn't make any sense.

LORAN (OS CONT)- So I did, I turned it back on.

LORAN (CONT)- But they were already in the water. So far, and they just kept on
going. They just kept going. I screamed at them, I turned it back on, but they
just kept going. And then they were gone. The next day I found them on the
shore.

40.55.21 O'NEILL- Loran, you were trying to help them. You were trying to free them from
something. It wasn't your fault.

41.08.03 LORAN- I miss them.

41.14.23 O'NEILL- I know. (long beat) What do you got?

41.39.08 DANIEL- We think we can turn it off.

- 41.42.06 LORAN- Don't let them. (beat) You'll die. Like my parents.
- 41.49.26 CARTER (OS)- If we shut it off, cold turkey, Loran is right.
CARTER (CONT)- We'd go into withdrawal again. But Teal'c and Daniel have translated some of the writing inside this thing, sir, and we think it was designed to be turned down incrementally.
- 42.01.02 DANIEL (OS)- The Goa'uld who used this place needed...
DANIEL (CONT)- human slaves in order to tend to their needs while they were here.
- 42.05.24 CARTER- We've already taken it down a notch without any harm.
- 42.08.28 TEAL'C (OS)- Within two or three weeks, your brain chemistry will return to normal.
TEAL'C (CONT)- You may then return home.
- 42.14.00 O'NEILL (OS)- So,...
- O'NEILL (CONT)- three weeks in a palace by the beach. (beat) Teal'c, you don't have to hang around. Why don't you head back and let Hammond know what's going on.
- 42.26.02 TEAL'C- Very well.
- 42.29.15 LORAN- And then you'll leave.

42.30.27 O'NEILL- I think we all will, right?

42.35.02 CARTER- Yeah, he should return to normal along with the rest of us.

42.38.11 LORAN- What, I I can go with you?

42.42.04 O'NEILL- Sure. (beat) Come on. Let's go see Teal'c off. (beat) Do you like ice
cream?

42.57.03 LORAN- What's ice cream?
